Imagine leaving war-torn Vietnam behind and heading for the safe harbour of the United States of America only to run smack up against the Ku Klux Klan.

Alamo Bay, premiering this week on First Choice-Superchannel, tells that story in an effective melodrama on the subject of prejudice. It is based on actual incidents which occured in Texas.

Pay T.V. Blake Fowler

After the Vietnam war 100,000 refugees settled in Texas, many of them along the Gulf Coast, where they became proficient fishermen. Local fishermen felt threatened and tensions mounted until violence broke out in 1980. The KKK appeared and became very active opponents of the refugees. Director Louis Malle used this conflict as the main theme for the film which stars Ed Harris and Amy Madigan (real-life husband and wife), as lovers who find themselves on opposing sides.

Malle resists the temptation to paint all the opposition as raving rednecks and both sides are given a fair hearing. Harris portrays Shang, a Texas fisherman and Vietnam war veteran who is having problems already just paying the mortgage on his boat. Madigan plays his high principled girl friend, Glory. Alamo Bay distinguishes itself as more than a standard potboiler about racial tension.

Despite his bigotry, Shang emerges as a sympathetic character whose anger grows out of his frustration with a shrew of a wife. Harris's performance is seething and intense. The two actors' intimacy together is erotic, finely nuanced and ultimately heartbreaking. And Malle's uncluttered and unhurried visual style creates some sequences of undeniable power.

And, while we're in Texas, how about a word about good old country music. The popular Church Street Station has begun its second season on The Nashville Network. Later this month, two of the most acclaimed performers in the last three decades of American country music - Tammy Wynette and Jerry Lee Lewis -are featured on that program.

Wynette, who shows up May 31, has held the number-one position on the national charts at least 35 times and her recording of "Stand By Your Man" was, for many years, the biggest-selling single in country music history.

Jerry Lee Lewis, he of "Great Balls of Fire" and "Whole Lotta' Shaking..." fame, appears one week before Tammy, on May 24.

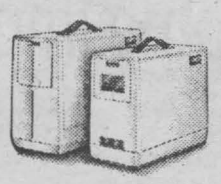
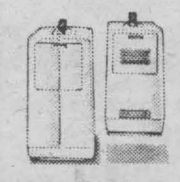
INTRODUCING THE NEW COMPAQ PORTABLE II



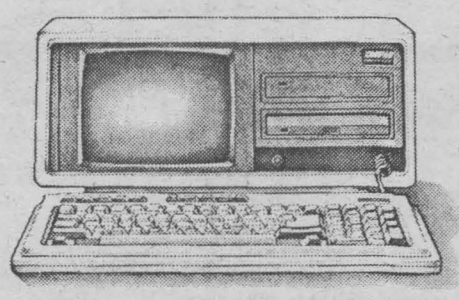
30% smaller.



17% lighter.

400% faster.

So small, so light, and so fast it defines a new industry standard. From the same company that set the standard—COMPAQ.® It's the new COMPAQ PORTABLE II™. Like the original COMPAQ Portable, it's rugged, reliable, expandable, and compatible with hardware made for IBM® Personal Computers. Plus it's even *more* portable. It's 3 to 5 times *faster* than its namesake. And it runs all the popular business software written for IBM® Personal Computers.



Never before has a computer this small been capable of so much. The advanced 80286 chip provides the COMPAQ PORTABLE II with tremendous speed. Innovative design provides for your present *and* future needs.

Exchange data stored on diskettes with other compatible computers. Add an optional 10-Megabyte fixed disk drive system and up to a remarkable 4.1 Megabytes of RAM.

Because the most popular interfaces are built in, there's also room for adding up to two expansion boards for more advanced needs.

For your service and support needs, call on us—your Authorized COMPAQ Computer Dealer. We're as uncompromising as the COMPAQ Computers we sell. Which is one more reason why people who know personal computers know they can rely on COMPAQ.
