Pay T.V. Blake Fowler

First Choice says its very life is on the line at a hearing set for next month in Hull, Quebec.

The pay tv network says it cannot live with the government requirements for Canadian content. First Choice has applied for a reduction to 15 percent Canadian content from the present 30 per cent. Also, conditions of the company's licence call for an increase to 50 per cent in the next year.

"If our application is turned down, I guess it would probably mean the end of this organization," says Fred Klinkhammer, president of First Choice. He predicts a loss of $19 million this year on top of the $48.5 million lost since First Choice came on the air in February of 1983.

Klinkhammer says the reduction, if approved, would lower the number of repeats of Canadian programs it needs to keep up with the content requirements and allow them to focus the Canadian content budget on productions of higher quality.

Recently the company created a non-profit foundation to develop new Canadian scripts with an annual budget of $1 million. The CRTC hearing will be held on June 10 and Superchannel, the western Canadian movie service, will be asking for the same changes.

Moving on to this week's highlights. I'm delighted to report that Philip Marlowe comes to Canada this week. First Choice airs the first of six one-hour dramas featuring the prototypical private eye created by Raymond Chandler in countless paperbacks.

I first saw this series on the American HBO pay network in 1983 and have been anxiously awaiting its arrival in Canada. The shadowy, seamy and violent back-alleys of Los Angeles in the 1930's is brought vividly to life in this mystery series played with a slight tongue-in-cheek style.

Powers Boothe plays the ace detective created by the writer who turned gumshoe fiction into literature. Filmed in Toronto and Miami in the early 80's, this series is loads of fun and is like taking a trip, via paperback, to the dirty thirties. Airs May 29.

Also, don't miss the often moving and always suspenseful D.A.R.Y.L. which runs May 24 and 27, also on First Choice-Superchannel. A childless couple stumble upon the immensely gifted child abandoned in the woods. He is a genius as witnessed by his ability to increase his adopted parents' bank account by breaking into an automated teller machine.

It is only, later we learn he is a robot. D.A.R.Y.L. stands for Data Analysing Robot Youth Lifeform. This is an extraordinary movie of some magnitude. It also heralds a new child star. Barrett Oliver as the increasingly-human robot will break your heart.

DRIVE A DIESEL OVER YOUR LAWN.

It looks like a mower. It cuts grass like a mower. But the Kubota G is much more. It's the first lawn and garden tractor of such remarkably small size to have a diesel engine.

There are four different G tractor models, including the G3200 you see here. It has a strong, 10 horsepower 2-cylinder diesel engine and a live front PTO shaft drive to the mower.

See the Kubota G tractors for yourself and you'll want to get behind the wheel of a diesel.

THE COMPAQ PORTABLE II

The COMPAQ PORTABLE II™ is the new standard in full-function portable computing. Not only is it smaller, it's also 17% lighter than the original COMPAQ® Portable. Like the original, it's rugged, reliable, expandable, and compatible with hardware made for IBM® Personal Computers. Plus, it's 3 to 5 times *faster* than its namesake. And it runs all the popular business software written for IBM Personal Computers.

Never before has a computer this small been capable of so much. The advanced 80286 chip provides the COMPAQ PORTABLE II with tremendous speed. Innovative design provides for your present *and* future needs. Exchange data stored on diskettes with other compatible computers. Add an optional 10-Megabyte fixed disk drive system and up to a remarkable 4.1 Megabytes of RAM.

Because the most popular interfaces are built in, there's also room for adding up to two expansion boards for more advanced needs.

As the new standard in advanced-technology portable computers, the COMPAQ PORTABLE II deserves the highest standard of service and support. And as your Authorized COMPAQ Computer Dealer, we'll give you 100 percent. We're as uncompromising as the COMPAQ Computers we sell. Which is one more reason why people who know personal computers know they can rely on COMPAQ.
