STUDENT ORATORS TO COMPETE FOR CUP

Student orators from high schools in Prescott, Chesterville, Morrisburg, Kemptonville and Winchester will enter the competition for the James Graham Kerr Cup, presented by Mrs. J. D. Stewart, M.A., B.Sc., to be held in the town hall Winchester Friday evening.

The cup has been donated for annual competition between high schools in the United Counties of Stormont, Dundas and Glengarry and the County of Grenville, also Morrisburg Collegiate Institute. It is the major oratorical award in this district and competition is expected to be keen. Mrs. Stewart, who is the principal of one of the larger high schools in New York City, but now convalescing at her home in Winchester following a recent illness, has donated the trophy in memory of her father in an effort to stimulate public speaking in local high schools.

Adjudicators for the contest will be the teaching staff of Ottawa Normal School.

Another feature of the evening's program will be the introduction of the Winchester school year book, which has been published for the first time this year through the efforts of the principal, E. J. Spinks, B.A., with the assistance of the following committee: Ronald Cass, editor; Jean Vail, assistant editor; Sam Ault, advertising manager, and Ralph McKendry, photographer.

DELAY INQUEST IN WINCHESTER CRASH

Postponement indefinitely of the inquest into the death of Glenn Summers who, with his father Almon Summers, both of Winchester, and A. E. Thoms, of Ottawa, died last Thursday from injuries received when a gasoline truck and a funeral procession were in collision at Winchester, was announced by Dr. Peter McLaughlin, Dundas county chief coroner on Tuesday.

Postponement was made necessary due to the fact that Leopold Sauriol, Montreal, and Mrs. Almon Summers, have not recovered sufficiently to testify at the inquiry which had been set for this week. Sauriol, who was a passenger in an automobile driven by Mr. Thome, is in the Ottawa Civic Hospital, and Mrs. Summers, who was in an auto driven by her son, Glenn, is confined to her home at Winchester with a broken shoulder. Five others hurt in the crash, have recovered.

It may be two or three weeks before the coroner's inquiry gets under way, as Mr. Sauriol is not expected to leave hospital much before that period of time.

WILLIAMSBURG WOMEN'S INSTITUTE

The April meeting of the Williamsburg Women's Institute was held on Thursday evening April 1st, at the home of Mrs. M. McQuaig with Mrs. McQuaig and Mrs. J. O'Brien joint hostesses. There was an attendance of twenty-five members. The meeting was presided over by the president Miss Almada Whitteker assisted by the secretary, Mrs. C. Macdonald, with Miss Evah McQuaig presiding at the piano. The meeting was opened with the Institute Ode. The Secretary read the minutes of the previous meeting which were approved as read. The roll call was answered by "Your Favorite Salad."

During the business period there was a general discussion of the relief situation of how large an area the Williamsburg Institute should cover.

A nominating committee was appointed consisting of Mrs. Alfred Casselman, Mrs. Augustus Whitteker, Miss Violet Trickey, Mrs. J. O'Brien and Mrs. Donald Beckstead.

The smoke committee reported that the Township Council had notified them that they could not act legally on the petition; that any grievance would have to be acted upon personally and not as an issue of any organization. Mrs. Alfred J. Casselman gave a very interesting reading.

The Committee reported on the contest that had been going on for the past year. The losing side, with Miss Almada Whitteker as leader, was to entertain the winning side in the near future. A special meeting was held at the home of Mrs. Alfred Casselman on Thursday evening to arrange for entertaining. A spelling contest, spelling words backwards, was enjoyed by the ladies. The meeting closed with the House wife's Prayer, after which dainty refreshments were served by the hostesses, assisted by their daughters, the Misses Evah McQuaig, Kathleen and Joyce O'Brien, and a social half-hour was enjoyed. A vote of thanks was extended to Mrs. Alfred Casselman in contributing to the program and to Mrs. McQuaig and Mrs. O'Brien for their kind hospitality.

The May meeting, the annual, will be held at the home of Miss Sarah A. Whitteker. The roll call "Paying of Dues."

RUSSELL HIT BY HEAVY FLOODS

Rising flood waters of the Nation River carried away two bridges at Russell this week.

One of the bridges in the centre of the town and the other on the outskirts were swept away as ice jammed high. The flood was said to be the worst in that district in several years.

Russell is 22 miles southeast of Ottawa.

Dynamite was used to break up an ice jam at the bridge over the Quyon River near Quyon, Que. It permitted water and huge ice cakes to move freely and traffic over the Hull-Chapeau highway was resumed after a short suspension, as water receded slowly.

At Gibson's bridge, two miles west of Russell, another ice jam broke stringers in the bridge, but traffic was not suspended. The depth of water on the highway is from six inches to three feet, but no damage has been reported. Quyon is 40 miles west of Hull, on the Ottawa River.

DR. JOHN E. CRAIG

A lifetime of service to mankind was closed with the sudden death on Wednesday of Dr. John Eldon Craig, of Ottawa prominent physician and coroner for Carleton county for almost 30 years. Dr. Craig, who had not been feeling well for few days, suffered a seizure after his morning meal at his home, 309 Somerset street west, and died a few minutes later. He was in his 65th year.

Dr. J. H. Alford was called when Dr. Craig became gravely ill, but the coroner was beyond medical aid. His wife and some members of his family were at the bedside when he died.

A past president of the Ottawa Medico-Chirurgical Society, the late Dr. Craig was a native of North Bower, Ont., where he was born on October 3, 1868, son of the late Mr. and Mrs. John Craig. Following his preliminary education he took a medical course at McGill University Montreal and was graduated from that school in 1899.

Coroner in 1906

He began his medical career as a general practitioner and obstetrician in Ottawa shortly after graduation and in 1904 was married to Lillian Smith, B.A., of Morrisburg. He was appointed coroner in 1906.

Dr. Craig was the first medical superintendent of Grace hospital and held that post for more than 20 years. In all, he was connected with the hospital in one capacity or another for 30 years. He was also consulting obstetrician at the Ottawa Civic hospital for a number of years.

He was a member of Builders lodge, A.F. & A.M. and of the Scottish Rite Society. He attended Chalmers United church.

Surviving are his widow and four children, Isabel, Montreal; Douglas, Ottawa; Carleton, lecturer in engineering at McGill University, and Mary, at home; two brothers, Clarke, of North Gower and H. A. Craig, Edmonton, deputy minister of agriculture for Alberta; three sisters Margaret E. Craig, Ottawa; Mrs. John Seabrooke, North Gower, and Mrs. W. J. Craig, Osgoode.

The funeral is being held today, (Friday) afternoon from his late residence at two o'clock. Interment will take place at Beachwood cemetery.

MINUTES OF COUNCIL

Regular meeting of Council for April was held in the Town Hall on Monday April 5th at 8 p.m.

Members all present.

Moved by Mr. Harback, seconded by Mr. Carr, that the minutes of previous meetings as read be adopted and signed by the Reeve and Clerk—Carried.

Moved by Mr. Christensen, seconded by Mr. Harback, that the auditors' report as filed with the Clerk be received and adopted, and the abstract statement be printed in The Morrisburg Leader.—Carried.

Moved by Mr. Flynn and seconded by Mr. Christensen that the council of the Corporation of the Village of Morrisburg consider the Quenneville auto service to New York City of much benefit to this section and request that a license to use Highway 31 between Williamsburg and Morrisburg be granted, and that a copy of this resolution be sent to the Ontario Municipal Board.—Carried.

The council adjourned to meet at the call of the reeve.

IROQUOIS I. O. O. F.

On Monday evening the degree team of Zeta I.O.O.F. lodge, Morrisburg, visited Riverside lodge, Iroquois, and exemplified the first degree on a class of fourteen candidates. At the close of the degree work refreshments were served after which a social time was spent.

Bro. Charles Hummel, district deputy grand master, spoke. The main address was given by Bro. Arthur Casselman of Morrisburg. Bro. R. J. Pearce noble grand of Regal I.O.O.F. lodge, Cardinal, also delivered a brief address.

WANTED

Man to work on farm. Must be good milker, and kind to horse. Only non-drinkers need apply.

'SALADA' TEA

is delicious

Love Huntress

By H. GLYNN-WARD

Claudia Townsend meets Dick Whalen at a hockey game in Seattle one night. Her interest in Dick infuriates Wallace Bornell, a rich young lumberman, who wants to marry her. Wallace, determined to get Dick out of the way, offers him a job with Mr. Braddock, manager of one of his lumber camps in British Columbia. Claudia, meanwhile, persuades her father to give

Dick a job in his office. To settle the matter, she and her father go to Victoria for a few days. Claudia wires Dick on Friday to tell him that the job is his, but when the telegram comes, Bornell manages to intercept it.

CHAPTER III

When Dick received no word from Claudia that night, he went gloomily up to bed. There was a faint hope, of course, that she might send word in the morning.

In the morning, however, there was nothing in his box.

Then Bornell telephoned. "What, no word from the lady fair?" he asked in a bantering tone. "Come, come, Dick, better give it up and say you'll go up north for me? Oh, by the way—we're prepared to pay your fare if you stay till spring. . . Why, certainly, Dick. That's all right, old fellow. . . Now, be down at the depot at 12 o'clock sharp for the Vancouver train, won't you?"

Dick Whalen turned away from the telephone booth disconsolately. He had committed himself to Bornell's offer.

Even then, he waited until the last possible minute. Finally he had to call a taxi to get himself and his grips to the station.

"Nothing for me yet?" he asked as he paid his bill at the desk. "Nothing at all, sir," was the answer.

Dick told the manager to hold any letters for him until he forwarded an address. Then he went to the station to meet Braddock and they boarded the north-bound train.

They took the night boat out of Vancouver, going up the British Columbia coast to Prince Rupert. Lovely as the voyage was, Whalen cramped the deck in lonely boredom.

Every beat of the propeller was taking him farther away from the girl who had played havoc with his senses. He had given her his entire trust, and now—she had let him down.

Braddock, unlike Dick, was in a gay mood. He was a big, paunchy man, with a fleshy, hairless face, and small eyes. He spent most of his time in the smoking-room, playing poker and drinking.

Whalen preferred the open deck and sea wind, but he could not altogether escape conversation with this man who was to be his immediate chief. The Bornell lumber interests naturally came up as a subject of talk.

"Some of the biggest holdings in North America," Braddock said.

"What particular kind of timber are you taking out now up at Burns Lake?" Dick asked.

"The best of it is blue spruce," Braddock told him.

"For aeroplanes?"

"Sure! The best blue spruce on the continent is shipped from our camps up there."

He was glad to have a newcomer to impress with his importance. Dick listened politely.

At Prince Rupert they took the train, a two-day journey up the valley of the Bulkley River, to Burns Lake. It was a lonely country, snowbound now, of mountains, forests, and frozen lakes.

Burns Lake boasted two or three

general stores, a garage, and some offices, but the village life centered round the one inn. Here Dick and Braddock were to spend the night. In the morning a sleigh would take them to the camp, which lay some ten miles out.

Dick oreated in the frosty air and felt exhilarated in every nerve. He bought himself a thick knitted jersey, a mackinaw coat, a fur cap, high loggers' boots and a stock of thick socks.

He took only necessities with him when they started out before the sun was up in the morning.

With Dick's adoption of regular lumberjack's address, he noticed that Braddock's manner underwent a subtle change towards him. It was "Whalen" now, without the "Mister."

The fast horses took them easily along a trail which led through a seemingly endless forest. At last they came to great logged-off stretches showing that they were drawing near to the camp. Then they reached the camp itself.

A lumber camp was no novelty to Whalen and he sized this one up as a large, prosperous one. There were the usual buildings—cook-house, the bunk-house, office, tool-shed, barns for the horses, barns for their feed and store-sheds.

"Guess we'll put you on to scaling," Braddock told Dick.

"Very well, sir, but I haven't done it for some time."

"Well, we'll see how you get along at it. You go out with the boys this afternoon and get wise to what we are doing here. Whalen. When they come in to dinner I'll see the man that's scaling now and put him onto something else."

"How far off are they working at present?"

"Most of 'em across the lake. We have all o' 40 men here. There's a couple teams coming in now with fat loads."

Whalen sauntered out to watch teams come up dragging their huge loads of poles. The lumber was first class, evenly matched and straight.

It was almost noon, so he went over to the cook-house. There he found the inevitable Chinese cook, with a white helper. He watched the cook bearing out great dishes of steaming meat and potatoes.

"You have lots to do here, John?" he said presently to the cook.

The Chinese cook looked back nervously, then smiled amiably at him. "Oh, yes, yes, heap plenty work here! You come stay, yes?"

"Sure. Looks like a good camp," the Chinese chuckled. "Maybe," he said.

Dick raised his eyebrows questioningly. When a Chinaman says maybe, he usually means no! But just then the crew trooped in and the cook hurried off.

They were a tough-looking lot, Dick concluded as he glanced round him—men with scarred faces and furtive eyes. They took little notice of him beyond a first curious glance.

After dinner Dick donned snowshoes and went off with the others to a wide ridge where the rest of the teams were working. There were piles of lumber ready to be loaded.

This was the valuable stuff, Dick saw at once, the precious blue spruce that Braddock had spoken about.

It was a busy scene. This would be rather a jolly adventure, Dick told himself, if only his mind were at rest about Claudia.

Next day Dick was cornered by a man called Moriarty, the man whom he had displaced as scaler.

"You got nerve," the man snarled. "Comin' up here an' buttin' in like this!"

The words were nasty, and the man's jaw was thrust forward close to Dick's.

Dick turned on him quickly.

"If you got any kick coming, go to the boss. I take a job that's offered if it suits me. I don't want any trouble with you, but if you're looking for a fight, you'll get it!" (To be Continued.)

Pants Will Soon Be Conventional Costumes for Women

Russell Patterson, Artist and Designer, Believes Skirts Will Seem Outlandish in the Near Future

HOLLYWOOD—Trousers for women long ago passed the fad stage in the movie colony, but now they have the official blessing of a noted artist and designer, Russell Patterson, of New York.

"Men used to wear skirts, too," Patterson said. "The time is near at hand when skirts for women will seem as outlandish as they would now for men."

He predicts women soon will wear trousers for every phase of life, formal and informal. He said they will be adopted by business women, and presently they will be as correct for evening wear in public as they are now for morning wear in private.

"Not the present type of 'slacks,'" Patterson said. "There will have to be some fancy work done. But essentially, pants are going to be the conventional costume for women, and it will be soon."

War Brought Trade Boost

Port of Halifax — 900 Vessels Called in 1778-1781 Period

HALIFAX. — Nine hundred sea-going vessels of all descriptions entered the port of Halifax during the American War of Independence period between July, 1778, and November, 1781, according to Provincial Archivist D. C. Harvey in his annual report tabled with the Nova Scotia Legislature.

The original list of ships, giving the names of the crews and the passengers carried, is now in the Archives here. It was published as part of the annual report. "For the light it throws upon Nova Scotian sea-borne trade during the middle years of the American War of Independence when the headquarters of the British army were in New York and Halifax was the commercial emporium of British North America."

An analysis of the list of vessels shows that Lunenburg, Liverpool, Chester, Yarmouth and Barrington kept up most frequent communications with Halifax. During the period, Lunenburg ships made 236 round trips, while Liverpool craft followed with 124.

"Halifax itself seems to have done little more than send out an occasional vessel to fish, to transport hay or to carry despatches," the report comments.

The list further "illustrates the extent to which prizes of war that had been condemned in the vice-admiralty court were utilized as the nucleus of a shipping fleet in the outlying ports before shipbuilding became an industry in the province."

"It will be seen from this list that 70 prizes or recaptures were sent out from Halifax to various ports, chiefly in Nova Scotia and the West Indies, but also to Quebec, Newfoundland, London, Glasgow and even to Madiera, and Azores and Gibraltar. It should be noted also that the first vessel to leave the province on a whaling voyage was a prize ship, the brig 'Jenny' under Stephen Atwood."

You Bet Your Life

Writes the Vancouver Sun:— If a man were to bet \$17,000,000 against \$1 that he could toss a booklet into the air, and catch it as it falls, he

Woman's World

By Mair M. Morgan

GOES OVER BIG

When you take three very delicious foods such as coconut, custard and pie and put them all together with capital letters, you can't help but get something special such as Coconut Custard Pie. Because each part of this three-in-one dessert is a delicious food in itself, it is three times as good when all are served together.

It certainly goes over big with everyone from father to the children and their expressions of pleasure when they find Coconut Custard Pie is on the day's menu, are very genuine. It is one of those desserts which are a delight to behold. It will not upset young digestions and is good for growing children because there is real food value and nourishment in this dessert.

Be sure that your ingredients are the best and particularly the coconut. If it is not fresh and moist, the whole flavor of the pie will be ruined. Fresh, moist, tender coconut can be purchased from your grocer in sealed cartons or tins and only the freshest coconut can make the pie taste right. When you know this secret, you will find Coconut Custard Pie much in demand in your household so be prepared to make it often and well.

Coconut Custard Pie

4 eggs, slightly beaten; ½ cup sugar, ¼ teaspoon salt, 3 cups milk, 1 teaspoon vanilla, 1 cup coconut, premium shred.

Line a deep 9-inch pie plate with pastry rolled 1-8-inch thick, allowing pastry to extend 1 inch beyond the edge. Fold edge back to form stand; flute with fingers. Combine ingredients in order given. Pour into pie shell. Bake in hot oven (450° F.) 20 minutes, then decrease heat to moderate (350° F.) and bake 10 to 15 minutes longer, or until knife inserted comes out clean.

"Pep Up Fish Day"

Fish makes a tempting party dish. In the seasoning, one may attain quite appetizing effect from the use in cooking, and in sauces, of such simple seasoning agents as prepared mustard, Worcestershire sauce, ketchup, chili, tabasco, onion and vegetable stock preparation, while orange and lemon, grapes, pimiento cups and olives give a range of flavor possibilities that add immeasurably to any fish under the sun.

Very little imagination is used in the average home in the saucing and

serving of fish. Yet garnishing is quite a trick, and color has its importance, for food should be as enchantingly and becomingly garbed as the maples in their Fall costumes.

If you are planning a party, surprise your family and guests by serving them fish. Take two halibut steaks. Dip your steaks in finely sifted bread crumbs, seasoned with salt and pepper and a little Worcestershire, and fry them in salad oil. The oil cooking is splendid, for the fish does not stick to the frying pan, does not burn or smell, and cooks and browns to perfection.

For the sauce, make a light-textured cream sauce, using two tablespoons of butter and one tablespoon of flour to two cups of milk, or one and a half cups of milk and a half a cup of cream or evaporated milk, well seasoned with salt and pepper and paprika and about a teaspoon of Worcestershire sauce. If you wish to be particularly festive, add a can of shrimps, cut them fine and add to the sauce. Cooking the whole for half an hour, beating it while cooking, with the egg beater occasionally. Garnishings can be added at will: grapes, slices of orange and lemon are appetizing.

Fish, if nicely prepared, is a dish any cook may be proud to serve. It can be used in so many ways. Fish with fish, fish with fruit, fish with crisp salad, with mushrooms, with onions and peppers and sweet herbs. Nature is not narrow-minded. She provides the fruits of the earth . . . and combined with a little imagination, fish day can be made as thrilling as a Neronian banquet.

And in addition to its ability to please our palates, fish has also the power to satisfy our thyroid glands by furnishing plenty of iodine. Sea foods are most excellent providers of this necessary element and it was even reported several years ago that the presence of salmon as an important part of the bill-of-fare of an Indian village in the Northwest was sufficient to account for their freedom from simple goitre, while throughout the surrounding country the white people, who failed to use the salmon which came up the stream to their doors, were almost all afflicted. Thus in inland regions, where simple goitre is a danger, the taste for sea food is a valuable one to cultivate and the use of it, wherever it is available, should be encouraged.

Tropic Inspiration

Lovely Marjorie Weaver, featured film player, makes doubly attractive the newest mode in bathing suits. Bold prints of tropical inspiration — this one of bright blue printed in white — will show beauty in its gayest mood on the beaches.

Urges Co-operation In Making Home

D. G. McCullagh, of University Department, Speaks On Matrimony

Toronto.—The foundation of a happy married life is built on understanding co-operation and the sharing of confidences. D. G. McCullagh of the department of social science, University of Toronto, told the class at Central Y.M.C.A. taking the course in education for marriage and parenthood.

"I am sure you realize when contemplating marriage, if he is not independently wealthy, that he will have to give up certain things to some extent and he should ask himself whether he is prepared to give these up for love and affection. 'If you don't feel that you can pay the price of marriage don't get married,' asserted Mr. McCullagh.

Mr. McCullagh suggested the interested couple should make a study of one another's expenditures before entering any contract.

Mr. McCullagh saw no reasons why a bride should not continue going to business if she so wished.

"It grieves me to learn that many men refuse to discuss financial matters with their wives," said Mr. McCullagh. "Many men after the first week of marriage will give their wives \$12 or some such sum a week, but never a word as to what it is for. If you are not going to treat your wife as an equal it is time to snap out of it."

"If you don't have an understanding in a year or so your wife will just tolerate you and you will be bound together by your children."

He advised that however humble the home was during the first five-year period it was preferable to sharing it with in-laws. "A man likes to be able to come home and take off his coat and sit down and talk alone with his wife without relatives or someone else being present," he said.

A Town Rent Collector

The town council cannot exercise too much care in selecting a man to see after the collection of the rents of the 136 houses now on their hands. These rents have to be paid, and the men applying for this position may as well know what they will have to do, and what will be expected of them.

Cold honeymoon:—A newly-wed couple have just finished a honeymoon, spent in a tent, during a blizzard, amid snow-drifts, at Tisvildeleje, Denmark.

FROM GIRL TO WOMAN

GROWING girls are often sufferers from female irregularities, headache, backache or nervousness. Dr. Pierce's Favorite Prescription is the vegetable tonic to give your daughter at such times. Mrs. A. C. Clark of 115 Catharine St., St. Hamilton, Ont., said: "When growing into womanhood I became pale and thin, had not much appetite, suffered from headaches, pains in my back and cramps. Mother gave me Dr. Pierce's Favorite Prescription and I took it until all feminine disturbance was corrected. Soon my appetite improved, I had better color and all pain as well as the nervous feeling disappeared. I think this 'Prescription' is a splendid medicine for growing girls." New size, tablets 50 cents, liquid \$1.00.

Be sure of Appetizing Bread!

BAKE WITH ROYAL —always full strength

Each cake of Royal comes sealed in an air-tight wrapper . . . it stays fresh!

IN A GOOD loaf of bread you want no hint of soggy, no unpleasant "off-taste" or grayish texture. It's important that you bake with a yeast that's always reliable . . . full strength and pure.

Royal comes to you sealed in individual air-tight wrappers — free from contamination, its full leavening power assured. And it's the only dry yeast that has this special protection.

That's why 7 out of 8 Canadian housewives today bake with Royal when they use a dry yeast. They know they can count on good results . . . the day they buy Royal, or months later. For 50 years, Royal has stood for freshness and purity.

Be sure of appetizing bread. Bake with Royal.

Small Town Has Advantages

Industries are beginning to turn to the towns and small cities of Ontario as the most logical places in which to locate. For instance, the town of Hanover has just secured a branch plant of the Swift Canadian Company. St. Mary's anticipates the coming of a textile plant, and Barrie is looking to the acquisition of an aircraft factory. Nearer home, Delhi and Tillsonburg have both secured large tobacco processing plants, and it is only a few years since Simcoe acquired the American Can Company which has proved such an asset to the town. In the past the big cities have monopolized most of the new industries, but the thoughtful industrialist today realizes that the smaller community, with low taxation and ample railway and highway facilities, offers the most attractive location. It is time that the smaller places of Ontario made known more generally their many advantages for industrial plants.—Simcoe Reformer.

10,000 Telegrams

Over ten thousand telegrams were sent by passengers on British express trains during the first year of an experimenting scheme organized by the railway companies and the post office. The majority of them probably referred to articles overlooked at the last moment.—Brantford Expositor.

Must Be Ready

Canadians and Americans are much exercised over whether it will be possible for them to keep out of a new European war, if one starts. How much more cause, then, does England have for alarm! She is not separated from Europe by 3,000 miles of ocean, but by 30-odd miles of English Channel. The airplane, as Rt. Hon. Stanley Baldwin has said, has made the Rhine her real frontier. Like it or not, she has to be ready for trouble.—Quebec Chronicle-Telegraph.

What's In a Name?

Every once in a while one comes across a coincidence that is intriguing. Down in New Brunswick, when Evelyn Frost was struck by a skidding car, it seemed appropriate that she should be driven to hospital by Leo Blizzard. We are not told whether the weather was stormy or not, but we were glad to conclude that persons with cold names can be warm-hearted.—Windsor Star.

School Pupils Fewer

Just recently the old stone school house a couple of miles west of

More Kissing Need Of Modern Home

Affection Between Parents, and
Parents and Children Is Essential
For Mental Health.

TORONTO.—"It is better to have a cold in the head than in the heart. We need to get back to the old fashion of kissing and a little more demonstration of love in the home where its stabilizing force is a great need. Dr. H. R. Brillinger of Hamilton, told the Home and School Section of the O.E.O. in an address on Mental Health and Parent Education.

In charge of one of the mental health clinics established by the government in an effort to get at the cause of mental disease in the province, Dr. Brillinger stated that close to 60 per cent. of all mental illness is believed to originate because of bad mental habits or unhealthy ways of thinking. Many people meet almost insuperable life difficulties and overcome them because the most of their mental habits are healthy. Others develop mental illness under relatively slight worry or strain because they are handicapped by an unwieldy load of unhealthy mental habits, he stated.

FATAL DOUBT

To prevent mental illness, a feeling of security, interest, and freedom to develop, were necessary for the child, Dr. Brillinger stated, saying that in a survey in clinical work, he had found that while children usually admit they love their parents, very few are sure when asked if their parents love them. The answer he invariably gets is that they do not know. It is not enough that their physical needs be provided for. They need demonstration of affection, praise recognition and encouragement for healthy development, he stated, condemning for its evil effects on the child, parents' quarrels and threats to leave each other. Security in discipline was recommended to eliminate possibility of hatred and defiance. "There is nothing youth needs so much, today, as an active interest

Walkerton was destroyed by fire—that is to say, all the wood in it was burned and only the stone wall remained. When the school was built, sixty-odd years ago, there were 100 pupils on the roll. When the school met death by fire, its roll numbered just 20 pupils. This gives some idea of the depopulation of the rural parts that has gone on during the past half-century.—Oshawa Times.

Safety In Industry

From an article on safety first principles and safety first appliances as used in modern industry it is learned that in the last twenty-five years 250,000 lives have been saved and 25,000,000 disability accidents prevented; accidents that were sure to happen if the old trends had been followed. The chance of the workman who leaves his home in the morning with a dinner pail prepared by friend wife arriving home again to tell her how it tasted, is today just twice what it was twenty-five years ago. Too bad highways couldn't be put in the industry class.—Port Arthur News-Chronicle.

THE EMPIRE

A Depressing Outlook

The birth rate has fallen so low as barely to replace the existing population, and more people are leaving the country than are entering it. The living, swelling and fertilizing human stream of earlier years is settling in a pool of stagnation. This is impressively shown in the latest official statistics. In the nine months ended September 30, the latest figures available, the estimated increase of pakeha population was only 1,438, or .09 per cent. No impulse toward growth and expansion is discernible here, and, if immigration is put off into an ideal future, then the Dominion's days of progress are done. Mr. Savage (the Prime Minister) hopes however, "to make New Zealand prosperous enough and solid enough to attract immigrants." All will wish that day may speedily come, but meanwhile New Zealand is losing more people than she gains. The latest official figures show that, in the eight months ended November 30, permanent departures numbered 2,507 and permanent arrivals 1,696, a loss on balance of 811. In other words, three persons went away for every two that came to stay. The way out of this population dead-end will not be found by waiting for the good time coming. Might not well-planned immigration lessen rather than increase unemployment?—Auckland News.

in healthy realities. This can best be stimulated by success and praise. One of the parents' most important functions is to give the child plenty of success and praise and keep him busy, allowing him responsibilities in the family routine and making him feel a necessary part of the home," Dr. Brillinger averred.

RESPONSIBILITY IMPORTANT

Many parents, he said, hate to see their children grow, building up strong emotional bonds calculated to keep the child close to them always. There are a host of mental patients in our hospitals today because they have developed habits of over-dependence. By all means, parents should encourage their children to take responsibility as soon as they are able, thus developing self-assurance, leadership and backbone, and security and mental health.

Describing the modern home as an area covering fifty miles in any direction, Mrs. B. W. Langworthy, President of the National Congress of Parents and Teachers of the United States, spoke on the home as an index to national life at luncheon preceding the afternoon session.

Honesty, courtesy, common decency and hospitality were among certain things that, if not learned in early life in the home were never learned the speaker affirmed. Hospitality should not mean entertaining the bridge club twice a year, but a welcome for the child's friends that he brings home. If there isn't enough food to go round, say so frankly, she advised, and have the children share what there is equally. Of courtesy, she said: "We are so discourteous to children that it is a wonder they ever learn any courtesy. The only way to teach them in on a fifty-fifty basis."

A life insurance company says a married man has a greater life expectancy than a bachelor. This is likely June propaganda.—Chatham News.

Perhaps you think your wife talks too much about her operation, but look at the conversation Adam got out of his.—Goderich Signal.

Genius Likely To Be Husky

Gifted Children Grow Faster
Than the Average

NEW YORK.—A genius in the popular conception, is a hot-house product. Frail, thin, nervous, he never can be pictured gracefully balancing on skis or at home on the tennis court.

Relatives pamper him; the public regards him as a museum piece.

But Professor Harvey W. Zorbaugh, who directs the New York University clinic for social adjustment of the gifted, has come to his rescue.

Contrary to the public notion, he says, the individual with leanings toward genius is well-rounded and likely to possess superior physical development.

Gifted children, he says, grow faster than average, walk earlier, sit up sooner and are larger than normal.

Gifted children, he says, walk on the palms of their hands and soles of their feet like a bear—at an age when other children are crawling about on hands and knees.

Not all "bearwalking" children will be geniuses, nor do all geniuses "bearwalk" in infancy. Surveys made by Dr. Ales Hrdlicka of the Smithsonian Institution in Washington merely show that "bearwalkers" are more likely to have great mental superiority.

Gifted children not only display mental aptitude along one line, but rate higher than average in all types of intellectual tests.

They play amicably with other children, often stepping into leadership in group games.

News In Review

"Fire-Bug"

SARNIA.—Police are patrolling the St. Clair River front here following a series of fires which investigators term the work of a "fire-bug."

Discovery of some oily waste, apparently taken from the journal boxes of railway freight cars near the scene of the outbreaks, prompted Inspector E. L. Jordan and Investigator P. S. D. Harding of the Ontario Fire Marshal's Department to express opinion the fires were of incendiary origin and the work of one person.

The fires broke out at intervals. Three occurred in the yards of the Laidlaw Belton Lumber Company and caused damage estimated at \$2,000. Others were in the old Grand Trunk freight shed, in a small frame building owned by Samuel Lampel and a sixth in the Sarnia Ice Company's horse barn. All occurred within two hours.

Last Winter Mail

CHURCHILL.—The mail man headed for the Arctic this week.

The Royal Canadian Mounted Police dog team left here with a full load of first-class mail for many northern outposts, including the British Canadian Arctic expedition now wintering at Repulse Bay, on the Arctic Circle at the top of Hudson Bay.

This will be the last mail delivered to the north from here until a boat sails for northern ports about Aug. 1.

Farm Minister Acts Also As Pilot

QUEBEC.—Hon. Bona Dussault, Quebec Minister of Agriculture, has no intention of confining his activities to the soil, he declares.

The Minister is a steamer pilot by profession and plans to pilot the steamship Manchester Port up the St. Lawrence to Montreal when she arrives from overseas in a few days.

"It will give me a rest," the pilot-legislator said.

Radio-Phone For Ships

OTTAWA.—To cope with perils of navigation on the Great Lakes the Government is seeking to have radio-telephone stations installed between the Head of the Lakes and Kingston, Lieut.-Commander C. P. Edwards, Chief of Air Services, announced here.

Ships which do not feel they can afford a wireless operator to carry on wireless code transmission probably would be willing to instal telephone equipment if there were telephone stations easily reached on shore, Mr. Edwards said. A regular operator would not be necessary and any member of the ship's crew could call for help in time of emergency.

Honors Vincent Massey

ABERDEEN.—Aberdeen University has conferred an honorary degree of Doctor of Laws and Literature (LL. D.) upon Hon. Vincent Massey, Canadian High Commissioner. Principal of the university is Dr. W. Hamilton Fyfe, former Principal of Queen's University, Kingston, Ont.

Canada's War Memorial

OTTAWA.—The National War Monument will be erected in Ottawa some time this summer, Works Minister Cardin told the House of Commons this week.

The monument, the work of the March brothers, has been completed in England for many months. One reason for not bringing it to Ottawa has been the conflicting views on where it should be erected here. The Minister said the Government "will have to make up its mind pretty quick because it will be erected some time this summer."

The monument probably will be placed in Connaught Square, in the downtown section of the city, which eventually will be a wide plaza.

Threaten Strike in May

LONDON.—Autobus conductors and drivers threaten to clog the Coronation machinery by calling a strike for early in May unless their present 8-hour working day is cut to 7½ hours. Ernest Bevin, General Secretary of the Transport Workers' Union, confirmed his organization had given the bus company a month to make up its mind. Employers indicated a willingness to discuss the matter, and it was believed a crisis would be averted.

Merits of Latin

TORONTO.—Attacking the proposed courses of study for secondary schools on the grounds that Latin was not included as a first-year subject, Prof. C. B. Sissons of Victoria College charged that the revised courses were the greatest propaganda for private schools that had been promoted "in our day."

It would be turning back the hands of the clock if the program went into operation in its present form, he maintained, craving the right for a school Principal to be allowed to choose between Latin and French in the first year.

Dr. George F. Rogers, Chief Inspector of Secondary Schools, replied it was likely permission would be granted to substitute Latin for French if a teacher craved it. But he did not think it would be a good thing to do. "We are not trying to kill Latin but to help it. We are trying to keep away from it a lot of pupils who are not congenitally disposed to Latin. A classics man, a principal not far from Toronto, tried out the experiment and found that the pupils in the second year made more progress in Latin because they were a selected group," Dr. Rogers said.

The plan is to make French a compulsory subject in the first year; then in the second year, if the pupil has a taste for languages, he may take Latin.

A-4

Time Out From War For Hockey

With the international situation ominous, and British warships in the South Atlantic poorly adapted for usual deck games, but here's one that offers extraordinary opportunities for play. This is the landing deck of the aircraft carrier Courageous, and the sailors are intent on a fast game of field hockey.

45 Hotels, 12 Clubs Lose Beer License

Would Avoid Future Blasts

U. S. Authorities — Whole Nation Follows Quiz in Texas

NEW LONDON, Texas.—The blast which killed 455 school children and teachers here has made the nation explosion-conscious.

Governmental and school authorities throughout the nation have resolved that those deaths shall not be in vain.

The military court of inquiry in session 200 feet from the scene of the catastrophe said at the outset of its hearing, its purpose was not to fix responsibility on some person or persons, but to determine the cause if possible so a recurrence might be prevented.

Henry Wallace, secretary of agriculture, authorized Dr. David J. Price, nationally famed explosion expert with the Bureau of Chemistry, to assist in the investigation. Dr. Price took an active part in the questioning of witnesses.

From Chicago came William R. Meckling, supervising engineer for the board of education there. He said he was sent here to learn all he could about the disaster so he might determine if any corrective action was needed in the nation's second largest city.

Marvin Hall, Texas fire insurance commissioner, and several members of his department were listening to the testimony. The State Department of Education sent Fred Horne, its superintendent of plant construction.

Dr. E. P. Schoch, gray-haired University of Texas chemistry professor, who has been investigating explosions for 20 years, came at the request of Governor James V. Allred of Texas to assist the military court.

Home-Made Biscuits Are Still In Favor

NEW YORK.—The old feminine wile of intriguing a man with home-made hot biscuits, in line with the maxim about "the best way to a man's heart," is back in style in the United States.

So say the six women contenders for this year's title of "national cooking champion," at the Women's National Exposition of Arts and Industries.

"The 'best woman cook in the nation' will be named after a 'cook-off' by teams of two in a model kitchen. Three of the six finalists who won regional contests for submitting well-balanced 'average American menus' are in their twenties.

Canada Will Enter Show At Glasgow

OTTAWA.—Canada will be represented in the British Empire Exhibition to be held in Glasgow in 1938, the Department of Agriculture disclosed recently.

The Canadian pavilion was one of the outstanding features to be seen at the last great show held at Wembley in 1924-25, it said. Huge crowds are expected to witness the Glasgow show, for, with better facilities in transportation the 1901 record at Glasgow of 11,000,000 visitors will be greatly surpassed, said the department.

Continued Violation of Rules Despite Warnings Given As the Reason.

Forty-five hotels and twelve clubs will not be allowed to renew their beer and wine licenses, it was announced April 1st by Chairman E. G. Odette of the Liquor Control Board of Ontario.

Continued violation of rulings of the board, despite numerous requests and warnings that regulations be strictly regarded, causes the cancellation of the authorities of most of the hotels, Mr. Odette stated.

Decision of the board, after careful study, that the clubs were being operated, "for purely pecuniary gain" caused cancellation of club authorities, he said.

In the case of a "very few" of the hotels, applications for renewals will be considered if structural changes of the premises are made.

The hotels are scattered over a wide area, ranging from Timmins and Sault Ste. Marie to Eastview and Thorold. The complete list, as released by Mr. Odette, follows, listed alphabetically under their municipalities.

HOTELS:—

Alfred, Tierney Hotel; Belleville, Crystal Hotel; Bridgeport, Lancaster Hotel; Drayton, Royal Hotel; Eastview, Beechwood Hotel; Hamilton, Star Hotel; Markdale, Revere House; Niagara Falls, New Arlington Hotel, Victoria Hotel; North Bay, Royal Hotel; Ottawa, Capital Hotel, Gilmour Hotel, Ritz Hotel, York Hotel; Sandwich West, Elmwood Hotel; Sault Ste. Marie, American Hotel, International Hotel, Lock City Hotel, New Ontario Hotel, Victoria Hotel, New Toronto Hotel; South Woodlee, Elm Inn; Thorold, Ormond Hotel, Summit Hotel; Timmins, Floria Hotel, Kingston Hotel; Toronto, Baltimore Hotel, Commerce Hotel, Frontenac Arms Hotel, Savoy Hotel, Shamrock Hotel, Tudor Hotel; Welland, Roma Hotel; Windsor, Bodega Hotel, College Avenue Inn, Dixie Hotel, Grand Hotel, Highway Hotel, Hollywood Hotel, Imperial Hotel, Killarney Castle Hotel, Ontario Hotel, Shamrock Hotel, Verdt Hotel.

CLUBS:—

Amherstburg, Young Rangers Club; Ottawa, Preston Athletic and Social Club; Sault Ste Marie, Old Stone House Social Club, Troubadour Club; Toronto, Arlington Club, Elm Grove Athletic Club, Irish-Canadian Club, Italian Social Club, Macedonian Social Club, Recess Club, St. Andrew's Bridge Club; Welland, Hungarian Self-Culture Society.

Water Supplies

Should Be Tested In The Spring—Especially In Rural Districts

TORONTO.—With the coming of Spring, attention should be given to school water supplies. There are 631 rural and 319 urban public schools in Ontario. The Separate schools number 588 of which 470 are rural. Thus there are in all, 6101 rural schools in the Province. In most of the rural schools the water supply comes from a well in the school grounds. There may be ample opportunity for pollution of the well water.

The startling history of illness and death in a family in the vicinity of the little town of Madoc, where a farmer and his four children died presumably of arsenical poisoning as a result of the use of water from the farm well; where the farmer's wife and later the deceased's brother suffered from prolonged illness, due to the same cause, is detailed in current issue of the Canadian Health Journal, by Prof. Wyllie. In the case referred to, the source of arsenic resided in the porous rocks through which the ground water filtered to reach the well. The water was bright, clear and sparkling. It had no visible impurities. Examination disclosed the presence of arsenic in considerable quantities.

Occurrences of this particular kind, are said to be extremely rare. Unfortunately there is not a similar rarity in the occurrence of disease, such as typhoid fever, carried by well water. All that are needed to start a conflagration are a local source of infection, the spring sluicing and the well water is polluted. There are ample facilities in Ontario for the examination of school water supplies. There are public health laboratories in all quarters of the Province whose business comprises the examination, without expense, of public water supplies. It is the job of the local health officer to protect the children of the community he serves. The health officer should obtain a supply of containers from the nearest public health laboratory carefully take samples of the well water of every school in his municipality and send the samples to the laboratory for examination. If, after all this warning, the health officer fails to do his duty in this respect, it is time that another health officer should succeed the delinquent one.

Old-timers can recall when you were lucky if the horse drew you.—Toronto Telegram.

News And Information For The Busy Farmer

Furnished by the Ontario Department of Agriculture.

Quantity of Feed for a Hen

The question is frequently asked as to the amount of feed a hen will eat in a year. Those who are in a position to know claim that with mash and whole grain combined a hen will eat from 80 to 90 pounds. On the basis of wheat at \$1.20 per bushel the cost would be \$1.80, and at present prices of feed it will cost around that figure to feed a hen through the year. On this basis she would have to produce nine dozen twenty-cent eggs in order to pay for her feed alone. However in many flocks average production is crowding twice this amount, which allows for a margin of profit after raising the pullet and allowing for overhead and labour.

The British Market

According to the terms of the new Canada-United Kingdom trade pact, recently made public by Hon. Chas. Dunning, Minister of Finance, when the 1937 budget was presented to the House of Commons, Canadian farmers will continue to have free entry to the British markets for bacon, hams, cattle beef and dairy products. The quota on bacon remains at 280,000,000 pounds per annum, which gives bacon hog producers ample scope to expand their business. Canadians are safeguarded in exports of cattle and meat up to 50,000 head of cattle per annum, and the value is enhanced by the one and one-half cents per pound duty on foreign chilled beef imposed by the United Kingdom last December. No change was made in the 1932 agreement regarding dairy products which were accorded free entry. While the United Kingdom was at liberty to apply preferential control against Canadian dairy products at the termination of the previous agreement, no action has been taken.

New Types of Soybeans

A new variety of soybeans produced by the Division of Forage Plants, Experimental Farms Branch, will be distributed to the first time this coming spring. The new variety has been named "Kabott" and was obtained as the result of several years selection within a mixed lot of seed which originally came from Manchuria.

The new variety has been tested on a number of the Dominion Experimental Farms and was found to be about 10 days earlier in maturity than the Canadian Mandarin variety. At the Lennoxville Experimental Station, in 1936 the new variety created such a favorable impression that requests for seed have already been received from a number of farmers in the vicinity. Kabott is a yellow-seeded variety capable of producing good yields of fodder or seed. Only a limited quantity of seed of this new variety was obtained from last year's crop and it is being used to increase the amount and for experimental purposes.

Buy Suitable Fertilizers

The season for buying fertilizers approaches again and everyone wishes to obtain the kind of fertilizer most suitable for his particular crops and soils. Sound advice in this respect may be obtained from Experimental Farms and Agricultural Colleges, and, in the Eastern Provinces, from Provincial Fertilizer Advisory Boards as well. The latter publish annual recommendations for the guidance of buyers, and if these recommendations are followed, one is not likely to make the mistake of applying unsuitable fertilizers.

The average farmers may not yet be aware of the importance of the different forms of nitrogen in crop production. Nitrates are more quickly available in the early spring than other forms of nitrogen and this commends their use for early spring application. Many fertilizer authorities now recommend that at least one per cent. of the nitrogen in mixed fertilizers should be in the nitrate form, and some manufacturers are already acting on this recommendation.

Re-Stocking the Woodlot and Planting on the Farm

The season for planting trees is near, and plans should be made early as trees planted in early spring stand a much better chance of survival than those planted in late spring. The Forestry Branch is continuing the policy of supplying free trees for planting. The trees may be used for planting bare land, re-stocking a woodlot or the establishment of an evergreen wind-break.

Every farm should have a woodlot

large enough to supply the farmhouse with fuel and lumber for minor building and repairs in order that these products may be secured without making a cash outlay. Inferior soils such as sand, gravel swamps, shallow and steep hillsides, should be left in trees, as they will give very small financial returns if cultivated. These are the areas that should be planted as they will continue to be a liability rather than an asset as long as they are destitute of trees.

Planting is not necessary on areas that have large trees as they will produce seed and it will be distributed by the wind, squirrels and other agencies. This natural reproduction can be secured by fencing out the stock and it will be composed of the more valuable species if they are left and the less valuable (weeds) are removed in order that they will not produce seeds. The planting of a few hundred trees of valuable species not growing now in the woodlot will give more variety and will make quite a difference fifty years hence. A few trees well planted in locations where they will be sure to grow well is far better than planting thousands poorly where the competition of the natural growth will choke them out. Eventually there will be no woodland in a field if provision is not made to have seedlings, saplings and polewood coming along to take the place of trees that are cut.

CEDAR GROVE

Miss Jean Beaupre spent a few days last week with Miss Norma Swerdfege, of Osnaburck Centre.

Visitors and callers of Mr. and Mrs. C. F. Dafeo were: Mr. and Mrs. C. Heath, Carp; Miss Margaret Heath, Moulinette; Mr. and Mrs. Clarence Dafeo, Massena.

Mr. and Mrs. Frank McConnell and Mrs. Garnet Gallinger were recent guests of Mr. and Mrs. R. Cramer, Morrisburg.

Mr. and Mrs. Maurice Tuttle and family visited Mr. and Mrs. T. Black and family of Colquhoun.

Mr. and Mrs. Cecil McConnell and family of Massena, were week end guests of Mr. and Mrs. Frank McConnell.

Mr. and Mrs. Fred Dafeo and Miss Greta were visitors of Mr. and

Mrs. Hersey Bush, Finch, Monday evening.

Mr. and Mrs. Fred Jarvis and Miss Pauline, Mrs. E. Jarvis spent Friday in Cornwall.

Mr. and Mrs. Garnet Dennison were guests of Mr. and Mrs. G. Dennison Archer, Sunday.

Mr. and Mrs. Fred Dafeo, Miss Greta, Miss Dorothy Swerdfege spent Sunday in Bombay with Mr. and Mrs. Roy Sweet.

Master Raymond Dafeo spent the week end in Aultsville with his grandparents, Mr. and Mrs. J. O'Shaughnessy.

Mr. and Mrs. Garnet Gallinger, Mrs. Frank McConnell spent Tuesday in Cornwall.

DIXONS CORNERS

Mr. and Mrs. William Larabee and son David of Glen Stewart spent Sunday with Mr. and Mrs. Arnold Christie.

Mr. and Mrs. Howard Stethem and daughter Ferna of Cardinal had tea with Mr. and Mrs. John Barkley on Sunday.

Mr. and Mrs. Elisha McIntyre and son Willie called on Mr. and Mrs. Anson Serviss of Stampville on Sunday.

Mr. and Mrs. Willis Barkley and children have returned home after spending a few days with Mr. and Mrs. Berton Seeley of Cardinal.

Mr. Barkley of Pittston, spent Wednesday with her son Floyd, and Mrs. Barkley.

Mr. and Mrs. Percy Ault of Shanley called on Mr. and Mrs. G. Cooper one day recently.

Mrs. Ralph Munro spent Thursday afternoon with Mrs. John Barkley. Mr. Arthur Storey made a business trip to Ottawa on Tuesday.

Mr. Douglas Hanson has treated himself to a "Baby Austin" car. Mr. Arnold Christie spent Monday with his parents, Mr. and Mrs. Stewart Christie of Glen Stewart.

WILLIAMSBURG COUNCIL

The Council met at Boucks Hill on April 3rd 1937. Members all present. Minutes of previous meeting read and adopted. Application was made to the Workmen's Compensation Board to be added to schedule 1 of Part 1 of the Workmen's Compensation Act for the protection of township workman. The Dept. of Highways was requested to continue J. D. Millar, District Engineer of Municipal roads in his present position as his work and advice has been much appreciated.

The following table was made the maximum allowance for food relief per week:

One in family \$1.97; 2 in family

\$2.45; 3 in family \$3.08; 4 in family \$3.62; 5 in family \$5.00; 6 in family \$5.11; 7 in family \$5.75; 8 in family \$6.61; 9 in family \$7.37; 10 in family \$8.09.

Tenders for the collection of garbage and night soil will be received by the clerk up to 12 o'clock noon on May 1st 1937; same condition to apply as in 1936.

The Relief Officer was instructed to cut off all able bodied men from relief on April 15th. O. P. Becker was appointed to collect garbage and night soil rates at \$10.00 per month while employed. A petition was presented to the Council signed by Ray Gillard and 17 others, asking to the headline between 4th and 5th concessions surveyed across lots 13 to 24.

The Clerk was instructed to write the Surveys Branch for information re said Headline.

The following accounts were passed:

E. R. Marcellus, salary as Road Supt.	\$50.00
Wm. Colquhoun, timber for bridge	20.00
C. N. R. Crossing Gates	28.52
Don. Shaver, winter work	3.15
Arthur Heagle, cutting brush	7.88
H. A. Duvall, relief, Eva Caselman, 8 weeks	40.00
J. M. Carkner, services, School Officer	5.00
J. M. Carkner, services, weed Inspector	3.00
Mrs. M. Thom, relief, E. E. McCooye	10.98
Mrs. M. Thom relief Arthur Heagle	10.34
J. R. Reddick, relief, Harvey Beckstead	15.00
Myron Merkley, services, Sanitary Inspector	6.00
Beikstead & Rae, relief, Mel. Barkley	12.00
Beikstead & Rae relief, Mrs. Mitchell	12.50
Beikstead & Rae, relief, Caskanett	21.95
A. A. Barkley, relief, J. La roque	8.00
J. B. Barkley, relief, Mrs. Lewis	13.45
W. O. Dixon, ambulance for Mrs. Lewis	6.50
Roy Schell, relief, Charlie Markell	28.25
Roy Schell, wood, Eva Caselman	13.50
Roy Schell, wood Mahlon lon Bowman	9.00

Geo. Hill, services, Relief Officer

R. C. Whitteker, collecting garbage and night soil

The Council adjourned to meet again at Boucks Hill on May 1st, 1937 at 1 o'clock p.m.

M. S. Beckstead, Clerk.

KIORA COTTAGE

On St. Lawrence river, east end of Morrisburg; seven rooms sun porch bathroom street floor, furnace, double garage. Yearly lease. Possession May 1st.

I. K. FARLINGER, Morrisburg, Box 278.

FARM FOR RENT

Lot No. 8 in 2nd Concession of Township of Williamsburg, County of Dundas, except the East 28 acres, more or less thereof, known as the "Lount Farm." 25 acres ready for cultivation. Possession at once. Apply to,

R. F. LYLE, K. C., Morrisburg, Ont.

SPECIAL

Your Suit pressed; also Ladies and Gents' Suits Dry Cleaned. Done at reasonable prices. Made-to-measure Suits, made to order. At my residence, The Stevilla Tourist Home. FRANK STEWART, Tailor, Morrisburg.

PERFECT VISION

Does not always mean perfect eyes. Imperfect vision does not always mean eye-strain.

You may have no symptoms of eyestrain and yet have poor vision. Only a thorough examination will tell you the truth about your eyes; and they are the only eyes you'll ever have.

Why take a chance with that precious possession. A yearly examination is good insurance.

J. MILES WHITTEKER

Optometrist,

DEDICATION

To create a service so sublimely beautiful as to alleviate the sorrow of parting, is to render a service to mankind. To this our service is respectfully dedicated.

WILLIAMSBURG

Mr. and Mrs. L. M. Brown and daughter Helen and Bessie of Brockville were guests on Easter Sunday at the home of Mr. and Mrs. Willis McIntosh.

Mr. and Mrs. Orrin Wert and little daughter, Rhea, were recent visitors at the home of Mr. and Mrs. Beo. K. Casselman, Dunbar.

Mrs. Arthur Casselman of Morrisburg was a last week end guest of her mother, Mrs. Nellie Marcellus.

Mr. and Mrs. Eckford Johnston of Cornwall were recent guests of the latter's parents, Mr. and Mrs. Thos. Haggerty.

Miss Evalene Barkley student nurse at the Civic Hospital, Ottawa, Mr. and Mrs. Ellis Hanes, Miss Thelma and Mr. Earl Hanes of Ottawa were recent guests at the home of the former's parents, Mr. and Mrs. Donald Barkley.

Mr. and Mrs. John R. Fetterly of Morrisburg and Mr. and Mrs. J. C. Fetterly and Miss June and Jack Fetterly of Oshawa were visitors with Mr. and Mrs. Edgar McIntosh and family last Friday.

Mr. Ralph McIntosh of Toronto visited his mother, Mrs. Marcena McIntosh and his sisters and brothers here.

Mr. and Mrs. W. Quenneville and family returned to their home in Williamsburg last week after spending the winter months in Florida.

Mr. and Mrs. Will Cooke and son of Winchester were last week end guests of Mr. and Mrs. Wilbert Strader and family.

Miss Phyllis Whiteaker of Ottawa spent the Easter week end the guest of her mother Mrs. Debbie Whiteaker.

Mr. and Mrs. Donald Barkley accompanied by Mr. Ellis Hanes and Miss Thelma Hanes motored to Lisbon, N.Y. on Monday last and spent the day with Mrs. Barkley's sister and family.

Miss Eileen Trickey of Athens spent the Easter week end the guest of her parents, Mr. and Mrs. W. E. Trickey.

Mr. L. C. McIntosh motored to Toronto last Thursday to spend a few days in the city. He was accompanied by Mrs. Ethel Merkley and little daughter Juel to their home in Toronto after spending two weeks visiting with her parents, Mr. and Mrs. Jas. D. Beckstead.

Rev. A. W. Section of Ventnor conducted the services in the United Church on Sunday morning and evening. At the evening service the W.M.S. held their Easter Thanksgiving and Rev. Seaton gave an inspiring message appropriate to the occasion. During the service Miss Hawkshaw of Ottawa rendered a vocal solo "The Good Shepherd" with Mrs. R. A. Mekley presiding at the organ. The church was tastefully decorated with potted plants and spring blooms.

GLEN BECKER

Miss Lillian VanAllen has returned home after spending the past week with friends at Toronto.

Mr. and Mrs. Donald Beckstead spent Sunday at Mr. Allan Beckstead's.

Mr. and Mrs. Edwin Vincent of Massena, N.Y. spent Easter Sunday at Mr. Dalton Saddleire's.

Mrs. Frank Powell and son Billie of St. Calperines spent last week with friends in this vicinity.

Mr. and Mrs. Ed. Casselman spent one day recently at Mr. Merton Saddleire's.

Mr. and Mrs. Bert Whittaker and family of Kenmore spent Sunday at Mr. Earl VanAllen's.

Mr. and Mrs. Anson Barkley and baby of Morrisburg spent Sunday at Mr. Wilbur Barkley's.

Mr. and Mrs. Frank Merkley and family spent Sunday at Mr. Stanley Saddleire's.

Mrs. Stanley Saddleire returned home last week from the Kingston General Hospital where she has been receiving treatment.

AULTSVILLE

Orval Beckstead of Cornwall spent a few hours on Saturday with Mr. and Mrs. George Beckstead and Ernest Beckstead.

Miss Helen and Miss Jean Robertson of Croil's Island spent last week with their aunt Mrs. M. Marcellus and Mr. Marcellus.

Mrs. E. Thompson and Mr. Earl Thompson attended the funeral of Mrs. Thompson's brother, Albert S. Cline, of Fulton, N.Y., on Saturday March 27th.

Mr. and Mrs. Fred Workman were in Cornwall on Saturday.

Mr. and Mrs. Irwin Beckstead and family are visiting Mr. and Mrs. Stewart MacRae and family of Hamilton.

Mrs. George Dillabough left on Sunday to visit her sister, Mrs. F. Hickey and Mr. Hickey of Dunnville.

Mr. and Mrs. John Ostler and Miss Lottie Ostler and Mr. and Mrs. Harry Gove of Sandtown, and Willie Dafeo spent Wednesday with Mr. and Mrs. Stanley Dafeo and Miss Mary Dafeo.

Miss Jean Markell spent a few days with her mother, Mrs. Markell and Cannon Gorman at Ottawa.

Mr. and Mrs. Irwin Hilliard, of Morrisburg and Miss Helen Hilliard of Toronto, were recent callers of Mr. and Mrs. Frank VanAllen and Mrs. Pollock and Mr. and Mrs. Charles Hanes.

Rev. W. A. and Mrs. Morrison, Miss Isobel Morrison spent Thursday in Ottawa. Little Miss Eleanor McGibbon accompanied them home, after spending a week with her grandparents Rev. W. A. and Mrs. Morrison.

Mr. J. A. Hickey of Montreal, spent the week end with Mrs. Hickey and children.

Miss Luella Cramer was in Morrisburg on Saturday.

Mr. and Mrs. Frank Jarvis Sr. spent the week end with friends in Belleville.

Mrs. S. Casselman and Mrs. MacLean of Morrisburg, were tea guests of Mrs. D. Cramer and Mrs. Hickey on Saturday.

Mrs. A. N. Dafeo spent Thursday with her brother, Mr. and Mrs. D. Burton and daughter, at Williamsburg.

Mr. and Mrs. Ed. Gipson of Louisville Landing, spent Sunday with Mr. and Mrs. A. Snyder and Clara Baker.

Mr. Clarence Baker was in Morrisburg on Saturday.

Miss B. Eastland of Mille Roches is the guest of the Misses Jessie and Isobel Morrison.

Miss Marjorie Morgan of Toronto, spent the Easter holidays with Mr. and Mrs. J. S. Morgan and family.

Mr. E. Canough, Cornwall, spent the week end at his home here.

Mr. Arthur Snyder spent the week end in Montreal.

Mr. and Mrs. Clare McCracken of Verdun spent the Easter holidays with Mr. George Sampson and Mr. and Mrs. S. Hickey.

Mr. Arthur Loucks, Montreal, Mrs. George Bouck, Hugh Donald, and Miss Doris Boucks, Cornwall, called on Mr. and Mrs. W. Baker recently.

Mrs. K. Harris and daughters of Ottawa spent the holiday with her parents, Mr. and Mrs. James.

Miss Judith Markell of Ottawa, is spending a week with Mr. and Mrs. Frank Markell and her father Ivan Markell.

Mrs. Nellie Ault and Donald Ault, of Ottawa, spent the week end with Mr. and Mrs. Albert Hollister.

Mr. and Mrs. Clifford spent Easter Sunday with Mr. and Mrs. Vivian Ault and son, Donald, Iroquois.

Mr. Denzil Loucks, Richville, and Mr. Howard Tindal, Morrisburg spent a short time with Mr. and Mrs. Frank Markell on Saturday.

Mr. Frank Campbell, Mr. and Mrs. Harold Campbell, Farrans Point, and Mr. McCleary of Oakville called on Mr. and Mrs. Josiah Markell on Sunday.

Rev. and Mrs. Homer of Iroquois called on Mr. and Mrs. Frank Markell on Tuesday.

Dr. R. G. and Mrs. Sinclair of Rochester, N.Y., and Mr. H. M. Sinclair, of Ottawa spent the week-end with Rev. R. C. Sinclair and Mr. and Mrs. W. Birkwood and children at Sunnyside.

Mr. and Mrs. Albert Hollister spent Tuesday in Cornwall.

Mrs. Frank Markell and Miss Judith Markell were recent guests of Mrs. Starbird and Mrs. Reddick, Morrisburg.

Dale and Max Robertson of Croils Island spent a few days with Rex Robertson.

Mr. and Mrs. Allen Robertson, of Croils Island, were dinner guests of Mr. and Mrs. Wesley Robertson on Wednesday.

Rev. W. A. Morrison and the Misses Jessie and Isobel Morrison, Minnie Dafeo and Beryl Eastland were in Cornwall on Tuesday.

ARCHER

Mr. and Mrs. Hubert Shaw have moved to Grantley.

Mr. and Mrs. G. Dennison of Cedar Grove, called at Geo. Dennison's, Thursday afternoon.

Lloyd Gallinger of the Morrisburg Collegiate Institute, spent the Easter holidays with his parents Mr. and Mrs. H. Gallinger.

Miss Mabel Dennison spent Wednesday afternoon with Miss Dorthea Gallinger.

Reuben Gallinger of Aultsville, took dinner with Mr. and Mrs. R. Cunningham on Saturday.

Allen Gallinger of Cornwall took tea with Mr. and Mrs. Omer Warren on Saturday.

Mr. and Mrs. G. Dennison of Cedar Grove spent Sunday with the former's parents, Mr. and Mrs. Geo. Dennison.

CEDAR GROVE

Miss Jean Beaupre spent a few days last week with Miss Norma Swerdfefer, Osnaburk Centre.

Visitors and callers of Mr. and Mrs. C. F. Dafeo were: Mr. and Mrs. C. Heath Carp, Miss Margaret Health, Moullette; Mr. and Mrs. Clarence Dafeo, Massena.

Mr. and Mrs. Frank McConnell, Mr. and Mrs. Garnet Gallinger were recent guests of Mr. and Mrs. R. Cramer Morrisburg.

Mr. and Mrs. M. Tuttle and family visited Mr. and Mrs. T. Black and family, Colquhoun.

Mr. and Mrs. Cecil McConnell, and family of Massena were week-end guests of Mr. and Mrs. Frank McConnell.

Mr. and Mrs. Fred Dafeo and Miss Greta were visitors of Mr. and Mrs. H. Bush, Finch, on Monday.

Mr. and Mrs. Fred Jarvis, Miss Pauline, Mrs. E. Jarvis spent Friday in Cornwall.

Mr. and Mrs. Garnet Dennison were guests of Mr. and Mrs. G. Dennison, Archer, Sunday.

Mr. and Mrs. Fred Dafeo, Miss Greta, Miss D. Swerdfefer spent Sunday in Bombay with Mr. and Mrs. Roy Sweet and family.

Master Raymond Dafeo was a week-end visitor of his grandparents Mr. and Mrs. J. O'Shaughnessy, Aultsville.

Mr. and Mrs. Garnet Gallinger, Mrs. Frank McConnell spent Tuesday in Cornwall.

PLEASANT VALLEY

Mr. and Mrs. Robt. Wallace spent one evening recently with Mr. and Mrs. Jas. Somerville of Hyndman.

Mr. and Mrs. R. J. Gilmer and Ray spent Thursday with Hanesville friends.

Messrs. Howard Levere and Willie Declare called on the former's parents, Mr. and Mrs. Wilson Levere on Sunday.

Mr. and Mrs. Earl Gilmer spent Sunday with Mr. and Mrs. Wellington Davidson of Patterson's Corners.

Mr. Stanley Stewart and children of Heckston spent Sunday evening with Mr. and Mrs. W. J. Gilmer.

Mr. and Mrs. Wm. Beggs of South Mountain spent Sunday with Mr. and Mrs. Geo. Hess.

Mr. and rs. Clifford Gilmer visited Mr. and Mrs. R. J. Gilmer on Sunday.

Mrs. Murray Irving and family are spending a few days with her parents Mr. and Mrs. Thos. Gilmer.

HULBERT

Mrs. Ralph Adams is recovering from her recent operation in Kingston General Hospital.

Mrs. S. D. Sharpe and Mrs. Hugh McQuaig spent Wednesday at the home of Mr. and Mrs. Joe Sharpe.

Mrs. Lloyd Montgomery had tea with Mr. and Mrs. I. Ellis on Tuesday.

Miss Mona Lewis spent Tuesday with Miss D. Montgomery.

Mr. and Mrs. Ross Anderson and baby spent Tuesday with Mr. Arthur Ross.

Mrs. Jerry Montgomery and daughter spent a few days with her parents.

Mr. and Mrs. Will Flegg and girls were in Ottawa on Wednesday.

Miss Lera Mellan and Lorne called on Mr. and Mrs. Arthur Morrison on Wednesday evening.

Mr. Ralph Adams and Ray, Mrs. R. Lewis and Mrs. Hugh McQuaig visited Mrs. Ralph Adams in Kingston General Hospital on Thursday.

Mr. and Mrs. Wesley Flegg and Mildred called on Mr. and Mrs. Willie Smail Thursday.

PAYNE VALLEY

Miss Audrey Dolan of Cornwall, spent the Easter holidays with Miss Eileen Campbell.

Mr. and Mrs. Dan Campbell and daughters, Mable and Eileen and Mr. Charlie Campbell spent Sunday at Mr. D. F. Campbell's, Avonmore.

Miss Catherine McMillan, Montreal, spent the Easter holidays at her home, Mrs. Alex. McMillan's.

Mrs. Rodney of Avonmore, is nursing Mrs. James Benning who is somewhat improved.

Mrs. Will Grant of Avonmore who was nursing Mrs. James Benning returned to her home on Saturday, after spending a few weeks there.

Mr. and Mrs. George Eligh spent Wednesday evening with Mr. and Mrs. Guy Empey, Finch. We are sorry to report Mrs. Empey quite ill at present. We are glad to report Mrs. Empey being much better at time of writing.

Mr. and Mrs. George Eligh and Mrs. Hughie Cameron and baby, called on Mr. and Mrs. Guy Empey

Finch; also Mr. and Mrs. Abe Eligh Mrs. E. N. Bicks.

and family, Newington, on Sunday afternoon. Miss Minnie Eligh and Mrs. Jennie Munroe, of Montreal, accompanied them.

Mr. and rs. J. D. Shaver and family spent Sunday with Mr. and Mrs. George Tinkess and family at Avonmore.

Mr. Dan Campbell called at Geo. Eligh's on Saturday.

Mrs. C. Gourley and Mrs. Wm. Brownlee Jr. visited Mrs. D. P. Cameron one day last week.

Mrs. John Hume, Finch, was a Friday guest of Mr. and Mrs. D. P. Cameron and Mr. and Mrs. E. N. Bicks.

Mrs. A. A. MacMillan spent the Easter holidays with her sister at Kingston.

Mr. and Mrs. F. C. Eligh and Mr. and Mrs. Elburn Shaver, Finch were last Sunday guests of Mr. and

Mrs. Eva McDonald and the Misses Jean and Eva Benning and brother Forbes, spent Friday in Cornwall.

Mr. and Mrs. George Eligh called at Mr. James Benning's on Friday.

The Misses MacDonald and friend Miss Horner, of U.S.A. and Miss Anna Miller, of Ottawa, are spending the week end at the home of Mr. James Benning, with their mother, Mrs. Eva MacDonald and Mrs. Belle Miller.

Miss Mable Campbell returned to Ottawa on Monday, after spending her Easter holidays at her home here.

Miss Jean Benning returned to her home at Monkland on Monday, after her Easter holidays here.

Mr. and Mrs. Albert Bush spent Sunday for dinner with Mr. and Mrs. Kenneth Cameron and Mr. and Mrs. Harold Cameron.

SUNDAY SCHOOL LESSON

LESSON II.

The Sin of Adam and Eve

Genesis 3: 1-4: 26

Printed Text—Genesis 3: 1-15
Golden Text—The soul that sinneth,
it shall die.—Ezekiel 18: 4.

THE LESSON IN ITS SETTING

Time.—We do not know when the temptation of our first parents took place. The date commonly given is about 4000 B.C. All we know is that there were no human people before Adam and Eve and all mankind on earth today descends from them.

Place.—The Garden of Eden, the exact location of which is not known.

"Now the serpent was more subtle than any beast of the field which Jehovah God had made."—That more than the serpent was present is suggested by the speech and the reasoning powers displayed, but it is rendered certain by a comparison of Rev. 12: 9 and 20: 2, where the serpent is identified with Satan. That Satan was the real tempter is additionally assured by John 8: 44; 2 Cor. 11: 3; 1 Tim. 2: 14; 1 John 3: 8.

"And he said unto the woman."—The tempter addresses the woman as the more susceptible and unguarded of the two creatures he would betray. Undoubtedly, the woman was alone, and, while the point need not be stressed, it is when we are alone that temptation most powerfully assails us.

"Yea, hath God said, Ye shall not eat of any tree of the garden?"—Satan begins his temptation, and this should be most carefully noticed by attacking the word of God.

"And the woman said unto the serpent, Of the fruit of the trees of the garden we may eat. But of the fruit of the tree which is in the midst of the garden, God hath said, Ye shall not eat of it, neither shall ye touch it, lest ye die."—To begin with, the woman made a great mistake in arguing with Satan. She should have deliberately demanded that he leave her presence—Be subject, therefore, unto God; but resist the devil, and he will flee from you. (James 4: 7). As soon as we begin to argue with Satan about the word of God, we shall be compromising with the sin into which he would lead us.

"And the serpent said unto the woman, Ye shall not surely die."—This is the first lie told in human history; others were soon to follow. This denial sounds as strong as possible: the brevity and completeness of the expression make the contradiction absolute.

"For God doth know that in the day ye eat thereof, then your eyes shall be opened, and ye shall be as God, knowing good and evil."—Satan here appeals to the woman's pride, and, at the same time, leads her to almost hate God, for having as he would insist, cheated her of life's highest privileges. Satan promised her two things if she would eat of this tree: that her eyes should be opened, and that she would be as God, in that she would know good and evil. Satan himself had fallen from his high place in heaven because he was tempted to be as God. (Isa. 14: 12-14; 2 Thess. 2: 4).

"And when the woman saw that the tree was good for food, and that it was a delight to the eyes, and that the tree was to be desired to make one wise."—St. John speaks of "the lust of the flesh, and the lust of the eyes, and the vain-glory of life" (1 John 2: 16). The first is here to be found in the phrase, "good for food"; the second in the phrase, "a delight to the eyes"; and the last in the phrase "to be desired to make one wise." Christ's three-fold temptation in the wilderness involved these three elements.

"She took of the fruit thereof, and did eat."—She did this deed. Satan did not do it for her, the tree did not do it, the garden did not do it, her environment and circumstances did not do it, and God did not do it. It was surely not her heredity that led her to do this deed. This deed was her own personal, willful, responsible act, and the blame of it must rest on her forever.

"And she gave also unto her husband with her, and he did eat."—Eve was given to Adam as a helpmeet; instead she here exercises her power over Adam, and takes advantage of his love and high regard for her in leading him into the same sin in which she had just indulged. There was every reason in the world why Eve should not have yielded to this temptation. She was not bound by any previous habits of indulgence. God had distinctly given her a command not to do what she did do. God had given her a command for life. The temptation came through an animal beneath her, not through an angel above her, and,

finally, there was not the slightest threat on the part of Satan to force her into this sin.

"And the eyes of them both were opened."—Thus far the promise of Satan was kept, but never did Eve dream that the consequences of her sin would be what she now discovered them to be.

"And they knew that they were naked; and they sewed fig-leaves together, and made for themselves aprons."—A sense of shame, a consciousness of guilt now possessed our first parents, who, up to this day, knew nothing but innocence. They had a knowledge of sin, of personal guilt, of broken law which was never to leave the human heart, and never will until the redeemed ones of God are in glory.

"And they heard the voice of Jehovah God walking in the garden in the cool of the day: and the man and his wife hid themselves from the presence of Jehovah God among the trees of the garden."—The voice of the Lord which they heard in the garden was either "the noise of his footsteps" (cf. Lev. 26: 12; Deut. 28: 14; 2 Sam. 5: 24); or the thunder that accompanied his approach (cf. Ex. 9: 23; Job 37: 4, 5; Psalm 29: 3, 9); for the sound of his voice, as Calvin and others think; or, probably, all four." And Eve hid themselves between the trees of the garden, because they knew they were guilty of sin and had disobeyed God, who was now approaching them.

"And Jehovah God called unto the man, and said unto him, Where art thou?"—This is one of the saddest and yet most precious verses in the Bible. It is the first question ever asked by God in the Holy Scriptures, and it was asked, not that God did not know where his sinning creatures were, but that he might get them to confess where they were.

"And he said, I heard thy voice in the garden, and I was afraid."—This is the first occurrence of the word "fear" in the Bible. It will be found again and again as human history is recorded. But the voice from heaven, often through angels, and, ultimately, through the Lord Jesus Christ, is 'fear not', providing man accepts God's gracious redemption.

"Because I was naked; and I hid myself."—Sad it is to note that man's first word to God, as far as the divine record goes, was a lie. Man did not hide himself because he was naked, for he was created naked, and often before this he had fellowship with God and never had thought of hiding. Furthermore, in this case, he was not naked, for he had devised for himself a covering to hide his nakedness. The truth was that he hid himself because he had sinned, and was afraid of God, but he would not acknowledge it.

"And he said, Who told thee that thou wast naked? Hast thou eaten of the tree, whereof I commanded thee that thou shouldest not eat?"—Thus God at once points to Adam to the true cause of his nakedness and intimates God's cognizance of his transgression.

"And the man said, The woman whom thou gavest to be with me, she gave me of the tree, and I did eat."—It is cowardly of Adam to attempt to blame Eve for his fall, as if Eve's giving him of the fruit of the tree was any reason why Adam should have partaken of it.

"And Jehovah God said unto the woman, What is this thou hast done? And the woman said, The serpent beguiled me, and I did eat."—Let particular attention be paid to what the woman said regarding her sin: The serpent beguiled me. Literally this word means deceived, and clearly indicates that Eve knew she had been tricked by the devil, and that she had not obtained by her sin the things which Satan had promised her. Every man can testify that sin is the great deceiver.

"And Jehovah God said unto the serpent, Because thou hast done this, cursed art thou above all cattle and above every beast of the field, upon thy belly shalt thou go, and dust shalt thou eat all the days of thy life."—The serpent is allowed no trial. This is not Satan's initial sin. This sentence has a literal application to the serpent. The curse of the serpent lies in a more grovelling nature than that of the other land animals. This appears in its going on its belly and its eating the dust.

"And I will put enmity between thee and the woman, and between thy seed and her seed: he shall bruise thy head, and thou shalt bruise his heel."—This is the first promise and prophecy of Christ in the Scriptures and, as Dr. A. T. Pierson well said: As the oak is germinating in the acorn, and the eagle in the egg, all subsequent Messianic prophecies of the Old Testament are here in germ. There is sacredly added, in the whole afterglow of such prophecy, one idea that is absolutely new, other predictions growing out of and expanding this germinal prediction.

Attacks Court Plan as Peril to Democracy

Dr. Harold W. Dodds, president of Princeton University, telling the Senate Judiciary Committee that he feared the proposed Supreme Court change was a first step toward authoritarian government.

Movie-radio gossip

By DOROTHY

Edgar Bergen, the ventriloquist who has become such a favorite on the Rudy Vallee radio hour, has joined the wonderful array of comics, opera singers and dancers that Sam Goldwyn has lined up for his Goldwyn Follies. Bergen's skill as a ventriloquist was developed when he was just a youngster. He liked to play jokes on his mother, making strange voices call to her from various parts of the room. Later he worked his way through Northwestern University giving shows at college parties.

Apparently Sam Goldwyn won't be happy until he signs up simply everyone of note in the entertainment world for his Follies company. Over in London he has put Vera Zorina, sensationally successful young ballerina, under contract. You may have seen her in person, for last year and the year before she toured the United States, playing in one hundred and ten cities with the Monte Carlo ballet company. She won't just dance in Goldwyn pictures, but will be groomed as a dramatic player.

Jane Withers just dares any kidnapper to come around her house threatening her now. In addition to her usual body-guard, a Texas Ranger who looks as if he could rout an army single-handed, her father is usually around and he has been sworn in as a deputy sheriff, complete with guns. Furthermore, there is an electric signal beside her bed which rings a bell in all the police stations near Beverly Hills. Everybody is betting that the mischievous Jane will never be able to resist pushing the button just once, just to see the police come dashing to her rescue.

ODDS AND ENDS: Janet Gaynor slipped out of Hollywood and went to New York for a vacation, and now she says she won't come back until she can play in a comedy. . . . Skippy, the famous wire-haired terrier whom you know as Asta in "The Thin Man" pictures, has a big part in the R-K-O picture, "China Passage" . . . Joan Crawford has launched a new style, wearing old-fashioned head bracelets that match the color and design of her print dresses. . . . Sonja Henie cancelled the rest of her personal appearance tour and hurried back to Hollywood to make pictures. Maybe the rumor that Tyrone Power was rushing other girls had something to do with her impatience to return. . . . Bobby Breen is going to star in a new radio serial called "The Singing Kid" for National Broadcasting. . . . Another program to watch for is Paramount's Sunday morning hour that will be staged at the studio.

Farm Problems

Conducted by
PROFESSOR HENRY G. BELL

with the co-operation of the various departments of
Ontario Agricultural College

QUESTION:—"What is considered the best way to handle manure so as to get the most out of it? Someone advised us to leave the manure in the barnyard until you could draw it out and plow it under. We have a spreader, and this year we drive up on the pile with the horse and stone-boat every day and as there is not much straw in it the pile is frozen too much to use a spreader like I see some farmers doing this winter. Would it be better not to drive on it so it could heat, and be able to draw it out frequently?"—A. S. G., Oxford County.

ANSWER:—Regarding the handling of manure: If you can keep it fairly well compacted in the barnyard, so that the liquid manure is not lost, you will retain the largest amount of plantfood in it. I believe it is all right for you to drive on the manure pile to keep it fairly well compacted. If you have the labor to take it out in the Spring, as soon as the weather will permit, you should get good results by handling it this way.

QUESTION:—1. What would you recommend for top dressing of Fall wheat this Spring (Fall application of 150-200 lbs. of 2-12-10). What is the most economical and effective—Ammono-Phos, Cyanamid, Sulphate of Ammonia, and Nitrate of Soda? 2. Is it possible that a sandy clay loam with lime stones in it can be lacking the very lime necessary for plant growth?

3. Could I expect, under fair growing conditions, a good yield of barley by using about 4-25-20 in available plantfood in fertilizer on light sandy clay loam, high, western slope along the river, the soil not very productive, plowed last summer. To add some more nitrogen and kill the mustard, I intend to top dress with 50 lbs. of Cyanamid. Would like to know if this would be very harmful to the barley?

4. Has Cyanamid any advantage over Sulphate of Ammonia? Can it be mixed with Superphosphate and Muriate of Soda. Nitrate of Soda is immediately soluble and there is danger that you may lose some of it if heavy rains come immediately after it is applied. Sulphate of Am-

monia is likewise soluble, but to a large extent has to wait until the soil warms up sufficiently for bacterial action to change the Sulphate form of Ammonia to Nitrate in which form it is taken up by the crop. Sulphate of Ammonia is a little slower than Nitrate of Soda, and the results are prolonged.

Ammono-Phos would add Phosphoric acid, as well as Nitrogen, which you have already added in the 12 per cent in your 2-12-10. Cyanamid gives best results if it is worked into the damp soil, therefore I would recommend it as a top dressing for wheat.

2. I have known soils with lime-stones in them to be lacking in available lime for crops, but this is not usually the case. Would it not be well to send us a sample of the soil (about ½ pint) so that we may test it and tell you whether it needs lime or does not. Mail the sample in a little cotton bag, addressing it to the Department of Chemistry, O.A.C., Guelph, Ont. Please write me at the same time as you send the sample. There is no charge for the testing.

3. 4-25-20 would be a well balanced fertilizer for barley. It is a little higher than double 2-12-10, and 2-12-10 has been found in our tests and by many others to be best adapted for production of malting barley on a medium to sandy loam soil.

A top-dressing with 50 lbs. Cyanamid to kill mustard would be in the right direction. It will not be permanently harmful to the growing barley. It may turn a few of the leaves yellow, but the added nitrogen will help the barley recover from this temporary setback very rapidly.

4. Cyanamid carries 22 lbs. of nitrogen and 10 lbs. of lime to the 100 lbs. It is therefore distinctly alkaline in its action on the soil, while Sulphate of Ammonia is decidedly acid in its action on the soil. Cyanamid cannot be mixed in large quantities with Superphosphate. If it is so mixed, the lime of the Cyanamid will revert or turn back the soluble phosphate in the Superphosphate to the insoluble form. Cyanamid can be mixed with Muriate of Potash without any ill effects.

The London fire department answers approximately 4,200 calls annually, and nearly one-half of these are false alarms or malicious calls.

Cleaning the interior stonework of York Cathedral will occupy twenty years. These are portions of the building that haven't been cleaned for 600 years.

Princess Sbyilla of Sweden And Her Daughters

This picture of the family of Prince Gustaf of Sweden was made on the occasion of the baptism of his infant daughter Princess Birgitta. Photo shows: Princess Sbyilla of Sweden (wife of Prince Gustaf Adolf) with her daughter Princess Margareta and the infant Princess Birgitta. The newly-christened Princess is a great-grandmother of the Duke of Connaught, former Governor-General of Canada.

GARDENING

By GORDON L. SMITH

The old idea of planting all the vegetable seed in one afternoon is a hang-over from pioneer days when both seasons and time were limited. Only a few vegetables were grown in the early days. Seedsmen did not have the variety to offer, and the average man regarded the garden as part of the farm where one crop was about all that could be expected.

No Excuse For Running Out

But all is changed now. Experts point out that there is no excuse for running out of lettuce early in the Summer, for example, when after the season for the leaf variety head lettuce could be grown, and then during the hot weather the Cos type.

The latter is a compact, conical-shaped type which defies the heat. Like the head variety, it should be started fairly early, probably a week or two after the first leaf lettuce is sown.

And this range of variety runs

through almost all vegetable classes. There are early, medium and late corn, peas, beets and scores of other vegetables. There are different sizes and shapes to suit various uses, such as salad material, pickling, canning, etc.

Easily Grown Flowers

A brilliant garden of flowers, even the kind that the neighbors will regard with envy, is not a difficult creation. True, there are some of the rarer varieties of roses, lilies, gladioli and similar things that require skill and not a little amount of luck. But for the average man or woman, with only a limited amount of time, space and money, there is really a wide range of variety, color and height. Many of these things are almost as easily grown as weeds. Once planted, and possibly thinned, they will flourish despite neglect and insects. In this category will come cosmos, marigolds, alyssum, calliopsis, bachelor buttons, calendulas and portulaca.

Good Seed Aid To Good Crops

During two successive years, 1934 and 1935, the Ste. Anne Experimental Station, P.Q., has collected random samples of Banner oats from farmers of the surrounding district and carried on yield tests in direct comparison with samples of first generation registered Manner. In all, a total of 111 farmers' samples have been grown, in comparison with 16 lots of registered seed. These tests were conducted under uniform conditions of soil, methods of handling, etc., in both years.

The analysis of the non-selected samples made by the Dominion Seed Branch showed that 45 per cent. were discarded as being unfit for seeding. This same analysis revealed that the quantity of grain required for sowing an acre of land contained on the average 1,327 seeds of noxious weeds, 6,931 seeds of other weeds, and 28,141 seeds of useful foreign plants. The samples of registered oats used as checks were analyzed similarly and declared free of noxious weed seeds and of useful foreign seeds.

The samples of non-selected oats gave an average yield of 63 bushels per acre while the control samples from selected and registered oats yielded on the average 83 bushels per acre. In other words, the yield of the non-selected group was 23 per cent. less than that of the selected and registered group. These plots were under observation in order to determine the percentage of smut. The diseased heads were pulled out as soon as the first symptom of smut was noticed. This observation enabled us to determine the number of smutted heads per acre which was found to be 17,859 on the average of the non-selected samples and 1,077 for the selected and registered samples which had been treated with formalin.

The smaller yield of the non-selected group is attributed especially to the large content of foreign seeds in that group. The proverb "we reap what we sow" is still true, although it is very old, for when weed seeds are grown in such large quantities yield of grain is reduced accordingly. Weeds also absorb a large quantity of water from the seed, that should normally be available to the crop. The efficient cleaning of seed grain is therefore very urgent and there are still too many farmers who do not seem to realize its importance.

Another factor partly responsible for the low yield of the samples collected from the farmers, is the prevalence of smut. Smutted heads do not produce grain and it is therefore necessary to treat the seed against this disease. Those who make a practice of treating their seed against smut do not hesitate to say that the increase in yield and improved quality of the crop more than compensate for the cost of treatment.

GOLD MEDAL Haarlem Oil Capsules

Fine for Weak Acid Kidneys and Bladder Irritation

STOP GETTING UP NIGHTS

One 40-cent box of these famous capsules will put healthy activity into your kidneys and bladder—flush out harmful waste poisons and acid and prove to you that at last you have a grand diuretic and stimulant that will wittily cause these troubles to cease. But be sure and get GOLD MEDAL Haarlem Oil Capsules—safe and harmless—the original and genuine—light from Haarlem in Holland. Millions have kidney and bladder trouble and never suspect it—some symptoms besides visits to bathroom at night are backache, moist palms, puffy eyes and scanty passage that offends smartly and burns.

HAVE YOU HEARD

A woman using rouge reminds one of a fellow using intoxicating liquor—the longer they use it the more they take.

The prisoner was being tried for stealing a pig, and a conscientious witness, to whom the accused was said to have confided, was being examined. The witness was asked to repeat the exact words of the accused.

Witness—He said, sir, he took the pig.

Judge—Did the witness say "He took the pig" or "I took the pig"?

Witness—Oh, your honor, he said he took it. Your honor's name was not even mentioned.

Read it or Not?—Sap of trees does not rise in the Spring of the year.

Jerry—Say, Bill if you had \$5 in your pocket, what would you think?

Bill—I'd think I had on somebody else's pants.

The fisherman who is too lazy to pull up his line occasionally to see if his hook is properly baited, will eat salt pork for his supper.

Husband—Was Mamie pleased when you gave her that lovely undie for her birthday?

Pastor—Here's dat quarter I done borrowed from yo' last year.

Sambo—Yo' done kept dat quarter so long ah don't know as it am wuth ma while to change ma 'pinion of yo' jes' fo' two bits.

It is easier to keep up than to catch up.

Uncle Josh (to his visiting nephew)—First time you've ever milked a cow, is it? Well, you do it a dern sight better than most city fellows do.

Nephew (flushing with pleasure)—It seems to come natural somehow. I've had a good deal of experience with a fountain pen.

The trouble with getting in on the ground floor is that it so often has a trap door into the cellar.

Friend—Did you get any replies to your advertisement that a lonely maiden sought light and warmth in her life?

Spinster—Yes, two from an electric company and one from the gas company.

If a man's got the money, he might as well let his wife have what she wants, first as last.

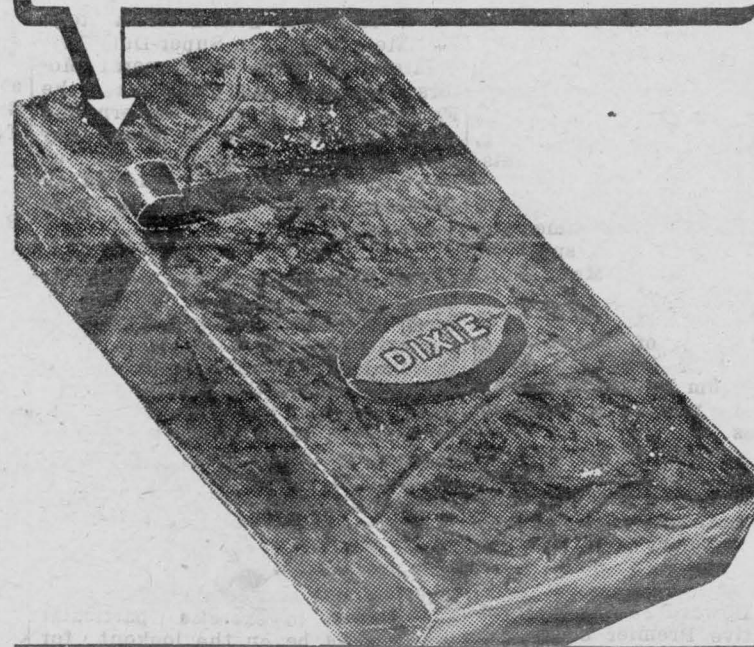

Teacher—What lesson do we learn from the busy bee?

Smart Boy—Not to get stung.

The difference between success and failure is that the former lives on last month's income and the latter lives on next month's.

Counsel—Now, then! I want you to be very careful in answering the question. How far away were you at the time of the accident?

Cut it coarse or flakey, as you like—DIXIE burns slower and lasts longer. It's cellophane-wrapped, with the convenient easy-opening ribbon!

DIXIE

PLUG SMOKING TOBACCO

East India Motif

Agnes Klitgord (right) models her own beach costume of flowered bandeau topped bolero jacket and full length skirt, which she adapted from the East Indian costume worn by Muriel Fry at Spring Fashion Show at New York City fashion school.

Wife—Yes, but she cried a little. Husband—She did?

Wife—Yes, she said it was her first slip.

Health should be prized above everything else because it is the essence of happiness.

Airman (after landing in a tree)—I was trying to make a new record.

Farmer—You did. You're the first man to climb down that tree before climbing up it.

The old-fashioned man who used to go around the court house square and pay his bills every Saturday has a son who buys everything in 18 monthly installments.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks puny. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes these good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. See

Issue No. 15 — '37

A-1

cent of the decrees granted. In 1925 husbands were again slightly in the majority, but from that year onward wives had the larger proportion, rising to 64 per cent in 1936, this condition being probably due to the passing of the Divorce Act of 1925 which removed certain anomalies that formerly operated to the prejudice of wives.

As among the nine provinces, British Columbia showed the highest percentage of divorced persons in the population while Quebec showed the lowest, with Prince Edward Island very close to Quebec. In that province one divorce was granted in 1913, one in 1931 and one in 1935.

The number of divorced men in Canada at the census of 1931 was 4,049 and divorced women 3,392. In 1935 the number of divorced men who remarried was 814 and divorced women 696. The number of divorced men who married divorced women in that year was 94 compared with 85 in 1934 and 63 in the year 1933. The indication is that the number of divorced persons remarrying is increasing with the number of divorces.

Damage to Roads by Trucks

As to damage to pavements by trucks, the opinion recently offered in these columns was not that of the Sentinel-Review, but of R. M. Smith, who for many years has been deputy-minister of highways for Ontario. The statement was made at Tillsonburg in April 1932. It took a good part of Sunday afternoon to find it in the files, of which fact we trust The Times-Journal will be duly appreciative. Here it is:

"There is also the connection that we are building highways for the truck, and the truck is a competitor putting the railroads out of business. They contend we build a much higher type of highway because of the truck. As a matter of fact that is not the case at all. We are building a high type of road because of the traffic it must take, to start with, and we must anticipate climatic conditions. The Toronto-Hamilton highway has a surface today almost as good as when built. We have a pavement west of here that shows the effect of climatic conditions in the vicinity of Blenheim. There are fractures on the surface and it is only going on its second year. To all intents and purposes it was heavy enough—and certainly bus and truck traffic has not turned it up—but there are breaks in the surface even now."—Woodstock Sentinel-Review..

Real-Life and Stage

This should be placed somewhere near the top of the list of queer coincidences.

Professor Henry Alexander, of the English department of Queen's University, Kingston, was playing the part in a play at Convocation Hall, of a convict who escaped from Dartmoor and was later recaptured by the police.

On the same day at Dartmoor, England, Henry Alexander, a convict, who had escaped from the prison, was captured by the police. Not only was there an identity in names and in prison, but the captures in the play and in real life were the same, both taking place in deserted huts.—Queen's Review.

About 100,000 children in U. S. are to be measured in order to learn correct sizes and proportions for use in making clothing.

Demand Good For Canadian Cattle

Britain Could Also take More Cattle, Says Floud

TORONTO. — The United Kingdom could absorb all the store cattle Canada would like to send and could do with a lot more Canadian bacon, Sir Francis Floud, British High Commissioner, assured a large gathering of stockmen, farmers and exporters at a luncheon meeting of the Royal Agricultural Winter Fair Association here this week.

Sir Francis spoke on some aspects of the Anglo-Canadian trade agreement as applied to Canadian agriculture. He believed the interests of the farmers of the United Kingdom and of Canada could be harmonized. Those interest on both sides of the Atlantic were most vital and stabilizing factors in the economy of the two countries.

Pointing out the first clause of the new agreement continued to Canada the right of free entry to the United Kingdom for the great majority of the Dominion's agricultural products, the High Commissioner directed attention especially to its provisions respecting cattle.

Canada was permitted under the agreement to send to the Old Country market also at least as many fat cattle as in recent years and last year there was a considerable increase. It was desirable, however, that British imports of this class be kept at a fairly even level, for the regulation of the home markets.

MORE BACON WELCOME.

While a strong effort was being made to increase production of bacon in the United Kingdom, and imports from foreign countries had been reduced considerably, more Canadian bacon, up to the maximum set by the agreement, would be welcomed. Canada benefitted greatly by the preferential arrangements in respect of this product.

As to dairy products, Canada also received preferential treatment from the United Kingdom and would continue in that advantage should it be found necessary to raise the barriers against importation of this class of foodstuffs.

Sir Francis reminded his hearers the British farmers had been hard hit and the Government found it necessary to guard their interests in every way possible. At the same time, the United Kingdom was a great importing country. Half the country's food had to be brought in and Canada with other Dominions was enabled by the preferential agreement to take every advantage of this trade.

Mr. Basil Aikman left on Tuesday for Noranda, Que., where he will join his brother George.

Miss Dorothy Froats of the staff of the Ontario Hospital at Cobourg, spent the week-end with her parents, Mr. and Mrs. H. G. Froats.

Mr. and Mrs. L. W. Holmes and daughter, Ruth, of Ottawa, spent the week-end with Mr. and Mrs. W. T. Armstrong.

Persons desirous of procuring a Radio License for 1937 can do so conveniently from Mr. John Thompson, who is making a house-to-house canvass.

Mr. Frank Becksted returned home this week from the Brockville General Hospital where he has been receiving treatment for the last eleven weeks.

Hon. G. Howard Ferguson, former Conservative Premier of Ontario and latter Canadian High Commissioner to London, entered Wellesley Hospital, Toronto, this week for an X-ray examination.

Mr. Walter Fetterly of Toronto, accompanied by his father, Mr. J. R. Fetterly who had spent a couple of days in Toronto, visited his parents, Mr. and Mrs. J. R. Fetterly in Morrisburg on Wednesday of this week.

Mr. C. Lee Deeks, local agent of the Metropolitan Life Insurance Co. was recently presented with a large silver pitcher by the company for placing second in the total insurance sales in this district, in the first three months of this year.

A meeting of the Canadian Club will be held in the Club Rooms, Morrisburg, Friday, April 16th, at 6.30. The speaker will be Dr. Simon Fraser Tolmie, M.P., who will give an address on "British Columbia." Dr. Tolmie is a former Prime Minister of the Western Province.

This is Marshall Stayyoung Mattress and Spring Week at W. Marsh & Son, April 10th to 17th. See our window and get a FREE draw, as 6 Marshall Mattresses will be given away free. See our combination Walnut bed, Stayyoung Cable Spring and Marshall Mattress, \$27.50.

Commander of the first vessel to enter the port of Prescott this season, Capt. Bruce Nichols, master of the collier Valley Camp was on Monday presented with a gift by the local board of trade. The presentation was made by W. Mossman DuBrule and Rev. Dr. J. Taylor, president and secretary of the board. The Valley Camp arrived in port at 1.30 Sunday night with a cargo of coal. Her first trip last year was made on April 14.

At the United Church manse, Iroquois, Miss Orma Phyllis, daughter of M. and Mrs. Edward Kirker, was married to Mr. Walter Charles Partridge Rev. E. C. Lacey, pastor, officiating. The bride was gown in a brown swaggar suit with a small Noera turban. Following the ceremony Mr. and Mrs. Partridge left by motor for London. They will reside in Brinston.

Died—At Philadelphia, Pa., on Thursday, April 8th, Joseph Herbeck, eldest son of the late Joseph and Caroline Herbeck, formerly of Morrisburg, in his 77th year. He is survived by his wife, Lillian Rae, formerly of Chesterville, and two sons, Rae and Earle. Also by one sister, Mrs. C. L. Hazell, and one brother, Frank Herbeck, both of Morrisburg.

The remains of Mrs. James W. Eastman, former resident of Morrisburg, who died in Toronto, Sunday were conveyed to Morrisburg, arriving Tuesday and were placed in Fairview Vault. The funeral was in charge of Rev. S. B. Holmes. Deceased is survived by two daughters, Mrs. E. C. Gunnert, Toronto and Mrs. H. Crabbe of Sharan, Pa.

A former well-known and esteemed business man of Chesterville, passed away suddenly Monday afternoon in Westport, in the person of James E. Prescott, in his 55th year. About 15 years ago, the deceased carried on business in Chesterville in the firm known as Jackson and Prescott, plumbers and tinsmiths.

Mr. and Mrs. J. C. Fetterly, June and Jack, returned to their home in Oshawa on Saturday after spending the Easter holidays in Morrisburg and Williamsburg. They were accompanied home by the former's father, Mr. J. R. Fetterly, who spent a couple of days in Toronto.

Victims of the most serious motor accident in the Cornwall area in five years, three persons are dead, two are in a critical condition in Cornwall hospitals, and a fifth was painfully hurt. Four of the victims, residents of Cornwall, were riding in a sedan driven by Floyd Bodway, Massena N.Y., when it ran off the highway, two miles east of the city Saturday night, jumped a culvert and wrapped itself around a tree. The dead are: Francis St. Louis, Mrs. Lionel Masson and Mrs. Francis St. Louis. The injured: Floyd Bodway, Mrs. Mamie Terriah and Leo Carrier.

W. Marsh & Son have in stock the latest models in Super-Duty Fridgaires; products of General Motors. We give you proof that the Fridgaire is the most modern and costs less to operate, than any other make of refrigerator. Let us demonstrate. Liberal trade-in allowance. Terms suitable to your convenience.

The Morrisburg Arena closed its doors this week after one of its most successful seasons, from an entertainment point of view. While the limited income of such an institution, makes the financing somewhat difficult, the shareholders are rendering a valuable service to the community in operating a place for wholesome recreation for children and adults, of incalculable value to the people of the community.

Motorists travelling on highways in this section of the country are warned to exercise particular caution and be on the lookout for bad road conditions due to the frost leaving the ground. This spring it is estimated is the worst in years for unusual road conditions. Lack of snow with deep frost penetration is the cause. Especially at culverts, bridge approaches, etc. extra precaution is required, as the roads are liable to either be heaved or settled at these points. The department are attempting to post signs at all bad spots on the highways.

At a meeting held in the Agricultural Office, Tuesday, to form a Home Improvement organization, the following officers were appointed—Hon. Chairman Arthur Flynn; chairman, George D. Howitt; vice-chairman, H. W. Graham; secretary Miss Jane Dillen; committee, W. D. Thomas, Mrs. J. C. Casselman, Miss Jane Smith, Miss Mary Swedfeger, Mr. Broadbeck, Henry C. Clark, J. B. Toshack, S. G. Finnie, W. A. McGannon and all the members of the Town Council. The organization is to be known as "The Home Improvement Association."

The will of Byron Lane, for 23 years editor of the Leamington Post and News, and founder of the Winchester Press, who died at Leamington last February 19, disposed of an estate of \$78,827. A sister is bequeathed \$1,500 and the widow and only son receive a life interest in the estate. St. John's Anglican church at Leamington will receive \$10,000 for a pipe organ. The money can be applied in erection of an auditorium in connection with the church should there already be an organ. Residue of the estate is to be used for erection of a municipal hospital in Leamington or for an addition.

The Iroquois Council presented to the citizens last week, in pamphlet form, the entire Auditors' Report covering the municipality's transactions in 1936, by J. S. Eniwistle & Co., a copy of which we have received. The report includes: statement of Assets and Liabilities, general account; statement of assets and liabilities, Water and Light account; consolidated statement of assets and liabilities, capital account; statement of revenue and expenditures, general account; statement of revenue and expenditure, water and light account; statement of receipts and disbursements, general account; statement of receipts and disbursements, water and light account; statement of receipts and disbursements, Iroquois High School; statement of receipts and disbursements, Iroquois Public School board; details of debenture debt; details of insurance in force on village property; details of insurance in force on High School property; details of insurance in force on Public School property. Révé Ed. Strader, on behalf of the Council urges the people of Iroquois to read carefully, and give due consideration to the Report 200 copies of which he has mailed to the citizens. Mr. Strader is anxious that the residents should acquaint themselves with the finances of the village, and by reading the auditors' report carefully, each citizen should have a clear understanding of the village transactions, he claims. A perusal of the report reveals that the finances of Iroquois are in healthy condition, and that the people of that village are well served by their council. The presentation of such a thorough and clear Report shows remarkable consideration for the electors seldom witnessed in a village of the population of Iroquois.

Wednesday, 7.30, Mid Week Meeting.

UNITED CHURCH NOTES

Last Monday evening the Young Peoples' Union listened to Mr. Ralph Froats give a report of the Winter School in Ottawa, at which he was a delegate. There was a splendid attendance. This Monday, weather permitting, a sugaring off party will be held.
Next Sunday evening Rev. R. D. Smith will tell the story of Pilgrim's Progress. This story will be illustrated by Lantern Slides. Many of these slides are by Copping, a famous artist. Pilgrim's Progress was written by John Bunyan when he was lodged in Bedford Jail. It is one of the Classics of English Literature. There will be hymn singing from slides on the screen. All are invited to participate in this service.

The Ladies Aid met at the home of Mrs. Epplert on Thursday afternoon. There was a splendid attendance.

The Eusebeia Ladies Bible Class met on Thursday evening in the Ladies' Parlor.
