VOL XXV, NO. 44 — CHESTERVILLE, ONT., THURSDAY, OCT. 2, 1919. — SINGLE COPIES 5c.

Save Against the "rainy day"

The thought of being dependent some day, when illness or old age takes away one's ability to earn, is rightly distasteful to the Canadian mind.

The simplest, surest way to offset this is to open a Savings Account and add something to it every week. Come in and we will gladly explain.

J. O. CORNER, Manager — CHESTERVILLE BRANCH

Wm. L. Douglas

was the first American to achieve his ambition of becoming a millionaire at making shoes. He knew shoes from the age of 7 when he was "bound out." His apprenticeship over he went to work for 35 cents a day.

Strenuous application to his life's purpose, coupled with an inborn sense of thrift and economy brought success to Douglas.

We extend to young men a cordial invitation to establish banking relations with us. 355A

A Successful Euchre

The first of a series of euchres to be given during the winter under the auspices of the Ladies Auxiliary of St. Mary's church, was held on Friday evening last and was a most enjoyable event. The early part of the evening was spent in playing euchre, after which refreshments were served and dancing indulged in for a short time. The lady's prize in the card game was won by Mrs. Eli Harper and Mr. M. S. Grady was the winner of the gentleman's prize. The committee wish to thank all who contributed towards the refreshments and also those who helped with the musical part of the program.

School Children Must be Vaccinated

As a precautionary measure in connection with the outbreak of smallpox in Winchester township the Board of Health for the township, decided at a meeting on Monday last, to have all children attending public schools vaccinated, in compliance with a request from the Provincial Board of Health. All the physicians have a supply of vaccine and the Board urges that all parents and guardians act at once. Very shortly a physician will visit each of the schools to see if the request has been complied with.

All the cases of smallpox are in the township. There has not been a case in any of the villages and it is believed that every necessary precaution has been taken to prevent any further spread.

Fulton—Durant

At high noon on Tuesday, Sept. 30th., the marriage took place of one of Winchester's most popular young ladies, Miss Bessie Durant, daughter of Mr. and Mrs. Merrick Durant of Winchester, to Mr. Wesley Fulton son of the late Mr and Mrs. R. D. Fulton of Maple Ridge. The bride's pastor, Rev. J. K. Curtis performed the ceremony in the presence of a number of guests among whom were relatives, friends and schoolmates of the bride. The popularity of the bride was evidenced by the number of gifts received by her not only at the wedding but at a shower given in her honor a few weeks ago at the home of Mrs. Geo. Reveler. Also last Saturday evening the Superintendent and teachers of the Methodist Sunday School carried to her home a beautiful parlor table as an appreciation of her work for many years as teacher of the Beginner's Class. She was also a valued member of the choir and was always found willing to use her talents in any way for the helping of the work of God's Kingdom.

As Mr. Fulton is Chesterville's new postmaster, they will take up their residence here in a short time.

Finch Pig Club Celebration

The annual celebration of the Merchants Bank Pig Club was held at Finch on Friday, Sept. 26th. The day's activity started at 1p.m. with a grand parade headed by the Chesterville Brass Band and several pipers. After these were a number of clowns, who amused the crowd by their antics and their fantastic costumes. Next came the pigs in gaily decorated wagons, driven by the members of the club. Following them were the school children of the surrounning vicinity in automobiles, also decorated. The parade passed through the main streets of the village and from there to the grounds where the judging and sports took place. Finch school took first prize for best showing, having 12 cars representing them. Some of these worthy of special mention were contributed by Mr. J. G. Cameron, Mr. Deslandes and Mr. Farrell, and decorated by the young people of the village. Second prize went to Monkland and third to Berwick.

Mr. J. D. Shaver of Finch, won first prize for best fatted hog and first in the sweepstake. Harold Cameron won both prizes for the best bacon hog, and D. N. McLean took first for best sow for breeding purposes. Other winners were Miss Elta Hutt, Miss Lera Rombough and J. McLaughlin.

A long list of sports was run off including races for children and athletic competitions for men.

Just at the conclusion of the sports, anticipation changed to realization, when the long delayed aeroplane appeared in the west. The Midway lost its attraction immediately and for sometime all interest centered on the mechanical bird. Before landing, the pilot, Mr. Colley, treated the crowd to a thrilling exhibition of stunts, finishing up by landing on the prearranged cloth "T" in Mr. Campbell's field. Although he had travelled from north of Toronto that day no time was lost, and he began to take up passengers at once. The crowd showed no lack of nerve or greenbacks and the pilot was besieged by applications for flights during the remainder of his stay in Finch. Twenty-four passengers were given a never-to-be-forgotten experience, their ages ranging from sixteen to sixty-four. According to impressions of those who made the flight the time is near at hand, when air transportation will be as common as that by land or sea.

THE MOLSONS BANK

Saving requires self-denial; so the habit of saving strengthens the character, while benefiting the financial and social standing.

Savings grow quickly. Instead of buying useless things, deposit your savings in The Molsons Bank, and see how quickly they grow. Note also the satisfaction and independence which a balance at The Molsons Bank gives.

F.E.Price Manager, Chesterville Branch

When You Travel, Even in Canada

carry your funds in Travellers' Cheques, issued by The Merchants Bank.

Personal cheques are often refused. Money may be lost or stolen.

Travellers' Cheques, on the other hand, are cashed by banks, hotels, transportation companies and stores at their face values, and enable you to raise ready money wherever you happen to be. If lost, they are of no value to the finder; if stolen or destroyed, they will be replaced without extra charge. Use them for your next journey.

Ladies are specially invited to attend.

God Save The King

BETTER COOLING

(FARMERS CUT THIS OUT.)

At this time of the year when the sun is hot, and the flow of the milk is high, remember that more water is required to cool milk to the desired temperature. The more milk you have the more water is required. Don't try to cool eight cans in water that will only cool four cans. Change the water often. Milk cooled and not kept cool will sour.

A number from this section took in the Pig Club and Demonstration at Finch on Friday and report a good day of sports.

Mrs. Simon Hutt of Berwick visited Mrs. Robert Bogart on Monday.

Mr. and Mrs. Fay Droppo spent Sunday at the latter's parental home here.

Glad to report Master Malcolm Foster who underwent an operation for appendicitis on Tuesday at his home here is progressing favourably under the care of Dr. T. Marcellus and Nurse McLeod of Finch.

Rev. Mr. and Mrs. J. Leach were callers at the home of Messrs. John Foster and Robert Bogart on Saturday.

Don't forget the school fair on Saturday Oct. 4th.

Mrs. Frank Marcellus and Mrs. Robert Bogart are able to be out again after their recent illness.

Miss Lucy Ouderkirk of Ashburn, is staying with Mrs. Robert Bogart this couple of weeks.

MOREWOOD

We regret to report Mr. Bense Hutchison down with typhoid fever but of a mild type.

Arthur Steinburg got his arm caught in the cement mixer on Friday and badly hurt but fortunately no bones were broken.

Lieut. Hicks and his Irish bride were visitors at the Parsonage on Sunday.

Mr. Charlie Crobar who enlisted when principal of our public school, received a warm welcome from former pupils and friends, when he visited here this week.

Rowat Empey contracted typhoid fever while working for David Rainey nd was removed to his brother Jake's at North Winchester on Monday.

Miss Armstrong and Miss Hough spent the week-end in Ottawa.

Rally Day was enthusiastically celebrated in both churches last Sunday morning. The weather being ideal there was a splendid representation from Cradle Roll, Home Department and Sunday School.

Anything Worth Owning is Worth Saving

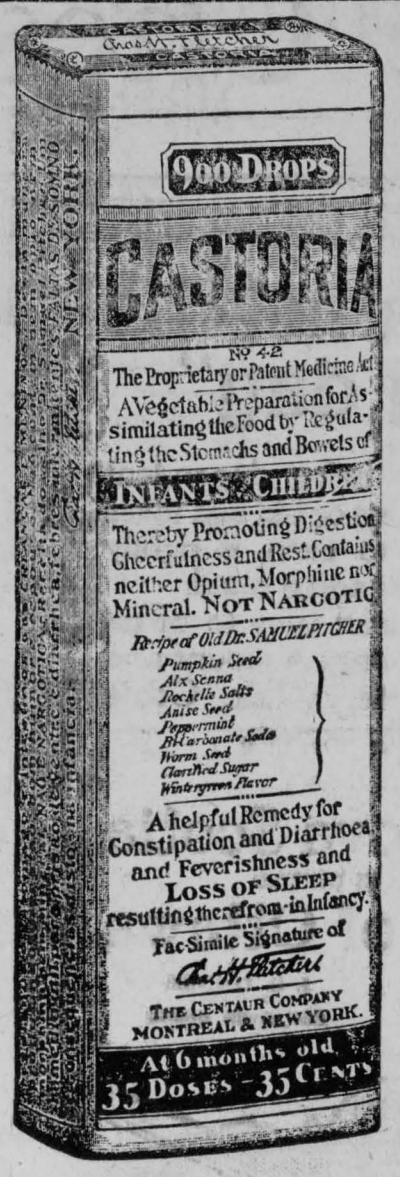

Paint, as has often been said, serves more than the mere purpose of decoration. Its principal value lies in the fact that it prolongs the life of the surfaces painted. Wood and iron, on exposure to the air, undergo a slow process of oxidation which just as surely destroys them as though they were set on fire, the difference being the speed at which the reaction occurs.

We take out insurance to cover loss by fire and should just as surely put on paint to cover loss by decay. It takes very little calculation to discover the apparently astounding fact that the loss through lack of painting is greater than the loss by fire. When the farmer comes to a full realization of the true reason for painting there will be no need for urging in the matter. Paint not only conserves but enhances property values.

We are fast becoming a nation of travelers, largely by reason of the innovation of the automobile. We travel with ease and comfort along roads never dreamt of, leading us through cities, town and villages that we hardly knew existed and how often we find ourselves as we pass through a farming district, judging as to the character and standing of its people.

How different, one feels when approaching and passing through a township, where the homes show the lack and need of painting, the invariable result being decay and disintegration of that which might have been a substantial asset against the day of necessity. The impression formed is that of pity, if not disgust, that any individual or community should show such a criminal disregard of the value of preserving and beautifying that which they have permitted to advertise themselves as "shiftless" and lacking in all principles of economy.

There is no better index of the character and solidity of an individual or community than the condition of his or their properties. It shows thrift or lack of it and where thrift abides and is practised there you will find intelligence and prosperity.

Charged With Writing Threatening Letters

A young man named James Rolland, alias Denholm, etc., of Iroquois, was on Saturday remanded to the Cornwall jail for a week, having just been brought back from Springfield, Mass., by Special Agent Tisdale, of the G. T. R., Montreal, on a charge of writing threatening letters to officials of the Grand Trunk. Some time ago the man was in the employ of the Grand Trunk. He met with an accident and was receiving compensation through the Ontario Workman's Compensation Act. This did not appear to satisfy him, and he wrote letters threatening the G. T. R. officials that if a lump sum was not forthcoming within a specified time he would proceed to damage the company's property. The case was placed in the hands of Mr. J. G. Harkness, County Crown-Attorney for these counties, and a county constable was sent to arrest the man. He was granted certain privileges before leaving home, and while in the execution of these he made his escape. A few days later a relative of the man applied to the Customs Officer at Morrisburg for permission to ship a suitcase containing clothing to "J. Riley," Springfield, Mass., Mr. Harkness was notified and telegraphed the Springfield police to arrest the claimant of the suitcase. The result was the arrest of Rolland and Mr. Tisdale went to Springfield and brought him to Cornwall.—Standard.

WILLIAMSBURG

Mr. Ernest Planty of Richville, N. Y. spent the past week with his uncle Mr. Daniel Durant of Hoasic.

Mr. and Mrs. Daniel Durant and daughter Misses Ella and Ada accompanied by Mrs. Alzina Durant and grandson Mr. Ernest Planty of Richville, N. Y. spent Sunday at the home of Mrs. A. Durant's daughter Mrs. F. C. Bodette of Archer.

Mr. and Mrs. F. C. Bodette were at Daniel Durant's on Sunday last.

Mr. Hector Carruthers made a business trip to Ottawa Monday.

Mr. Ellis Thompson spent Thursday in Ottawa on business.

Prayed for Flu's Return

According to the Kingston Whig, residents of Seeley's Bay are quite disturbed at a remark made by an evangelist there recently. The preacher, while urging upon the gathering the need of getting closer to God, is said to have prayed that the flu would return. He would be willing he said, to give up his children if it would be the means of making the people realize what they were doing.

Edith—"Engaged? Why he, is considerably younger than she is."

Maud—"Yes, but he doesn't know it."

A LIFETIME OF SUFFERING

Prevented by "Fruit-a-tives" The Wonderful Fruit Medicine

53 MAISONNEUVE ST., HULL, QUE.

"In my opinion, no other medicine is so good as 'Fruit-a-tives' for Indigestion and Constipation.

For years, I suffered with these dreaded diseases, trying all kinds of treatments until I was told I was incurable.

One day a friend told me to try 'Fruit-a-tives'. To my surprise, I found this medicine gave immediate relief, and in a short time I was all right again".

DONAT LALONDE

50c. a box, 6 for $2.50, trial size 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

Swear Off

Gossiping.

Anticipating evils in the future.

Fault-finding, nagging and worrying.

Dwelling on fancied slights and wrongs.

Scolding and flying into a passion over trifles.

Thinking that life is a grind and not worth living.

Talking constantly about yourself and your affairs.

Saying unkind things about acquaintances and friends.

Lamenting the past, dwelling on the disagreeable experiences.

Pitying yourself and bemoaning your lack of opportunities.

Writing letters when the blood is hot which you may regret later.

Thinking that all the good chances and opportunities are gone by.

Carping and criticizing. See the best, rather than the worst, in others.

Dreaming you would be happier in some other place or circumstances.

Belitting those whom you envy because you feel they are superior to yourself—Selected.

"What's that crowd in front of the Court House?"

"Men eager to serve as jurors."

"Get out!"

"Really. A jury is being selected in a liquor selling case and it will have to test the evidence."

Democracy in Music

There's such a thing as democracy in music, and the Edison Laboratories believe in democracy in music. They are sorry for the man or woman who can't enjoy a rollicking ragtime ditty.

Every monthly supplement of

Edison Re-Creations

contains a goodly showing of popular stuff. There is, however, no deficiency in the supply of the heavier and more musical arias of the operatic and concert stage.

A visit to our Edison parlors will convince you that Edison Re-Creations are supreme in the phonograph world.

H. E. Markley, Edison Dealer, Chesterville

Two Tons of Liquor Seized

Brockville, Sept. 30th—Major E. N. Richards, Windsor, was arrested by Chief of Police Jackson, of Prescott, for having in his possession a quantity of liquor in a large touring car en route from Montreal to Windsor. The liquor which he carried was high-class material, consisting of rye, brandy, rum and scotch. Major Richards does not pose as a boot-legger but claims he was handling the spirits for some of Windsor's best known citizens That excuse did not stop the chief from making the seizure and Major Richards appeared before P. K. Halpin police magistrate, and pleading guilty to the charge that was laid against him, was fined five hundred dollars and costs which was paid. Chief Jackson has shipped to the License Board, Toronto, nearly two tons which he has seized in the past week.

Hook and Ladder Story

A painter at work on a water tank at Buhl, Minn., forsaw a catastrophe when a cow began to scratch her back on the bottom of his ladder and started to come down. That frightened the cow, and she ran her horns through the lower rungs of the ladder and start d off at a gallop, carrying the ladder, painter, paint and all. The louder he yelled the faster the cow travelled. It was but a short ride for the painter, who struck the ground uninjured but the cow carried the ladder for a quarter of a mile.

Shinn-Flat

Lightning Rods Prevent Lightning Losses

WHEN your buildings are protected with Shinn-Flat Lightning Rods, you may be absolutely sure that they're safe from Lightning damage Shinn-Flat Lightning Rods are the only kind made in the form of a flat cable—which has 36% more conducting surface for electricity than the same amount of material made into a round cable.

Lightning Can't Strike if Shinn Gets There First!

Shinn-Flat prevents the accumulation of electricity in the building, by permitting it to gradually pass from the heavily charged ground and building into the atmosphere above.

Bonded to Protect

A large Bonding Company issues a Surety Bond to the owner of every building we protect, guaranteeing that Lightning will not damage.

W. H. DAY

Professor of Physics at the Ontario Agricultural College for many years, and Canada's recognized authority on Lightning Protection is now Manager of the Shinn Mfg. Co., and assists in training Shinn Dealers thus insuring correct installation.

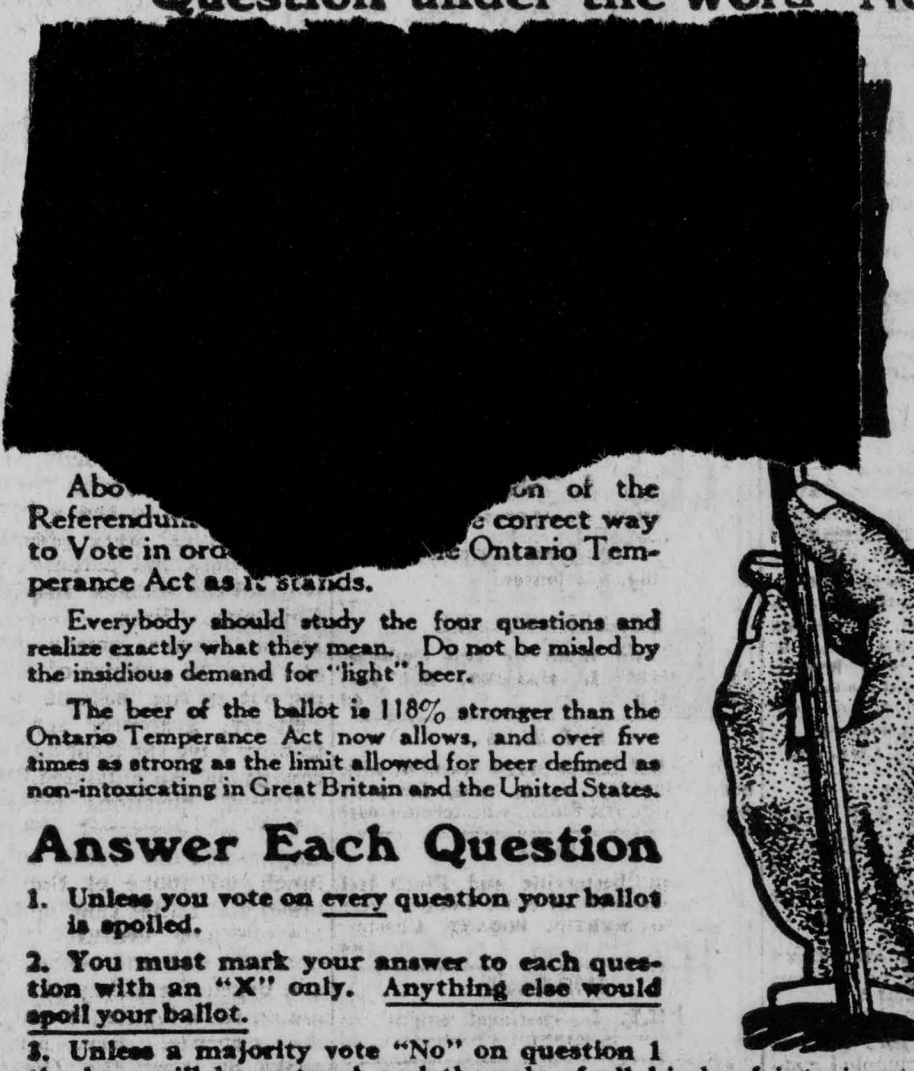

Call and get a book on the Lightning Cause and Control.

How to say "No!"

Mark Your Ballot with an X after Each Question under the word "No"

About the Referendum and the correct way to Vote in order to keep the Ontario Temperance Act as it stands.

Everybody should study the four questions and realize exactly what they mean. Do not be misled by the insidious demand for "light" beer.

The beer of the ballot is 118% stronger than the Ontario Temperance Act now allows, and over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.

Answer Each Question

1. Unless you vote on every question your ballot is spoiled.
2. You must mark your answer to each question with an "X" only. Anything else would spoil your ballot.
3. Unless a majority vote "No" on question 1 the bars will be restored and the sale of all kinds of intoxicants permitted.
4. Unless a majority vote "No" on questions 2, 3 and 4 the Ontario Temperance Act will become almost worthless.
5. The only SAFE course is to mark your ballot as shown above.

"No!"—Four Times—"No!"

No repeal; No government beer shops; No beer saloons; No government whiskey shops.—Four X's, each under the word "No."

Ontario Referendum Committee

JOHN MACDONALD, Chairman — D. A. DUNLAP, Treasurer — ANDREW S. GRANT, Vice-Chairman and Secretary

Farmers Will Nominate Candidate

Saturday night saw a meeting in Chesterville that should make the old time political parties sit up and take notice right away, because something is going to happen in old Dundas that they have not taken into account.

The meeting was primarily called by the Chesterville Live Stock Association to get the opinion of its members as to whether it would be advisable to call a county convention for the purpose of nominating a candidate to represent this great farming constituency in the provincial legislature. There was a good response to call when between two and three hundred put in an appearance and made it plain that it was their desire to nominate a farmer to do farmer's business for farmers.

President P. Kirby of the Association, called the meeting to order, stating the purpose of it, and calling on Mr. Thos. Houlehan, county director of the U. F. O. to address the audience. Mr. Houlehan traced the history of the U. F. O. from its inception and pointed out the benefit that would come to the farmers by having a large contingent of them in the next legislature. If a farmer was nominated in Dundas he pledged his support to him.

Short addresses were also given by Messrs. Preston Elliott, J. W. Bogart, Hermon Hummel and W. H. Casselman, directors of the Association, in which all expressed their desire to have a farmer candidate nominated and pledging their support to one to the very last hour. Mr. Harold Clark of Mountain township was also present and in pledging his own support to a farmer candidate said he believed it was the feeling of the [illegible] ectors of his township that they should have one of their own calling to represent them in Parliament.

After a very free discussion of the matter a vote was taken and carried unanimously that a candidate be nominated.

A committee was then appointed to carry out the wishes of the meeting.

A striking feature of the whole proceedings was that not once were the old parties mentioned. They were simply left out of the calculations, the question being whether the farmers of Dundas would have a farmer represent them or some one else.

There is not another county in the province that needs a farmer [illegible]s does to [illegible] of things. [illegible]nservation [illegible]llustration [illegible] keeping [illegible] idea its [illegible] a farmer, [illegible] time to

[illegible]osed For

[illegible] the Pres[illegible]od, last [illegible] question [illegible] Public [illegible]ndated School. [illegible]ance testified to a [illegible] in the subject. Re[illegible]tives were present from [illegible]stees and parents connected with all the schools involved. Mr. Chisholm, Prov. Inspector of Public Schools, gave a very clear and detailed account of the working out of the scheme and Mr. Fetterly, Inspector for Dundas County gave the local statistics and conditions. An animated discussion followed, questions being freely asked and answered. Mr. Loucks emphasized the value of the hot lunch and spoke of the waste of bread and butter that he had seen. He said new ventures were only taken by men and women of vision and urged the fixing of the attention on the advantages rather than the expense. Rev. Mr. Gollan spoke on how the Consolidated School solves the "big boy problem" in rural communities. A representative committee was formed to give the matter full consideration.

To Prevent Unemp oyment

Next year will be well advanced before Canada's main expenditure for war, can be completed. Every dollar that can be raised for the Victory Loan 1919 will be required.

Although hostilities ceased in 1918 the war expenses went on.

This is just as much a war year as last year was, as far as the money is concerned. Pressing liabilities incurred by the war and involving vast sums of money have to be cared for. The simplest and most profitable manner in which this can be done is for the people to provide the money themselves.

The Victory Loan 1919 is entitled to just as much consideration as was given to its predecessors. It is up to every loyal Canadian to do his utmost to make the new loan an overwhelming success. The continuance of the prosperity of the nation is wholly dependent upon it.

It was naturally to be expected that trade depression in the Dominion would have followed the armistice but this was averted by the application of a large proportion of the last Victory Loan as credits to Great Britain and our Allies for grain, dairy produce, fish, lumber and ships. These credits were absolutely necessary, and strictly good business. They must be continued. They are national reinvestments. The debts will be paid eventually and in the meantime industrial and agricultural workers will be kept in busy and lucrative employment.

Voters' List of Ontario Doubled

Tremendous curiosity has been aroused as to the result of the work of the enumerators in view of the approaching Provincial Election which is to take place on October 20th. Politicians in particular have been very curious to know to what extent the enfranchisement of women and of soldiers under age would swell the number of voters. The official lists covering the 111 ridings show an amazing increase in the vote. The maximum vote for the whole Province has more than doubled. In 1914, roughly 750,000 were entitled to exercise the franchise; for 1919 no less than 1,611,759 are eligible.

The figures for the ridings in this Eastern district work out as follows:

Constituency	No. of Voters in 1919	No. of Voters in 1914
Dundas	10,500	5,997
Glengarry	13,000	5,496
Prescott	11,873	6,097
Russell	18,025	9,233
Stormont	13,471	6,774

Why Should Not Hydro Rates be Uniform throughout the Province.

Kingston and all eastern Ontario would like to derive the same benefits from Hydro-Electric power as places in western Ontario. At present, places close to the service of water enjoy very low rates while distant places have to pay about double. In order to secure views of municipalities on the matter, R. F. Elliott has sent a letter to the mayors of all cities between Oshawa and Ottawa. The letter reads in part; "Do you know any reason why Hydro power from one end of Ontario to the other should not be pooled. The government developed power at Niagara Falls, issuing bonds with the guarantee of the whole province. Does the east share equally with the west in this great development and expenditure? We know that it is almost impossible for the east paying $28 to $30 per horse power to compete with the west with horse power costing only half that amount. Should we not endeavor to find why this should be? We are pleased to know that the western portion of the province is so progressive, but are we, as public men entrusted with the confidence of our fellow citizens, doing all we can to improve the power situation in the east and make it as attractive to manufacturers as the west? If it is thought advisable we might call a meeting when the whole subject could be considered".

Oxford County Almost Quits Cheese Making

Robert Johnston, the well known cheese buyer, stated in an interview on the cheese situation in Oxford County that he doubted very much whether in two years there would be any cheese manufactured in the County of Oxford, at one time the greatest cheese producing centre in Ontario. In reviewing the cheese situation Mr. Johnston stated that the cheese business had decreased greatly because of the fact that condensers and milk products companies were buying the bulk of the milk offered for sale.

"Since coming to Woodstock I have seen thirty or more cheese factories go out of business in this immediate district said Mr. Johnston, and he added that in the part of Western Ontario through which he travels he knows of more than two hundred factories which have ceased manufacturing cheese. Lately the condensers have been paying a little more than the cheese factories, and the result has been that they have been getting the milk.

"I have seen the time when several thousand boxes of cheese would be boarded each week at the Woodstock cheese board, whereas now there are only a few hundred offered. There was a time when hundreds of thousands of boxes of cheese would be stored in the county while at the present time I doubt if there is a total of ten thousand", he said. This decrease in the production of cheese is not by any means confined to Oxford County. It is a condition existent in other countries and districts as well, he asserted.

Physician--"Do you ever have any trouble with your stomach?"

Patient—"Yes, doctor, getting it comfortably full."

The Why? of Another Victory Loan

WHEN, on the morning of November 11th, 1918, the guns were hushed and glad tidings flashed across the world, there followed with the Nation's Prayer of Thanksgiving, one yearning query, which found echo in the faster beating hearts of wives, mothers, fathers, brothers, sisters and sweethearts. That query was, "How soon will our boy be home?" And, from France and Flanders, from Italy and Egypt, from Palestine and from far-off Siberia, there came an answering echo, "How soon, how soon, may we go home?"

CANADA caught the spirit of these longings, and at once resolved to satisfy them. It was an appalling task. Shipping was tragically scarce. The composition of the Army of Occupation had not then been settled. And other parts of the Empire as well as Canada were looking for the speedy return of their men.

THE problem was this. The half-million men that Canada had overseas had taken more than four years to transport to the field of battle. To bring them home in a few months was a gigantic undertaking—one to tax all Canada's ingenuity and resources. Canada solved the problem, but it meant crowding into a few short months, an expense for demobilization which it was impossible to foresee.

THEN, too, besides the sentimental aspect of the necessity for bringing the men home quickly the economic side could not be overlooked. That was, to transform efficiently and speedily the nation's army of fighters into a national army of workers.

✦ ✦ ✦ ✦ ✦

Need Divides Itself in Two Parts The answer to the question "Why does Canada need another Victory Loan?" divides itself into two parts. (a) To finish paying the expenses of demobilization, and the obligations we still owe to our soldiers. (b) To provide national working capital.

Obligations to Soldiers The obligations to soldiers include:
That already incurred cost of bringing home troops from overseas.
The payment of all soldiers still undemobilized. This includes more than 20,000 sick and wounded who are still in hospital, and who of course remain on the Army payroll till discharged.
The upkeep of hospitals, and their medical and nursing staffs, until the need for them is ended.
These three items alone will use up at least $200,000,000 of the Victory Loan 1919.

Gratuities There is also the gratuity which has been authorized, and has been and is being paid to assist soldiers to tide over the period between discharge and their re-adjustment to civil life. For this purpose alone, $61,000,000 must be provided out of the Victory Loan 1919, in addition to the $59,000,000 already paid out of the proceeds of the Victory Loan 1918.

Land Settlement Furthermore, soldiers who desire to become farmers may, under the Soldiers' Land Settlement Act, be loaned money by Canada with which to purchase land, stock and implements. The money so advanced will be paid back; meantime each loan is secured by a first mortgage Up to August 15th, 29,495 soldiers had applied for land under the terms of this Act; and 22,281 applications had been investigated, and the qualifications of the applicant approved. For this purpose Canada this year requires $24,000,000.

Vocational Training For this work which, with the Vocational Training and Soldiers' Service Departments, embraces the major activities of the Department of Soldiers' Civil Re-establishment, an appropriation of $57,000,000 is necessary.

These national expenditures are war expenses. They will be accepted readily by every citizen who gives thought to the task which Canada faced following the Armistice, and to the success with which she has met it.

National Working Capital Canada needs national working capital, so that she may be able to sell on credit to Great Britain and our Allies the products of our farms, forests, fisheries, mines and factories.
You may ask "Why sell to them if they can't pay cash?" The answer is, "Their orders are absolutely essential to the continuance of our agricultural and industrial prosperity."
The magnitude of these orders and the amount of employment thus created, will depend upon the success of the Victory Loan 1919.

The "Why" of Credit Loans Farmers and manufacturers (and that includes the workers on these orders) must be paid cash for their products. Therefore, Canada must borrow money from her citizens to give credit, temporarily, to Great Britain and our Allies. Actually, no money will pass out of Canada. If Canada does not give credit, other countries will; and they will get the trade, and have the employment that should be ours, to distribute amongst their workers. And remember, we absolutely need these orders to maintain employment. If we don't finance them business will feel the depression, employment will not be as plentiful, and conditions everywhere will be adversely affected.

For Transportation Money must also be available to carry on the nation's shipbuilding programme, and other transportation development work.
For loans to Provincial Housing Commissions who are building moderate priced houses.
These, then, are some of the things for which Canada needs national working capital. She is in the position of a great trading company, and her citizens who buy Victory Bonds are the shareholders.

Those who give thought to our outstanding obligations to soldiers, and to our need for national working capital, cannot fail to be impressed with the absolute necessity for the

Victory Loan 1919

"Every Dollar Spent in Canada"

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada.

602

Start the Poultry Year Right

(Experimental Farms Note.)

The poultry year should begin November 1st. At that time the old stock should be culled out, the cockerels divided from the pullets and the pullets selected from the flock and put into winter quarters.

Don't Keep Old Hens. Only the best of those hens that are one and a half years old should be kept. Most of them with all the older ones should have been disposed of last spring but in case this was not done do away with them now. Even if they were culled then, go over them again now and see that nothing that will not likely produce is retained.

Cull the Early Moulters. In selecting the hens that you intend to keep do not take those birds that are looking clean and well feathered but rather those that are more or less shaggy in appearance The ones that are still moulting, they are the layers; those that have moulted and have a nice new coat of feathers were not persistent layers. They quit laying too soon and had nothing to do but grow feathers. This explains why they have their new coat before their more industrious sisters.

Early Pullets Best. Select as winter layers, the early, well-matured pullets. These should be carefully handled, put into into their own house, fed well and given every opportunity to produce.

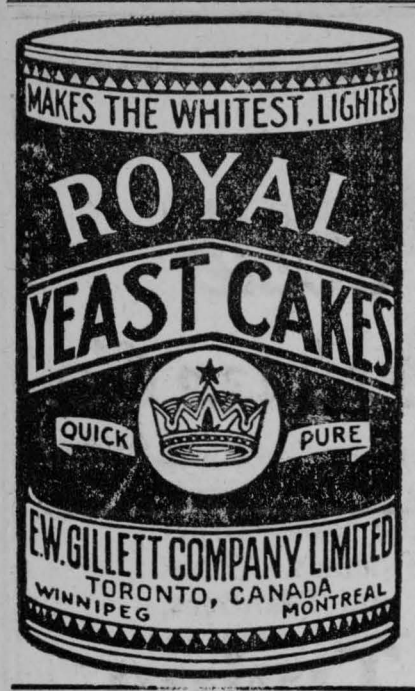

Pullets that are but half grown or that will not be matured for months yet should be culled out with the cockerels, crate fed and marketed. Such pullets will be a bill of expense all winter and should not be kept on any excuse.

Crate Feed Surplus. No matter what class of birds that are culled out for market, it will pay to finish them before killing. Even with the high prices of feed one cannot afford to market poor stuff. For further particulars on crate feeding write the Poultry Division, Experimental Farm, Ottawa.

Keep Accounts. We suggest that every person who wants to make his poultry pay begin at once to keep track of receipts and expenditure. To assist in this, blanks have been prepared by the Poultry Division, Experimental Farm, Ottawa which will be sent on application to those who will promise to return each month a copy filled in. Those complying will receive suggestions on how to improve their results, based on the information given in their reports.

F. C. Elford, Dominion Poultry Husbandman
Central Experimental Farm, Ottawa.

"Mother, am I really the image of you or was that lady that called on you just tryin' to hurt my feelings?"

BERWICK

(Too late for last week.)

Mr. Herbert Bogart of Tupper Lake, was the guest of his parental home on Thursday.

Ford cars are very handy, especially when tobacco is scarce. "Eh, boys?"

Mr. Smarte: "She has a very difficult part in the new play". His wife; "Difficult? Why, she doesn't say a word!" Mr. Smarte; "Well, isn't that difficult for a woman?"

A Great "Remover"

It has been acknowledged as a well known fact that alcohol removes gr ss stains from summer clothes. It will do more. It will also remove summer clothes spring and winter clothes, not only from the man who drinks it but also from his wife and children. It will remove household furniture from the house and eatables from the pantry: the smiles from the face of his wife, and the happiness from his home. As a remover of things alcohol has few equals.

When Summer Time Ends.

Summer time will be discontinued in the United States at 2 a. m. on the last Sunday of October, the clocks being turned back one hour at that time. Trains on Canadian railways will run on the summer time up to this date in order to be in unison with train time in the U. S. To make it more convenient for the pupils of schools in towns a number of towns are going back to standard time before the change at the end of October.

James; 'What is it that flies through the air and has four legs?" Charles; "What?" James: "Two wild ducks".

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

When My Baby Smiles

WHEN that slow, sweet smile spreads over my baby's plump little face and his bright eyes almost disappear in one tremendous chuckle, I am the happiest woman alive.

Because I know, you see, that a baby only smiles like that when he is well—when his little stomach is digesting his food perfectly, when he is on the happy way to health.

I can hardly believe he is the same baby who used to have so much trouble with the curds of milk all through those long weary days when I first found I couldn't nurse him.

We knew he had to have milk in some form—and I bless the day when we found that Nestlé's Milk Food is better for a baby's stomach and easier to digest than any other form of milk.

You see, in Nestlé's the tough milk curds are broken up and made easier to digest. Then they add cereal and sugar—so when you add water and boil you have everything your baby needs for healthy growth.

I know the Nestlé Company will be glad to help you as they helped me if you will fill out and send the coupon below. They will send you free, enough Nestlé's Food for twelve feedings and a Mother's Book by specialists on how to take care of your baby. They want your baby to smile, too!

Nestlé's is pure milk in powder form that is already modified and does not require the further addition of milk. Always pure and safe, always uniform, and free from the dangers of home modification, Nestlé's has stood the test of three generations and *has today the largest sale of any baby food in the world.*

FREE! Enough Nestlé's for 12 feedings. Send the coupon!

In the Midst of Life

So frequently a man meets with death when apparently in health and looking forward to years of activity.

The income stops. His affairs disclose no resources whice will carry on the home and keep his widow and children.

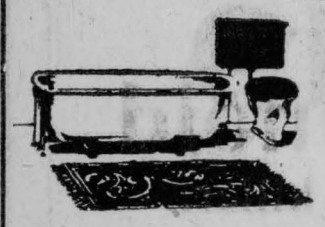

In a case like this a policy in the Sun Life Assurance Co. of Canada, will promptly meet the financial necessities.

Full information of the various plans will be gladly given by

E. B. LYNCH

City Conveniences for the Farm

A Toronto Windmill makes it possible to enjoy on the farm, the city's greatest convenience—running water. With a Toronto double-gear Windmill supplying power and a Toronto Pump and Water System you can have water from taps in the stables—anywhere in the barn. In the house it is possible to have a hot water tank, supplying hot water to the bathroom, also made possible by the Toronto Windmill and Toronto Pump and Water Service.

Write to-day for our free booklets, telling all about these farm necessities. Once installed you will wonder how you ever did without a Toronto Windmill and accessories.

Comradeship

Admiral Sir David Beatty

ADMIRAL Sir David Beatty, when speaking at Leicester a few days ago, said:—

"We have been through four and a half years of a great struggle. We have all learned something—the true value of comradeship. Comradeship has enabled us to win the war."

Realizing the significance and truth of this statement the Citizens' Liberty League appeals to the people of this Province to develop the spirit of comradeship, mutual forbearance, toleration and sympathy. Let us be fair-minded, less rigid, more reasonable, and more willing to give and take.

Samuel Gompers

The workingmen of Ontario appeal for better beer—non-intoxicating beer—beer containing 2.51% alcohol by weight—THE BEER OF THE BALLOT.

Samuel Gompers, the world's greatest labor leader, stated the workingman's position clearly when he said:

"The normal men, the men of Labor who work eight hours a day and no more, the workmen who earn decent pay, the workmen who have comparatively comfortable homes, they do not want the artificial spirit. The man of normal spirit finds comfort in pleasant surroundings; he does not need, and, as a rule, does not partake of intoxicating drinks; he shuns the effects of intoxicants. What we now ask is that the men of Labor, the masses of our people, shall have the opportunity to drink a glass of beer of not more than 2¼% by weight of alcohol in that beer, and I am told you cannot drink enough of that character of beer to get drunk even if you tried."

Scientific tests, practical experiments and thorough research prove that beer of even greater strength than 2.51% of alcohol by weight, is absolutely non-intoxicating. (The results of these tests have been filed with the United States Circuit Court of Appeals).

As no harmful results can possibly come from drinking beer of this quality—is there any fair or logical reason why the working men should not have the more palatable beer for which they are asking—THE BEER OF THE BALLOT?

Support the working men and the Citizens' Liberty League in the endeavor to obtain a fair, just and reasonable compromise on the present too drastic prohibitory legislation.

Vote "YES" to all Four Questions

Mark your ballot with an X. Any other markings will spoil it. Remember also—every voter must vote on every question or his ballot will be spoiled.

U. F. O. For Prohibition

Having been informed that a report is being circulated throughout the County that the farmers' platform is opposed to prohibition. I take this opportunity of placing before the public the stand taken on this subject by the United Farmers of Ontario, and also by the Canadian Council of Agriculture which represents the different farmers' organizations of the Dominion. The Canadian Council of Agriculture adopted a resolution recommending the prohibition of the manufacture, importation and sale of intoxicating liquor as a beverage in Canada.

One of the planks in the platform of the United Farmers of Ontario as officially stated is as follows;—"To enact and enforce such prohibitory legislation against the liquor traffic as the people may sanction in the approaching referendum and as lies within the power of the Province. Prohibition is an integral part of the Farmers' Platform and the U.F.O. will use its influence in that direction." Thomas Houlehan.

U.F.O. Director for Dundas.
