REV. DR. MAVETY AND THREE FRIENDS ARE INSTANTLY KILLED

In crossing the Grand Trunk Railway tracks at Vars at about 10.45 Monday night, a motor car in which five persons were riding was struck by the Montreal-Ottawa express, and four of the occupants one of whom was Rev. Dr. John E. Mavety, of 547 Wellington street, pastor of Ottawa West Methodist Church, Ottawa, was instantly killed.

The fifth was mortally injured, and died shortly after being admitted to an Ottawa hospital. The bodies were horribly mangled, and Mrs. Orr was carried a considerable distance on the engine pilot. The auto was smashed to matchwood and thrown to the side of the track.

The party were returning to Carlsbad Springs from a Methodist anniversary service held at Vars, Rev. Mr. Mavety had been one of the speakers at the assembly. Mr. John Orr was driving the car, and on reaching the crossing it is thought he did not hear the whistle of the rapidly approaching express. The auto had just come astride the tracks when the express, travelling about fifty miles an hour, crashed into the automobile, tearing it to pieces as though it was made of paper and instantly killing four of the five occupants.

The impact was so severe that the bodies were mangled, and one, that of Mrs. Orr, became entangled in the engine pilot, and was carried some distance until the train was brought to a standstill.

The railway crossing at Vars is on the main street and it is stated that there is not a complete view of the tracks. The main street crosses the railway at a place that must be traversed cautiously.

After the meeting at Vars, Mr. Orr and his guests started for Carlsbad Springs. There was apparently no warning of the approach of the Montreal flyer, which passed Vars at a terrific speed, and it crashed into the auto. The force of the blow was heard a considerable distance and assistance from many quarters was soon at hand.

When the train came to a halt, the body of Mrs. Orr was dislodged and Mr. Orr was placed in the train, which speed to the Capital, with the dying man.

Dr. Greenlees, the physician at Vars, was absent from the town when the fatality occurred and there was no assistance to be procured in the vicinity.

When the train which is due at Central Station Ottawa at 11.15, reached Ottawa, an ambulance was awaiting and Mr. Orr was taken to St. Luke's hospital. His death followed very shortly afterwards.

At a late hour, Mrs. Mavety, who is suffering from the shock of the death of her son in France, had not been informed of the fatality. Mrs. Mavety has been in very poor health during the past year and it was feared the new shock would prove fatal.

(Dr. Mavety is well-known throughout this district, and Mrs. Orr one of the other victims is a sister of Mrs. G. C. York, of Morewood.)

Dynamiters Make a Call

With the Montreal dynamiters still at large one of the most frequent questions this week is as to the latest news of them. A party returning late to town from Cornwall fair in an auto thought they must be rather under suspicion as when they were coming up along the river they were stopped two or three times by the Canal Guard to give an account of themselves. A story is also told of the desperadors making a midnight call at the home of George Lavis near Aultsville' and demanding a meal which was provided. After the meal was disposed of a demand was made for what money might be in the house, but when they did not get any they gathered all the food left on the table and made off.

In Carleton Place it was found that the cost of oiling High street was three cents per square yard—about half the cost of tarvia.

Eastern Conference at Willamsburg.

The Eastern Conference of the Evangelical Lutheran Synod of Central Canada celebrated the 400th Anniversary of the Protestant Reformation in St. Peter's Church, Williamsburg, on Sept, 5th. The Conference comprises all the English Lutheran churches east of Kingston including the Province of Que. All the congregations in the Confrence were represented.

The exercises were opened with devotinal services at 11 a.m. The Rev. Ph. Lamertine of Montreal, preached the sermon on the theme: "Spiritual Freedom through the Open Bible."

In the afternoon the Rev. F. A. Bowers of Philadalphia, Pa: spoke on:-"The Reformation and our Modern Liberties." He traced the history of the Christian Church from the time of the Apostles through the Dark Age to the Reformation, He showed the marked contrast of the state of the world before and after the Reformation. Rev. C. K. Fegley of Allentown, Pa. spoke on the "Jubilee Fund." It is proposed to raise $400,000 as a thankoffering. The money will be equally divided among the various missionary and educational schemes of the church. Oct. 7th has been designated as the day when the offering will be taken.

A most appropriate closing of the day's exercises was the address by the Rev. McKeun of Brazil, S.A. Rev. McKeun is a native of Glengary. He has spent 23 years in Brazil, S. A. as a missionary of the Congragational Church. His thrilling words moved the entire audience to a fuller understanding and a better apprecation of the Reformation Movement begun in the 16th Century.

SAFE AND SOUND

An opportunity which is not likely to occur again of purchasing village lots is presented in our advertising columns by W. H. Casselman. To anyone wishing to build their home in Chesterville it should appeal very strongly, and the demand for dwellings is such here now that from an investment standpoint there does not appear to be anything safer or that will pay better dividends.

Thanks Berwick Women's Institute

France, June 27 '17

Dear Mrs. Hutt:—

I beg to thank the Women's Institute of Berwick, through you for the parcel which I received this evening.

Also to send the thanks of the boys who shared it with me for the socks and many other things the Women's Institute have done for them while in France.

It was a very welcome and useful parcel. It seems to assure us that we are winning.

You undoubtedly remember Oliver McMartin of Finch. He has been out west for sometime. He is with me in the 1st Canadian M. G. Coy. and wishes me to remember him to Berwick friends when I write. Also wishes to thank the Institute for the pair of socks which he received. Thanking you very much for the parcel. I remain very respectfully yours.

J. M. Hunt.

Meldrum—Manders

The Methodist church, Maberly, was the scene of a pretty event on Wednesday evening last, the 26th of August, when Miss Elizabeth Mabel the second eldest daughter of Mr, and Mrs. John Manders, of Maberly, was united in marriage to Mr. Thomas Metzler Melrum of Berwick, and son of Mr. George Meldrum, Berwick, Ont. At 8 o'clock to the strains of the wedding march, played by the sister of the bride, Miss Edna, the charming bride entered the church on the arm of her father, who gave her away, and took her place at the altar in front of a bank of flowers and ferns artistically arranged. The bride was dressed in crepe de chene with pearl trimmings, and carried a bouquet of bridal roses and maidenhair fern. The bride and groom were unattended, and the marriage was performed by Rev. T. B. Moody, assisted by Rev. C. W. Hollingsworth, of Kingston Mills, brother-in-law of the groom. The guests numbered fifty, being the immediate relatives of bride and groom, and came from Montreal, Berwick, Manotick, Smiths Falls, Kilmarnock, Kingston Mills, Trenton, Fermoy and Cole Lake. The groom's gift to the bride was a pearl necklace set in platinum, and to the organist he gave a pearl brooch. The groom is a popular young merchant of Maberly, and his many friends congratulate him on the happy event. Supper was served at the bride's home by Misses Edna and Bertha Manders, Miss Mildred Maitland and Miss Ethel Korry. The bride and groom left on the midnight train on their wedding trip to Toronto and Niagara. The bride travelled in a suit of blue serge, with picture hat of white satin. On their return they will reside at Maberly.—Perth Expositor.

Getting Even

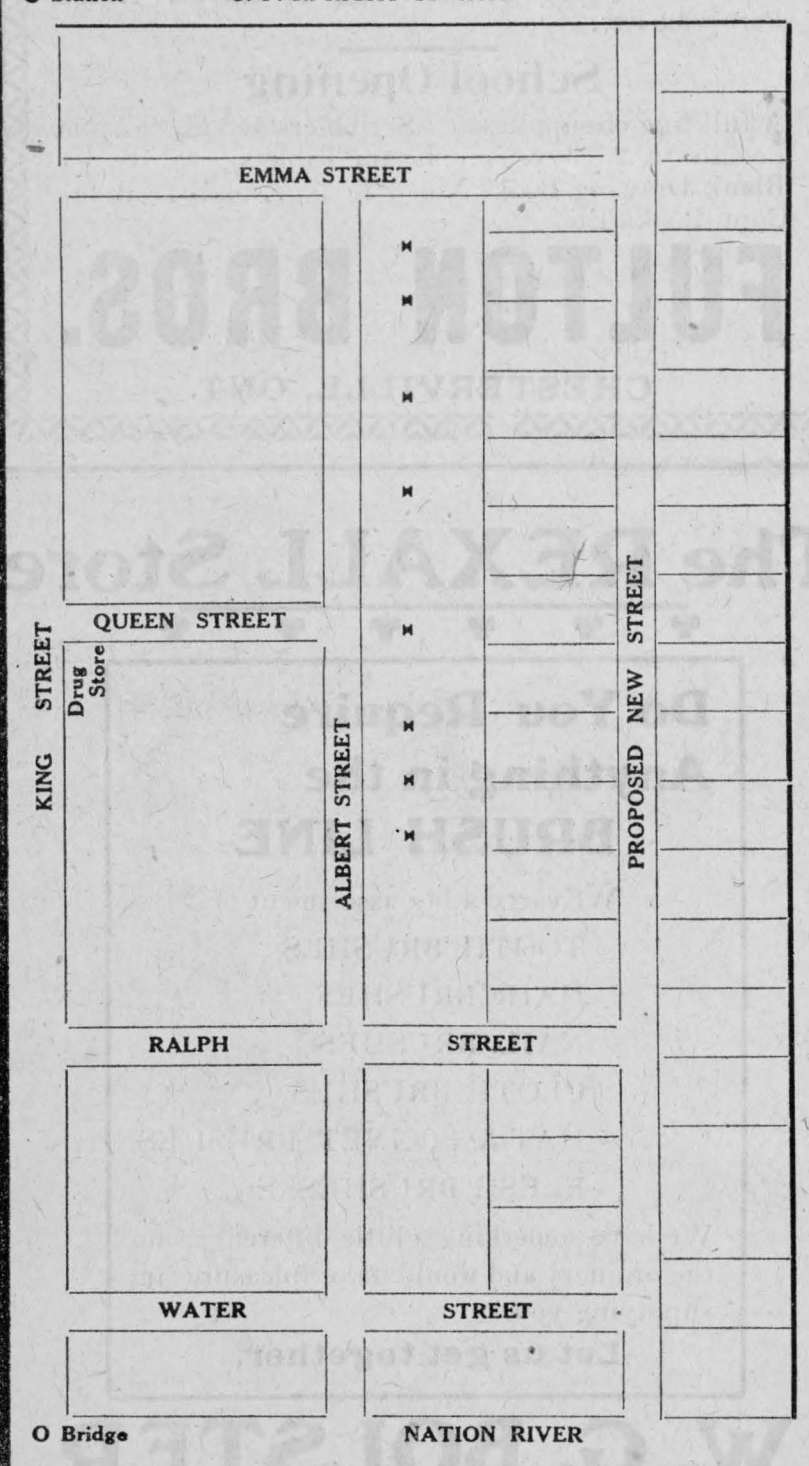

Here is a story our wounded boys have brought back from the front about Sir Douglas Haig:

Sir Douglas was, some few weeks ago, in a great hurry to get to a certain place. He found his car, but the chauffeur was missing. So Sir Douglas got in the car and drove off by himself. Then the driver appeared and saw the car dsappearing in the distance.

"Great Scot!" cried the driver, "there's 'Aig a-driving my car!"

"Well, get even with him," said a Tommy standing by; "go and fight one of 'is battles for him."

CHOICE BUILDING LOTS OFFERED IN CHESTERVILLE

The above diagram indicates, approximately, a proposed new street to be laid out in the east side of the Village of Chesterville, which would give access to a double row of ½-acre lots. There is no other location in Chesterville where a new street could be opened up so close to the business centre and yet far enough from the noise and dust of our busy little town. The opportunities for drainage are perfect, as there is a fall of seven feet from the railway to the river.

The land where this new section may be opened is already well underdrained and it is composed of the very best soil for garden purposes.

The new street would parallel King and Albert streets and intersect Emma, Ralph and Water streets and a residence on it would be within a few minutes walk of the C.P.R. station, Post Office, Condensery, banks, churches, business places and schools

The price for the first ten lots will be $200 each and the first purchasers have choice of location.

The Society is very grateful to the friends who have in anyway assisted in this great work, but we would like to remind everyone that the need just now is greater than it ever was before. Our boys are laying down their lives for our comfort, for the welfare of our country, can we not then work a little longer, give a little more so that when these terrible days are over each one of us can feel that we have done a little towards bringing about the liberty of the world.

Light Four Touring

Canada's Choice

Few of the highways and byways in the Dominion are strangers to the Overland Light Four touring car.

The popular demand for this model has made it a familiar sight from Nova Scotia to British Columbia.

And its popularity is growing greater every day.

For it has the style and beauty usually found only in cars selling for a much higher figure.

Moreover, it is dependable — a real family car, one that will carry five people in comfort and safety.

The motor is powerful, quiet and of sturdy construction.

Soft cushions, long resilient cantilever rear springs and large four inch tires absorb practically all jolts and jars of the road.

Drop in and see this car. Let us show you real four cylinder performance. A demonstration will convince you as it has thousands of others.

THE APPLEFORD COUNTER CHECK BOOKS

Look over yonr stock, and if you are nearly out drop in and see us, or use the telephone and we will send a representative. Prices on automatic check books are likely to rise on account of scarcity of materials caused by the war, so it will be wise to order now even if you are not needing a new supply immediately.

Don't boast.

Don't boast about what you have done;
Nor wear old laurel on your brow.
The thing that counts in life, my son,
Is only what you're doing now.

PHOSPHONOL FOR MEN. Restores Vim and Vitality; for Nerve and Brain; increases "grey matter"; a Tonic—will build you up. $3 a box, or two for $5, at drug stores, or by mail on receipt of price. THE SCOBELL DRUG Co., St Catharines, Ontario.

School Shoes & School Clothes

The boy who is clothed and shod satisfactorily at this store to-day will shortly be a man and it is the man's trade we want eventually.
School Shoes require to be of the best material to stand the wear and tear that they get, but the makers are tempted and some of them fall to making them of the spongy, scrappy stock.
But not for us, thank you.
We know these shoes and know they will give the most wear for the least money, not only for the boys but the School Girls as well.
Boys' Clothes get the same attention and we are well fixed to fit your boy for either High or Public School.

OBITUARY
Mrs. Mary Lafleur

On Saturday morning last at the advanced age of four score and one years, there passed away at the home of her daughter Mrs. John Sorrell in this place, Mary Lafleur, widow of the late Alexander Lafleur who died about two and a half years ago in Wiscousin. The deceased was a victim of cancer and although everything possible was done to alleviate her suffering it brought her life to a close, her last moments being attended by her daughters Mrs. Dan Thompson and Mrs. Jno. Sorrell. The funeral took place on Sunday after a short services at the home by Rev. H. E. Warren, to Finch Presbyterian Church where service was conducted by Rev. Mr. Stewart, interment being made in Finch Cemetery.

She is survived by three sons and four daughters—William and R. J. of Ottawa; Dan of Wisconsin: Mrs. Thompson, Cornwall, Mrs. May and Mrs. King of Wisconsin and Mrs. Sorrell of Chesterville, those from Wisconsin being unable to attend the funeral.

Flowers were received—a wreath from sons William and R. J. Lafleur; wreath, Mr. and Mrs. Jno. Sorrell, wreath, Mrs. Jesmer, Cornwall and a spray from Mr. and Mrs. Edge of Ottawa. The Church at Finch also had many beautiful flowers showing the esteem in which the deceased was held.

Earle McDermid Glad to Get Socks

Somewhere in France,
June 5th 1917

Dear Mrs. Hutt;—

I received a parcel of socks etc., from Mrs. Robinson and there were a few addresses. Among them was yours, which I appreciated very much. Have you had any word from Wilfred lately? Poor Billie Alguire was killed in action. Wilfred was lucky to get only wounded. I saw Cecil Ouderkirk here. He is in the 4th C. M. R's. We are having extremely hot weather here now. I suppose every thing looks lovely in Canada now. Today is the hottest we have had yet. How are all the folks? Remember me to all. I haven't much to say now, but will write again later. Hoping to hear from you soon, I remain your friend, Pte. E. McDermid, B Co., 6 Platoon, 633837, 58th Batt. France.

Gave Socks to the Berwick Boys Somewhere in France

June 27, 1917

Dear Mrs. Hutt; -

Received your box of socks the other day and was more than glad to get them. I gave them to to the boys around home as many as I could see. They were greatly delighted to get them. I also had the pleasure of meeting Lorne and Delbert Hutt and I see them every day now. They are looking fine and like it over here. I did not get a chance to see Wilfred I would liked to have seen him.

Simon Ouderkirk was reported killed but I was talking to him a couple of weeks ago. It is too bad for poor Willie Alguire.

Tell Mr. Hutt he should have been here to see our horse races the last while back. He certainly would have enjoyed them.

Well, Mrs. Hutt as news is scarce I must close. The boys all join in sending their sincere thanks for not forgetting them. I remain yours sincerely J. McMartin 633531 A Co. 21 Batt. C. E. F. France.

CRYSLER.

It is German Rule or British Rule in Canada! Which shall it be?

Dr. and Mrs. W. E. Crain are holidaying in Toronto and other places. The Dr. has secured the services of Dr. Doyle of Alaska who will continue his practice while away.

Miss Cassie Montgomery of the Telephone and P. O. Dept. has taken leave of a few well earned holidays.

Miss Jessie Dey of Cornwall spent the week-end in town.

Mr. J. V. Stanley of Mount Brydges, manager of the Union Bank here in the past, is renewing acquaintances in town.

Mrs. John Brown of Antwerp, N. Y., is a guest at the Montgomery home.

Miss Ruth Upper of Cornwall, is the guest of her cousin Miss Katie Wert.

Mrs. H. LePine and little daughter Edith returned to Montreal the past week after spending the summer months with the former's husband here. Before leaving for the city Mrs. LePine in showing her appreciation of the continued good work of the Red Cross donated a gold bracelet to the society, value ten dollars and on which a neat sum might be realized.

School has reopened again with Miss Duff of Berwick as teacher.

The cry from our brave men now at the front is "more socks and still more". Mrs. M. Coons of town, beside working for our society here has just received a letter from the Ottawa Branch stating "we are very grateful to you for another lot of beautiful white socks. Please accept our thanks." During the year from Sept. 1916 until Sept. 1917, Mrs. Coons and daughter Jessie have knit eighty-six pairs themselves, and in all have sent in one hundred and ninety-five pairs during the year, the balance being knit for Mrs. Coons by other willing hands and she asks them to accept her thanks.

We were somewhat taken by surprise recently when it was learned that Dr. J. C. Gormley had sold his property and practice in town to Dr. Le Gault of Quebec, and intends moving to Ottawa. In losing the Doctor, Crysler not only loses a citizen of great prominence and importance but one who was prized on the part of the people.

"Why don't you look where you are going?" said one.

"I was just going to say the same," said the other, "for you made my head ring."

"Your head ring?"

"Yes."

"That shows it's empty."

"Didn't your head ring?" said the other.

"No," was the reply.

"Then that shows it's cracked."

Bees Fly Faster than Pigeons

It is not generally known that bees are swifter in flight than pigeons—that is, for short distances. Some years ago a pigeon fancier of Hamme, Westphalia, laid a wager that a dozen bees liberated three miles from their hives would reach home in less time than a dozen pigeons. The competitors were given wing at Rybern a village nearly a league from Hamme, and the first bee reached the hive a quarter of a minute before the first pigeon. Three other bees reached the goal before the second pigeon. The bees were all slightly handicapped, having been rolled in flour before starting for purpose of identification.

BRITAIN NEEDS MONEY TO BUY CANADIAN GOODS

Sir Thomas White is taking active steps to increase the large credits which the Finance Department has already established for the Imperial treasury, to be availed of for the purchase of munitions, cheese, bacon and other Canadian food products. Exchange conditions between Great Britsin and America are now such that Great Britain's capacity to purchase munitions and our manufactured food products is measured by the amount of money which can be loaned the Imperial treasury by Canada for this purpose.

The question concerns not only the pressing need of Great Britaln for these products, but the commercial and industrial welfare of Canada as well, as Great Britain has been the great export market for our cheese, bacon and other foodstuffs, and the trade in these commodities has been built up only after years of untiring effort and the expenditure of much private and public money. The prosperity of our agricultural interestr, particularly the live stock and dairying industries, is immediately involved, as our cheese and meat products have practically no export market save Great Britain. The fact that the Canadian farmer is able to sell his cheese to the Imperial Cheese Commission is due directly to the fact that the Minister of Finance in July last provided a credit of forty million dollars, from which the purchases of this cheese are being made. Without this credit the Canadian farmer could not have found a market.

At present the Dominion Treasury is furnishing over twenty-five million dollars per month to the Imperial Treasury to pay for munitions, ships, rolling stock and other material under order in Canada and, in addition, will supply during July August, September and October fifty million dollars for the purchase of cheese and other products purchased for the War Office by the Department of Agriculture.

The Dominion Government will continue its advances of $25,000,000 a month for the purchase of munitions.

It was to provide these needed credits to the Imperial treasury and to furnish money to purchase the and other products that the minister made the recent $100,000,000 note issue in New York on which a high rate of interest and commission had to be faced in order that Canada's products might find a market and British needs for shells, cheese and other products might be met.

Up to date the Dominion treasury has since the outbreak of the war financed the Imperal treasury in cash and securities to a total amount of $450,000,000. On the other hand the Imperial treasury has financed Canada in connection with maintenance of our forces in Great Britain and on the continent to a total of about $250,000,000

The question of establishing further credits to enable Great Britain to purchase more Canadian foodstuffs is now engaging the attention of the minister. It is undoubtedly one of the most important questions in Canada today. It can be successfully met if the people of Canada will save their money and invest in Dominion War Loan issues. The minister is now about to organize for the next of these issues, which is to be made in November. A nation-wide effort will be put forth to obtain 150,000 or more subscribers. The minister is asking a committee of the Canadian Press Association to co-operate with him in developing the publicity campaign. This will start next month. The success of the loan will ensure credits from which Canada's food products and munition output can be financed and the present prosperity of the Dominion maintained.

Shoe Linings

One result of the war may be that it will do away with linings in shoes, All of the European armies have shoes without linings, and the new service shoe of the United States is made in that way. Not only does it save expense in material and work, but it really makes a better shoe—more sanitary and more comfortand much less likely to cause blist-ining in a shoe is as useless as a straw hat.

Save Seed Potatoes

On account of the uncertainty of the potato market, farmers would be wise at this time to benefit by the experience of last year and plan to select good seed and save enough for their own use next year. Last year when potatoes reached what was considered the crest of the wave of high prices many sold their stock seed, expecting that spuds would take a drop in price and they could then profit by buying in seed for less than they got for their stock seed. They considered this good business.

However, the "dope" went wrong Contrary to the view of many, the market did not ease off, and potatoes, instead of dropping, except for a week or two at Christmas time, when they dropped from round $1.75 to $1.50 kept on climbing consistently.

The result was that some farmers who sold for $1.75 had to pay anywhere from three to four dollars and more for seed—and it was questionable seed at that. There was even difficulty in securing seed at that price. Much of the seed that has gone into the ground this year has been very poor and of uncertain quality. No doubt it will be responsible for some disappointing crops.

Farmers should plan to grow their own seed. Upon the seed depends to a large extent the size and quality of the crop, provided. of course, the season is favourable and other conditions are equal. With the best of cultural care, poor seed will limit the production of a good crop.

Seed as good as the average farmer can grow himself, suited to his own local conditions, cannot be purchased, Particularly at this time, when potatoes are bringing such high prices, there is a tendency to sell all the good strong stock and to save the poor for seed. You take a chance on getting that kind of seed when you buy it.

In saving seed keep the best. Do not do as many farmers were tempted to do last year—sell the best stock and keep the poorest. Potatoes for seed should be saved separately and should be selected from individual hills. This selection should be made at the time the potatoes are being dug, Potato plants differ in their productive powers, some being more productive than others, and they are capable of transmitting this most excellent characteristic to the next generation.

Selection of large potatoes from the pile when you are sorting them for market does not profit much in increasing the yield. It tells you nothing about the hill, and for all you know the ones you pick have been the only decent potatoes in their hills. By saving this seed you may be selecting to reduce your yield rather than to increase. It is not the size of the potato that makes it the best for seed. Small potatoes from high-yielding hills are better for seed purposes, if of strong vitality, than large potatoes taken from non-productive hills.

"Jim" Cornwall

The Canadian soldiers from the Province of Alberta who are serving in France are to have an election all of their own. They have to choose two members to represent them in the provincial Parliament, and already there are twenty-one candidates literally "in the field." One of them is a nurse, Lieutenant Roberta Catherine MacAdams. Another is Lieut.-Colonel "Jim" Cornwall, known throughout Canada as "the Apostle of the North" because he was the first white man to discover the possibilities, natural and agricultural, of the North. Though nearing fifty, "Jim" Cornwall is a magnificent specimen of humanity, tall and sturdy, with determined blue eyes, and a strong and handsome face. He is as galvanic as an electric battery; possesses the physique of an ox and a brown fist which would fell one. Born at Brandon his first venture in life was as newsboy at Buffalo. He next became a sailor. He next became a sailor. He travelled all over Europe, the United States and South America. He speculated in wheat at Chicago during the boom in 1896, and in the same year began the construction of the Crow's Nest Railway, Alberta. Since then he has been a hunter, a trapper, a river-man, mall-carrier, a dog-driver a packer, and a few other odds and ends.

Looked the Price.

While driving to the city one morning a short time ago Cy Petlow met a neighboring farmer and they paused to talk over their crops, each patrioticallg endavouring to outdo the other. Then the subject changed and Cy said.

"Are you in the market for a good horse, Eb?"

"You know me, Cy— always ready for a dicker," replied Eb.

Well, here's the critter. She's as quiet as a lamb; any women could drive her andshe's yours at rock bottom price.

"Well, Cy," said Eb, as he gathered up his reins and prepared to drive on, "I'd buy her this morning, but I hate to bust a dollar.

THE CHIEF CHARM OF LOVELY WOMAN

Soft, Clear, Smooth Skin Comes With The Use Of "FRUIT-A-TIVES".

NORAH WATSON
86 Drayton Ave., Toronto.
Nov. 10th, 1915.

A beautiful complexion is a handsome woman's chief glory and the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only *the natural result of pure Blood.*

"I was troubled for a considerable time with a very *unpleasant, disfiguring Rash*, which covered my face and for which I used applications and remedies without relief. After using "Fruit-a-tives" for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without "Fruit-a-tives".

Next Warm Wave Due About September 22

Washsngton. D. C. Sept. 8,—Last bulletin gave forecasts of disturbance to cross continent Sept. 12 to 16, warm wave 11 to 15, cool wave 14 to 18. Killing frosts, in middle northern states and province east of Rockies, will precede this storm: then it will turn the trend of temperatures upward and they will continue, fluctuatingly, upward till near Sept, 27. The rising temperatures will prevent heavy rains generally, but Canada will get more wet than needed for late harvests. Force of the storms will be greater than usual and their centers will probably not come southward. There are some indications that a hurricane will organize east of Porto Rico near Sept 16. and come into sight of the U. S. Weather Bureau stations about four days later.

Next warm wave will reach Vancouver about Sept. 18 and temperatures will rise on all the Pacific slope. It will cross crest of Rockies by close of Sept. 19, plains sections 20, meridian 90, great lakes and Ohio valleys Sept. 21, eastern sections 22 reaching vicinity of Newfoundland about Sept. 23. Storm wave will follow about one day behind warm wave and cool wave about one day behind storm wave.

This will not be a great storm but of greater than usual intensity. Temperatures will average about normal and the trend will be upward, the previous storm averaging cooler than usual. The upward trend of temperatures will prevent heavy rains but the middle provinces of Canada and northern Pacific slope will get more than usual rain Frosts are expected about Sept. 17.

October will bring dangerous storms, particularly during weeks centering on 1. 17 and 30, but crop weather will be good and pastures will save much feed. Too much rain in Canada will interfere with threshing throughout September and October. The cotton plant will pass September 10 in better condition than near August 10, but frost will begin to take toll in October.

If clay soil, including blue clay, or hardpan, as the farmers call it, is plowed or dug deeply and a small amount of sand and vegetable mold, rotten wood or barnyard manure, well mixed with it, the crop yield will be doubled. This is one method of intensified farming.

That Was The Mystery

Two colored men bought a piece of pork in partnership, and Wash took charge of it. The next evening he led Cal aside at the poker club and said; "Strange thing done happen to mah house las' night. Hit shorely am a mystery to me." "What dat, Washin'ton?" "Dis mawnin', Cal, Ah goes down fo' ter git a piece o' hog fo' breakfus' an' dere hain't no hog dere. All gone. So Ah turns up de bar'l an', Cal, sho's preachin' de rats had et a hole froo de bottom o' de bar'l an' dragged out all de meats!' Cal at this news was frozen with astonishment for a moment, then he said; "How come de brine didn't run outen de hole?" "Why, yo' see, Cal," said Wash, scratching his head, "dat's de mystery."

Canadians in France Feel Sure of Victory.

London, Sept. 10.—Sir George Perley has just returned after a week in France, so he informed the Canadian Press to-day. "I spent two days with Canadian corps and was greatly pleased to find an atmosphere of cheerfulnees and optimism pervades all ranks. The appointment of a Canadian to command the corps is most popular. It is evident all are working well together. The success of the arrangements made in England to train our men well and send reinforcements promptly is thoroughly realized and appreciated by Canadian corps. All Canadian troops are members of one great organization, whose first duty is to keep up the strength of our divisions in France. All those on this side of the Atlantic are parts of one great whole overseas military force of Canada. One day the commander-in-chief inspected two Canadian divisions, which lately carried out a very successful offensive. Notwithstanding heavy fighting and bad weather these troops presented a splendid and soldierly appearance. They were in good spirits, ready for further exploits. We must all feel unstinted admiration and intense pride in their great achievements. The commander-in-chief expressed strong his appreciation for the courage and endurance of our troops. It is a wonderful thing for Canada to have such a fine army in the field onthe western front. We as a people had no thought of war, nor made preparations. To-day we have a Canadian corps commander who before the war was a civilian, now in command of four divisions of veteran troops, making history for Canada. They have shown themselves a match for the trained German regulars and equal to the best traditions of the British army. These men are fighting for the preservation of democratic institutions and individual liberty. Their action is proof of how dear these things are to Canadians. Surely our people at home will do whatever is necessary to keep these divisions up to strength. I wish those who doubt the wisdom of this could see conditions at the front and understand the wonderful spirit of our men. I also spent a day each with Railway Corps. Perhaps it is not appreciated what a large number of Canadians are in France. In these organizations they are doing work of great assistance to military efficiency. The results obtained are highly appreciated by the British and French authorites. A visit was paid to theCanadian base, where reinforcements were received, and several of our hospitals, where Canadian doctors and nurses are doing splendid work. We can all certainly all be proud of what they have done."

Potatoes 50c a Bushel at Prescott

The Prescott Tribune says—"Saturday morning the town will sell on the market square a small quantity—possibly fifteen bushels—of potatoes grown by the municipality, and will continue to do so weekly for a time at least. These potatoes will not be sold to the stores, and in order to reach those for whom they were originally intended the price is fixed at 50c per bushel. They are of an excellent grade. The crop is large and the outcome of the new municipal experiment will be viewed, here and elsewhere, with interest."

A Friend In Need.

One day, at an Irish seaport, a terrible fight was taking place on the pier between a Newfoundland dog and mastiff, when suddenly both fell into the sea below. The Newfoundland, of course, did not mind this mishap and at once swam to the shore without any difficulty. As soon as he landed, he looked around and saw the mastiff, who could not swim being quickly carried out to sea. The noble dog, instead of rejoicing over his enemy's misfortune, plunged into the water, took the drowning creature by the collar, and keeping his head above water, towed him safely to shore. After this the dogs were known to be the best of friends and never to quarrel again.

Vision Your Sons, Mothers of Canada!

Vision them at early morning when through the rising mists, there bursts a hurricane of fire---

See your valiant boys---calm, grim, but cheerful, "stand-to-arms" until the Hun's "morning hate" dies away.

Picture them at breakfast, the meal that must bring them the bodily sustenance to carry them through the strain of another day.

Then think what might happen if, one morning, there was no breakfast ---no food, and word went down the lines that Canada had failed them.

Vision all these things, and then--- as Women of Canada --- Mothers of Men---Answer this Call to Service.

Canada must send to Her Own, and to the Allies Fighting Forces, more wheat, more beef, more bacon, and more of such other foods as are non-perishable and easily exported.

Canada can do this without depriving her own population of a fair share of any of these foods if You Women will but help.

All we ask of you is, that instead of buying so much white flour (if you do your own baking) you vary your baking by using one-third oatmeal, corn, barley or rye flour. Or, if you buy your bread, that you order a certain proportion of brown bread each day.

Second, instead of using as much beef and bacon as formerly, you vary your family's diet, by substituting for beef and bacon such equally nutritious foods as fish, peas, lentils, potatoes, nuts, bananas, etc.

Third, and this is most important, ---positively prevent the waste of a single ounce of food in your household.

They Must Be Fed

Statistics show that, everyday, in Canada, sufficient food is thrown into garbage cans to feed the entire Canadian Overseas Army.

Travellers have often remarked that many a European family would live well upon the quantity and quality of food wasted in some Canadian homes.

Such waste is shameful at any time; but in these times it is criminal.

Our only hope is that with these truths before you, and in view of the vital issues at stake, we may count upon your earnest co-operation in stopping this appalling waste; and in substituting other foods for the wheat, beef and bacon that must be sent overseas.

Next week a Food Service Pledge and Window Card will be delivered to you. It is your Dedication to War Service. The Window Card is your Emblem of Honour.

Woman's Auxiliary, Organization of Resources Committee, in Co-operation with The Hon. W. J. Hanna, Food Controller.

Getting Early Winter Eggs

The high prices of eggs annually during November and December, or in other words the shortage of production during these months, has for many years been an interesting study. One is frequently asked why more eggs are not produced during these months. The answer is not very hard, for the reason that yearling hens seldom lay more than ten per cent. at this season, and pullets take from six to seven months to mature or begin laying. This means that Mayhatched chicks do not lay well until late December or early January. Hence there are but few birds in the Province that are ready to lay. Any person who is specializing in the poultry business will find it advantageous to hatch chicks in March and April. The results last year with Barred Plymouth Rocks show that during October, November and December, March-hatched pullets produced in the above months nearly thirty-seven eggs each, while May hatched pullets probably less than nine eggs each, or taking the eggs at forty cents a dozen the cash value would be $1.23 for March pullets; the April pullets 70c., and the May pullets 29c. each. These figures suggest that here is at least one season of the year where competition in the special grade of eggs is not likely to be serious. Where one depends upon natural incubation the large crop of chickens will not be hatched before May. The results for chickens reared in 1916 the results are relatively similar. The two years' work on dates of hatching suggest March 20th to April 20th as being the most profitable dates to hatch chicks for the following winter layers. Earlier birds moult a little and later ones do not produce as great a percentage.

Pay as You go

If everybody paid his debts almost every business in this country would be lucrative, and honest people would not have to pay so much for what they buy. If your grocer had no bad debts to look out for, he could content himself with smaller profits. More failures are due to the worthless credits which can never be realized upon.

Collection agencies alone get an idea of the vast number of people in this country who go through life living on the sweat of other people's brows.

The habit of not paying as you go increases with the practice. People think they must have what their neighbours have; they go recklessly in debt for it without reflecting that, perhaps their neighbours have larger incomes than they have. Once in debt they find it difficult to ertrench, and the business of debt-making is carried on until it grows impossible to pay what is due. Then people fall back on their good intentions; they would pay but for the fact that they have no money; they are "unfortunate;" luck has gone against them, etc.

It is a good practice for young people starting out in life to live upon a strictly cash basis. If you cannot pay for some extra conveniences, do not contract for it. If you have not enough money to buy clothes, don't buy them at all. Old clothes and self-respect are warmer and more comfortable than showy garments that are not paid for. In addition to this, it is well to bear in mind the good old maxim of Franklin that "nothing is cheap which you do not need."

Taking Time to Think It Over.

A Tragedy in Real Life

A Mutual Life insurance agent urged a certain man to sign an application for $5000 Insurance protection. The man replied—"Give me Sunday to think it over." Instead of thinking it over on Sunday, the young man went away on a motorcycle trip and, meeting with an accident, lost his life.

Leaving the signing of the application 48 hours cost his dependent relatives $5000, a sum which would have been a wonderful blessing to them.

Life is just as uncertain during the days of procrastination as later. Insure now, and do not make your family take chances for another day.

Mutual Life Policies afford protection at minimum cost. Nearly fifty thousand Canadian homes are protected by means of Mutual Policies.

Don't put off until to-morrow what should have been done the day before yesterday.

A Blockade

Considerable of a blockade was occasioned around the Condensery on Monday forenoon where milk wagons were lined up from the railroad to Pitcher's Corner. The trouble was caused by a breakdown in some part of the machinery so that milk could not be received as usual. Quite a number of loads were not taken off until well into the afternoon.

Ellis Pointer Wins Fourth Stake Race

As was anticipated by Chesterville people, at Ottawa Exhibition yesterday, Ellis Pointer won his fourth stake race of the season. Going up against new horses, in the first heat in the process of feeling out his opposition, Ellis Pointer took second place, but in the three following heats he led the bunch home in comparatively easy style.

Will Build Sixty Miles Next Year

The road committee of the United Counties of Stormont, Dundas and Glengarry held a meeting in Cornwall on Monday and decided to proceed at once with temporary improvements to the River Road, east and west of Cornwall from the neighborhood of Glenwalter to Moulinette. It was also decided to call for tenders for the permanent construction of 60 miles of road, 20 in each of the three counties, to be built next year. Tenders will be asked for a twelve foot road of water bound macadam and also tarvia. The tenders are to be opened at the October session of the Connties Council.

May Get Nova Scotia Apples

Though the Ontario apple crop is a failure in most sections this year, there is a great surplus in Nova Scotia and distribution will puzzle the growers there on account of the British embargo. President M. Cummings, of the Agricultural College at Truro, who was at the Toronto Exhibition said, when asked if the Nova Scotia crop could not be disposed of in Ontario. "It would take a train a day for 100 days to carry the fruit." So there is yet a chance of seeing a few apples this Winter in this part of the world, unless an unexpected demand developes in some new quarter.

Send in the News.

Every editor of a country newspaper likes to receive interesting news from his district. Everybody cannot write grammatically but the editor takes all kind of liberties with articles sent for publication. He will "fix up" your copy if you give him the facts. It is good practice for the young folk to write for the local paper—not mere bosh or gossip or gibes at some neighbor's boy who goes to seek another's girl. Such trifles may be subjects for conversation in social circles but not for publication in the family newspaper. The proper presentation of the important happenings of every section within reasonable distance of this town will find a welcome in the office of the Record. Send in what you think would be acceptable and if an item or two should not appear do not feel badly.

Military Service Tribunal.

The first step in the enforcement of the Military Service Act, was taken last week when 12 members of the tribunal for the United Counties of Stormont, Dundas and Glengarry were appointed by His Honor Judge O'Reilly

The three counties are divided into twelve districts for the sitting of the tribunal, there being two members on each tribunal, one appointed by the Senior Judge of the District, the other by Parliament. The latter appointments have not as yet been made; or if so they have not been made public. The men appointed are not restricted to any one point, but may sit at any of the 12 points in the district.

The appointments are as follows;
Cornwall, Wm. Pollock.
