Pte. Clifford Elliott Wounded

According to a telegram received by his parents, Mr. and Mrs. W. J. Elliott of Calgary, their son Clifford was admitted to the general hospital, at Wimerieux, France, on April 10, with a slight gunshot wound in his neck.

Pte. Elliott, who is now only 20 years old, went west with his parents five years ago and apprenticed himself as a tinsmith. He was born in Chesterville. Mr. Elliot, his father, is the proprietor of a boot and shoe shop in Calgary.

Boy Loses a Leg.

A very serious accident took place at Mountain Station on Tuesday morning, whereby the young son of the village blacksmith lost a leg. It appears the lad was on his way to school and whether hit when crossing the tracks or whether he had ridden from the station to the crossing on the steps of the local, and got caught when jumping, we have not been able to learn. He was taken to a Montreal hospital on the train which ran over him.

Presented With Life Membership

The Riverfield correspondent of the Huntingdon Gleaner, has the following which refers to a former Chesterville pastor's wife, who evidently is as popular at Riverfield as she was in Chesterville.

The use of the home of Mr. and Mrs. W. W. Orr was cordially given to the Riverfield "Y" society for their annual Taffy Social. A very pleasant evening was enjoyed. The programme was short but interesting. Among the items was the presentation of a Red Cross Life Membership certificate to Mrs. Stuart A. Woods. An address was read by Mrs. C. Orr and the presentation was made by Miss Ella Lang. Mrs. Woods replied very feelingly thanking the society for this uumerited expression of goodwill esteem.

Will Your Bag of Grain Win the War.

How many people will the extra food raised in Dundas this season keep from starvation? If that question could be answered with information that would apply equally throughout Canada it would be a simple calculation to know what Canada would do to assist in feeding the starving millions of Europe. And because the answer cannot be given, the King, through the Lieutenant-Governor of Ontario, and a committee of prominent men, asks every farmer of Dundas to raise as much food stuff this year as it is possible for him to do.

It is well to get this appeal right down to each and everyone in Dundas who has an acre that will produce food and have him decide that that acre will produce as much food as it is possible to have produced on it, not only for the profit that will come to him by selling it for a high figure, but because without sufficient food raised in Canada this year to supply a large exportable surplus to take the place of that destroyed by the Germans, Britain and her allies are likely to be in a position where they cannot win this war. Germany may be just as badly off for food as Britain but she may be no worse and the one that has to give in first is licked.

As it is always the weight of the last straw that causes disaster, so will there be the last bag of grain or potatoes which will give the food to enable Britain to over-reach the Germans and allow the allies to dictate the peace terms.

Will it be your surplus food supply that will win the war for humanity? That idea should be big enough for anyone to grasp and realize the necessity of raising that last possible bushel of grain or potatoes or other food. Are you going to try your best or are you going to trust to luck that your neighbor is a better man than you are and will do your share and his also?

OBITUARY
Edward McCloskey

The funeral took place yesterday morning at the St. Mary's Church of Mr. Edward McCloskey who passed away on Monday, April 30th, in his fifty-fourth year. Services were conducted by Rev. Father Crawley after which the remains were laid to rest in the Upper Cemetery. Three sisters—Mrs. T. Moriarity, Miss Ann McCloskey and Mrs. McDonald and four brothers—Patrick, Frank, Tom and John survive him.

OBITUARY.
Mrs. G. W. Bogart.

The citizens of Chesterville were much saddened on Tuesday morning to learn of the death of that very estimable lady, Elizabeth McElroy, wife of Reeve G. W. Bogart at the comparatively early age of forty-four years. She had been ill for quite a long time and spent some time in an Ottawa hospital, and from which she came home somewhat improved, but the benefit could not be maintained although everything that was possible to do was done.

Besides the husband a family of nine children mourn the loss of a wife and loving mother, six girls and three boys, one of the latter, Lieut. Howard Bogart, now being overseas in the service of his King.

The funeral yesterday afternoon in Trinity Methodist Church was particularly largely attended when the family pastor Rev. H. E. Warren preached a very impressive sermon, being assisted in the service by a former pastor, Rev. W. H. Stevens of Almonte.

Spring is Here

The wheels of the Condensery will turn faster and faster, as your cows freshen and the flow of milk increases.

Each day brings a larger supply, and each day finds us laying plans to handle the increased product.

So it is we gauge our business to yours, making for you a permanent market for your milk from the slackest part of the winter season, through the muddy roads of spring time and up to the flush of milk in June- All the year through in city and town and village the Condensery finds for you a market for your dairy products.

Famine and World = Hunger Are On Our Threshold

In the nation's honor, heed!
Acquit yourselves like men,
As workers on the land, do your
duty with all your strength!
—Lloyd George

THE CRISIS

France, England and Italy in peace times did not depend upon America, but on Russia, Roumania and Bulgaria for most of their breadstuffs. With these sources closed, the crisis of the hour demands that we see that our soldiers and the Motherland are fed.

Everyone in Great Britain has been put on limited rations! Meat is prohibited one day a week, and the making of cakes and pastry has been stopped. Further restrictions are anticipated.

Bread has gone to 25c per four-pound loaf in England for the first time since the Crimean war.

Lord Devonport, British Food Comptroller, proposes taking authority to search the houses of Great Britain to prevent food hoarding.

Forty million men, less the casualties, are now on active service.

Twenty million men and women are supporting them by service in other war activities.

In the last analysis the land is bearing this burden.

One million tons of food-carrying ships have been torpedoed since February 1st, 1917.

Germany's hope for victory is in the starvation of Britain through the submarine.

Canada's sons will have died in vain if hunger compels the Motherland's surrender.

The land is waiting—the plough is ready—will we make the plough mightier than the sword?

Will we help the acres to save the flag?

WORLD-HUNGER STARES US IN THE FACE

David Lubin, representative of the United States to the International Institute of Agriculture– maintained by forty Governments—reports officially to Washington that the food grains of the world on March 31st, 1917, showed a shortage of 150,000,000 bushels below the amount, necessary to feed the world until August, 1917. He declares it is beyond question that unless a greater acreage is put to crop in 1917 there will be WORLD-HUNGER before the 1918 crop is harvested.

The failure of the grain crop, in the Argentine Republic, which is ordinarily a great grain-exporting nation, resulted in an embargo being placed, in March, 1917, upon the export of grains from the country to avert local famine.

The United States Department of Agriculture, in its official report, announces the condition of the fall wheat crop, (which is two-thirds of their total wheat crop), on April 1st, 1917, to be the poorest ever recorded, and predicts a yield of 244,000,000 bushels below the crop of 1915. The 1916 crop was poor. Even with favorable weather, the wheat crop of the United States is likely to be the smallest in thirty-five years, not more than 64% of the normal crop.

Under date of April 10th, Ogden Armour, executive head of Armour & Company, one of the world's largest dealers in food products, stated that unless the United States wishes to walk deliberately into a catastrophe, the best brains of the country, under Government supervision, must immediately devise means of increasing and conserving food supplies. Armour urged the cultivation of every available acre. The food shortage, he said, is world-wide. European production is cut in half, the Argentine Republic has suffered droughts. Canada and United States must wake up!

People are starving today in Belgium, in Serbia, in Poland, in Armenia, in many quarters of the globe.

Famine conditions are becoming more widespread every day.

On these alarming food conditions becoming known, President Wilson immediately appointed a Food Comptroller for the United States. He selected Herbert C. Hoover, to whom the world is indebted, as Chairman of the International Belgium Relief Commission, for his personal direction of the distribution of food among the starving Belgians.

Mr. Hoover is already urging sacrifice and food restrictions, for, as he states. "The war will probably last another year, and we shall have all we can do to supply the necessary food to carry our Allies through with their full fighting stamina."

THE PROBLEM FOR ONTARIO

The land under cultivation in Ontario in 1916 was 365,000 acres less than in 1915.

Consider how much LESS Ontario produced in 1916 than she raised in 1915.

Other crops show as critical decline.

Reports from Ontario on the condition of fall wheat for 1917 are decidedly discouraging.

As there is an average of not more than one man on each hundred acres of farm land in Ontario, the prospects indicate even a still smaller acreage under cultivation in 1917 unless extra labor is supplied.

To enable the farm to do the work two factors are essential. The first is time. Whatever we are to do must be done at once. Nature waits for no man. The second is Labor. Many farmers cannot plant the acres they would because they cannot get the necessary help. Many are afraid to increase their acaeage because they fear they would not be able to cultivate and harvest an unusual crop after they had raised it. If they are to do the work that is essential for them to do, the last man in each city, town and village, must be mobilized at once.

FOOD PRODUCTION IS THE GREATEST PROBLEM THE WORLD FACES TO-DAY

Owing to destruction by submarines, ocean ships are scarce.

It is much easier to protect shipping between Canada and England than on the longer voyages from India or Australia.

One vessel can make twice as many trips from Canada to Britain as from India, and four times as many as from Australia.

Therefore every ton of food stuffs grown in Canada is worth to the Motherland two tons grown in India or four tons grown in Australia.

WHY THE CALL TO CANADA IS SO URGENT

If this country does not raise a big crop this year, not only will the people of Canada suffer, but the Motherland and her Allies will suffer, and their military power will be weakened if not paralyzed. Therefore, the right solution of the present war problem comes back to the farm, as to a foundation upon which our whole national and international structure must be built and maintained.

The farmers know that they are the last reserve, and that the soil on which crops are grown is the strategic ground on which wars are decided. To their care is entrusted the base of supplies.

Every man not on Active Service can help. In every city, town and village are men who, by their training on the farm, or by their present occupation, can readily adapt themselves to farm work. These can render no greater service to the Empire at the present time than by answering the call of the farm. Capable men and boys willing to learn should not allow their lack of farm experience to stand in their way.

Can the employer render a more signal service in this crisis than by encouraging these men to help the farmer to cultivate every available acre; and by making it easy for them to go ?

Ontario's farm lands are waiting—the implements are ready—the equipment is complete—the farmer is willing—all he needs is labor.

So short is the world's food supply that without increased production we cannot expect cheap food. The world is waiting for our harvest.

If peace should be declared within a year, the food conditions will be no better, for the accumulated hunger of the Central Empires must be met. This will absorb a large part of the world's supply.

We do not know when this war shall cease. It is endless—its lengthening out has paralyzed the thought and conception of all men who thought about it and its possible time of conclusion. Three months—six month, we said ; nine months, a year, we said; and yet two years and eight months have passed their long, dreary and sanguinary length, and there is no man who can tell how long this gigantic struggle may yet last.

Lloyd George, in a letter addressed to farmers through the Empire, said :

"The line which the British Empire holds against the Germans "is held by those who WORK ON THE LAND as well as those "who fight on land and sea. If it breaks at any point it breaks "everywhere. In the face of the enemy the seamen of our Royal "naval and mercantile marine and the soldiers gathered from "every part of our Empire hold our line firstly. You workers on "land must hold your part of our line as strongly. Every full "day's labor you do helps to shorten the struggle and brings us "nearer victory. Every idle day, all loitering, lengthens the "struggle and makes defeat more possible. Therefore, in the "nation's honor, heed! Acquit yourselves like men, and as work-"ers on land do your duty with all your strength!"

So, for the honor of Canada's soldiers in France—and for the glory of our New-born Nationhood—let it be said of Ontario's citizens that in the hour of our greatest need, their response was worthy of their sons.

We owe a great debt to those who are fighting for us.

McLAUGHLIN

Surpassing in Power ~ Superb in Appointments

Power, or the lack of it, makes or mars an automobile.
Power gives satisfaction, the lack of it, annoyance.
Canadian hills and highways are easily negotiated on high gear with the reserve power of the McLaughlin valve-in-head motor.
This is due to the Valve-in-head principle of the McLaughlin motor construction, which develops from 15 to 25% more power than motors of other type of the same bore and stroke.
In all the essential qualities of a good motor car—body construction, mechanical efficiency and appointments—the McLaughlin is equal to the best. In power it stands alone.

The New Series McLaughlin cars include 4 and 6 cylinder models in Touring, Roadster and Sedan types, at prices ranging from $895 to $2350; a new 60 H.P. 6 cylinder 7 passenger McLaughlin at $1900.

Boys' Clothes

And Men's Ordered Suits

If you have boys you must buy clothes for them.

None you can buy will wear for ever but we want your trade in this line and have done considerable investigating to get what will fill the bill.

We have a particularly nice line of suits now, in shades most suitable for the season and of a quality that for wear you will hardly find anything better.

Pants usually wear out first, so with these suits two pairs of pants can be bought if you wish.

Bring your boy in and let us see how he would look in the best Boy's Clothes in town.

FOR MEN'S SUITS we have a very fine range of woollens for your selection, and the tailoring we can guarantee to be second to none. What about a new suit ?

Economy in The Kitchen

Thirty-five cents a day provides three well balanced meals for each of about thirty women students at the University of Wisconsin who are experimenting with economical living. They are not a diet squad. but are keeping the cost of food down to that figure, week after week, by living together in three community houses, planning carefully, and sharing some of the housekeeping work. Board and room cost each woman $3.75 a week. Board alone amounts to $2.50 a week, but since two women pay their share by cooking dinners and luncheons, each of the others is paying slightly more than her own share. Room rent amounts to $1.10 a week, plus a few cents for piano rent and subscriptions for periodicals.

A typical breakfast menu is: Bananas and oranges, breakfast food and cream, hot muffins and butter, with honey or syrup, and coffee with cream. A typical luncheon is creamed beef, white and brown bread, butter, pickles, buttered peas, white cherry sauce, and milk. A typical dinner is roast beef, mashed potatoes and gravy, creamed carrots, cranberry jelly, bread and butter, ice cream and cake, a pudding or fruit salad. Grocer bills are never allowed to run over $76 at one house in which twelve students and a chaperone lives. Meat bills never run over $18 and dairy bills never over $25.

WANTED

A baby carriage in good condition.

RED CROSS WORK

Chesterville.

With gratitude we acknowledge the sum of $20.00 at the hands of Mr. F. McCloskey, chairman of the Paper Scheme Committee, and we wish to thank all who have contributed to this really fine result.

When we consider that the above amount has been saved to be applied to Red Cross work; that but for the efforts of the committee, the zeal of the voluntary organizers of the band of children who do the work of collecting the papers and the industry and patience of the boys and girls who are so willing to help in this way—that but for these the $20.00 which will help so much would have been wasted. It should make everyone willing to heip. Let us save every scrap of paper, have our bundles securely tied and ready for the Saturday morning collections, and let us see how large an amount we can realize for the month of May. We would be glad to have out of town people bring in their papers if possible on Saturday mornings and place them in the old storehouse opposite the McCloskey House. Every little helps!

Subscription paid, Kenneth Myers, $5.00. Thanks.

Very shortly we shall publish the complete list of subscribers to the Red Cross at Captain O'Brien's meeting last winter, and hope that we shall be able to mark every subscription "paid."

A Fine Painting

At the beginning of the year the Molsons Bank put out a calendar which was considered the most appropriately designed of the year. The illustration was a reproduction of a painting by Ben Taplin, showing the Canadians in a famous charge at the first battle of Ypres, in which engagement Chesterville lost her first son to pay the supreme sacrifice, Pte. Charlie Forward, and has every reason to remember the occasion. Very fittingly, last week Mr. F. E. Price, manager of Molsons Bank. secured and has had placed in a show window of the Sanders, Soule and Casselman Co, the original painting from which the scene was taken for the calendar. The men may be seen coming "over the top" and making for the enemy while shells can be seen bursting in the air and directly behind the trench throwing an immense amount of earth skywards. It is a painting worthy of a close study.

Schools' Christmas Gift Appreciated.

The teachers and pupils of Dundas County Public Schools will be pleased to know that their Christmas gift to Canadian soldiers in France was duly received and appreciated by the men. Over thirty letters from as many Canadian Battalions was of genuine gratitude for the comforts provided; yet we can see it is the little home touch afforded by such work awakens a sentiment and kindly feeling which is worth striving for. Below we quote a letter typical of those received.

Hon. Sec'y,
Can. War Contingent Association
London.

Dear Sir,—

The candles, cookers, cake and cigarettes which were the gift of the teachers and children of Dundas County Schools, and which your association so kindly afforded were duly handed out to the men and were greatly appreciated.

Will you be good enough to express to those good friends of ours in Canada, our warmest thanks for their thoughtfulness in providing those comforts for the men at the front. It is the thought that we are not forgotten by those at home, for whom we are fighting, that makes us happy in our work and hardships over here, and it is tangible evidence of this sort that brings home to us the feeling that those who remain in Canada are thinking of our welfare, and send this message of affection to us.

Yours sincerely,
Lorne Ross,

Lemons Growing in New Ontario

Haileybury Haileyburian; Probably the first lemon to be grown in the North Country is that recently taken from a plant belonging to Mrs. C. C. Farr. Mrs. Farr planted a seed a few years ago, and, much to her surprise it grew and developed into a healthy plant. Last summer a small fruit appeared and as the months passed increased in size and finally ripened into a full grown lemon. In appearance, taste etc., it is equal to the imported variety, and while it will hardly revolutionize horticulture in this latitude. it is another proof that almost anything planted in New Ontario soil will grow.

Illness Keeps Crysler Boy from France.

The following letter was received by Mrs. S. M. Boyce of Crysler from her son Stewart, who went overseas with the 83rd Battery.

Dear Mother, —

I suppose you have read in my last letters that I was in hospital in Aldershot with mumps for three weeks and a half. We were all ready, going to France on Thursday morning with the 83rd Battery, and on Wednesday morning I took the mumps, so it didn't seem to be my luck to go. I had the mumps very bad, got over them, was up and around, and there was a little garden near the hospital so I went out one day and worked hard and got a relapse but am over it again.

My chum had got all my mail while away, but couldn't find out where I was, so he had thirty-seven letters for me today. He said that your box had been sent to me at some hospital but I will get it in a few days time. I received all your letters and papers fine.

After the big Canadian battle at Vimy Ridge, there were thousands of wounded arrived at Aldershot. Today there were some 170 Canadian boys among them. Canadians are sure looked on as great soldiers here of late. I will be in this unit for good this time It seems good to be here in the Y. M. C. A. once again.

They are forming a 5th Canadian Division so that will be about six months more here in England, so little chance of seeing France, as one editor of a paper here says he will give every soldier's wife a shilling if the war isn't over in two month's time. I failed very bad while in hospital.

I expect to get six days' leave now for sure and will go up to Scotland as I am very anxious to see Britain's grand fleet that is near Edinburgh. They are singing "There's a trail that leads me back home again." I am going to have my picture taken for sure and no chances this time.

We have had some little snow flurriess the last few days.

United States will make some difference in the war. Food is getting short in this country.

We had all English doctors and nurses over in Aldershot. We had a great big Scotch girl for our day nurse, so got along fine as the Scotch always do.

I expect to see the 154th boys on Sunday.

Think I will close for this time as it is getting bed time.

I didn't mail that letter last night so am writing a little now. I put in an application for six days' leave as we were told that we could get it and will write you while away if not before.

Sergt. said "You want to get some color in your face before you go to work," and they are sure getting it these days around this camp.

I see the U. S. flag in Y.M.C.A's with Allies at last.

Dozens of infantry have stopped wanting to find out if I thought they could get transferred to the artillery. One fellow just asked me not five minutes ago from the 156th Batt. I think I will draw to a close.

Love to all,
Stewart.

Certainly

The proofreader on a London suburban newspaper was a woman of great precision and extreme propriety. One day a reporter succeeded in getting into type an item about "Willie Brown, the boy who was burned in the West End by a live wire."

On the following day the reporter found on his desk a frigid note asking; "Which is the west end of a boy?"

It took only an instant to reply;

"The end thes on sets on, of course."

KICK FOOTBALL TO THE SUMMIT OF VIMY RIDGE

Canadian Headquarters in France, April 30 via London—Further details now available of Saturday's struggle on the Canadian front for the village of Arleux, indicate the most sanguinary nature of the fighting, especially in the case of two western Canada battalions which, seriously engaged by machine gun fire, evened up the score with the bayonet.

The enemy appears to be incurably treacherous. An instance of this character has been officially reported by the colonel of one of the battalions which took part in the capture of Arleux. It is that of a group of the enemy who threw down their arms and threw up their hands when the first wave of our assaulting troops came along. Afterward the enemy party picked up their rifles and began shooting our men in the back. Ahead of the second wave of Canadians came a scout, who saw this "dirty trick," as he describes it himself, from a shell hole. He sniped ten of the treacherous group, and then, going forward, bayonetted the remaining two.

Sharing honor for cool bravery with this avenger of treachery, is a soldier who had been crippled byhaving to wear boots which did not fit him. He limped forward with his battalion to its first objective. There, as if waiting for him he found a pair of new Boche boots. Sitting down on the battlefield, with shells exploding in every direction, and machine gun bullets flying around him, the soldier tried on the German boots, found them to be a good fit, and went on rejoicing, to the final objective.

The spirits of the Canadian troops in all the recent advances has been admirable, our officers declare. The officers praise the men unstintedly for the way in which they go forward unwaveringly under fire

One of the battalions has a football which was kicked forward by the men of the unit, through shell holes and across shell and mine craters, to the summit of Vimy Ridge, on the first day of that battle. The contrast between this spirit in our troops, and that of the enemy is very marked. Prisoners no longer talk of the certainty of German victory. Some taken recently say that continued losses for a few months at the rate suffered recently on the western front will destroy completely the moral of the German troops.

Would Not Trust a German.

The following letter was received recently by Mr. C. Hetherington, of Cannamore, from his son Phillip, who is a member of a machine crew in France.

France, March 28th, 1917.

Dear Father;—

I have a chance to drop you a line now. I am well hoping this finds you all the same. Everything is lively here at the front. The Germans keep us busy and alert all the time, but I expect we will finish them up this spring. The machine gun does great work when we get it turned on them. We have had the coldest winter in France they have had for 35 years. I never suffered so much cold in my life as I did here but it is getting warmer now. There is a great food shortage here and in England. Bread is a shilling a loaf. They are only allowed so much and potatoes are out of the question. They know across the ocean that there is a war on but I don't expect it is felt very much in Canada yet. Families are only allowed a certain allowance of sugar, too. So its got to go one way or the other soon, but I think Fritz will give in.

The air here is always full of aeroplanes, zeppelins, etc. They dropped some bombs on a hospital lately. I wouldn't trust a German very far, believe me. The villages here are very close together and some near the line are shelled to fragments. We sometimes go in the trenches 18 to 20 days at a stretch. Fritz is great for lighting up "No Man's Land" at night with his star shells. You know that "No Man's Land" is the strip of land between our front line trenches and his trenches.

I expect you will be getting ready for springs work soon. I have not heard from home since January, but I hear from Till, but don't know whether I get all the letters or not. I expect to be back this fall then I can tell it all. I don't know whether all my letters passed the censor or not. I will close hoping to hear from you soon. Sincerely yours. Pte. Philip Hetherington, No. 252088, 102nd Canadians, B. E. F. France.

A teacher told her class something about wars and their causes, and then asked all who favoured war to hold up their hands.

Up went every hand except Jack's.

"Well, Jack, why are you opposed to war?" asked the teacher.

"Cause war makes history," was the response. "an' there's more'n I can ever learn now."

Damning Documents

The following clipping which was sent to his mother by Pt. Edson Gray, of the 154th Batt, now overseas, gives a very good idea of the so-called German thoroughness to say nothing of their heartlessness.

Writing to the "Times," Mr. Ian Malcolm, M. P., says;—

I enclose herewith two "scraps of paper" taken from German prisoners in the region of Bapaume where I found myself last Monday. Their contents should, I think be made known far and wide, for they bear eloquent testimony to the wanton and cruel spirits in which they are losing the war. I will add that, for the time being, the originals are in my possession, and that these translations are faithfully done from the originals.

No. 1 dated March 9, gives instructions for the precedure preliminary to the so-called German "withdrawal" on the British front, and runs as follows;—

1 Pioneer—and 1 infantryman will throw dung into the wells.

2 Pioneer—and 2 infantrymen will cut down the trees.

3 Pioneer—and 2 infantrymen will carry out special tasks.

4 Pioneer—and 2 infantrymen will stack wood in houses.

No. 2 is a time-table to be carried out at Bancourt. a village just east of Bapaume.

In the village of Bancourt it is more important to set fire to the houses than to blow them up.

March 5.—Straw will be heaped up and tarred.

March 10.—Explosives are to be ready for the cellars and well in Bancourt.

March 11.—All unused wells and watering ponds must be plentifully polluted with dung and creosate soda. Sufficient dung and creosote soda must be placed in readiness beside the wells which are still in use.

March 12.—Bancourt must be ready to be set on fire.

March 13.—Parade in fighting kit, issue of iron rations, cleaning of arms, instruction regarding safe roads to be used and instructions for the demolition party.

March 14.—Explosives to be issued for destroying the cellars and wells in Bancourt. Bancourt Church tower will be blown up.

March 16.—All wells in Bancourt with the exception of one will be blown up by 6.30 p, m.

March 17.—The road mines will be fired at 3 a. m. The remaining cellars in Bancourt will be blown up at 3.15 a. m., and Bancourt will be set on fire at 4 a. m.

Jack--So at first Miss Bargins refused you. How did you manage to win her?

Tom—I told her I knew of a minister who would perform the ceremony for $4.98.

Style—Comfort—Power—Economy

There are definite advantages in the Overland Light Four which make this car stand out conspicuously above other cars in its price class.

In appearance this car represents the highest perfection of modern streamline design—full sweeping lines and low hung stylish design.

It is equally pleasing in performance with an abundance of power delivered by a smooth-running motor that has been thoroughly tested before assembly.

In comfort nothing is lacking. Generous wheelbase, large tires and long, shock-absorbing cantilever springs, all make for easy riding.

You get all these advantages in the Overland Light Four at a price that is possible only because it shares in the economies of the enormous Willys-Overland production. Call and inspect this car at our sales rooms.

EVERYBODY Wants Profits

It isn't the amount of the premium but the amount of the dividend that fixes the cost of an insurance policy.

This is particularly true in a Mutual company where all surplus earnings are credited solely to policyholders.

The profits may be drawn in cash, used to reduce the premiums or to increase the amount of the insurance.

Less expensive policies are issued without profits, but in a prosperous company such as the Mutual of Canada the policies with profits soon become the cheaper.

One could not do a wiser thing than take out a life, limited payment life, or endowment policy in the Mutnal of Canada, for it is among the most liberal dividend payers in America.

For example: twenty years ago a young man, age 25, took out a policy for $4,000 on the 20-year endowment plan. He paid a single premium of $2,036. Last month the Company paid him $5374.-16. This was a return of $263.96 for each $100 invested in addition to the protection of $4,000 for 20 years.

Unloading from car on Friday and Saturday of this week at Winchester station, 800 bushels finest quality Western Seed Oats. Government tested for purity and germination.—J. A. CAMPBELL.

The congregation of Trinity Methodist Church are planning for the eighth church anniversary services of the new church on Sunday, and Monday, May 20 and 21, when Dr. Melvin Taylor of Renfrew will be the preacher.

In the trenches and casualty lists of Canada Grantley has been doing its "bit." The community lost one of its bravest sons in the recent great battle of the Canadians on the Western front, in the person of Pte. Harold Shaver, son of Mr. Alex. Shaver, after a year of services. A memorial service is announced for Sunday afternoon next in Grantley Methodist Church.

Special agent for Montreal Daily Star, Gazette, Herald and Ottawa Journal-Press, Evening Journal, Citizen, Toronto Globe, Mail and Empire. The principal daily newspapers kept on sale—your subscriptions and renewals solicited for any newspaper published in Canada. Chester Casselman, News dealer.

Last week we referred to Wilfred Durant going overseas as a private. In this we were wrong as he goes as a Flight Officer, having won the distinction after two months training in Toronto for the air service, where in competition with sixty others he stood seven on the test and was sent to England to finish his course.

Mr. James Curry of Crysler last week advertised in The Record to sell flour at five dollars a bag. Tuesday of this week he writes "Please take out the flour part of my ad, or you will ruin me in a short time." When Mr. Curry has a chance to give his customers a snap he does it and the above appeal to save him from "ruin" shows the avalanche of buyers an advertisement in The Record turns his way.

In Memoriam.

In loving memory of Wm. Byers, who died March 28th, 1917.

Dearest uncle you have left us,
Left this world of pain and care,
But to meet with thee in heaven,
Is our constant, hopeful prayer.

Sad and sudden was the call,
Of you so dearly loved by all;
Your memory still is very dear,
And oft is shed a silent tear.

The golden gates were opened,
A gentle voice said, "Come!"
And with farewells unspoken,
You calmly entered home.

'Tis hard to part with one we love,
But Jesus, who knows best,
Had loved you too, and so He called
You home, on High, to rest.

Sweet be thy rest dear uncle,
Soft be thy dreamless bed,
Gentle, and meek and mild,
With blessings on thy head.

So farewell husband, farewell brother,
We must say our last farewell,
Till we meet beyond the river,
Happy there with thee to dwell.

A NIECE,
Wood Mountain, Sask.

In Memoriam.

In loving memory of Clifton Carlyle, who died February 19th, 1917.

Passing out of the shadow
Into a purer light,
Stepping behind the curtain
Getting a clearer sight.

Laying aside a burden,
This weary mortal coil.
Done with the world's vexations,
Done with its tears and toil.

Passing out of the shadow
Into eternal day.
Why do we call it dying,
This life passing away?

ISABEL H. HICKEY.
