

# The Leader

Vol. XVII, No 28

MORRISBURG, ONT., FRIDAY, JULY 13, 1917.

THE MOST  
RELIABLE CAR  
MADE IS THE

**Ford**

You surely are convinced that the purchase of a motor car is a wise business investment to enable you to produce more, save more and therefore make more.

But think of the other side of it. Think of the family, too. The car differs from the horse in that it never tires. After the day's work is done, it enables you to enjoy the pleasure to which your hard work entitles you—visit other districts, visit your neighbors and make other friends—return quickly, early to bed, no horse to put away, ready to sleep and awake fresh for another day's work. And then on holidays, to town or to picnics. There is no end to its uses or its pleasure.

When you have decided to buy a car—buy a Ford. There must be a reason why more than—people have bought Ford cars. There must be a reason why seven out of every ten motor cars purchased in Canada last year were Fords. There is—It is the Ford car itself.

The price of the Ford car is low—the cost of operation is low. It is easy to learn to drive one. It is light and this means less gasoline and wear on tires. Built of Vanadium steel and otherwise so honestly constructed out of the best materials that it will stand the wear and tear of daily use under all conditions—when the heavy and more expensive car will not. And then if anything goes wrong there are over 700 Ford Dealers and Service Stations in Canada, where service and repairs can be had quickly and at reasonable prices.

Late R. Stewart Muir

### Contested Dundas Against Sir James in 1914

Mr. R. Stewart Muir of Toronto, a keen student of politics and public questions, died at his home in Toronto on Thursday last. He had held the rank of Captain in the 198th battalion, and on the eve of its departure was forced to relinquish his rank, owing to illness, and go to his home. He was identified with a local militia unit before he enlisted for overseas service.

Mr. Muir was a Liberal, and opposed unsuccessfully the late Sir James Whitney in Dundas county in the former Premier's last campaign in 1914. He was an active member of the Toronto Young Men's Liberal Club of twenty years ago. As well as his interest in public questions he devoted some time to the study of astronomy. He lectured frequently on this subject. For the year 1916 he was Master of Alpha Lodge of the Masonic order, Toronto.

Mr. Muir was in his fifty-seventh year, and is survived by his wife, two daughters and a son. He was born at Port Elgin. Ten years ago, after he had spent some years in the drug business, he became a manufacturers' agent in Toronto.

### Many Have Narrow Escapes From Run-away Horse

A run-away accident with some very unusual occurrences attached occurred on Friday morning when a horse made fast to the rear end of a wagon on Main street broke away, taking the tail board with him and started around the squares falling at intervals over the board which tripped him as he ran with terrible fright. After succeeding in making one of the squares without injury, he returned to Main street and proceeded westward until he came to Mr. Chalmers' jewelry store, where he attempted to turn on to the side street. Miss Blanche Bouck who happened along became frightened and entered the store, just on time to save her life, for the horse in his attempt to turn the corner fell on the pavement and landed on the steps immediately after the lady had left them. Rising, the horse leaped into the store through a single door entrance of about two feet, with the large board still attached to him, in among the glass show-cases filled with cut glass and valuable jewelry, and came to a standstill. Although a somewhat unusual visitor, Mr. Chalmers, who has a trained presence of mind particularly adapted to dealing with things unusual, proceeded to make friends with his visitor and had no trouble in making him feel at home. After detaching the board from the halter, the horse was quietly led out without anyone being injured.

### BORN

Duval—At Morrisburg, July 3, to Mr. and Mrs. Fred Duval, a daughter.

VanAllen—On June 19th, 1917, to Mr. and Mrs. Earl VanAllen, a son.

Casselmann—At Froatburn, on June 30th, 1917, to Mr. and Mrs. Robert Casselman, a son.

### HYMENEAL

VanAllen—Woodland

A very pleasing and interesting event took place at the home of Mr. and Mrs. William Woodland, Iroquois, River Road East, June 27th, when their second daughter, Annie Ida, was united in marriage to Mr. Harold VanAllen, eldest son of Mr. and Mrs. Edward VanAllen, of Morrisburg, Ontario. Rev. R. M. Hammond of Athens, uncle of the bride, performed the ceremony.

Precisely at seven o'clock, to the strains of Mendelssohn's wedding march, played by Miss Edith Baker, cousin of the bride, the bride entered the drawing room on the arm of her father who gave her away. She appeared very charming in her gown of blue silk poplin with white georgette crepe trimmings and carried a bouquet of snowballs and orange blossoms tied with white ribbon, and wore the gift of the groom, a gold extension bracelet watch. She was attended by Miss Gladys Raycroft, cousin of the bride, as bridesmaid, who looked sweet and girlish in her suit of white whipcord with a blouse of shadow lace over pink silk, and carried a bouquet of pink peonies. The groom was ably supported by his brother, Douglas VanAllen as groomsmen.

The decorations throughout the house were cut flowers and evergreens, being carried out in pink and white. The marriage vows were pledged beneath a large white wedding bell with a background of evergreens and roses and standing on a bed of the same.

At the conclusion of the ceremony, the organist played Lohengrin's Bridal Chorus. During the signing of the register, Mrs. Byron Ault rendered very beautifully "A Perfect Day." After the congratulations, a dainty repast was served to about 60 guests.

The bride was the recipient of a large array of beautiful presents consisting of furniture, linen, silverware, china and various cheques showing the esteem in which the young couple are held by their host of friends.

The groom's gift to the bridesmaid was a gold pin set with pearls and amethysts, and to the organist, a gold pin set with pearls and sapphires.

Mr. and Mrs. VanAllen left in the evening in the groom's car on their honeymoon, the bride travelling in a suit of sand poplin, opening over a blouse of maize silk crepe de chene with grey hat to match.

Mr. and Mrs. VanAllen will reside near Morrisburg, and they carry with them to their new home, the best wishes of a host of friends.

### McIntosh—Dillabough

A very pretty wedding took place at the Lutheran Parsonage, Dunbar, on Sunday evening July 8th, when Grace Ella, daughter of Mr. and Mrs. Ira N. Dillabough of Elma, was married to Louis Clifford, son of Mr. and Mrs. Louis McIntosh of Williamsburg, Rev. Mr. Sornsen officiating. The bride wore a lovely gown of white silk crepe de chine, and a hat of white tagel, trimmed with willow plumes and tiny white rose buds. She was attended by Miss Lucie Durant who wore a pretty frock of Nile crepe de chene. Mr. Dilbert Dillabough, brother of the bride, acted as best man. After the ceremony, the bridal party motored to Morrisburg, where Mr. and Mrs. McIntosh entertained for their honeymoon trip to Toronto, Buffalo, Chicago and other western points. The bride travelled in a chic sand-colored wool poplin suit, with small hat of Golden Brown Java, and a dainty flesh-colored blouse, of silk crepe de chine. On their return they will reside in Williamsburg.

### DIED

Pruner—At the family residence Capitol Street, Salem, Oregon, Tuesday, July 3, 1917, Jessie Clark Pruner, beloved wife of Cyril H. Pruner, in her 28th year. Interment in City View Cemetery, Salem, Oregon.

## Announcement to the Public

Having combined the Cornwall and Morrisburg territories under one management, we offer you a McLaughlin Garage at each place, under the personal supervision of Mr. Robert J. Fursey.

Mr. Fursey was connected with the McLaughlin Factory at Oshawa, for eight years, and has held the responsible position of head tester and foreman of the factory garage.

The public will be assured of the best expert workmen at all times, and we know that the sale of the McLaughlin "Valve-in-head" Motor Car is fast forging ahead, and has gained the reputation of "Canada's Standard Car", built to withstand Canadian roads and extreme conditions—The Best Car, the Best Service; truly a right combination.

Anticipating appreciation of the above, by buying your car a McLaughlin, we remain

Yours,

**W. H. Fetterly & Co.**

## Between Cousins;

OR, A DECLARATION OF WAR.

### CHAPTER II.—(Cont'd.)

"Another piece of imprudence, probably. And now they'll expect you to sit up all night, and perhaps even tie up their wounds. Poor, dear father! But you've really got yourself to thank for it, you know, for making yourself too cheap. Now, mind you're back before we are, unless you want me to come after you and march you home. Really, I'm sorry for that great lump of an Adam. What can he have been after? Here's your cloak, Fenella, and the machine is waiting. Now, mind your flowers!" But Fenella, for a brief moment, had forgotten her flowers. Her brown eyes remained fixed a little wistfully upon her father's face, sympathetically spelling out the disturbance written there. A second sharp reprimand from Julia was required to recall her to more urgent matters.

The next few minutes consisted of those rapid movements, that agitated collecting of gloves and fans, that feverish draping of wraps and tucking up of skirts which, on such evenings as this, mark the final stage before departure. Even before the preparations were quite finished, John had silently withdrawn. He was aware of being not only a superfluous figure, but also a discordant note. Though those three young people were his own flesh and blood, they had no use for him at this moment—nor he for them. "Que diable allait-il faire dans cette galere?"

### CHAPTER III.

It was long past midnight when John, his body weary, his soul bleeding with the pity of the things he had seen, entered the small bedroom he had inhabited since Ella's death. In to a shabby easy-chair he sank down before the grate, in which, here and there, among the dead ashes, an ember gleamed, like a bloodshot eye. Of the revellers, no sign as yet; and, since someone would have to sit up to let them in, it might as well be he, seeing that the pictures so vividly filling his mind would be sure to keep him at bay for some time yet. It was to this consideration that Janet owed release from her post.

As he sat there, gently though unconsciously rocking his head from side to side between his hands, John was aware of a pervading sense of loneliness. Ever since the evening on which he and Ella had discovered the truth about each other, the sensation had been latent, to become periodically acute. To-day the sight of the man he loved as a brother, mutilated and apparently dying—perhaps also that of his own children, rigged out so bravely in the livery of fashion—had brought about one of these moments.

Though he had been a widower for barely two years, he had been practically alone for twenty-four.

From a material point of view, Ella had lost nothing by her grudging submission to John's will; since, less than two years after the crucial scene, the three thousand pounds in question had, by one of those subtle ironies in which Fate delights, found their way, after all, into her ready hands; the relative whom Mrs. Watson had selected as her heir having died intestate, close upon the heels of her benefactress, and Ella proving to be the nearest of kin. So, as far as the figure of her income was concerned, the battle with John had not been crucial at all; and yet it was by far the most crucial thing which came to either of their lives, either before or after. Although to outside eyes nothing was altered in their relations, yet nothing had been quite the same again after that evening. The reproachful, martyr-like airs by Ella somehow completely failed to touch John's not usually adamant heart. Neither was there much talk of the assistance she had once dreamt of giving him—as, indeed, how could there be, with maternal duties multiplying? Besides, their ideas with regard to "raising" the native steadily proved not to be identical. When Ella spoke of "raising" she evidently meant improving their manners, and incidentally also their taste in dress, while John used just the same expression for a field of activity not embraced within her horizon.

Yet his patience never failed him. The form which his disappointment took was not irritation, but a slowly growing reserve, in which human pride undeniably had its part. Every glimpse of his inner self which he had granted to his inadequate confidant now struck him as a humiliation. On the evening of the discovery he had understood that henceforward he would have to go on his way alone; and alone he had gone ever since, always with the wound of his disappointment upon him—but not actually unhappy, since his work never failed him. The work itself had its disappointments, but the spiritual has this great advantage over the material worker that the effort in itself satisfies some otherwise unquenchable craving, and that even failure fails entirely to depress, since it is but visible failure, and he knows himself to be working in a field of invisible harvests. Under such conditions even the shovelling of earth into an abyss can be accomplished with a whole heart.

The growing up of his children around him could, under the given circumstances, only accentuate John's virtual loneliness. From the cradle on they had been taught another catechism than the one he would have loved to instil. Without an open struggle there was evidently no means of leading them into his own grooves of thought, and from the idea of domestic disharmony he fearfully shrank. Here, again, the inherent reserve had triumphed. He stood aside, seeing how, year by year, the intangible barrier which stood already between him and his wife was growing up between him and his children. When at last he was left alone with

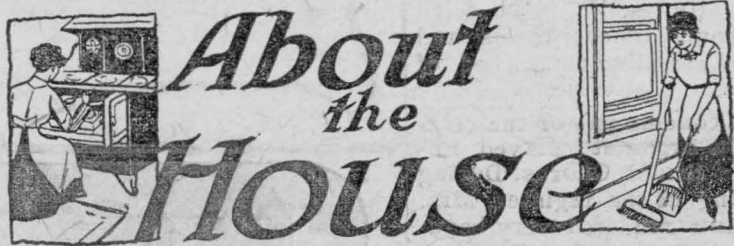

them it was too late to throw down the barrier—or so it seemed to him. During the two years since Ella's death nothing had changed between father and children; he continued to look at them yearningly, but from a distance; and to them he remained "poor father," an object of more or less tender veneration, tinged with that half-contemptuous pity with which so-called "healthy-minded" people regard those who differ from them in the appreciation of visible goods.

And yet his memories of Ella were not entirely bitter. They were even touched with remorse. She had so completely her fault that she had failed to come up to the ideal companion he had pictured? or not rather his for having expected of her more than she was able to give? It was this question which, throughout all her foolishness and pervading deterioration of temper, had kept him patient.

On one solitary occasion had patience failed him. This had been during the smallpox epidemic which had raged at Ardloch some eight years after his marriage. For some days there had been sickness about, to which an incompetent doctor had not been able to give a name. But on that day an Oban authority had pronounced the terrifying word, and a summons arriving in John's absence had been promptly suppressed by Ella. On his return he had indeed observed an increased nervousness of manner, and had been closely questioned as to the people he had met on the road; but no suspicion had awakened in him until next morning, when a second, and this time fearful, messenger burst into the room in which he was preparing to breakfast. Charlie Robson had died in the night, it appeared, and now his wife was sinking so fast that she felt it needful to see to her soul.

"Charlie Robson?" repeated John, thunderstruck. "Gone already? Why was I not called?" (To be continued.)

Have the kitchen shelves placed a half-inch from the wall and you will find it the greatest help in cleaning.

DOMESTIC SCIENCE AT HOME.

#### First Lesson—Food Constituents.

The secret of success in successful cooking lies with the housewife who knows food constituents, their value and the proper method of preparing, as well as how to plan a diet for invalid, child or grown person.

Many women read technical terms and become frightened and bewildered. This is very foolish. Just remember how hard it seemed to do decimals before you mastered them, and how quickly you understood after a little practice. It is just the same way with food terms. Learn the few simple principles and become mistress of the finest profession in the world—become a practical and scientific housewife.

The five principal elements of food necessary to maintain the health are: Proteins, carbohydrates, fats, mineral salts, water.

**Proteins.**—The source of proteins are meat, milk, cheese, butter, eggs, fish, grains, and legumes. Proteins contain carbon, hydrogen, nitrogen, sulphur and sometimes phosphorus. Containing about sixteen per cent. of nitrogen, their chief use is tissue building, repairing waste and making muscle. They also supply the same amount of heat as starches.

**Carbohydrates.**—Their source is in starches and sugars, and they are found chiefly in green vegetables, grains and fruits. Carbohydrates are composed of carbon, hydrogen and oxygen in small granular grains inclosed in cellulose coverings. Carbohydrates are used to supply energy or power to do work. They enter, to a small extent, into the process of building tissue. They also furnish heat.

**Canning Gooseberries.** To can gooseberries, stem and remove the tails, then wash in plenty of cold water and drain. Pack in jars and fill with boiling water or a heavy syrup. Place the rubber and lid in position and process in a water bath for thirty minutes. Remove, and test for leaks, then store in a cool, dry place. Label and date.

**Canned Gooseberries for Pies.**—Prepare the gooseberries by stemming and tailing. Place in a preserving kettle and add one cupful of sugar for every pound of prepared fruit. Add one-half cupful of water to a cupful of sugar. Place the kettle on the fire and bring slowly to a boil, stirring all the time the berries are cooking. Boil for five minutes, then pour in sterilized jars. Place the rubber and lid in position and process for ten minutes in hot water bath after the boiling starts. Remove and cool and then test for leaks.

**Gooseberry Jam.**—Use two quarts of gooseberries. Stem and tail them and place in a preserving kettle, adding one and one-half pounds of sugar and two cupfuls of water. Cook until very thick and pour into sterilized glasses. Cool and cover with paraffin. Store in the usual manner for jellies.

#### "The Stately Homes of England."

The stately homes of England  
How stricken now they stand,  
The cottage homes of England  
Are lonely through the land.  
And Flanders from her riven side  
Sends seagulls in with every tide.

The lilacs bloom in England,  
But their fragrance breaks the heart,

The hawthorn glows in England,  
But it has a poisoned dart,  
And Flanders with her crimson flowers  
Has stained the tender hue of ours.

The nightingales of England  
Still cry from hill to hill,  
The cuckoo sings through England,  
But other songs are still,  
And Flanders from her fields of red  
Sends us the Last Post of the dead.

The sad waves cry round England,  
The sad clouds tower and break,  
But brave men smile in England,  
Brave women work and wait,  
And Flanders from her deathless pyre  
Waves high her torch of holy fire.

The stately homes of England,  
How glorious now they stand!  
Oh, the cottage homes of England,  
How great they are and grand!  
And heroes kiss the sacred sod  
Of Flanders and give thanks to God.

—S. M. Smythe.

#### His Other Copper.

Macdonald's dog was in the habit of going daily to a baker's shop. His master would give him a penny, which he would drop out of his mouth on to the counter, receiving in exchange a penny bun.

One day his master said to the baker: "I should like to know how much my dog really does know. Try him with a half-penny bun to-morrow."

When, the next day, the dog dropped his penny, and only a halfpenny bun was given to him, he sniffed at it, turned it over and over with his paw, then in a dignified manner walked out of the shop, leaving the bun.

In ten minutes he returned, accompanied by a policeman.

## THE PHYSICIAN IN THE WAR ZONE

WAR TAKES HEAVY DEATH  
TOLL OF MILITARY SURGEONS.

In Their Efforts to Save Life They  
Expose Themselves on the  
Actual Firing Line.

The military surgeon, according to that revised art of war which began to be on a fateful August day three years ago, is no longer the neutral ministrant to the wounded. He is a leader of men, for he sustains the morale of troops, he restores the slightly injured as speedily as he may to the fighting line, and he fits his fellow soldiers for their trade.

Therefore he is marked for death by a savage foe just as though his scalpel were sword and his tourniquet were trigger. The military necessity of Kaiserism demands the torpedoing of the hospital ship, the bombing of the ambulance unit, the bombing of the dugout where the maimed are in refuge. Hence it is that in this tragedy of Europe the casualties in the medical profession have been much greater than in any other war, for they are relatively equal to the mortality among officers of the line and greatly exceed that of the staff.

The army surgeon, whether he be with troops in the charge or far back from the front, is exposed to peril, for in these days of long range weapons safety is not assured by distance nor by the dictates of humanity. The surgeon volunteers who are going from this country to fill the depleted ranks of their brethren abroad are therefore Knights of the Great Adventure whose chivalry is a rally of self-sacrifice.

#### The Army Surgeon of To-day.

The army surgeon of the new order was revealed recently in a lecture delivered by Col. T. H. Goodwin, D.S.O., an officer of the Royal Army Medical Corps of Great Britain, who has been on the western front ever since the war began.

"When the battalion is ordered to attack," said Col. Goodwin, "the regimental medical officer should, as far as possible, keep near the commanding officer and move forward with him. If the attack is successful there will be a certain number of wounded in No Man's Land."

"The medical officer should direct each of these who are able to walk to go back, taking shelter as much as possible, until they meet the stretcher bearers of the field ambulance division who are coming up behind. Those wounded who are unable to move should be placed in shelter, in shell craters or trenches, and first aid performed as rapidly as possible."

"The medical officer should not delay here. He must at all cost keep in touch with his battalion and move forward with it. His presence in the newly won trenches will be of immense moral value. He can forthwith set about improvising a regimental aid post, improving shelters for the wounded and attending to casualties as they occur. He should take every opportunity to get in communication either by telephone or messenger with the field ambulance bearer division, which will now, under a pretty heavy shell fire, be clearing the wounded from the area through which he has just come."

Some one asked Col. Goodwin how it would be possible for a regimental officer advancing with a battalion to attend to so many wounded.

#### Death in No Man's Land.

"He can do first aid," was the answer, "but he should endeavor to move forward with his battalion. He can, as a rule, place wounded men in fairly good shelter, and if he can do that with every man he should congratulate himself."

"If he had fifty cases, twenty-five would probably be more serious. He cannot manage twenty-five cases without taking at least twenty minutes. He cannot delay long, however, as the battalion is probably going into the next trench, and he must at all costs endeavor to be with them."

"I grant that it is difficult indeed, but we have to do our best. There has been the suggestion to abolish the post of medical officer with the battalion, but I am personally very much opposed to that."

BANG GO SAXPENCE!

It is part of our Service to worry for you, so why should you worry about the high cost of living interfering with your annual vacation.

Our excellent buying facilities combined with increased patronage is enabling us to give the high cost of living a black eye, and with our assistance you can get more for your sixpence than you can elsewhere.

That is why you should spend your vacation in Toronto, Canada, or send your wife and kiddies. They will be very much at home at the Walker House, the House of Plenty, as the management gives special attention to ladies and children traveling unaccompanied.

#### The Peerless Perfection Fence

Divides your stock and they stay where you put them. The fence that serves you for all time. Can't rust, sag or break down. Stands any weather. Each joint securely held with Peerless lock, all parts heavily galvanized, the strongest, most serviceable fence made and fully guaranteed.

SEND FOR CATALOG of all kinds of fencing for farms, ranches, parks, cemeteries, lawns, poultry yards, ornamental fencing and gates. See the Peerless line at your local dealers. Agents wanted in open territory.

THE BARNWELL-HOXIE WIRE FENCE COMPANY, Ltd. Winnipeg, Manitoba Hamilton, Ontario

"What about the barrage, Colonel?" asked one of the listeners.

"You get quite a certain number of men killed by this barrage fire in No Man's Land," replied Dr. Goodwin. "It is going on the whole time, of course, but it is astonishing the number of men that you can get safely back through the communicating trenches."

"Out of a total of 6,000 casualties you will probably get back 4,000 to 5,000 right away to the clearing station. Sometimes the wounded have to stay in the front area all day in the dugouts and then when the fire decreases at night you get them back. Sometimes it seems impossible, but you can manage to do it."

Speaking of the field ambulance, Col. Goodwin said that it was largely composed of newly commissioned officers with men under them who are little more than boys.

"They go cheerfully and quietly forward," he added, "into positions which can only be described as unmitigated hell."

Dr. Goodwin then tersely laid down some general axioms for the guidance of the surgeon in the field and put especial stress upon this:

"Keep cheery. Your mental attitude will have a considerable effect upon the men."

#### Medical Corps Heroes.

"Although as the organization of the war hospitals proceeds there may be comparative safety for the surgeons at the bases, the ranks of the profession are being constantly depleted by the demand for first aid on the firing line. This is the duty of the regimental medical officers, to whom Dr. Goodwin refers, and among these there has been the greatest loss of life."

When the war began many of the best surgeons of both England and France were sent to the furthest front. So many of the profession have lost their lives that in these days when a skilled and experienced surgeon is worth as much to an army as a Colonel, every effort is being made to protect the surgeons.

Bolivia, South America, the country of Andean heights, torrid valleys and freezing plateaus—a South American Switzerland that perhaps never will be liberally provided with hotels for tourists—has a total of 153 automobiles.

#### HISTORIC FLAGS CREMATED.

Or Buried With Military Honors to Prevent Ignoble Uses.

Britain is the only country which allows its historical flags to go into the pawnshop or auction room. One such flag, after having waved over the 39th Foot for three years during the siege of Gibraltar, was actually found covering the sofa cushions of a tradesman's sitting-room!

In 1886 the 1st Battalion Gloucester Regiment recovered from a pawnbroker at York four flags, which it had borne from 1795 to 1810 through the Egyptian and Peninsular campaigns. There may be seen to-day in the Kendal Parish Church a pair of the old colors of the 2nd Battalion Border Regiment. They were rescued in 1888 by Lord Archibald Campbell from a London upholsterer, who had advertised them for sale as though they were mere window curtains.

To prevent old colors meeting with such fates many have been cremated, with great ceremony, and the ashes preserved carefully in a box. Others have been buried with full military honors, among them being sent belonging to the King's Own Scottish Borderers and the 2nd Battalion Worcester Regiment.

Field beans planted in June mature a crop in ordinary seasons. Well-drained, limed loam soils of medium fertility produce the best crops.

A fraternal and insurance society that protects its members in accordance with the Ontario Government Standard. Sick and funeral benefits optional.

Authorized to obtain members and charter lodges in every Province in Canada.

Purely Canadian, safe, sound and economical.

If there is no local lodge of Chosen Friends in your district, apply direct to any of the following officers:

Dr. J. W. Edwards, M.P. W. F. Montague, Grand Councilor.

W. F. Campbell, Grand Organizer. J. H. Ball, M.D., Grand Medical Ex.

HAMILTON - ONTARIO

"Redpath" stands for sugar quality that is the result of modern equipment and methods, backed by 60 years experience and a determination to produce nothing unworthy of the name "REDPATH".

"Let Redpath Sweeten it."

Made in one grade only—the highest!

2 and 5 lb. Cartons—  
10, 20, 50 and 100 lb. Bags.

#### Floor Fillers.

Cracks and crevices in old floors may be filled with the time-honored paper pulp, made by boiling newspapers to jelly, draining, and mixing with glue. The substance is jammed in with a knife, then painted over.

But sawdust, mixed also with glue, is more satisfactory, and saves time. Cornstarch, moistened with turpentine or linseed oil, makes an excellent filler for porous-grain wood, to be applied before paint, stain, or wax. If desirable, tint with ochre, burnt umber, or lamp black.

Commercial fillers ready to apply may be bought at any paint store and, of course, save time and trouble.

## MAJORITY OF SIXTY-THREE FOR MILITARY SERVICE ACT OF 1917

Both the Six Months' Hoist and the Referendum are Defeated by Large Majorities.

A despatch from Ottawa says: At 3 o'clock Friday morning the first division on the Conscription Bill resulted in the defeat of the sub-amendment of J. A. Barrette, of Joliette, calling for the six months' hoist, by a vote of nays 163, yeas 9, a Government majority of 154.

The following voted for the Barrette amendment: Messrs. Achim of Labelle, Barrette of Berthier, Bellemare of Maskinonge, Boulay of Rimouski, Descaisses of Jacques Cartier, Gerard of Chicoutimi, Guilbault of Joliette, Paquet of L'Islet and Patenaude of Hochelaga, the ex-Secretary of State.

Ninety Conservatives, including J. H. Rainville, the Deputy Speaker, and seventy-three Liberals opposed the amendment.

The Laurier referendum amendment was voted down by 110 to 62, a Government majority of 48.

On the Government side of the House Sir Rodolphe Forget and Messrs. Patenaude, Barrette, Paquet, Girard, Guilbault, Bellemare, Boulay, and Descaisses voted with the leader of the Opposition. Nineteen Liberals voted with the Government.

The Liberals who voted against the referendum were: Messrs. Guthrie, Pardee, Graham, Carvell, Maclean (of Halifax), Cruise, Charlton, Turiff, Nesbitt, MacNutt, MacLean (of Sunbury), McCraney, Laggie, Clark, Buchanan, Douglas, Champagne Neeley and Duncan Ross.

The vote on "The Military Service Act of 1917" was 118 yeas and 55 nays. Majority, 63.

## CHINESE EMPIRE OVERTHROWN

Republic is Re-Established Following Abdication of Emperor.

A despatch from San Francisco says:—China is in the throes of civil war and a battle is being fought between troops of the southern provinces fighting for the preservation of the republic, and the northern forces of the young Emperor, according to cable advice received here on Wednesday by the Chinese Nationalist League. The first clash was announced as having occurred on Tuesday by officials of the league, who claim the source of its information is unquestionable.

The advice on Wednesday state that President Li Yuan Hung is safe in Peking and Vice-President Fung Kuck Jung is directing troop movements in Nanking.

According to the despatches the soldiers of President Li in the Chinese capital are steadily gaining ground.

London, July 9.—A Reuter's Limited despatch from Peking announces that Hsuan Tung, the young Emperor, has abdicated.

Washington, July 8.—Official despatches to the Chinese Legation here to-night said the republic had been firmly re-established at Nanking, with Feng Kuo-Chang, the former Vice-President, as President of the new Provisional Government. Republican troops were reported converging toward Peking to drive out the Manchurian forces remaining in possession there, in the name of the Imperialists.

## EXPECTS FAIR CROP IN SASKATCHEWAN

A despatch from Regina, Sask., says:—Hon. W. R. Motherwell, Minister of Agriculture for Saskatchewan, stated on Friday that, despite reports of damage to the crop in some districts of the province, he looked for a crop of equal or even better volume than that of last year, providing really favorable weather conditions prevail between now and harvest.

## THREE RUSSIAN ARMIES ACTIVE IN IMPORTANT OFFENSIVE

General Brussiloff Advancing Toward Halicz, the Key to Lemberg, Capital of Galicia.

Petrograd, July 8.—According to semi-official reports, the Russian offensive is spreading to the north and south of Halicz, in Eastern Galicia, which was virtually under the guns of General Brussiloff when the advance of a year ago came to a standstill. Halicz is important as the key to Lemberg, the capital of Galicia, and is about 60 miles south-east of that city.

Three armies are now engaged on a front of more than 80 miles along the Narayuvka River. The enthusiasm among the troops is increasing. A train carrying 500 sailors from Revel, who organized the "storming bat-

alion" and wear shoulder ribbons inscribed, "To the trenches," passed through Petrograd to-day.

Some activity is reported along the northern front. The Government has ordered the release of Polish prisoners-of-war captured from the German ranks.

General Brussiloff is pushing his offensive with energy and rapidly extending its scope. He has begun an attack in the region of Pinsk, 150 miles north of Galicia, within which forward movement had previously been restricted, and is attacking with success in the region north-west of Stanislaw, south-east of Lemberg.

## BRITISH AIRMEN BRING DOWN TEN GERMAN MACHINES

Saturday Raid on London and Eastern Coast District Resulted in 37 Killed and 141 Injured.

London, July 8.—British airmen brought down ten German aeroplanes following a raid on London Saturday, as a result of which 37 were killed and 141 injured. One enemy machine downed by the Royal Flying Corps fell into the sea off the mouth of the Thames, three were brought down by pursuing machines from England. British airmen at Dunkirk watching for the returning raiders missed them owing to the fact that they returned over Dutch territory, but the British

drove down seven other German machines, several of them in flames.

Lord French reports that the total casualties in Saturday's German air raid reported by the police up to the present are:

Killed—Metropolitan area, men, 27; women, 4; children, 3; total, 34; Isle of Thanet, men, 1; women, 2; total, 3; total killed, 37.

Injured—Metropolitan area, men, 74; women, 27; children, 36; total, 137; Isle of Thanet, women, 1; children, 1; total 2; total injured, 141.

## GERMANS WRECK FOSSE AT AVION

Pithead Overlooking Canadian Outposts Blown Up by Enemy.

A despatch from Canadian Headquarters in France says: Fosse 5, the pithead which overlooked our outposts in Avion, disappeared on Thursday in a cloud of dust and fire. It had been for some time a mark for our heavy artillery, but whether the destruction was caused by our shells or by the Germans themselves is not known. If they anticipated a further immediate advance of our men they may have blown up the mining works themselves, for it is their policy to leave behind them nothing that would aid in speedy resumption of mining operations in this important coal area. Our casualties have been very light during the past two weeks, and exceptionally so in the killed and missing classes.

## GERMAN TROOPS THROWN BACK

Strongest Offensive Since Verdun Broken Down Everywhere.

A despatch from French Front in France says:—After their strongest offensive effort since Verdun the Germans found themselves on Thursday thrown back everywhere along an 11-mile front on the Chemin-de-Dames, leaving the ground thickly strewn with their dead and having failed to take even one French soldier prisoner. The French lines remained intact, and the French commanding general, who watched the operations throughout from the front trenches, was able to declare that not a single yard of territory had been lost.

## RUSSIANS RENEW FIGHT IN GALICIA

Massed Assaults Made Between Zborow and Koniuchy.

A despatch from London says:—The battle in Eastern Galicia between the Teutonic forces and the Russians developed afresh on Friday. After a great artillery battle on the front where the Russians made their assault earlier in the week massed assaults were delivered by the Russians on German positions between Zborow and Koniuchy, and at Brzezany.

## U. S. CAN MAKE TEAR GAS.

Damage is Done by the Irritating Dust From Lily Seed.

Dr. J. N. Rose, associate curator of plants in the National Museum at Washington, has secured in Venezuela specimens of "sabadilla," a Venezuelan plant of the lily family, from the seeds of which are produced some of the asphyxiating and tear-producing gases used by the Germans in the present war.

It is stated that the dust from the seed in the field irritates the eyes, throat, and especially the nose, so much that the native laborers are obliged to wear masks.

It has been reported that the Germans bought all the available supply of these seeds before the declaration of war. Both the sabadilla seeds and all preparations compounded from them are now, however, declared contraband by England.

Another plant of the same genus grows wild in Texas, and some botanists believe that should a need for sabadilla arise here it could easily be cultivated in Texas and in other southern states.

## GERMANS COIN EXCUSE TO MALTREAT BELGIANS

A despatch from London says:—A despatch to the Times from The Hague says that as a reprisal for the alleged ill-treatment of Germans by Belgians in German East Africa, Germans have seized 23 distinguished Belgians and removed them without warning to their notorious punishment camp in Germany. They all had directorial or other connections in the Congo, among them being the 70-year-old Count Jean d'Oultremont, the late King Leopold's Lord Chamberlain; also M. d'Ursel, who is aged 67.

## GERMANS SLAIN FROM START OF WAR TO MARCH TOTAL 1,500,000

63,222 Enemy Prisoners and 509 Guns Have Been Taken on the Western Front in Six Weeks.

A despatch from Paris says: The total number of Germans killed from the beginning of the war to March, 1917, is not less than 1,500,000, according to an estimate reached by French general headquarters. This computation has been made after careful study of documents bearing on the subject.

## LEADING MARKETS

**Breadstuffs**  
Toronto, July 10.—Manitoba wheat—No. 1 Northern, \$2.36; No. 2 Northern, \$2.33; nominal, track Bay ports.  
Manitoba oats—No. 2 C.W., 78c; track Bay ports.  
American corn—No. 3 yellow, \$1.82; nominal, track Toronto.  
Ontario wheat—No. 2 Winter, per car lot, \$2.35 to \$2.40; No. 3, \$2.33 to \$2.35, according to freight outside.  
Peas—No. 2, nominal, according to freight outside.  
Barley—Malt, nominal, according to freight outside.  
Rye—No. 2, \$2.05, nominal, according to freight outside.  
Manitoba flour—First patents, in jute bags, \$12.50; second patents, in jute bags, \$11.90; strong bakers', in jute bags, \$15.00, Toronto.  
Hay—Extra No. 1, 10 to 12, in bags, track Toronto, prompt shipment.  
Millfeed—Car lots, delivered Montreal: Cheats, bags, 23c; bran, per ton, \$31; shorts, per ton, \$35; middlings, per ton, \$42; good feed flour, per bag, \$2.50 to \$2.60.  
Honey—No. 2, per ton, \$12.50 to \$13.50; mixed, per ton, \$9 to \$11, track Toronto.  
Straw—Car lots, per ton, \$9, track Toronto.

**Country Produce—Wholesale**  
Butter—Creamery, solids, per lb., 35 to 35½c; prints, per lb., 35½ to 36c; dairy, per lb., 28 to 29c.  
Eggs—Per doz., 28 to 29c.  
Wholesalers are selling to the retail trade at the following prices:  
Cheese—New large, 23c; twins, 22½ to 23½c; triplets, 23 to 23½c; old large, 30c; twins, 30½c; triplets, 30½c.  
Butter—Fresh dairy, choice, 35 to 36c; creamery prints, 38 to 39c; solids, 38c.  
Eggs—New-laid, in cartons, 37 to 38c; out of cartons, 35c.  
Dressed poultry—Spring chickens, 35c; fowl, 22 to 24c; squabs, per doz., \$4.00 to \$4.50; turkeys, 25 to 30c.  
Live poultry—Spring chickens, lb., 20 to 25c; hens, 18 to 20c.  
Honey—Comb—Extra fine and heavy weight, per doz., \$2.75; select, \$2.50 to \$2.75; No. 2 \$2 to \$2.25.  
Beans—Imperial, hand-picked, \$9.00 to \$9.50 per bush; Limas, per lb., 19 to 20c.  
Potatoes—Red Star new, bbl., \$8.00 to \$8.50; North Carolinas, new, bbl., \$8 to \$8.50.

**Provisions—Wholesale**  
Smoked meats—Hams, medium, 30 to 31c; do, heavy, 27 to 27½c; cooked, 41 to 42c; rolls, 23c; bread, 23c; bacon, 33 to 36c; backs, plain, 36 to 37c; boneless, 39 to 40c.  
Canned meats—Long clear bacon, 26 to 26½c per lb; clear bellies, 25 to 26c.  
Lard—Pure lard, tierces, 27 to 27½c; tubs, 27½ to 27¾c; pails, 27½ to 27¾c; cooking oil, tierces, 21½c; tubs, 21½c; pails, 22c.

**Montreal Markets**  
Montreal, July 10.—Oats—Canadian Western, No. 2, \$1 to \$1½c; do, Canadian Western, No. 3, 89 to 90c; extra No. 1 feed, 80 to 80½c; Barley—Man feed, \$1.18; Flour—Man, Spring wheat, 1st, \$12.50; do, 2nd, \$12.25; do, 3rd, \$11.80; Winter patents, \$12.50; straight rollers, \$12 to \$12.30; do, bags, \$5.75 to \$5.90. Rolled oats, \$9.00 to \$9.25; do, bags, \$9 to \$9.15; \$4.35 to \$4.40; Bran, \$2.50; Shorts, \$3.8; Middlings, \$4 to \$4.2; Moultrie, \$4 to \$4.7; Hay, No. 2, per ton, \$10 to \$12; No. 3, \$8 to \$10; do, No. 1, \$12 to \$14; do, No. 2, \$10 to \$12; do, No. 3, \$8 to \$10; do, No. 4, \$7 to \$9; do, No. 5, \$6 to \$8; do, No. 6, \$5 to \$7; do, No. 7, \$4 to \$6; do, No. 8, \$3 to \$5; do, No. 9, \$2 to \$4; do, No. 10, \$1 to \$3; do, No. 11, \$0.50 to \$1.50; do, No. 12, \$0.25 to \$0.75; do, No. 13, \$0.10 to \$0.40; do, No. 14, \$0.05 to \$0.20; do, No. 15, \$0.02 to \$0.10; do, No. 16, \$0.01 to \$0.05; do, No. 17, \$0.005 to \$0.02; do, No. 18, \$0.002 to \$0.01; do, No. 19, \$0.001 to \$0.005; do, No. 20, \$0.0005 to \$0.002.

**Winnipeg Grain**  
Winnipeg, July 10.—Cash quotations—Wheat—No. 1 Northern, \$2.20; No. 2 Northern, \$2.17; No. 3 Northern, \$2.12; No. 4, \$2.00; No. 5, \$1.76; No. 6, \$1.59; No. 7, \$1.42; No. 8, \$1.25; No. 9, \$1.08; No. 10, \$0.91; No. 11, \$0.74; No. 12, \$0.57; No. 13, \$0.40; No. 14, \$0.23; No. 15, \$0.06; No. 16, \$0.00; No. 17, \$0.00; No. 18, \$0.00; No. 19, \$0.00; No. 20, \$0.00.  
Oats—No. 1, \$1.20; No. 2, \$1.10; No. 3, \$1.00; No. 4, \$0.90; No. 5, \$0.80; No. 6, \$0.70; No. 7, \$0.60; No. 8, \$0.50; No. 9, \$0.40; No. 10, \$0.30; No. 11, \$0.20; No. 12, \$0.10; No. 13, \$0.05; No. 14, \$0.02; No. 15, \$0.01; No. 16, \$0.00; No. 17, \$0.00; No. 18, \$0.00; No. 19, \$0.00; No. 20, \$0.00.  
Corn—No. 3 yellow, \$1.74 to \$1.75; No. 2 white, 70c to 71c; Flour—Fancy, \$12.00 to \$12.10; do, clear, \$10.70; other grades unchanged. Bran—\$2.90 to \$3.10.  
Duluth, July 10.—Wheat—No. 1 hard, \$2.25; No. 1 Northern, \$2.25; No. 2, \$2.20; No. 3, \$2.17; No. 4, \$2.00; No. 5, \$1.76; No. 6, \$1.59; No. 7, \$1.42; No. 8, \$1.25; No. 9, \$1.08; No. 10, \$0.91; No. 11, \$0.74; No. 12, \$0.57; No. 13, \$0.40; No. 14, \$0.23; No. 15, \$0.06; No. 16, \$0.00; No. 17, \$0.00; No. 18, \$0.00; No. 19, \$0.00; No. 20, \$0.00.

**Live Stock Markets**  
Toronto, July 10.—Choice heavy steers, \$10.75 to \$11.25; butchers' cattle, choice, \$10.50 to \$11; do, medium, \$9.25 to \$9.75; do, common, \$8.25 to \$8.75; butchers' hogs, choice, \$8.50 to \$9.50; do, good, \$7.50 to \$8.50; do, medium, \$6.50 to \$7.50; do, rough, \$5.50 to \$6.50; butchers' cows, choice, \$8 to \$9; do, good, \$7.50 to \$8.50; do, medium, \$6.50 to \$7.50; do, rough, \$5.50 to \$6.50; stockers, \$6 to \$8; feeders, \$8 to \$10; canners and culls, \$5 to \$6; milkers, good to choice, \$9 to \$10; do, common and medium, \$4 to \$5; springers, \$8 to \$10; light ewes, \$8 to \$10; sheep, heavy, \$6 to \$7.50; yearlings, \$5.50 to \$6; calves, good to choice, \$14 to \$15.50; spring lambs, lb., 14c to 15c; lambs, yearlings, \$9 to \$10.50; hogs, fed and watered, \$16.75; do, weighed off cars, \$17; do, f.o.b., \$16.

## BRILLIANT FRENCH SUCCESS ON THE VERDUN FRONT

Paris, July 8.—The Germans launched another violent attack on the Aisne front last night, and, as in the case of their recent attempt to recapture important positions along the Chemin-de-Dames, met with determined resistance from the French, and suffered very heavy losses. The attack was delivered in four sectors.

On the Verdun front west of the Meuse the French scored a brilliant success. Five strongly organized salients were captured and held against counterattacks.

## KRUPP WORKS AT ESSEN BOMBED BY FRENCH AIR FLEET

Deluge of Shells Dropped on Many Industrial Cities of Germany Over Wide Territory.

Paris, July 7.—Eighty-four French aeroplanes made a series of raids Friday night far into Germany, in reprisal for German attacks on open French towns. Sixty-seven thousand pounds of bombs were dropped at many points of military importance. Only two machines failed to return.

The principal centres visited were Treves, Essen and Coblenz. Eleven aeroplanes raided Treves, dropping over 5,000 pounds of bombs. Seven fires broke out, one of which was in the Central Station. Six other machines attacked Ludwigshafen, destroying among other things the Badische aniline factory.

At least one pilot went as far as Essen, where he shelled the Krupp factory. Other places bombed were the environs of Coblenz, Hirson, Thionville, Dun-sur-Meuse, Bantheville, Machault, and Cauroy.

According to the character and situation of the towns reached and their distance from the front the following deductions are possible:

The raid was intended to cover three classes of towns—German inland towns, where munitions are produced; towns used as bases for the distribution of war material, and French towns of small population which have been more or less fortified by the Germans since their occupation.

The raid is also distinctly marked as to the territory covered into these regions, all, however, having as their extreme inland limit the valley of the Rhine. These regions are (1) the lower Rhine east of the Belgian frontier, (2) the middle Rhine or the Coblenz region, and (3) the lower watershed of the Meuse and the Moselle.

## HON. W. J. HANNA, FOOD CONTROLLER, MAKES FIRST STATEMENT

Without Allowing for Loss in Transit, the Supply of Wheat Will be 160,000,000 Bushels Short.

A despatch from Toronto says: Canada's Food Controller, Hon. W. J. Hanna, has already completed much of the organization of his department to deal with the soaring food prices and to provide large quantities of food for export to Great Britain and her allies. On Friday afternoon Mr. Hanna addressed a largely-attended meeting of the Women's Press Club in Toronto which was attended by representatives of other women's organizations. He reviewed the work that has already been done, and outlined briefly some of the things he expects to be done shortly.

Canada and the United States should export to the allies and neutral countries this year 460,000,000 bushels of wheat, but will be 160,000,000 bushels short, without allowing for loss in transport.

From one-third to two-fifths of

wheat foods consumed in Canada and the United States must be saved to meet shortage.

Everyone in hotels, restaurants, public places and homes of Canada must co-operate to bring about an enormous saving.

United States and Canada Food Controllers propose to co-operate not only in forming organizations, but in carrying out the work of the organizations.

Perishable goods must be canned, releasing storable goods for export.

Steps will be taken to lower the price of Canadian fish to inland consumers, and to bring down the price of fruit.

Investigation proceeding as to method of reducing cost of bread to the consumers.

Committee of experts is being named to co-operate with Food Controller.

## ENEMY RAIDERS BROUGHT DOWN

A despatch from London says:—Two of a squadron of fourteen machines that took part in an air raid on Harwich were brought down ablaze by British naval aircraft and a third machine was damaged, it is officially announced.

All the British airmen who engaged the Germans emerged safely from their flights.

## BRITISH CONTINGENT FROM U. S. IN ENGLAND

A despatch from London says:—A contingent of 103 British residents of the United States who have just arrived in Great Britain to join the British army, was reviewed by General Sir Francis Lloyd on the Horse Guards' parade on Friday morning.

If you don't believe in yourself nobody else will.

## ENEMY ATTACK IN CHAMPAGNE REPULSED BY FRENCH TROOPS

Crown Prince Suffers Heavy Losses—All German Attacks Repulsed by Gen. Petain.

A despatch from Paris says:—After checking the latest effort of the German Crown Prince in Champagne, the French took the offensive and succeeded in straightening out their line in the region of Mont Haut and Mont Carnillet. Gen. Petain's men held to their gains, despite four strong attacks hurled against them, and which they repulsed with heavy loss.

Switching his attack from the operations on the front north of the Aisne did not help the Crown Prince, as his

effort in Champagne, west of Mont Carnillet and south-east of Tahure failed, as did his recent heavy attacks north of the Chemin-de-Dames.

Gen. Petain responded to the German effort by attempting and succeeding in reducing salients in his line to the east of the scene of the Teuton attack. The French not only captured prisoners, but beat off counterattacks, showing that the Germans attached importance to the French gains.

## BRITISH TAKE 117,776 PRISONERS AND 739 FIELD GUNS

Figures For All Theatres of War Since the Outbreak—Not a Single Gun Lost on French Front in Two Years.

A despatch from London says: Figures given on Thursday by Gen. Maurice, Director of British Military Operations, form a basis of some illuminating comparisons. In the whole theatre of war since the outbreak the British have taken 739 German field guns and lost 133, of which thirty-seven have been recaptured. These thirty-seven are not included in the figure 739, making the total British losses 96 in guns, as against 739 taken from the Germans. Of these ninety-six, eighty-four were lost on

the western front in the first few months of the war, not one gun having been lost since April, 1915. Since April first of this year British and French together on the western front captured 509 field and heavy guns, 503 trench mortars, 1,318 machine guns, and 63,222 men. In all fields of war the British have taken 117,776 prisoners, among whom native levies captured in Africa are not included. Prisoners captured by Germans from British forces number 51,083, these including Indian and native troops.

### WILLIAMSBURG

Parties requiring ice cream in bulk for socials may have any quantity of Neilson's (the best that money can buy) at cost price, by calling at Mr. M. O. Trickey's ice cream parlor.

Quite a number from here attended the Red Cross picnic held at Berwick last Wednesday.

Mr. and Mrs. Will Casselman of Spencerville were guests of Mr. and Mrs. Ezra Casselman, Sr., on Sunday last.

Mrs. J. A. McIntosh and Mrs. Isaac McIntosh and children spent Friday last guests of Mr. and Mrs. Cephrenus Merkley.

Mr. and Mrs. Jno. Adams and family of Brinston were guests of the former's parents, Mr. and Mrs. J. Adams on Sunday last.

Miss Catharine Barkley of Dunbar is spending a few days this week the guest of Mrs. Ora McIntosh.

Mrs. Mayme Shannette and family spent Sunday last in Morrisburg the guests of Mr. and Mrs. Henry Shannette.

Miss Maria J. Robinson of Elma is spending a few days this week with Mr. and Mrs. Bruce Strader, Strader Hill.

Mr. and Mrs. Eddie Whittaker and family spent Sunday last the guests of Mr. and Mrs. J. Hodgson, Elma.

Mrs. Catharine McIntosh of Elma and Miss Martha Barkley spent Saturday last with the former's daughter, Mrs. Elmer Sullivan, Hulbert.

Mr. and Mrs. Wilbert Strader and family of Strader Hill were guests of Mr. and Mrs. George Robinson on Tuesday of this week.

Mr. and Mrs. Robinson and family of Heckston were guests of the latter's brother, Mr. and Mrs. Ezra Casselman on Sunday last.

Mr. and Mrs. Schetler of Montreal spent last week the guests of Mr. and Mrs. Alex. Hess.

Miss Jennie Shannette is spending this week with Miss Blanche VanAllen, Riverside.

Miss Mansell returned to Montreal on Monday of this week after spending a few weeks with Mr. and Mrs. Clarence Deeks.

The Misses Mattie Cochrane and Opal Hess are spending the week at Inkerman, guests of Mr. and Mrs. Roy Barkley.

Mrs. Wm. Bouck and son of Dixons were guests of Mr. and Mrs. H. Hamilton on Sunday.

Mr. and Mrs. Wm. Davidson of Winchester Springs called at the Manse while motoring through town one day last week.

Married—At the Lutheran Parsonage Dunbar, on Sunday evening, July 8th., 1917, by Rev. Sorenson, Miss Grace E. Dillabough, daughter of Mr. and Mrs. Ira N. Dillabough of Elma, to Mr. L. Clifford MacIntosh, son of Mr. and Mrs. Louis N. McIntosh of Williamsburg.

The young couple left Morrisburg on the 10:13 train for Toronto and Western Points and on their return will reside in Williamsburg. Mr. McIntosh is engaged in the mercantile business. Both Mr. and Mrs. McIntosh have a host of friends who join in wishing them a long and prosperous life.

### Aultsville

Messrs. Reginald Ault and Floyd Wells of Montreal spent the week-end at their respective homes here.

Mr. and Mrs. Garnet Baker and family of Farrans Point were calling on Mr. and Mrs. R. A. Baker on Saturday.

Mr. and Mrs. Harold Froats of Watertown, N.Y., were guests of their parents here over the week-end.

Miss Agnes Cunliff and Mr. Orr of Ogdensburg, N.Y., spent Sunday with Mr. and Mrs. Henry Cunliff.

Mr. Jas. Markell of Ottawa spent the past week here with Mr. and Mrs. Jas. Sampson.

Miss L. Nesbitt of Cornwall spent the week-end here with Miss Hettie Sampson.

Mr. and Mrs. Geo. Cook and sons, Graham and Duane, left for their home in Brockville on Sunday.

Mrs. Chas. Shaver and children returned home on Saturday after spending a week with Mr. and Mrs. Roy Heath, St. Timothee, Que.

Miss Robbins of Montreal is spending a few days with Mrs. (Rev.) Wm. Wells at the Parsonage.

Miss Ella VanAllen is spending a few days with friends at Cardinal.

Mr. Jos. Steen has returned home from Kingston where he was engaged in a munition plant.

Mrs. Geo. Dillabough is spending her holidays with her sister, Mrs. Ray, of Ogdensburg, N.Y.

Mrs. Myers spent a few days last week with her daughter, Mrs. Calvin Loucks, Nudell Bush.

Mrs. S. Casselman returned home on Saturday after spending a few days with Morrisburg friends.

Pte. Geo. Skiggs of Cornwall spent the week-end here with his family.

Mrs. Hunter, son and daughter, of Dundela, spent a day this week with Mrs. John Hunter and family.

Quite a number from here attended the social at Osnaburk Centre on Wednesday evening.

A successful social was held by the Ladies Guild of St. Pauls Church on the Church grounds on Saturday evening. The Morrisburg orchestra was in attendance and played during the evening. About \$60 was realized.

The Winters Bros. and Arthur Loucks of Montreal and S. T. Loucks are camping on the Island.

Mr. and Mrs. M. Beckstead are spending a few days with their son, Ross, third concession.

### NATION VALLEY

Mrs. Merton Colquhoun spent Friday with her sister, Mrs. Marcellus of Bethune Bush.

Miss Oliver Johnston of Cass Bridge is visiting her grandmother in this vicinity.

Mr. and Mrs. Ellis of South Mountain, Mr. and Mrs. Ault of Matilda were guests recently in the Valley.

Mrs. A. E. Meldrum and son, Pte. Willie Meldrum of Ottawa were guests recently at the home of Mr. Alva Munroe.

Rev. Mr. McCorkindale, M.A., of Chesterville, spent last Friday in this vicinity bidding good-bye to members of his congregation who reside in this district.

The Misses Shaver of St. Andrew's Manse, Strathroy, are home for the Summer.

Miss Minnie Jamieson visited relatives at South Mountain the first of the week.

Miss Bessie Merkley, nurse-in-training at St. Luke's Hospital, Ottawa, is home on holidays.

Mr. and Mrs. Robert Bell of Winchester, visited at the home of Mr. and Mrs. Sheldrick the first of the week.

Miss Riddle of Oxford Mills is at present visiting her son, Mr. Geo. Riddle of this locality.

Mr. and Mrs. Jno. Jamieson spent Thursday in Chesterville.

## APPLES, ORANGES, FIGS AND PRUNES

### Are The Four Fruits Used in Making "Fruit-a-lives"

"FRUIT-A-LIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-lives because I have tried other remedies and they did me no good." On the other hand, the fact that "Fruit-a-lives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-lives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

### BOUCKS HILL

On Monday evening last the Ladies of Boucks Hill Knitting Circle and their friends held their first social. Mr. Allan Barkley's lawn was decorated with flags as was also the house which added greatly in the appearance of our little village. Owing to the rain Mr. and Mrs. Melvin Barkley invited all into her spacious home and a very pleasant evening was spent by all who were present. Those who assisted with the program were Mr. Morley Baker, Master Wm. Franks, Miss Violet Weagar, Master Lloyd Barkley and Master Denzel Beckstead. The music was furnished with a gramophone. We wish to gratefully acknowledge the kindness of Mr. and Mrs. Barkley for their home and all those who in any way assisted in this worthy cause. The net proceeds amounted to \$35.45.

Guests at the home of Mr. and Mrs. C. Swerdfege recently were Mrs. Frank Perault and four children of Chesterville, Mrs. J. Johnston and daughter Irene and son Charley of Iroquois.

Mr. Blake Barkley and family motored from Milwauke, a distance of 1100 miles and arrived in our little village Monday afternoon to spend a short time with his parents, Mr. and Mrs. M. A. Barkley.

Mrs. W. Rood and three children of Albany are spending a few weeks with her mother, Mrs. Nathan Weaver who has been very ill.

A few from here attended the camp meeting at Chesterville on Sunday last.

Miss Evelyn Lane and cousins the Misses Kathleen and Orlean Barkley were the guests of their aunt, Mrs. C. Lane last week.

Mr. and Mrs. Falchander and Mr. and Mrs. Dillabough motored from Morewood on Saturday and spent the afternoon with Mr. and Mrs. Nathaniel Merkley.

### NUDELL BUSH

Miss Lula Baker of Ottawa is spending a few days with her parents this week.

Mr. Frank Empey of Winchester was a business caller here this week.

Mr. and Mrs. John Bell and Miss Nellie Bell of Morrisburg spent the 8th at the home of Mr. Michael Hanifee.

Mr. and Mrs. William Plantz were guests at the home of Mr. Beckstead this week.

Mrs. George Vassaw was calling on Mrs. M. Hanifee on the 6th.

Mr. Thom of Morrisburg was a business caller at Mr. James Lount's on the 5th.

Mr. Nelson Pruner of Archer, passed through here on the 10th.

Mrs. A. Schultes spent a day this week with Mrs. Geo. Vassaw.

Mr. Clarence Baker of Archer spent the 10th. at Riverside.

### CEDAR GROVE

Mrs. Oscar Lane and Miss Rose McConnell spent a few days with friends in Ogdensburg and were accompanied home by Mrs. Lane's nephew, Master James Rounds.

Several from our Grove attended the social at Colquhoun.

Miss Helen Ellis of Winchester is spending a couple of weeks with her cousin, Miss Sadie Buchanan.

Mr. Edgar Gallinger has purchased a McLaughlin car from Mr. Fetterley, Morrisburg.

Mrs. Ellison Dennison and baby visited her parents, Mr. and Mrs. Selim Shaver, Thursday.

Mrs. M. E. Dillabough and daughter, Violet, of Aultsville, spent the past week with Mrs. Frank McConnell.

Miss Gladys Buchanan of Osnaburk Centre, visited her home here a few days recently.

Mr. and Mrs. Sanford Vincent were recent guests of Mr. and Mrs. Chas. Dafoe.

Mr. and Mrs. Robert Dafoe and Mrs. Clarence Dafoe spent the week-end with Mr. and Mrs. Roy Sweet, Bombay, N.Y.

Visitors at Mr. Harvey Wells Sunday were, Mr. and Mrs. O. Dillabough and Mr. and Mrs. Ross Wells and baby of Aultsville.

Mr. and Mrs. Junius Beaupre visited the latter's parents, Mr. and Mrs. Amos Crites Sunday.

Miss Evelyn Whiting of Cornwall is spending a week with her cousin, Miss Nora Beaupre.

### BRINSTON

Mr. D. Locke of Bonard, Sask arrived home last week and is the guest of his mother, Mrs. Dr. Collison.

Mr. Morley Shaver and lady friend of Montreal were guests at C. I. Gilsen's last Sunday.

A number from here attended the R. C. social at Dixons Corners last week.

Mr. Douglas and Mrs. Mackey of Hallville called on friends in town one day last week.

A large crowd attended the Red Cross strawberry social held here on Monday night.

Mrs. P. O. Bush of Kemptville spent a few days in town last week renewing old acquaintances.

Mr. and Mrs. Thomas Hamilton visited friends at Morrisburg on Sunday last.

Mr. and Mrs. Ed. Doddridge spent a couple of days with friends in Watertown, N.Y.

We are sorry to report Miss Barkley is on the sick list.

Dr. W. Wright and family of Toronto are spending their holidays with their parents, Mr. and Mrs. Jno. Wright.

Mr. Ward Payne and Mrs. T. Hamilton attended the funeral of the late Rev. Gooderville of Metcalfe last week.

Mr. Edgerton Clark of the Militia Department, Winnipeg, is visiting friends in town for a few days.

Married—On Saturday, June 30, at South Mountain, by the Rev. Lather Corrigan, Miss Addie Driscoll, to Mr. Parry Harkness of Irena.—Congratulations.

### MARIATOWN

Mr. and Mrs. H. Wright and Master Allan Robertson, Miss Ella Carson and Miss Jane Willard were the guests of Mr. and Mrs. J. D. Deeks on Thursday.

Mrs. A. McLatchie and Master Lorne were callers in our town Wednesday evening.

J. D. Deeks and sons, have discontinued the dairy business for the present.

Visitors at Mr. and Mrs. H. D. Swerdfege's this week were: Mr. and Mrs. M. Beckstead and family and Mrs. A. Beckstead of Glen Becker.

Mr. and Mrs. Wm. McConnell and three boys, Master Leslie, John and Keith of Morewood and Mrs. R. A. Glasgow of North Winchester, Mr. and Mrs. H. Wright and Master Allan Robertson of Brockville, Miss Ella Carson of New York and Miss Jane Willard of Morrisburg.

Mr. and Mrs. Ross Scott and family spent the week-end at Mrs. M. VanAllen's.

Mrs. M. Hanson spent a few days at Riverside with her son, Mr. J. Bailey.

Mr. J. D. Deeks is at present tearing down some of his old buildings and will build new ones and will renovate his cow stables.

Mrs. James Riddell was at Williamsburg visiting her parents, Mr. and Mrs. Ezra Casselman on Friday last.

Mrs. Earnest Casselman and two children spent Friday last at Mr. and Mrs. Thomas Weaver's, Williamsburg.

Mrs. Mary VanAllen and Miss Gladys VanAllen spent a few days at Winchester with her daughter, Mrs. Ross Scott.

Mrs. Hollister and son, Arthur, of Ottawa, are spending a few days at Mr. J. Zeron's.

Mr. and Mrs. Frank Beckstead of Glen Becker motored to our town and then to South Mountain, accompanied from here by Mrs. H. Beckstead and Miss Eva Beckstead. Mrs. H. Beckstead will remain in Mountain for a few days visiting friends there.

Mr. Wm. Collison and sister of Brinston were visitors at Mr. L. Bateman's on Tuesday.

Mr. Kenneth Duval returned home on Thursday.

Mr. and Mrs. E. Riddell of Casselman's were week-end guests of Mr. and Mrs. James Riddell.

Mr. James Hamilton and daughter, Laura, of Iroquois were the guests of Mr. and Mrs. H. Beckstead on Wednesday.

Miss Alva Bailey of Riverside is spending a few days with her grandmother, Mrs. M. Hanson.

Miss Eleanor Sharrett of West Lorne, Ontario, is visiting at Mr. L. Bateman's.

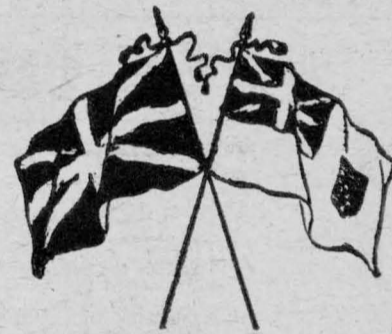

Mr. J. W. Duval and Mr. Allen Duval were in Rowena over Sunday.

# Farm Crop Queries

Conducted by Professor Henry G. Bell.

The object of this department is to place at the service of our farm readers the advice of an acknowledged authority on all subjects pertaining to soils and crops.

Address all questions to Professor Henry G. Bell, in care of The Wilson Publishing Company, Limited, Toronto, and answers will appear in this column in the order in which they are received. As space is limited it is advisable where immediate reply is necessary that a stamped and addressed envelope be enclosed with the question, when the answer will be mailed direct.

Henry G. Bell.

Question—C. B.:—What is your opinion regarding summer-fallowing? On what does success depend?

Answer:—Summer-fallowing is an efficient practice of getting rid of troublesome weeds, if the soil is tilled sufficiently often so as to cut off the young weeds as they sprout. It also stores up moisture to a considerable extent and if the soil is fairly full of organic matter, it conserves plantfood for succeeding crops.

Success of summer-fallowing depends upon working the surface of the ground sufficiently often to prevent the escape of moisture and to prevent the growth of weeds which exhaust the moisture and plantfood of the soil. The ground should be plowed early in spring, disked and harrowed immediately after plowing, and harrowed and disked sufficiently often to keep the surface clean and open.

Question—L. J.:—Can one pasture new seedling for a while this summer and then turn the cattle out and cut a crop of clover seed? The wheat on this field was thin last year and while the clover came up evenly and made a splendid growth it was weedy in places and for that reason I do not want to cut it for hay.

Answer:—It is possible to pasture new seedling if there is sufficient clover growth, granted that the soil is not a heavy clay type. If the soil is heavy clay, pasturing with heavy stock will tend to tramp the soil together, so that the clover setting will be smothered out. I am afraid you will find the weed seeds among the clover seed a greater detriment than the weeds in the hay. They certainly reduce the value of the seed. Cutting the crop for hay will do a lot towards killing out the weeds.

## GIVE THE BOY HIS OWN ROOM

The Possession of a Comfortable Room Where He Can Keep His Treasures Will Do Much to Safeguard Your Boy in the Haven of His Home.

Why is it that the boy of the house is usually sentenced (I use that last word deliberately and I believe appropriately) to the least desirable, most uninviting room in the house, not infrequently two of them being packed in together for no reason than to save trouble caring for two rooms instead of one? Not only is the boy's room rather doubtfully located and of shoe-box dimensions, but it has a sorry habit of being meagerly furnished or else crowded, being used as a sort of dumping ground for the cast-off furniture from the rest of the house. Anything seems good enough for Bill because, mother reasons, he hardly knows one piece of furniture from another; has no conception of good or bad taste, nor is he appreciative of beauty. Isn't he? Perhaps he couldn't express it in so many words, but—oh, well, let's begin at the beginning.

The thing of first importance is that a chap should have a room of his own if possible. The kind of room and the location are secondary matters.

Some one has happily described one's own room as "a home within a home." It is more—a haven. The house may be seething, our loved ones may for the time misunderstand (and who so often misunderstands the average boy?) but with closed door in our very own room we can breathe thankfully, "I've shut my door and I am all alone, Here in my room all fragrant with my better self."

Outside, the strife and struggle and the strain; In here there's peace and quietude and strength."

and come out with new poise for the living of life among others. And that is what a separate room means to a boy, too, though he would scorn to express it so poetically.

With his own room the boy will have an opportunity to express his individuality. He should be allowed to hang up posters, pictures of sports heroes, pennants and banners, and the many other tremendous trifles in which boyhood revels. Nearly every lad has a collection of colored stones, coins, butterflies, or something. This collection he should be allowed to keep in his own room, where, safe from unsympathetic fingers, he may proudly keep it upon display upon a shelf or table or in a little cabinet. It is his room, remember, and he should be allowed to keep his treasures in it, provided they are sanitary and that he keeps them in reasonable order.

Pride in a room is the best incentive to orderliness. A boy cannot be expected to take pride in a shabby or shabby room, where the furniture is totally unsuited or is of various woods

and finishes and, therefore, unrelated. Did you ever know a boy who did not love to paint? If it is not possible to have matching furniture for his room, suggest to him that he first remove the quarrelling finishes from the variegated articles with some commercial paint remover and then paint it all the same color. Pride? That boy will take a tremendous pride in his room. Just think of showing "the fellows" a room full of pretty furniture painted by himself!

To make order as easy as possible, the room should never be crowded. The essential pieces of furniture are a bed, single or in couch form if the room is small, a bureau or chiffonier, two easy chairs for himself and a possible guest, a desk, and a bookcase, if the youngster can be trusted not to get up and read in the middle of the night—as some have been known to do.

Rather than an ugly old carpet or a shoddy rug, place one or two small rugs upon the painted floor. If the room happens to be large he should be allowed to keep other things in it besides those mentioned, but always with the stipulation that he keep a reasonable amount of order. A room screen is fine for a fairly large room, as it can be made to partition off a corner for a study or den.

It does seem that most mothers cannot help being annoyed by their sons' tastes in "art." The treasured posters are eyesores, the worshipped field heroes are an abomination, the pennants are dust-catchers. But please, oh, please, don't throw those things away or bundle them away out of sight! They do mean so much to a boy, at least for a while. He will throw them away himself when they are outgrown. It is wise to give him really good pictures that he will like, such as Howard Pyle's colorful pirates, Remington's superb Indians and cowboys, or the inspiring picture of Sir Galahad. These are all well executed subjects after his own heart, and soon, by comparison he will see the tawdriness of his chosen prints. —R. S.

### Watering Hanging Basket.

Here is one way of watering a hanging basket. Take a small can and punch a hole in the bottom just large enough for water to drip through. Fill and place in hanging basket, and refill it every morning. In this way there is no chance of the fern baskets drying out, as the water has a chance of slowly soaking into the earth instead of all running off as when it is poured into baskets.

Friendship is the best college character can graduate from.

You can keep the fine natural color in Raspberry Preserves

IF YOU MAKE THEM WITH

## Lantic Sugar

"Pure and Uncolored"

Long cooking fades raspberries. You can avoid this by using LANTIC SUGAR which dissolves instantly on account of its "FINE" granulation. LANTIC is the best sugar to use for all preserving on account of its purity and high sweetening power. LANTIC is a pure cane sugar equally good for the table, for general cooking and for preserving.

10, 20 and 100-lb. sacks; 2 and 5-lb. cartons.

ORDER FROM YOUR GROCER BY NAME IN THESE FULL WEIGHT ORIGINAL PACKAGES

PRESERVING LABELS FREE—Send us a red ball trade-mark cut from a bag or carton and we will send you a book of 54 ready gummed printed labels.

Atlantic Sugar Refineries, Limited  
Power Building, Montreal

## Poultry

When birds drop over as if paralyzed, the trouble is heat prostration, caused by pressure on the brain.

To prevent this, provide protection from the sun and avoid overcrowding; keep bird cool and apply cold water to the head.

At this time of the year broody hens are in the majority and cause no little trouble to the attendant. While it is advisable for those who do not run incubators and brooders to set every broody during the entire summer, at the same time there will be many broodies that can not be utilized. How to rid them of the hatching fever has been the cause of many experiments by farmers and poultrymen.

It is to be regretted that some of

these methods are extremely cruel and should not be allowed. In one instance noted recently a hen was tied by the leg with a piece of rope to a post; in the other instance the hen was being immersed in a pail of water. In both these cases the hens became excited, and the theory is that in this excited state they forget their broodiness. While that may be so to a certain extent, it is equally true that excitement often makes nervous, scary hens; and in the case of fat hens it is not uncommon to have them die from fright, or meet with some severe injury. A more humane treatment is to place them in separate coops without nests, or in a flock where they are kept outdoors the entire day and permitted to roost in a house only at night.

Kindness should be an order that is never violated.

Keep the summer chicks growing. Provide shade. Give the youngsters all the range possible. Exercise is the best tonic growing stock can have.

This is considered a good month for caponizing.

There is still a good market for young ducklings and soft roasting fowls.

If breeding is finished, the males are best removed from the pens until after the molting season.

July is the month in which rats, minks, 'possums and weasels do their most deadly work. Be on the lookout. When their presence is discovered dig after them; give them no quarter.

### Choose Your Associates.

The bond of friendship is a beautiful tie; it is to be highly treasured. True and lasting friendships are the outgrowth of mutual attraction, gradually developing through intimacy, and ripening into a firm bond with respect and keen appreciation of merit as the basis. And as time goes on such friendships become cemented and are unbreakable. Choose your associates; leaving it to chance is not a safe course to pursue.

## Cuts Labor in Half

Do you first disinfect, and then go over all surfaces again with whitewash in order to keep your stables, dairies and poultry houses bright, cheerful and free from lice, mites, fly eggs and the germs of roup, white diarrhea, cholera, glanders, etc?

Such a method is a waste of time, money and labor. Use Carbola instead—it does the two things at the same time. It is a disinfectant that dries out white—not dark and colorless—and gives much better results.

## CARBOLA

Is a mineral pigment combined with a germicide twenty times stronger than pure carbolic acid. Comes in powder form, ready to use as soon as mixed with water. Applied with brush or sprayer. Will not clog sprayer, flake, blister or peel off nor spoil by standing. No disagreeable odor. Absolutely non-poisonous. Satisfaction guaranteed.

## Your Problems

Conducted by Mrs. Helen Law

Mothers and daughters of all ages are cordially invited to write to this department. Initials only will be published with each question and its answer as a means of identification, but full name and address must be given in each letter. Write on one side of paper only. Answers will be mailed direct if stamped and addressed envelope is enclosed. Address all correspondence for this department to Mrs. Helen Law, 235 Woodbine Ave., Toronto.

May:—1. It is not good form to wear face veils in the evening. The only excuse for a veil at night is when one is motoring. 2. Since your friend has invited you to her party and asks you to bring a man with you, it would be quite proper to write to a man whom you knew well and ask him to go. Word the note thus: My Dear —: Miss — is giving a little party next Friday evening and has asked me to bring a man with me. Would you care to go? If you can, let me hear as soon as possible, and stop for me that evening at 7.45 o'clock. Very sincerely, May— . 3. To clean a straw sailor hat try the following: Dissolve one teaspoonful oxalic acid crystals in one cupful boiling water, and, after brushing the hat thoroughly to remove all dust, lay it on a flat surface and scrub with this solution, using a small brush for the purpose. Work rapidly, beginning with the crown; rinse in cold water, wipe dry and place on a flat cloth in the sun to dry. Do not let the hat become thoroughly saturated with the water.

Gardener:—Try cayenne pepper to rid cabbage heads of worms. Sprinkle the cabbage as soon as the worms appear. A remedy for cutworms and onion grubs is to mix the seed with sulphur before planting. This may be used with seed corn also.

Mrs. C. L.:—To make an endless clothesline fasten two grooved wheels wherever you want your line and stretch a wire line around the wheel. As you hang up each piece of clothing you can turn the wheel and thus make room for the next piece directly in front of you. The clothes may be taken from the line by this same convenient method, which saves many steps and is also a boon in case of rain.

E. T.:—A widow when preparing for her second marriage should drop the name of her former husband and have her household linen marked with her maiden name. Linen procured after her marriage should be marked with the name of her second husband.

Frances:—The following are suggestions for your Sunday school picnic. You can have the usual races, some of them for the younger folks, others for the older persons. Fighting for the flag is a particularly timely game for the younger boys and girls. You will need about a dozen medium-sized cotton flags of the inexpensive kind. One flag at a time is placed upright in the ground and six girls or boys start in a race to obtain it. Give them some handicaps. The boys can race with potato sacks, while the girls can race blindfolded or running backward; or the boys might race crawling on their hands

and knees and the girls hopping on the right foot. Another way to race is to go as partners, each holding onto the opposite ends of a clothespin. Of course, the flags captured by each are retained. Ringing the Victory Bell is another good game. Form an arch of three cross poles, rising considerably above the heads of the company, imbed the uprights in the earth and nail the crosspiece firmly on. Then decorate the arch with red, white and blue bunting and from the top bar hang a large bell. The game consists in hitting this bell with balls which are provided, each player being given three or more throws in a round. The tape race is fun. Have as many lengths of tape as there will be players and have all the tapes about the same number of feet—ten or twelve—then provide several pairs of sharp scissors. Attach all the tapes to a fence. Four or six players may contest at once, according to the pairs of scissors available. The contestants hold the loose ends of the tapes, which they draw out taut. At the signal each player begins to split his tape up the center line with the scissors, the player arriving at the end which is tied winning the race. After each set has tried, match the winners for the final decision. This would be suitable for the older guests. Another race consists in pushing four pebbles over a prescribed course with walking sticks. All four must be rolled at once, each in turn.

X. Y. Z.:—The engagement ring is put on over the wedding ring and thus guards it. The former is removed before the ceremony, leaving the finger free. Then the bride slips back the engagement ring at her first opportunity.

W. B.:—To restore the color of black kid, mix ink with the white of an egg and apply with a soft sponge. To clean white kid, dip a clean white flannel cloth in a little ammonia and rub lightly on a cake of white soap. Rub the soiled parts gently, changing the cloth as soon as it becomes soiled. To polish tan shoes, wash the shoes clean with a sponge and warm water. Wipe with a dry cloth and let dry. Then rub freely with the inside of a banana peel. Wipe carefully with a dry cloth and polish with cotton flannel. Patent leather shoes should not be "polished" in the strict sense of the word. Apply a mixture of one part linseed oil to two parts cream to the shoes, rubbing it well in with a soft flannel cloth. This will keep the leather soft and it will not crack as readily. Joe:—Even though you have not yet met the bride, the present should be sent to her. Wedding presents are never sent to the bridegroom.

## Horse Sense

Baking-soda relieves the distress of colic by getting rid of the gas.

Poor teeth prevent a horse making full use of good feed. It may be necessary to file the teeth down in old horses, so the grain can be properly ground.

A mixture of equal parts of the tincture of iodine, turpentine and sulphuric ether, applied once a day for several days, is said to be death to splints which are forming.

As long as a horse can chew well, meal is a poor feed for him. It is eaten too fast and sticks in the horse's throat. Give the animal a chance to use his grinders. That is what they are for.

Maybe you think you can save time by feeding the horse enough in the morning to last all day. That is a good way to make a job for a horse doctor.

If the yearlings are slow to shed and seem to have little appetite, try doctoring them for worms. Mix three drams of powdered iron sulphate and three drams of gentian root. Use this dose twice a week if necessary.

Save every seed possible for next year. All vegetable seeds are likely to be high in price and the shortage may make it impossible to obtain seeds.

## The Dairy

Kindness is a cheap supplement to the ration and produces big gains in milk flow.

Keep the calf pails as clean as the milk pails.

The cow giving the richest milk does not necessarily bring the biggest cream check. It is the total amount of fat produced that counts.

Heavy milkers due to calve during July should be milked once or twice a day for a couple of weeks before calving, if the udder is distended. This attention may prevent the loss of a valuable cow from milk-fever, or injury to the udder, which makes a cow almost worthless for milking.

When the butter granules do not form after churning a reasonable time, try putting a small amount of table salt in the churn. A little warm water has the same effect of hastening the granules. Too much warm water makes soft butter.

Memory is rather an uncertain thing to depend on to identify the calves that are taken away from their mothers and raised by hand. When the question of ownership or parentage is raised, it is much more convincing to have each calf marked with a metal tag fastened to a strap around the calf's neck. Records are half the value of a good herd.

## The Doings of the Duffs.

**"The Poor Man's Potato"** has become the rich man's luxury. Whether at three dollars a bushel, or twenty-five cents a bushel, potatoes are not a complete food. Two or three **Shredded Wheat Biscuits** with milk furnish more real, body-building nutriment than a meal of potatoes or meat, are much more easily digested and cost much less. **Shredded Wheat** is 100 per cent. whole wheat, nothing added and nothing taken away—gives mental vim and physical vigor for the hot days. Delicious for breakfast, or any meal, with sliced bananas, berries or other fruits, and milk. **Made in Canada.**

#### THE FEARS OF CELEBRITIES

Delusions and Superstitions of Men of World-Wide Fame.

It is an open secret in the Balkans that King Ferdinand of Bulgaria immediately has a fainting fit every time the sound of guns reaches his ears. Perhaps this is through sheer funk, for "Foxy" Ferdinand lives in abject fear of being assassinated. Lord Roberts had a great aversion to black cats, and could not remain in the same room with one of these animals.

The Kaiser's father, Frederick III, could not look at a bunch of water-cress without being seized with a shivering fit. At the sound of the word "lana" (wool) the late President Diaz of Mexico became sick.

A curious delusion haunted Pascal, the noted French philosopher. Although the most brilliant genius and wit of his time, he always thought he saw a yawning abyss on his left hand.

Parnell's horror of green was well known. He would not wear a coat or tie with any tinge of green in it, and he objected to anything like a green wallpaper. So strong was his aversion to the color that one day, when a lady whom he knew very well came to see him in the House of Commons, he refused to shake hands with her because she was wearing a green dress, and hurried away from her as quickly as possible.

One of England's greatest statesmen, Pitt, the younger, died at the sight of pigs.

As a young man Sir Evelyn Wood, V.C., once rode a giraffe for fun. He was thrown off and killed. Ever afterwards the sight of a giraffe or the picture of one produced a pain in the head, where the animal kicked him.

#### The Home Water Supply.

Water in the house, to use lavishly for all wholesome conveniences, seems at first thought beyond the means of frugal people, who have earned by hard labor all they have to spend. To many, who have not closely considered the costs and the benefits, it appears an extravagance. Instead of that it is one of the greatest of house economies. Almost every farmer could afford the luxury of all water conveniences in his home. Like their fellows, sunshine, wholesome food and fresh air, they do not weaken the muscular, mental or moral fibres of life. When one has been compelled to use any of these debased for a time how satisfying is the pleasure of purity and abundance.

As an investment for the home I know of nothing likely to yield so much in return in saving women's strength, in increasing house comforts, in preserving health, in imparting satisfaction in housework and in elevating the general tone of the material side of living.—Dr. J. W. Robertson, in "Home Waterworks."

## Grape-Nuts

Made from choice whole wheat and malted barley, this famous food retains the vital mineral elements of the grain, so essential for balanced nourishment, but lacking in many cereal foods.

From every standpoint—good flavor, rich nourishment, easy digestion, convenience, economy, health from childhood to old age—Grape-Nuts food.

"There's a Reason"

#### WASPS THAT ATTACK FRUIT.

Harm Done is Wrongly Attributed to Bees.

The wasps known as hornets and yellow jackets do considerable harm to ripening fruit by eating through the skin in order to suck out the fruit juices. Much of this harm is attributed to bees, but in almost all cases when bees are feeding on the exuding juices they are frequenting holes made by other insects.

These wasps nest in the ground, or in old trees. If the nest can be discovered, which usually means watching the insects when they fly home, the entire colony can be quickly exterminated. A gallon jug, quarter full of water, and placed next to the nest is all that is needed. A wasp will emerge from the nest opening, perceive the jug, and fly hungrily at it. The hollow sound of its buzzing, echoing from the jug, will make it enter, when it falls into the water.

Wasps are able to communicate with each other, and the imprisoned wasp possibly calls to its sisters. At any rate, the colony, one by one, in the course of the day, will find its way into the jug. This system is perhaps easier than the distribution of poison on food for the wasps. If the latter method should be tried a little Paris green or white arsenic may be distributed on minced meat and scattered where the wasps will find it.

## A NERVOUS BREAKDOWN

Can be Averted by Feeding the Starved Nerves With Rich, Red Blood.

Nourish your nerves—that is the only way you can overcome life's worst misery, nervous exhaustion. The fits of depression and irritation, the prostrating headaches, the weakness and trembling of the legs, the unsteady hand and the imperfect digestion that mark the victim of nerve weakness, must end in nervous breakdown if neglected.

Nourish your nerves by the natural process of filling your veins with rich, red, health-giving blood. Your nerves are crying out for pure blood and the mission of Dr. Williams' Pink Pills is to make new, rich blood. This explains why these pills have proved successful in so many cases of nervous disease that did not yield to ordinary treatment. For example, Mr. Wilfrid Donald, West Flamboro, Ont., says:—"Before I began the use of Dr. Williams' Pink Pills I was in a serious condition. I was not only badly run down, but my nerves seemed to be completely shattered. I slept badly at night, and when I got up in the morning was as tired as when I went to bed. I seemed to be on the verge of a nervous breakdown. At this stage I began the use of Dr. Williams' Pink Pills. In the course of a few weeks I felt much relief, and continuing the use of the pills they completely restored my health. I can now sleep soundly, eat well, and am enjoying complete freedom from the old nervous troubles."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

#### EXPLOSIVE COAL

A New Sort of Fuel Which, Strange to Say, Was Satisfactory.

In reviewing his early life in Constantinople, Sir Edwin Pears tells an amusing story of a coal contractor who was supplying the British fleet with fuel. A commissariat officer on one occasion went to him to say that a man-of-war had just arrived in the Bosphorus and was ordered to proceed to the Crimea with distinguished officers on board; but it was short of coal. The contractor answered that one of his small sailing vessels had just arrived laden with a cargo of coal and that he would arrange to have it discharge the fuel directly on board the man-of-war.

A day or two later, when the contractor saw his manager, he asked what had been done with about ninety kegs of gunpowder that had been stowed on the top of the coal.

"Oh, we found all the kegs empty," said the manager. "There was no powder to remove."

During the next three weeks the contractor lived in constant dread. He feared that every ship coming from the Crimea would bring news of an explosion on the man-of-war and an order for his arrest. He became ill from anxiety.

One day, a fortnight later, he heard with fear and trembling from his inner office the voice of the commissariat officer asking to see the merchant who had supplied the ship with coal. He put on a bold face and went out.

"Yes, you're the man," said the commissariat officer in a loud voice. "You gave us three hundred tons of coal. It's the best we have ever had. Instead of our having to stop the ship while we cleared the funnels, whenever there is a new firing up the smoke goes with a puff and clears the funnel itself. I want three hundred tons more, but, mind, it must be of the same quality."

Frequent and shallow cultivation are essential to success with corn. Deep cultivation means root injury.

## A Great Remedy

DR. HENDERSON'S Herb Treatment (tablets), the great blood purifier, will cure rheumatism, constipation, eczema, kidney, liver, stomach and female troubles. Price \$1. with guarantee, or 6 boxes for \$5, postpaid. Henderson Herb Co., Dept. W., 178 Spadina Ave., Toronto.

## For Summer Days

A charming model for summer weather has a long, straight tunic of flouncing over a plain foundation finished with a deep hem. The fulness of the tunic is laid in soft pleats topped by a shaped belt pointed in the front like the top of the soft vest in the blouse. A long collar which extends midway down the front is one of the attractive features of this hot-weather model. McCall Pattern No. 7839, Ladies' Semi-fitted Dress; 30-inch length. In 5 sizes; 34 to 42 bust. Price, 20 cents.

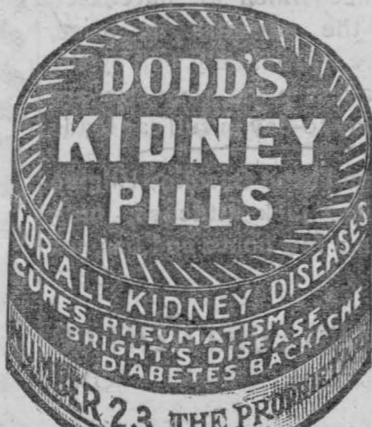

In fine plain gingham trimmed with an organdie collar and bright hand embroidery this is a frock to be reckoned with in any wardrobe. Large pockets, and side yokes ending in points which button on to box-pleats, are new and fashionable features which lift this frock far out of the sphere of the general run of frocks. McCall Pattern No. 7834, Girl's Dress, in 6 sizes; 4 to 14 years. Price, 15 cents.

These patterns may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond St., Toronto. Dept. W.

I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made. ARCHIE E. LAUNDRY. Edmonton.

It is easier to make enemies than friends, but it is easier to get rid of friends than it is to get rid of enemies. No matter what other things there may be, if there is no silo a farm is not fully equipped. An inventor in Nebraska has patented wire netting covered frames to cover open automobiles to catch hats, veils or other articles that otherwise might be blown away.

ISSUE No. 28—17.

#### "HONOR SYSTEM" COUNTS.

Sign in a British Aeroplane Factory to Inspire Men to be Careful.

"Notice: A concealed mistake may cause a brave man to lose his life."

The simple, dramatic grimness of the terse sign reproduced above as hung in a British military airplane hanger testifies to the caution with which the fighting machines of the English airmen are overhauled. A single frayed wire or weakened strut might mean the loss of the lives of the pilot and machine gun operator and the destruction of a fighting mechanism worth thousands of dollars.

The "honor system" means more in an airplane hanger than in the greatest banking institution in the world. Absolute conscientiousness in preparing the machine for the next flight is imperative. Careless, casual surveys or the neglect of needed repairs generally purchase the inspector's leisure with the blood of the nerviest fighting men on earth.

## GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### BELGIUM.

Not with her ruined silver spires, Not with her cities shamed and rent, Perish the imperishable fires That shape the homestead from the tent.

Wherever men are staunch and free, There shall she keep her fearless state, And, homeless, to great nations be The home of all that makes them great.

#### A PORTRAIT.

This is a mother's face I know, such gentleness Is written there, one cannot be at loss; And something more those tender eyes express— The love of Mary looking on the Cross! —Arthur Wallace Peach.

#### THE LARK.

I heard a lark sing in the morn,  
A happy lark with golden tongue.  
It told me that the spring was born;  
It sang that all the world was young.

I rose and threw my casement wide,  
And bathed in morning's rosy hue;  
I listened to the gay lark's song,  
And fancied that it sang of you.

Julia Clifton Cresap.

## When Your Eyes Need Care

Use Murine Eye Medicine. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Sore Eyes and Granulated Eyelids. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 50¢ per Bottle. Murine Eye Salve in Aseptic Tubes, 50¢ and 60¢. Write for Book of the Eye Free. Murine Eye Remedy Company, Chicago. Adv.

In these days of unprecedented prices for farm products the farmer must keep "keyed up" in every branch of his work to get the most profits and keep abreast of his neighbors.

Minard's Liniment Cures Diphtheria.

#### Dramatic Sculpture.

Three little boys were playing on the beach. One had piled and patted and cajoled the sand into a resemblance to a racing car, another had constructed with fair success a touring car. But what the third little fellow had made was without form and void.

"What is your car?" one of the others asked him. He looked rather uncertain until the questioner continued: "Looks like two or three together." "It is," he said loftily; "mine's a collision!"

Minard's Liniment Cures Colds, Etc.

A Frenchman has invented a coffin made of paper that is said to be cheaper and lighter than the wood article.

YES! MAGICALLY!

CORNS LIFT OUT

WITH FINGERS

You say to the drug store man, "Give me a small bottle of freezone." This will cost very little but will positively remove every hard or soft corn or callus from one's feet.

A few drops of this new other compound applied directly upon a tender, aching corn relieves the soreness instantly, and soon the entire corn or callus, root and all, dries up and can be lifted off with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that freezone dries in a moment, and simply shrivels up the corn or callus without irritating the surrounding skin.

Don't let father die of infection or lockjaw from whittling at his corns, but clip this out and make him try it.

If your druggist hasn't any freezone tell him to order a small bottle from his wholesale drug store for you.

## LOCAL AND GENERAL

Whitaker the Optician will be at  
Wales July 14  
Morrisburg, July 16 to Aug 4

Two cases of infantile paralysis are reported from Ottawa.  
Miss Marjorie Goodfellow left yesterday to spend a few weeks in Vermont.

Mrs. Geo. Godfrey of Montreal is visiting her mother, Mrs. William Allison.

Miss L. E. Myers of Toronto is the guest of Mrs. J. H. Meikle.

Mrs. C. D. Bouck and family of Clinton, Ont., are the guests of relatives in town and vicinity.  
Mr. J. Smyth Carter and Miss Little of Toronto are the guests of the former's sister, Mrs. E. Casselman.

Miss Eleanore Wickware is home for the Summer holidays.  
Miss Susan Brown is the guest of her sister, Mrs. A. E. Coons, in Ottawa.

Miss Nellie Eacutt is visiting in Wales.

Remember the delightful trip to Alexandria Bay on the large steamer, Thousand Islander, July 17th., 1917. Return fare only 75c.

Mr. Edwin Weegar of Hamilton is visiting his grandparents Mr. and Mrs. Jacob Weegar.

Mrs. J. C. Guay and children are spending a couple of weeks with friends in Montreal.

Miss May Vipond has returned to her home in Summerstown after spending a couple of weeks with Mrs. A. Vipond.

Miss Dora Anderson is spending a couple of weeks' holidays in Toronto.

Mrs. Mary Campbell of Rose St. received a telegram from the Militia Department, Wednesday a.m. stating that her step-son, James had been severely wounded while fighting in France.

Mr. F. M. Eagleson, C. E. of Winchester, was this week awarded the contract for building six bridges in Dundas County in connection with the good roads scheme.

Saturday night excursion to Waddington on the Steamer Eloise. Will land at upper dock. Leave Morrisburg 7 p.m.; leave Waddington 10 p.m.

Mr. and Mrs. J. M. Whitaker will leave in their car on Monday, July 16th. for two weeks' holidays in New York State and their photograph studio will be closed from that date till July 31st. inclusive. The store and optical parlor will be open as usual in charge of Mr. A. A. Whitaker.

In recognition of his splendid service in connection with the Canadian Dental Corps, Major A. A. Smith of Cornwall, has been promoted to the rank of Lieutenant Colonel. Col. Smith is in charge of the London Area, with headquarters in the British metropolis.—Cornwall Standard.

On account of an important change being made in business, all accounts past due, must be paid to W. H. FETTERLY & CO., on or before July 20th, 1917.

Further notice will not be given after this date.

W. H. FETTERLY & CO.

A serious outbreak of rabies is reported from Peterboro county, where dogs, cats, calves and pigs have been infected. Negligence on the part of officials is charged. No official report of the outbreak has been made.

The death occurred on Tuesday at Prescott, of Mr. Edward Jessup. He was 85 years old and for a number of years he was collector of customs at Prescott.

People intending to cross in to the United States at Morrisburg are reminded that they must have passports before leaving for there is no time at the boat to secure them, and they should be applied for the day before leaving. Two photos are required. This applies to all men from the ages of 18 to 45.

Mr. Mason Hunter of Edmonton, Alberta, spent a few days in town this week renewing old acquaintances. Mr. Hunter is a brother of the late John A. Hunter who was recently drowned at Farran's Point while discharging the duties of police at the locks at that point. Upon hearing of the fatal accident befell his brother, Mr. Hunter immediately left his home in Edmonton to come to the funeral at Dundela.

Mr. and Mrs. J. P. Gormley and Master Paul spent Tuesday in Ogdensburg.

## STAR THEATRE Monday, July 16th, '17

A great Red Feather Feature, entitled

### THE BRONZE BRIDE

In which Miss Claire McDowell, the famous actress who takes the role of an Indian girl, takes some daring risks as she paddles a canoe through the rapids, rides a half-broken horse, falls headlong down a steep cliff and carries a wounded man for a long distance, unaided, through the forest.

This story is a sort of Indian Version of the "Madame Butterfly" theme staged in the French Canadian Forest, and shows the strength of a mother's love, combined with white man's force and savage.

### ADMISSION

ADULTS, 15 cents.

CHILDREN 10 cents

Mrs. G. H. Mounttop of Antwerp, N.Y., arrived in town the first of the week and will spend some time visiting relatives and friends.

Mrs. Bert Wood and family have returned home after spending the last month in Sherbrooke, Que. She was accompanied home by her mother, Mrs. Gikerson, who will remain for a few weeks.

Anyone desiring to send cut flowers to the "Flower Mission" in Montreal, where they are distributed among the Children's Hospitals, and the Soldiers' Convalescent Homes, will please send them before 7 p.m. every Tuesday evening to Mr. George Meikle's residence.

Wind will spread rumors, but for reliable news you must read your home paper.

Mr. and Mrs. Thomas Shooove of Montreal are spending the week with Mr. C. A. Duprau.

Guests of Mrs. C. Markell at Brookdale, for Dominion Day were: Mr. W. Monck, of Cedar Rapids, Mr. R. Monck, Riverside, Mr. and Mrs. W. Boler, and Master George of Montreal, Miss Della Gardner, Montreal, Mr. G. Field, Lachine, Quebec.

Miss Ida Pariseau announces that commencing this week-end she will offer the remainder of her Summer trimmed and untrimmed hats below cost in order to make room for a full line of up-to-date Fall Millinery.

Mr. G. F. Lavis of Toronto, and the Misses Muriel and Madeleine Lavis of town are spending part of the week in Montreal, making the trip by the steamer "Rapids King" and returning they will come by way of G.T.R.

Mr. and Mrs. J. P. Gormley and Master Paul spent Tuesday in Ogdensburg.
