### To the People of Chesterville and District.

I have purchased the dental practice of Dr. K. M. McVey in Chesterville and I hereby solicit a continuance of the business entrusted to his care, feeling that I can assure you of courteous treatment and also of doing you first-class work in all branches of my profession. I have been connected with the best dentists in Ottawa for some time and feel all the more proficient. I have taken possession and can now be found in my office in the dental rooms in the Fulton block, above the Molsons Bank, where I am prepared to do the most up-to-date work in gold and porcelain bridges; also inlay work and enamel fillings. Fees moderate. Satisfaction guaranteed.

Dr. S. H. HUTT.

### Child was Burned.

A sad burning fatality occurred at Smith's Falls on Friday when a little four-year-old girl, Teresa Merkley, was burned to death. Along with her younger brother the little girl was upstairs when it is supposed they were playing with matches when the child's dress caught fire. Her father and mother were upstairs at the time and upon hearing screams the father ran upstairs only to meet the little girl at the head of the stairs, screaming and one mass of flames. He carried her down stairs and medical aid was immediately summoned but the little one lived only a few hours. She was a daughter of Mr. and Mrs. Harry Merkley, who have only been residents of Smith's Falls for a short time. The body was taken to Winchester where the family formerly lived, for burial.

### C. O. F. Secretary Resigns.

Mr. J. P. Hoag, who was elected high secretary of the Canadian Order of Foresters in June last, has resigned from the office to continue his work in the normal school at London, Ont. Mr. Alf. P. Van Someren, a member of the executive committee of the order and manager of the Union Bank at Saskatoon, has been appointed high secretary to succeed Mr. Hoag. Mr. Van Someren will at once remove to Brantford, Ont., where the head office of the order is located. Mr. F. H. Davidson, of Winnipeg, Man. district high chief ranger for Manitoba, has been appointed to the executive committee to fill the vacancy caused by Mr. Someren passing on to the office of high secretary. Mr. J. P. Hoag has been reappointed high auditor which position he has held since June, 1905.

### Fire at Inkerman.

Inkerman was visited by a destructive fire one day last week. It started in some mysterious manner in the oil house of Mr. Alex Larue merchant, and spread with such rapidity that the store with its contents and the dwelling above in which Mr. Larue resided were quickly destroyed, nothing being saved. Mr. Larue's loss is placed at \$8,000 with \$4,000 insurance.

The flames jumped across the street and destroyed Mr. Henry Raney's stables. His house was also badly scorched but by hard work it was saved from destruction.

It was thought at one time the village was doomed and a call for assistance from neighboring villages was sent out. A ready response was made and a vast throng assembled from the surrounding localities, many Winchesterites going up. By the hard work of the citizens and others who formed bucket brigades the fire was kept under control and the village saved.

### J. A. Ellis a Candidate.

Ottawa October 12—J. A. Ellis, city treasurer, and president of Conservative Association of the city, was to-night selected to contest the riding of West Ottawa for the Legislature to fill the vacancy caused by the elevation of A. E. Frapp to the House of Commons.

Mr. Frank Darby was burned to death at his summer house in Grantham township.

## THE MOLSONS BANK

INCORPORATED 1855

MANAGER.

### Personal

Rev. W. H. Stevens spent the past week at Toronto.

Mr. W. H. Fetterly of Morrisburg, is in town to-day.

Mr. and Mrs. A. C. Garrow of Ottawa, are visiting relatives and friends in this district previous to their going to Calgary Alta., where they intend residing.

Mrs. Alex Hesson and little son of Vancouver, B. C. arrived in town last week, and are visiting Mr. and Mrs. H. G. Merkley of this place and Mr. Thos. Myers of Grantley, and other relatives.

Mr. J. S. Cowan of Vancouver, B. C. arrived in town on Saturday and expects to spend about ten days here with his mother and friends before returning. He was commissioned to New York on business and took advantage to spend a few days here.

### Mary L. VanAllen.

There passed away on Saturday evening, in the 2nd concession of Matilda, after a brief illness, an aged maiden lady in the person of Mary L. VanAllen, aged 60 years. Deceased was a daughter of the late Mr. and Mrs. Frederick VanAllen, and had always lived in Matilda township, but never married. She was a most upright, Christian lady, a member of the Holiness Movement. She leaves to mourn her loss three brothers and three sisters, being as follows:—Frederick and Leslie of Morrisburg Edgar, on the old homestead, back of Mariatown, with whom deceased lived; Mrs J. T. Bryan, Montreal; Mrs Chas. Shaver, Matilda; Mrs. Geo. Larmour, Matilda.

The funeral took place on Tuesday morning from the family residence to the Methodist church, Morrisburg, when Rev. R. C. Horner, of the Holiness Movement, Ottawa, conducted the service—Leader.

### Newboro Postmaster Dead.

L. S. Lewis, postmaster and division court clerk at Newboro, died Wednesday night from pleuro pneumonia. He was a leading merchant of the town for forty years. Mrs Lewis and a family of three daughters survive.

### TRINITY METHODIST CHURCH CHESTERVILLE

## Synopsis of Canadian Northwest Land Regulations.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency, or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

**Duties.**—Six months, residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre. **Duties.**—Must reside six months in each of six years from date of homestead entry (including the time required to earn the homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot take a pre-emption may take a purchased homestead in certain districts. Price \$3.00 per acre. **Duties.**—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.

**VARICOSE VEINS CURED**

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Dr. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got The New METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$21 a week in a machine shop before treatment, now I am earning \$21 and never lose a day. I wish all sufferers knew of your valuable treatment."

**HENRY C. LOCUST.**

**HAS YOUR BLOOD BEEN DISEASED?**

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.

**YOUNG OR MIDDLE AGED MEN.**—Imprudent acts or later excesses have broken down your system. You feel the symptoms swelling over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

**READER** Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our NEW METHOD TREATMENT will cure you. What it has done for others it will do for you. **Consultation Free.** No matter who has treated you, write for an honest opinion **Free of Charge.** Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

**NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE.** No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment **FREE FOR HOME TREATMENT.**

Write for our private address.

## PROMPTING AN AUDIENCE.

English Actors Give a Signal When It's Time to Laugh.

"Nothing illustrates the difference between English and American wit more, probably, than the manner in which playwrights write their lines," said Rupert Hughes. "There are few people who realize the intricacy of the science of writing a 'laugh'—that is, a line capable of producing a laugh from an audience.

"A man may write one of the funniest lines ever given to the American stage and see it ignored by an audience because of some act on the part of the producing company or one member of that company. I have seen the wittiest remarks wasted because of the move of a hand or of the head of the comedian or actor who enunciated it. Then, again, the laugh is taken out of a line by the moving of some person in the stage setting or by the moving of some part of the stage setting itself. It is funny how the slightest move on the part of an actor, after reciting certain lines, absolutely eliminates the wit from what he has just spoken, so far as the audience is concerned.

"This is so of American audiences, but not so of the English theater-going public. They will not laugh unless the witticism is finished by a nod of the head or a certain movement of the body.

"It is on this account that certain comedies, great successes in this country, are absolute failures in Great Britain," he continues. "Something must be done when a 'laugh line' is spoken on the English stage to give the audience an inkling that the witticism has been completed. Then you get your laugh.

"Not so, on the contrary, with Americans. I remember of hearing of an incident involving one of Olga Nethersole's first appearances in this country. Several times during the performance the celebrated actress walked to the sides and exclaimed to the stage manager: 'What's the matter? Are they going to hiss me off? Why, they applaud before they hear the end of the lines.' In each instance she was told that the audience was quicker than the audiences to which she had been accustomed to playing. She was told the Americans grasped the meaning and the wit of her lines when she had spoken only half of them. The actress, although she received all kinds of applause during the performance, seemed disheartened."—Washington Post.

**Time Brought Revenge.**

A good election story comes from Oshawa where one of the hottest fights of the campaign was waged.

Dr. Kaiser, upon whose lawn the famous tent was spread, in which the meetings were held, had been the centre, not only of this, but of previous political battles. In 1903 Mr. Fowke was elected, and by way of soothing the wounded feelings of the doctor, some ingenious, but good humored Grit walked to the door of the town physician and tied a lemon to the door knob. This was discovered next morning, and its meaning fully read, but the doctor concluded that "there would come another day. So the lemon was preserved and hidden away for three years.

At the demonstration on the night of Sept. 21, when Mr. Fowke was defeated, the lemon was brought to light amidst an uproar of laughter, and a reward offered of a Government job to the man who would hang the lemon on the defeated candidate's door. A procession of enthusiasts carried out the project.

**Ontario Railway Mileage.**

Ontario's railway mileage totals 9,017.94. During 1910 there were completed and opened for traffic, according to the report of the Public Works Department, just issued, 357.52 miles of railway. Of the 757.95 miles of the Transcontinental across Ontario, all of which have been located, 531 miles have been graded and 333 miles of tracks laid. On the Algoma Central and Hudson Bay Railway 98 miles are under construction.

Prior to Confederation the railway mileage in Ontario totalled 1,447.5 miles. Since then 7,570.44 miles have been completed. There are now 703.77 miles under construction. The total electric railway mileage is 721.73. There are under construction 67.5 miles.

**Hon. Mr. Parent.**

Hon. Simon Napoleon Parent, who is retiring from his position as chairman of the National Transcontinental Railway Commission, as a result of the overthrow of the Government which appointed him, is a Quebec lawyer, who has been a civic and political leader at the Ancient Capital for many a year. He started by becoming an alderman of Quebec city in 1890. Then he became successively mayor, member of the Quebec Legislature, member of the Cabinet, and Provincial Premier. He resigned the Premiership in 1901 to accept the position he is giving up. He is a fine-looking man fifty-six years of age.

**First Sunday School.**

It is a hundred years ago this month since the first Protestant Sunday school was inaugurated in Brockville, which was then known as the Village of Elizabethtown.

## PUZZLING BABIES.

Some Have X-Ray Eyes That Look Through Objects.

A year or two ago doctors in England were much puzzled over a six-year-old boy named Arthur Keene, living with his parents at Penarth, Glamorgan. Young Arthur had lived on milk since his birth, not a particle of solid food being taken. At six years of age he was finally developed and healthy, and his diet per week consisted of thirty pints of milk mixed with sugar and a little water.

When Lionel Brett, a young boy of Massachusetts, was a baby in arms, says Tit-Bits, his mother noticed that there was something peculiar about the eyes, and fearing that he was in danger of going blind, she had him examined by several oculists. These gentlemen discovered that the child was possessed of a most wonderful pair of eyes his sight penetrating substances in the same fashion as the X-rays.

Dr. Ferroul, of Narbonne, and Dr. Grasset of Montpellier some years back examined a young girl of Narbonne and she was found to possess eyes similar to those of Lionel Brett. Experiments proved that she could see through opaque bodies as clearly and penetratingly as her eyes generated Rontgen rays.

Another child possessed of wonderful sight was a German lad named Schaefer, who created a furore in scientific circles some time ago. There was nothing unusual in his appearance, and yet he had a very strange pair of eyes. The usual order of things was reversed; in the day he was practically blind, while in the darkness of night the keenness of his sight was astonishing. When night came on young Schaefer could see with an acuteness which many ordinary people would have given much to possess even in the daytime. He could enter a pitch-dark room and pick up any small object from the table or floor with as much ease as his parents could if the room were flooded with light. On one occasion Mr. and Mrs. Schaefer sprinkled the floor of a room with tiny pins, and at night they ordered their son to pick them up. Although the room was absolutely dark the lad found every one of the pins in an incredibly short space of time.

People with magnetic bodies are not unknown, and six years ago doctors discovered at Vladikavkaz, in the Caucasus, a girl of twelve whose body was practically a magnet. According to a medico who examined her, every object which she approached would move. Once she walked close to a kitchen dresser, and in an instant the crockery upon it began to dance. On another occasion a heavy bottle standing upon a table was raised in the air when the magnetic maiden went near it.

**Russian Excavations at Olbia.**

The site of the ancient Greek colonial City of Olbia is on the southern bank of the Bug and is partially covered by the modern Russian Village of Parutino. Renewed excavations are now proceeding under the supervision of Prof. Parmakovsky of the Imperial Archaeological Society. During the last fortnight many interesting finds have been made in the old city necropolis of terra cotta statuettes and masks, and personal ornaments in gold and silver, rings, beads, necklaces, ear pendants, bracelets, etc. The most valuable objects, however, is a second Eros in bronze, of superb workmanship and artistic merit, standing at out fifteen inches with its small pedestal. The greater and more valuable results of the researches desultorily made during the last few years are now in the Hermitage Museum at St. Petersburg. Olbia was originally founded by a Greek colony from Miletus, and became about 600 B. C., the greatest civilized and trading centre in southern Scythia.—London Standard.

**The Chinese Language.**

The Chinese language is the chief among that small class of languages which include the Tibetan, Cochin Chinese, Burmese, Korean and Chinese and which is usually described as monosyllabic. It is language in its most primitive form. Every word is a root, and every root a word. It is without inflection or even agglutination. Its substantives are indeclinable, and its verbs are not to be conjugated. It is destitute of an alphabet, in the sense in which other languages have an alphabet, and finds its expression on paper in thousands of distinct symbols or picture forms.

**Handling Baked Fish.**

Place in bottom of pan two strips of cheesecloth, three or four inches wide and long enough to extend three inches over side of pan, first dipping cloth in melted butter (or olive oil) and being careful to keep the ends extending over pan clean. Place fish on this and when done take hold of ends of cloth and lift fish out of pan on to platter. The cloth can then be easily pulled from under, leaving the fish in perfect shape.

**Too Quickly.**

"Sir, I wish to marry your daughter Susan."

"You do, eh? Are you in a position to support a family?"

"Oh, yes, sir!"

"Better be sure of it. There are ten of us."

**A Terrible Thought.**

"Nature knew what she was doing when she deprived fishes of a voice."

"How do you make that out?"

"What if a fish had to cackle over every egg it laid?"

**Chesterville BAKERY**

## **THE ICE STOVE.**

Dr. Graham Bell Has Beaten the "Dog Days" Trouble.

Prof. Alexander Graham Bell, the Canadian inventor of the telephone, and scientist of world-wide fame, has recently invented and constructed an apparatus for cooling dwelling houses in summer at small cost and with simple operation, which has been used with much success in the inventor's home during the hot spells of the summer.

While other dwellers on his street sweltered and wilted under the torrid temperature that rose daily to 90 degrees, Prof. Bell sat comfortably at work in his study. On his desk the thermometer, throughout the whole summer, has never registered higher than 61 degrees.

While there are numberless appliances for cooling buildings, they are, for the most part, adapted only to large structures, and are of a costly and complicated nature, dependent upon involved mechanism and many-syllabled chemicals, requiring an expert to operate. Prof. Bell's latest invention avoids all these objections.

He first became interested in the subject during a recent tour of the world, being much impressed in India and other tropical countries with the total absence in the dwelling houses, even of the wealthy classes, of all means of tempering the fierce heat. When he returned to the United States he at once addressed his talents to devising an apparatus that, while avoiding the objections of high cost and complex operation, would yet achieve satisfactory results in the cooling of private dwellings. With characteristic energy he soon conceived and constructed an appliance which, he thought, would fill the requirements. Nature aided him, for hardly had he installed this latest creation of his genius when a series of blistering hot spells put it to a crucial test.

This is the method of constructing the "ice stove," as it is now installed in Prof. Bell's home in Washington:

On the window ledge is set a small fan, about six feet in diameter. It is operated by a small electric motor attached by a wire to an electric light socket. The fan is enclosed in a casing. Under the lower sash of the window is set a board in which is a 2 1/2 inch hole. A short pipe connects this hole with the enclosed fan, thus supplying pure air from outdoors. Another pipe runs from the fan casing to a large wooden box, which formerly served as a pantry ice box, about three feet high and broad, and about four feet long. In this box are cakes of ice. The lid fits with airtight snugness. From the opposite side of the box at which the pipe from the fan enters, another pipe leads off to the apartments to be cooled in just the same manner that hot air pipes lead from a heating furnace. This pipe is heavily encased in asbestos. When this service pipe comes through the wall into the room to be cooled, it runs down to within about three inches of the floor, the end being open for the discharge of the cold air.

All that is necessary to cool the room is to turn on the electric current and start the fan. This draws the air in through the window pipe and drives it through the connecting pipe into the ice box. Here the pressure of the air from behind, due to the driving power of the fan, forces it across the ice, thereby cooling it, and thence on into and through the service pipe, whence it is discharged into the room.

## **Furs Double In Value.**

Among the many articles the prices of which are advancing, may now be added that of furs. Dealers say that the coming winter will see a rise of from 10 to 100 per cent. in almost all lines of these comfortable garments.

The reason given is that the demand for fur during the last four years has increased a hundredfold, and owing to the districts where fur was formerly very plentiful being rapidly becoming thickly settled, it is becoming difficult to get.

This is particularly true of Canada, where the tide of immigration has lately been very great in the parts of the country where the most valuable fur animals were plentiful.

## **The Health of Montreal.**

The Montreal Star has been taking a fling at the health situation in the metropolis. The terrible infant mortality in Montreal during the heat wave is fresh in the minds of the public.

The Montreal death rate is very high. In the last six years the average is 22.64 per thousand of the population.

Improvements in the water supply are under way for the relief of typhoid. But typhoid is only one ailment of the suffering Montreal public. The white plague is eating its dirty way into the homes of the people. Tuberculosis deaths have increased from 919 to 1,336 in the past four years.

in your home is the strongest kind of insurance against the germs of disease. It is a preventive against epidemics and contagion in the summer, and an absolute necessity the year round.

Requires neither water nor sewerage; can be placed in any part of your home; costs less than a cent a day, and lasts a lifetime.

Endorsed by the leading physicians and health officials. Specified by the most prominent architects, and adopted by whole municipalities.

Over 15,000 have been installed in Canadian homes in less than one year. Ask your dealer for prices.

The "PARKYTE" Sanitary Chemical Closet is made in Canada by Parker-White Limited, Winnipeg, Man.

Branches—Toronto, Montreal, Calgary and Vancouver, and is sold by Sanders, Soule & Casselman, Ltd., Chesterville, Ont., Agents.

#### Barns Burned but Crop Saved.

Napoleon Quennville's barns, said to be among the best and most up-to-date in Glengarry, and situated near the village of Williams-town, were destroyed by fire Wednesday morning. The cause of the fire is unknown, but it burst out just after the milking had been done, and the milk sent to the factory. The barn was worth at least \$2,000, and the contents, hay, etc., \$1,000 more. Last year's hay crop, which had been pressed, was in another building, which escaped, as did also the granary, the machinery shed and the piggery. It is understood that the insurance was only about \$400 or \$500.

Ottawa Citizen: Dr. R. E. Webster is suing the Canadian Northern for \$1000 for injuries to his horses and has issued a writ which sets forth that the C. N. R. tore down some of the fences of the Mockett farm, near its right of way, allowing Dr. Webster's horses, which he was pasturing, to escape and injure themselves.

#### Polling Day Changed.

At Saturday's meeting of the Cabinet Council it was decided to alter the previously announced date for the bye-elections rendered necessary by the formation of the new ministry.

Nominations have been fixed for October 27, instead of Oct. 25 with voting on Nov. 3 instead of Nov. 1.

The change is necessary because polling cannot take place in Quebec on Nov. 1, all Saints' Day, it being a church holiday.

#### Perry Brings Suite for False Arrest.

Smith's Falls Ont. Oct. 17—R. R. Perry of Smith's Falls, has brought a action against the J. B. Armstrong Company of Guelph, claiming \$10,000 damages for false arrest and imprisonment. This is the outcome of an action brought by this company a few weeks ago against Perry who had been acting as their agent on the claim that he had defrauded them of \$1,000 for goods supplied. He spent several days in jail awaiting trial, the case being dismissed.

#### Record Ads. Brings Results.

## THOUGHT IT WAS CANCER

"Fruit-a-tives" completely restored me  
SYDNEY MINES, N.S., Jan. 25th. 1910.  
"For many years, I suffered tortures from Indigestion and Dyspepsia. Two years ago, I was so bad that I vomited my food constantly. I also suffered with Constipation. I consulted physicians, as I was afraid the disease was cancer, but medicine gave only temporary relief.

I read in the 'Maritime Baptist' about 'Fruit-a-tives' and the cures this medicine was making and I decided to try it. After taking three boxes, I found a great change for the better and now I can say 'Fruit-a-tives' has entirely cured me when every other treatment failed, and I reverently say "Thank God for 'Fruit-a-tives'."

EDWIN ORAM, Sr.  
"Fruit-a-tives" sweetens the stomach, increases the actual quantity of gastric juice in the stomach and ensures complete digestion of all sensible food. "Fruit-a-tives" is the only medicine in the world made of fruit juices.  
50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

Mrs Gifford, an aged resident of Peterboro', was burned to death by her clothing taking fire.

HAMILTON & BEACH.

#### POTATOES.

A Car of Green Mountain Potatoes is expected at the Station at Chesterville the last of next week. Fit for seed.

THOS. FAULKNER,  
Morewood, Ont.

#### Farm For Sale.

Being the west three quarters of the west half of Lot 1, in the 6th Concession of the Township of Finch, containing 75 acres (more or less). Stabling for 24 head of cattle and 5 horses, water in barn cement floors. For further particulars apply to

GEO. BARKLEY, jr.  
Connaught, P. O.

#### Farm for Sale.

Being the West Half of Lot 11 in the 5th Concession of the Township of Winchester, containing 100 acres more or less. There is a small barn on the property. The soil is excellent and free of any yellow weed, or other noxious weeds. Close to school and Cheese Factory. For particulars apply to

A. H. FULTON  
Chesterville.

#### Farm For Sale.

First class farm for sale. Lot 14 in the 7th con. Township of Winchester, containing between 50 or 60 acres. All in good state of cultivation, free from yellow weed and dirt; good frame house nearly new barn and stables; also a machine shed, three wells, well fenced, about quarter of a mile to school house and cheese factory, three miles East of Winchester or 4 miles West of Chesterville. Apply to

ARTHUR HENRY  
Chesterville P. O.

#### Strayed.

From our premises on Lot 24 in 10th Con. Winchester Tp. on or about 15th of July, a Red and White yearling Bull. Any information as to his whereabouts will be gladly received.

W. C. & E. J. GLASGOW  
Cannamore.

#### Printer Wanted.

There is an opening for a good printer in this office. Fair wages paid and a steady sit to right man. Apply at once.

#### AN AUTOGRAPH FIEND.

His Ruses to Get Letters and the Fate They Have Met.

The collecting of autographs dates back as far as the sixteenth century when men and women of light and leading were accustomed to carry about oblong volumes of vellum on which their friends and acquaintances were requested to write some motto or phrase under his or her signature.

It was not, however, until 1800 or thereabouts that collections of autographs began to assume a monetary value amongst the votaries of the hobby. About this time appeared on the scene the Autograph Fiend (the "A.F." referred to in the title), and he has been growing in numbers and enterprise ever since.

He is a veritable terror, sparing none, and the devices he will employ in order to trap the celebrity into giving his autograph are legion.

There are, of course, the "pro" and the amateur; of which two, though both are pretty bad, the "pro" is undoubtedly the worst, since his sole object is the transmuting of great men's signatures into the current coin of the realm; whereas to the amateur the hobby is one of real and absorbing interest.

One famous Frenchman sent him ten closely-written pages—in his own handwriting—of earnest appeal; and Charles Dickens, who was staying at Boulogne at the time, wrote, in French, a short note of comfort to the man who signed himself "Miserimus," reminding him that he was but one of thousands of men who had been in a similar position, and who had finally emerged "victorious, triumphant, and happy."

Picard was eventually imprisoned for fraud.

Another man, not so long ago, wrote to the Earl of Rosebery explaining that he was sorely troubled in conscience in connection with the Premier's appearance at a racecourse. The earl's reply was sold for five shillings.

The same sum was realized on a long letter from Mr. Joseph Chamberlain, in which he explains his political views to a carpenter who had rather cleverly accused the brilliant statesman of being "too proud to write to a workman in his own handwriting." The letter concludes with the promise on the part of the writer to become godfather to the carpenter's child upon its baptism!

Needless to say, "the carpenter" was one of the noble army of autograph hunters.

The late R. L. Stevenson was the subject of much persecution by the "A. F.," though at least one exceptionally considerate collector secured from him the following charming little note. (At this time the author was at the Samoan Islands in the Pacific.)

"You have sent me a slip to write on, you have sent me an addressed envelope, you have sent me stamped, have spelled my name right, and some have done that. In one point you stand alone, you have sent me the stamps for yours. What is asked with so much consideration I take a pleasure to grant. Here, since you value it, and have been at the pains to earn it by such unusual attentions—here is the signature,

Robert Louis Stevenson.

"For the one civil autograph-collector, Charles R."

The Poet Longfellow, however, was merciful to his autograph-seeking correspondents—who were many—as was Edgar Allen Poe, in whose opinion "the feeling which prompts to the collection of autographs is a natural and rational one."

#### Humming Bird Shoes.

Shoes made of the breast feathers of humming birds are the latest extravagance of footwear. And an awful extravagance it is! They are the creation of a Paris shoemaker. It takes about six months and many humming birds to make one pair, as the tiny breasts must be stitched together to make a kind of cloth of feathers. The effect is very beautiful, the shoe gleaming with tones of reds and golds mingled. (The reds may represent the blood of the slain humming birds and the golds the wealth of the person who wears them.) A pair of these shoes cost only \$2,500—in money. But they cost the lives of countless numbers of the most beautiful birds—so tiny and helpless—that nature ever created. And the saddest thing about it all is this—the shoes are made for women to wear!

#### Mourning Rings.

In the seventeenth century a somewhat morbid taste in rings was evinced by the custom of wearing memorial or mourning rings bearing the name and date of the death of the departed. These were often of elaborate design, enameled in black and white, and a pleasantly suggestive ring of this type at one time very popular was formed of two skeletons bent along the hoop and holding a coffin on which the name and date were engraved.

#### Good Stunt.

At a military drill the command was given to raise the left leg. One man, however, raised his right leg, and, perceiving this, the officer exclaimed, "What idiot has raised both his legs?"—London Mail.

#### He Had Called It Off.

"Shure, Bedalia and me won't be marrying the day. Oi've bruk the engagement."  
"An' fer p'wy did ye do that?"  
"Bedad, she ran away an' married McNulty yisterday."

SHEEP, SWINE, SEEDS  
POULTRY

\$11,000.00 IN PRIZES

For free prize lists apply to the Secretary.

PETER WHITE, D. T. ELDERKIN,  
Pres., Pembroke. Sec'y., Ottawa.

To the Editor,

Permit me to call the attention of your readers to the Lecture to be delivered in the Town Hall on Friday evening next. This lecture has been arranged for, preparatory to the organization of a Horticultural Society in the village of Chesterville. The object of a Horticultural Society is to generally improve the external appearance of the home by giving its members a training in the principles, undergoing the improvements of grounds, by the selecting and planting of trees and shrubs, the planting of flowers, the making of lawns etc. Professor Hutt is one of the best authorities on landscape work in the province. He has devoted his entire life to it and has had under his supervision the making of many grounds both public and private. The Ontario Agricultural Campus, which is the finest College Campus in Canada, has been made by Professor Hutt much of the planting having been done by his own hand. Professor Hutt's lecture on Friday evening will be both instructive and entertaining and to it the public are generally invited.

Yours Faithfully  
A. D. CAMPBELL  
District Representative.

### CASTORIA

For Infants and Children.  
The Kind You Have Always Bought

Bears the  
Signature of *Chas. H. Fletcher*

Former Residents of Leeds County in  
Trouble.

Vancouver, B. C. Oct. 10—Ex-Ald. W. J. Cavanagh, who lived for several years in Emerson, Man. was to-day committed for trial on a charge of bigamy. The first Mrs Cavanagh, who still lives in Emerson, says they were married in Ontario years ago. The second wife is Miss Lilly N. Campbell, who says she married Cavanagh in San Diego, Cal. The second wife is now living with him and their child. Relatives of the second wife are pressing the charges.

### New Governor-General has Arrived in Canada.

Quebec, Oct. 13—The Duke and Duchess of Connaught with their suite landed on Canadian soil this morning. Their Royal Highnesses were received at the wharf by the deputy Governor-General, R. L. Borden, and the members of the Dominion Cabinet, the inspector general of militia, and the director of the naval service, and the Provincial Premier and his Cabinet. A salute of twenty-one guns boomed from the Citadel as they landed. The Duke and Duchess at once entered carriages and proceeded to the parliament buildings where the new Governor-General took the oath of office. All the usual ceremonies of such an occasion were observed.

The swearing in over, another salute of 21 guns was fired to announce that Canada's new Governor had been formally installed into office. Sir Lomer Gouin then read an address of welcome on behalf of the Provincial Government, and the mayor of Quebec followed with one on behalf of the city. H. R. H. replied briefly to both addressees. Luncheon at the Chateau Frontenac was given by the members of the Cabinet.

### The Dairy Test at the Eastern Show.

The prize list for dairy cattle at the Eastern Ontario Live Stock and Poultry Show, Ottawa, January 16th to 19th, 1912, provides large prizes for Ayrshires, Holsteins, Jerseys, Shorthorns, Guernseys and Grades. There are three sections for each class, cow, 48 months and over; cow, 36 months and under 48; heifer, under 36 months. The total amount of prize money for the dairy cattle is \$1400. There will be a production test extending over 72 hours beginning at 9 p. m. on Friday, January 12th. Awards will be made according to the following scale:  
25 points for each pound of fat.  
3 points for each pound of solids no fat.

1 point for each 10 days in milk after the first 30 days; limit 10 points.

At one of the recent shows a pure-bred cow competed in the test. The owner valued her at \$150.00 before the test but after winning first prize and \$50.00 in prize money he sold the cow for \$500.00. This illustrates the value to a breeder of competing in this dairy test. Full particulars regarding the rules, classification and prizes will be found in the prize list which may be secured from D. T. Elderkin, Secretary, Ottawa.

# THE MOLSONS BANK

Fifty-Sixth Annual General Meeting of the Shareholders  
Held on Monday—Prosperous Position—With No Unsettling Changes in Tariff Continued Progress Looked For.

The 56th annual general meeting of the Shareholders of The Molsons Bank was held at their banking house, 200 St. James street, Montreal, at three o'clock Monday afternoon, October 16th.

The President, Mr. William Molson McPherson, took the chair, and there were also present Messrs E. K. Greene, H. Markland Molson, Henri Jonas, David McNicoll, A. G. Watson, W. M. Ramsay, Charles E. Spragge, Kenneth Molson, A. D. Fraser, W. R. Miller, J. W. Molson, H. W. Evans, G. Durnford, H. C. Brewer, C. Archbald and C. B. Gordon.

In opening the proceedings the President called upon Mr. A. D. Durnford to act as secretary, who read the notice calling the meeting, which was done.

## DIRECTORS' REPORT.

The President then called upon the General Manager, Mr. James Elliott, to read the annual report as follows:—

Gentlemen,—At this the 56th Annual Meeting of the Shareholders of The Molsons Bank your Directors beg to submit their Report and Statement of its position as on 30th September, 1911.

Business has been good and fairly remunerative. The profits of the year amount to \$712,539.82. After paying the increased dividend of 11 per cent, Taxes, expenditures on Branch Buildings, and usual subscription to the Pension Fund, there was added from Profit and Loss Account \$200,000 to Reserve Fund, raising it to \$4,600,000, and leaving still at Profit and Loss a balance of \$119,306.12.

The Bank's general business, deposits and loans, all show satisfactory growth with good prospects of continuance.

Since last meeting branches have been opened at Dashwood, Teeswater and Petrolia, Ontario; also in Montreal, on St. Lawrence Boulevard, and at Cote, St. Paul.

Handsome and substantial buildings have been erected for accommodation of our branches at Edmonton, Alta., and Maisonneuve, Que., and suitable ones at Lachine, Knowlton and Ste. Theresa, Que. To provide in part for their cost \$100,000 has been charged to Branch Premises Account, making it \$700,000.

To accommodate the public and afford room for transaction of our increasing business, we have found it necessary to undertake considerable alterations and additions to our St. James street main building. These are now well under way.

Mr. J. P. Cleghorn, who has worthily served you as Director for sixteen years past, having resigned on account of failing health, the vacancy thus caused has been filled by the appointment of David McNicoll, Vice-President of the Canadian Pacific Railway, whose wide acquaintance with the business of the whole country will doubtless be of much interest to the Bank.

All branches of the Bank have been carefully inspected during the year, and with pleasure we again report that the officers of the Bank everywhere have performed their duties with efficiency and zeal.

## GENERAL STATEMENT:

General statement of the affairs of the Molsons Bank, 30th September, 1911:

## NAPOLEON'S TAILOR.

One Man Who Dared to Disobey His Imperial Master.

The diary of Poumies de la Siboutie (born 1780, died in 1863), recently translated into English, has something about Napoleon, that remarkable man who continues to be the most interesting figure in European history. Here is one about Napoleon's carelessness in dress and what came of it:

In 1810, when Napoleon went to Compiègne to receive Marie Louise, his sister, the Princess Borghese said to him:

"Your clothes are badly cut and do not fit you. You are so obstinate about not wearing braces—your trousers always look as if they were falling off!"

"Well," answered the emperor, "what do you advise me to do about it? Can you recommend another tailor?"

"Have a talk with Constant."

Constant, the emperor's valet, was sent for and named one Leger, who was tailor to Murat, Prince Eugene, Joseph and Jerome Bonaparte. A messenger was sent to summon him, and he arrived at Compiègne the next day. From that moment he made everything Napoleon wore. He consistently ignored his imperial patron's suggestions concerning his clothes. For instance, the emperor wished the skirts of his tunics to be turned back, like those of Frederick the Great. "I should not think of allowing such a thing, sire! You would look absurd, and my reputation would be lost. The eyes of the whole world are upon your majesty, and if you were seen wearing such a uniform as you propose it would be a disadvantage to you, and I should have to bear the blame. I would not make you such a tunic if you offered me the whole of your empire."

## ESKIMO SEALERS.

A Battle of Alertness Between the Hunter and His Prey.

The Eskimo method of hunting seals shows a primitive calling improved to a fine art. When a seal is discovered the direction of the wind is at once noted. Then the hunter, keeping himself to the leeward of the seal, walks up to within about a quarter of a mile of it. Beyond this he begins to crouch and advances only when the seal's head is down.

Now, as the seal is one of the most wide-awake of animals and has the habit of throwing up its head quickly every few seconds to guard against danger, it follows that the Eskimo has to be extremely alert if he would get his seal. When the seal's head is down upon the ice its eyes are shut, and it is said that in these brief intervals it takes its sleep.

The hunter by carefully watching the seal's movements is able without much difficulty to get within about 200 yards of it, but at closer quarters he is obliged to employ other tactics. He lies down at full length on the ice. Then the real sport begins.

When the seal's head is down the hunter, who keeps a keen eye on his prey, is able to approach still nearer by dragging himself forward on his elbows. This maneuvering continues for some time until the distance between man and beast has been reduced to a few yards.

When near enough to make a sure shot the Eskimo takes his bow and arrow from his side and sends a swift shaft through the head of his unwitting companion. Sometimes instead of the bow and arrow a harpoon is used with equal effect.—Harper's Weekly.

## The Parents' Joke.

Some parents seem unable to resist the temptation to make a joke with the Christian names of their children, says the London Chronicle. The Somerset House registers testify to the existence of a Mr. Mineral Waters, a Frosty Winter and an Alfred Days Weeks. There is something to be said in favor of naming children in the order of their arrival—Primus, Secundus, etc.—but it is unfortunate for a well known Canadian named Cumber that it should have fallen to his lot to be Quintus, for his name is always appearing in the papers as Mr. Q. Cumber.

## A Boston Street.

It was one of the older conductors breaking in a new recruit who had shown that he was not particularly quick to catch an idea. The car came to Webster street, and the older conductor whispered the name to the recruit. The latter did not understand, and the conductor, losing patience, said, "Webster—Webster's dictionary." And the passengers were amazed to hear the new man bawl out, "Webster's dictionary."—Boston Post.

## Yearned For Excitement.

"Yes, the great society leader is absolutely ennuyé."  
"Tired of everything, eh?"  
"Positively. The last time I saw her she was faintly wondering in a bewildered way whether she'd better take up aviation or get a divorce."—Cleveland Plain Dealer.

# AUCTION SALE FARM STOCK

## MANURE SPREADER!

MR. FARMER:

Are you interested in a Spreader. If so, let us show you the latest and most up-to-date Spreader on the market, equipped with the reversible self-sharpening graded flat tooth which will handle all

kinds of material with one-third less power than is used on other spreaders. Read the testimonial of one of our most progressive farmers:

**F. W. Merkley, Agent, Chesterville.**

Copy of Testimonial.

DUNBAR, ONT., Sept. 24th, 1910.

THE FROST & WOOD COMPANY, LTD.

Gentlemen,—Your agent, Mr. F. W. Merkley, of Chesterville, sold me one of your Kemp Spreaders, 70 bushels capacity, on conditions that it worked satisfactorily. I feel, therefore, that it is my duty to let you know how I found the Spreader to work. I may say we took out 140 loads of manure, some coarse and some fine, and after using it to put out those 140 loads I will freely say that your Spreader is a marvellous piece of machinery. We used one team weighing about 2400 lbs., no more, and they did it easily. I consider the Spreader one of the most up-to-date machines on the market, and I would most cheerfully recommend the Kemp Spreader to anyone who wants a first-class article in every respect, and I furthermore give this testimonial unsolicited, and anyone wanting any further information can call and I will freely give them my opinion on it.

Yours very truly,

(Signed)

GEORGE CARLYLE, Con. 8, Lot 25, Dunbar, Ont.

## FINCH.

Mr. and Mrs. Paul Dawson attended Mrs. E. Helmer's funeral on Sunday afternoon.

Messrs Charles McKinnon, Jas. Webb and Alex. R. McMillan were threshing with their steam mill in the 1st and 2nd concession last week. They are doing splendid work.

On Thursday, Oct. 5th, John A. McMillan, familiarly known as "John Archy," died at his late residence, lot 20 3rd con., at the age of 83 years. He was one of the best known and most highly respected citizens of Finch Township, unassuming in his manners, gentle and kind, and loved by all who knew him; a prosperous farmer and a man of sterling qualities. He located on his farm when it was practically in a forest state in the early days, and made it one of the best farms in the township. He leaves to mourn his loss two sons and three daughters—John J., on the old homestead; Archy, of Butte, Mont.; Mrs. John McNaughton, of Finch; Mrs. Hugh J. McMillan, of Butte, Mont.; and Mrs. Keath, also of Butte, Mont.; and two sisters, Mrs. Angus O. McMillan, of Berwick, and Mrs. John McMillan of Roxborough. In religion he was a Presbyterian and an elder of St. Luke's Church for upwards of forty years. The funeral took place at his home on Saturday afternoon. The service was conducted by Rev. W. D. Bell of St. Luke's. The pall-bearers were Messrs John D. McMillan, D. D. Cameron, W. McElheran, J. K. McLean, and J. McMillan. Mr. and Mrs. McEwen of Maxville, and Mr. John McMillan, Postmaster, of Cornwall, attended the funeral.

(From another correspondent)

Sandy McRae of Avonmore, spent Oct. 13th, with friends in town.

Miss R. McMillan is spending the week end with friends at Tayside.

Miss Huena McIntosh has returned to Montreal after spending the summer at her parental home here.

Miss Kathleen Manion is spending the week in Ottawa attending the wedding of her friend, Miss Margaret McMillan.

Much sympathy is extended to Mr. and Mrs. D. Forsythe and family in their bereavement.

Miss Janey McMillan of Gouveneur, N. Y. has returned home after visiting friends here.

Quite a number of the boys left on Monday for Cobalt.

Miss L. McLeod returned to Montreal on Monday.

### Packing Houses In Big Merger

Montreal, Oct. 13—It was announced to-day that a merger of three large packing plants, located at widely different points throughout the country had been formed with a capital of \$5,000,000. The concerns interested are the George Matthews Company, Limited, with plants at Hull, Peterboro', and Brantford; the Laing Packing Company, of Montreal, and the Park-Blackwell Company, of Toronto. The new concern will be known as Matthews-Lang, Limited, with W. E. Matthews as president. The new company announces that it is its intention to extend its plants and to enlarge both its domestic and export business.

A seven-foot sturgeon was captured in the race of the Davie pulp-mill at Thorold.

**A Prize Contest**  
open to the  
Farmers of Canada

**\$3,600 in Cash Prizes for Farmers**

READ the conditions of the Prize Contest we are conducting for the farmers of Canada. \$400.00 in prizes will be awarded to each Province. These prizes will be divided into four groups, consisting of:

PRIZE "A"—\$100.00 to be given to the farmer in each Province who will use during 1911 the greatest number of barrels of "CANADA" Cement. PRIZE "B"—\$100.00 to be given to the farmer in each Province who uses "CANADA" Cement for the greatest number of purposes. PRIZE "C"—\$100.00 to be given to the farmer in each Province who furnishes us with the photograph showing the best of any kind of work done on his farm during 1911 with "CANADA" Cement. PRIZE "D"—\$100.00 to be given to the farmer in each Province who submits the best and most complete description of how any particular piece of work (shown by photograph sent in) was done.

Every farmer in Canada is eligible. Therefore, do not be deterred from entering by any feeling that

you would have little chance against your neighbor. For remember, Prizes "C" and "D" have no bearing whatever upon the quantity of cement used.

As a matter of fact, your success in this contest will depend to a great extent on your careful reading of our 160-page book, "What the Farmer Can Do With Concrete." In this book—sent free on request to any farmer, full instructions are given as to the uses of concrete, and plans for every kind of farm buildings and farm utility. You'll see the need of this book, whether you are going to try for a prize or not. If you have not got your copy yet, write for it to-night. Simply cut off the attached coupon—or a postcard will do—sign your name and address thereto and mail it to-night.

Please send Circular and Book.

## Nervous Condition.

Results from Kidney Trouble.

Sick kidneys make you feel sick in a number of ways and it is now known that a nervous condition often results from kidney trouble. When the kidneys are sick the

whole nervous system becomes irritated causing headache, dizzy spells, fits of "blues," neuralgia attacks rheumatic pains weak eye-

sight, dull tired days, and a constant inclination to worry trifles.

Booth's Kidney Pills strengthen sick kidneys, cure backache, regulate the urine and restore to normal conditions. They are guaranteed. All dealers sell, 50c. box, or postpaid from the R. T. Booth Co. Ltd., Fort Erie, Ont. If you would like to test them free write for a trial box. Sold and guaranteed in Chesterville by W. G. Bolster.

### Last Contract of Laurier Government.

London, Oct. 13—President Reason, of London Board of Trade, received notice to-day to the effect that the contract for the building of the new breakwater at Port Stanley had been let to M. J. Hogan of Port Burwell. This was the last contract of the Laurier Administration. The breakwater will extend 1,200 feet into the lake, and will cost approximately \$210,000. The work must be completed with two years, and will provide greatly improved facilities for Port Stanley, which will then be one of the finest protected harbors on Lake Erie.

## No More Dandruff

W. G. Bolster Knows What is Making Clean Scalps.

In order to rid your scalp of filthy dandruff you must kill the germ. There is a hair dressing called Parisian Sage which is now sold in every town in Canada. It is guaranteed by W. G. Bolster to eradicate dandruff, stop falling hair splitting hair and itching scalp in two weeks or money back.

If you have dandruff get a large 50 cent bottle to-day and rid yourself of it. Remember that if dandruff germs are not destroyed in time, the hair will surely fall out and baldness will follow.

Mr. Harry Kent of Hamilton was awarded on thousand dollars' damages against the Maryland Casualty Company, which caused his arrest on a charge of misappropriation.

### Married at Fifty.

An interesting and unusual estimate of the proper age for matrimony is that advanced by Mrs Vivian, head and founder of the National Society of the Daughters of California. The happiest and most successful marriages, she says, are those between the man of 50 and the woman of 35. At that age of discretion she claims, the male has become more mellow, and tolerant as well as more solvent. On the other hand she intimates that a girl of 20 is much harder to get along with than to get along without, and that there ought to be laws prohibiting people from marrying before they are 30 years old.

We do not know what authority the Daughters of California have in such matters, but we fancy that improvident young people will for the present rush headlong into matrimony at assorted tender ages. When Mrs Vivian's theory gets into working order the bachelor entering the bald, corpulent age of 50 may as well leave hope behind. If Dr. Osler doesn't get him the Daughters of California will.—Success Magazine.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of catarrh that cannot be cured by Hall's Catarrh Cure.

Seal. A. W. GLEASON, Notary Public. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. F. J. CHENEY and CO. sold by all druggists, 75c. Take Hall's Family Pills for constipation.

### Dr. H. E. Tuttle.

Waddington, Oct. 7.—Dr. H. E. Tuttle, of Evans Mills, formerly of Chase Mills, dropped dead at the supper table last night at the Taylor House. Dr. Tuttle came here several days ago and had been stopping at the hotel. William Marshall, another boarder, was the only person in the dining room when Dr. Tuttle suddenly pitched forward in his chair till his head rested on the table. Mr. Marshall at once went to his assistance and found that he had ceased to breathe. Coroner Stillwell was notified. He made a visit here to-day and pronounced death due to rheumatism of the heart.

Dr. Tuttle was a native of Iroquois and a graduate of Queen's University, Kingston. He married Miss Margaret, daughter of Mrs. W. D. Copeland, of Brockville, who with three children survive.

The remains were brought across the river to the residence of Mr. Jed Tuttle, the funeral taking place Tuesday afternoon. Interment being at Iroquois.

### Drainage Court.

The Petite Castore and Annable Creek Drainage Scheme was again before the Drainage Referee on Friday last upon an application of the Township of Winchester for judgment against the Township of Russell for \$7,592.60, the amount of an additional levy in connection with this drainage work.

The Referee gave judgment against the Township of Russell for the full amount claimed by Winchester with costs of the Township of Winchester payable out of the drainage basin, and of the Township of Russell payable by that Township and chargeable against the lands and roads assessed in Russell.

W. B. Lawson, K. C., the Township Solicitor for Winchester, acted for that Municipality, and M. J. Gorman, K. C., of the City of Ottawa, appeared for the Township of Russell.

William Wingfield, a printer, was found dead behind The Spectator office in Hamilton. It is supposed he fell down stairs.

### Local and District News.

FOR SALE—A Perfection cooking and laundry stove, with a lot of pipes. Apply at this office.

In the absence of Rev. W. H. Stevens, a union service of the Methodist and Presbyterian congregations was held last Sunday, presided over by Rev. S. A. Woods.

Whittaker, the Optician, will be at Chesterville on Tuesday, Nov. 14th; Morewood, Wednesday, Nov. 15th; Finch, Friday, Nov. 17th.

Any one wishing a free home-stead in a land of perpetual summer, with a good income without effort, can find out how to do it by consulting or writing R. W. Matthews, Chesterville.

FOR SALE—The residence situated near the Methodist Church in Chesterville, good building, hardwood floors, furnace, hard and soft water in house. For particulars apply at this office.

We have received notice from C. H. Peters Sons, Ltd., of St. John, N. B., stating that potatoes are advancing fast in price, and that the price has jumped 20c. per ninety lbs in the past two weeks. With this notice we feel that there will be a good demand for the car of potatoes that is expected tomorrow and Friday.

Farmers in Ontario County are preparing for a hard and long winter because the red squirrels and chipmunks have become very busy laying in their winter food store, even going to the extent of collecting green chestnut burrs, breaking them open and hiding away for future use the unripe chestnuts. The natives declare they never before knew the squirrels to open chestnut burrs or to begin storing food so early in the fall.

There passed away in Matilda township, about a half mile west of Iroquois, on Oct. 9th, of pneumonia at the home of her son-in-law, Wm. Marshall, Harriet Serviss, relict of the late Chas. Sharpe in her 78th year. Mrs Sharpe was the eldest daughter of the late James Serviss, of Matilda and was born on June 29th, 1836. In 1854 she was married to Chas. Sharpe, of Lisbon, N. Y., who took up their residence in Iroquois, where she has resided ever since. She leaves to mourn her loss one daughter, Mrs Wm. Marshall; four grandchildren, all of Iroquois; three brothers and two sisters, viz., Alonzo, of Calgary; Charles of Iroquois; John of Brockville, and Mrs Geo. Stewart and Mrs Wm. Gregory, both of Iroquois. Mrs Sharpe has been a Presbyterian in religion for 22 years. The funeral, which was largely attended, was conducted at her late residence on Wednesday afternoon, Oct. 11th, by her pastor, Rev. D. O. McArthur, who spoke feelingly of the life of deceased. Interment was made in Point Iroquois cemetery. The family desire to thank their many friends and neighbors for the kindly aid and sympathy tendered them in their bereavement—Iroquois News.
