Proposed Sewage System and Disposal Plant Estimated Cost is $90,000 Following Survey

Report Received This Morning Suggests Separate Line For Domestic Sewage, Using Present Sewers for Storm Water.—Sewage Disposal Plant Cost is $37,000.

DISCUSSION AT NOMINATIONS FRIDAY NIGHT

Preliminary estimate of the cost of construction of public sewers and a sewage treatment plant for Chesterville has been set at from $88,000 to $90,000, by L. P. Stidwill, Civil Engineer, in his report received by Reeve Geo. H. Barkley this morning, following a survey made two weeks ago.

Commenting on the possibility of the government sharing the cost of such a plan, Reeve Barkley told The Record that the Hon. Dana Porter, Ontario Minister of Planning and Development, would not commit his department to a definite figure. There is a possibility, however, the government may pay 25 percent if the work is designated as a post-war project. The Provincial department has been urging the Dominion government to state what amount it would subsidize such works, but definite word has not been received.

The engineers' report suggests separate sewers to carry domestic sewage and storm water, saying the present sewers could be used as storm water drains. This would reduce the cost of the system since smaller size pipes would be utilized.

Of two types of treatment plant, a trickling filter plant and an activated sludge process, Mr. Stidwill advises the installation of the latter because it gives a better degree of treatment and the annual operating cost is much lower. Cost of the first is estimated at $27,000 to $30,000 with annual operating cost about $2,500; the sludge process would cost approximately $37,000, but operating costs would be $1,150, including power consumption, maintenance, replacement, and the salary of one man for four hours a day.

Cost of System

The complete cost of the separate sewer system and the activated sludge treatment plant is estimated by the report as follows:

General sewer system	$29,850 to $30,000
Private connection	17,970 to 18,000
Activated sludge treatment plant	37,000 to 38,000
Engineering	1,000 to 1,000
Interest and general expenses, etc	2,180 to 3,000
Total	$88,000 to $90,000

Breakdown of Sewer Cost.

The cost of the separate sewer system is estimated at $47,520 and is made up as follows:

15,300 feet 8" concrete pipe	@ 60c ft	$9180
1700 ft 12" concrete pipe	@ 80c ft	1360
2150 ft 15" concrete pipe	@ $1 ft	2150
600 ft 18" concrete pipe	@ 1.10 ft	660
9900 cu. yds. excavating and backfill	@ 1.50	14850
30 manholes	@ $45	1350
Crossing river with pipe		300
Total		$29,850

Private Connections.

300 T-connections	@ 2.40	$ 720
15,000 ft. 6" concrete pipe	@ 40c	6000
7500 cu. yds. excavating	@ 1.50	11250
Total		$17,970

Nestle's Sewage

The report considers only the sanitary sewage from the plant of Nestle's Milk Products (Can.) Ltd. would be treated. It would be economically unsound to run one million gallons of water used by the plant, of which 90 percent is condensing water containing only a minute quantity of milk solids, through the treatment plant, states Mr. Stidwill.

The engineer was advised by Dr. A. E. Berry, Director of the Sanitary Engineering Division of the Department of Health of Ontario, that complete treatment of sewage would be necessary. Mr. Stidwill therefore suggests the installation of the activated sludge unit which has the advantages of effecting 98 percent removal of contaminating organic matter and a lower operating cost to compensate the higher construction costs.

Discussion Friday Night

Discussion of the proposed sewage plant and construction of public sewers will form the greatest interest at the nominating meeting to be held in the Community Hall tomorrow (Friday) night. Reeve Barkley will take up the question in detail, and it is expected the municipality will be asked to register its wishes in the election scheduled for Monday, December 3.

SURPRISED BY PHONE CALL

Mrs. R. M. Campderros, who is visiting with her daughter, Miss Madge Campderros, R.N., at 4 Oldfield Ave., Montreal, was very pleasantly surprised on Friday evening when she received a long distance call from her son, Ramon Campderros, who was in port at Seattle, Wash., after a tour of duty in Far Eastern waters. His ship, the U.S.S. Devosa, will return to Guam with supplies.

Five Chesterville Veterans Returned Home Yesterday

Mr. and Mrs. Garland Sharkey were surprised last night when their son, Gnr. Harold Sharkey, arrived home unannounced from three years overseas service with the 6th Light Anti Aircraft Regt. Gnr. Sharkey came home on the liner Queen Elizabeth with the 45th Medium Regt., R.C.A.

Two sons of Mr. and Mrs. Lloyd Servage also arrived home last night from their overseas duty, Gnr. E. L. Servage and Gnr. R. H. Servage. They went to Quebec City with their regiment after disembarking at Halifax before proceeding to their home here. Gnr. J. R. Crump, son of Mr and Mrs. Chas. Crump, was also a member of this party.

Supervisor Gordon A. Cummings, of the Canadian Legion, was met in Ottawa yesterday afternoon by his wife, Mrs. Lucy Cummings, H. L. Hough and Mr. and Mrs. Rodney Hummel. He returned after five years service overseas which commenced with the R.C.A.M.C. until he transferred to become a supervisor with the Legion. He spent a year in Italy in this post, went to Holland with the 1st Division, and then spent two months in England waiting for passage home.

TALKS TO SON IN LONDON OVER TRANS-ATLANTIC PHONE

Mrs. W. J. McConnell, who is spending the winter in Detroit with her son Cecil McConnell, had the pleasure last Sunday of speaking, over the Transatlantic telephone with her son John McConnell of London, England, who was promoted some time ago to the rank of WO2 in the RCAF. He is in charge of a repair depot with a personnel of 80 men and women.

Shopwork Projects Feature Friday Night Club Activies

The Shopwork Class of the "Friday Night Club" was really "in the groove" last week when its members met at Chesterville High School for the second evening of the six-week period. They kept the room sounding and appearing busy with their whirring, buzzing, grinding, measuring and soldering, nearly all with varied efforts and ambitions. One member showed us a sheet-metal tray that he had finished, and commented that he hoped the soldering job on the next one would be better. Another member who is making a magazine rack stated that, with luck, he would complete it a week ahead of time.

There was an increase in registration in the Dramatics Class, which is now divided into two sections, under the supervision of Misses Hilda Ower and Edith Lyons. A change in programme has been made by this class. Two different plays are studied each week, with each class-member playing a role.

Members of the Dressmaking Class were still busy with patterns and cutting of materials last week, under the capable supervision of Mrs. G. Wragg and her assistants.

Those in the Group Games Class seemed to enjoy their recreational evening.

The Clean-up Committee appointed by President Jack Fulton for last week was Hosea Droppo, Bob Hummel, and Baden Boyd.

The Refreshment Committee for tomorrow evening will be: Mrs. O. Olsen, Mrs. Hosea Droppo, Betty Bolster and Helen Hughson.

DR. W. H. LLOYD IN HOSPITAL

Dr. Wilson H. Lloyd of town, is expected to undergo an operation today at the Ottawa Civic hospital to where he has been a patient for the past week.

FARMERS PREFER CASH IN AUCTION SALE DEALS

At this time of year, farmers planning auction sales usually find it difficult to decide whether they should offer their chattels for cash or give terms. But from one instance, at least, it would appear that most buyers prefer to pay cash and complete the transaction at one stroke. J. V. Fetterly, well-known auctioneer, told The Record of a recent sale he conducted that netted the owner over $5,000 and which yielded but one promissory note even though generous terms were offered.

Nomination Meetings Friday For Village and Township

Nominations will be held Friday for Winchester Township and Chesterville Village, and it looks at present as though there will be several changes in prospect for the two council boards. The entire council of the village is said to be ready to quit the job although no doubt most will reconsider their stands before nomination is closed.

Councillors R. J. Barrie and Leon Marcellus have stated definitely they will not seek renomination because pressure of business will not permit them to continue. Reeve Geo. H. Barkley states he would like to give up the job as he has been in municipal politics for 20 years, five of these as Reeve of the Village.

Reeve W. J. McConnell will seek re-election in the township, he states yesterday, and it is expected his board will follow suit, although rumour has it that Deputy-Reeve E. Summers does not wish to continue.

END OF TIRE RATIONING SEEN FOR THIS SPRING

Munitions Minister Howe told the House of Commons this week that the government hopes to lift tire rationing some time next spring. This would depend on tire fabrication, he said, because the limitation was not related to rubber. It was likely there would be some relaxation in rationing restrictions in the near future. The Minister said it was not known when large supplies of natural rubber would become available.

Mrs Evelyn Brown Leads Counties Loan Salesmen

Mrs. Evelyn Brown, whose husband, H. Brown is manager of the Bank of Nova Scotia, Chesterville, finished up the 9th Victory Loan campaign as the sole occupant of the $200,000 club with subscriptions to her credit totalling $202,400 or 373.3 per cent of her objective set at $60,000. Chesterville Division contributed $424,350 to finish in second place to Lochiel Township with $466,800.

Winchester Township was the only rural municipality in the United Counties to be divided into districts, so that when the two districts of Winchester and Chesterville are totalled Winchester Township leads with $749,900, with two other Dundas townships taking second and third place, Williamsburg subscribing $645,700, and Matilda $532,950. With Mountain Township's contribution of $176,150, Dundas County subscribed the impressive figure of $2,104,700.

Chesterville District's total for Victory Loans of this war now stands at $1,580,350, Winchester District has $1,451,950 tucked away, so that the Township has invested in the nine loans $3,032,300. The local objective for the first loan of $82,450 appears as chicken feed in the light of the recent accomplishments.

Totals for canvassers in the two Winchester Township districts are:

	Objective	Amount
Chesterville Division		
Brown, Mrs. Evelyn	$60,000	$202,400
Casselman, J. F.	45,000	63,600
Hough, H. L.	40,000	88,650
Banks	55,000	68,350
Employees Misc.	.....	1,250
Total	$200,00	$424,250
Winchester District		
Boyd, W. J. L.	$46,000	$59,900
Summers, Allan	41,000	71,900
Robinson. Mrs. D.	36,000	54,750
Summers, E. R.	46,000	106,150
Banks	31,000	31,950
Employees Misc.	.....	1,000
Total	$200.000	$325.650

FIFTEEN CENTS EACH WOULD PAY T.B. COSTS

The annual campaign for the sale of Christmas Seals was launched this week by the St. Lawrence Sanatorium, and 6,000 letters have been sent to residents of the United Counties requesting their help in the sale of these seals.

Addressing the Chesterville Rotary Club on July 23, Dr. Cragg, superintendent of the Sanatorium, told of the plans for increasing the drive to ferret out tuberculosis cases in the Counties. New mobile clinics are planned which will permit the examination of 1,000 patients a day, but at least 18 months will be required to complete the X-ray examinations in the Counties.

At present, the cost of X-ray plates are two dollars each but under the new scheme this would be reduced to 50 cents. During his address, Dr. Cragg stated that the sale of Christmas seals—which supports this work in the Counties—has netted in the past four cents per capita, but if this could be raised to only fifteen cents for each person in the Counties, the complete cost of the improved system would be met.

Since the Sanatorium was opened to the public in October, 1939, over 600 patients have been admitted, of which about 250 are known to be well and working, and many more have been discharged and are convalescing. Two from Chesterville were included in the latter group this summer, having contracted T.B. in their duties with the armed forces overseas.

The success of the Sanatorium's efforts in combatting T.B.—helping patients and locating the contacts—is completely covered in the statement (made by Dr. Cragg) that the death rate in the United Counties from tuberculosis has fallen from the provincial high of 60 per 100,000 to 29, and now compares favourably with the rest of Ontario.

ONE MONTH'S WORK WOULD ELIMINATE DANGERS

Nothing has been heard about eliminating the dangers of the two level crossings in Chesterville and a mile west since the coroner's jury brought in its verdict on the accident that snuffed out the lives of six local people on October 6.

The Record has advocated for some years past, the abolition of these two crossings for through traffic by swinging Highway 43 south from the "White Crossing" to enter Chesterville by Queen Street. Now we are told, on good authority, that this could be accomplished in one month. The cost of the work would be inconsequential where the matter of human lives is considered.

The "White Crossing", a mile west of Chesterville, has long been regarded as extremely dangerous, and even the change made in the approaches following a triple tragedy a few years ago did ont relieve the necessity for greater safety measures. With plans for the route of No. 7 Provincial Highway through this district still "on the secret list", nothing can be learned of what will be done with these crossing dangers.

The plan advocated by The Record would eliminate entirely these crossings for through traffic, use little farm land, and the time and labour required would be no more than that needed to build one of the sweeping curves on the highway.

Does not the stake of human life justify immediate action?

MAKING USE OF WHAT YOU HAVE

When the staff of Chesterville High School proposed the meetings which have now become popularly known as the "Friday Night Club", they made use of existing facilities to launch the plan. After three weeks the club has gone through its growing pains to become a bouncing, healthy youngster, well-equipped to continue its career of education and entertainment for its allotted span.

There is no doubt the equipment of the High School is well adapted to meet the requirements of such a plan with classrooms for the various groups, and the basement providing space for the games room. But the need of a room for the social gathering when the groups leave their "classrooms" at ten o'clock was a stickler until Principal E. E. Maybee suggested putting the seats of one classroom on skids so that the floor could be quickly and easily cleared. When this was accomplished the club was on its way.

Last Friday night's meeting again turned the school into a busy centre for the group of "scholars". The thought came to the fore, as the lights blazed from every side, that the building was being put to improved use as a community centre. And we couldn't help wondering a bit what the old-timers would have thought if they could have heard "jive" music coming from the radio and piano.

Inside the school, the shop work class had 20 men grouped about their projects, with the whirr of saws and lathes and clatter of hammers making conversation difficult. But these men didn't want to talk—they had only two hours in which to work on their pet schemes.

While the shop provides the more dramatic picture with its tools and machinery, the other classes displayed just as much enthusiasm. The Home Economics Room enlisted 20 in the groups of sewing and glove-making; and it is from this room that the light refreshments are served by the committee. The games room provided entertainment for another group — mostly youngsters — while dramatics took up the rest of the "Friday Nighters".

NOMINATIONS SHOULD BE ATTENDED

Friday brings around once again (one month earlier this year) nominations for municipal councils with the Township nominations billed for Morewood in the afternoon, and in the evening the ratepayers of Chesterville will have the opportunity to hear how their business has been carried on during this year.

In past years, local interest (or the lack of it) has been deplorable. It is perhaps an incident of the old saw of not missing the water 'til the well runs dry. Had Fascism completed its dream of world conquest the situation today would be different indeed. Instead of placing the leaders of Nazi Germany on trial for their war crimes, we would be doing as we were told—with the threat of imprisonment or death facing the offenders. There would not be free elections, no opportunity to voice one's thoughts would exist, and certainly the press would be completely muzzled.

One of the pleasantries remaining in the human make-up is the desire to crab over the way governments operate our affairs and order our lives. But there isn't much sense—or fair play—in blaspheming the doings of the municipal council if one doesn't attend the nomination meetings and take an active interest in the community's government.

It's a bit hard to realize, but there are only 27 shopping days left until Christmas which comes "eggsactly" one month from Sunday.

There's still time to get parcels away to the boys overseas, in case absent-minded persons have put off mailing, states the Post Office Department.

It is hoped the farmers of Williamsburg, Mountain and Matilda Townships have their cattle under cover this week as hunters take advantage of the special open season for deer.

After a long spell of mild (if somewhat damp) weather, it would appear that winter has not forgotten Eastern Canada. Snow disappeared last week but has returned again, with temperatures recorded as low as 20 degrees.

Mayor Lewis of Ottawa has declared war on bandits, and his police department seems to be doing a good job of taking the glamour out of law breaking. Huard's death this week-end should be a lesson to would-be gunmen who want to stand behind the business end of a pistol.

The English papers carry many jokes about the conductresses. One of the best concerns the dance of a Polish officer seen performing a kind of Scottish reel between the bus steps and roadway. Those first in the queue laughed as others gazed wonderingly, for the conductress was shouting: "Come on, now, get off; come on, get off"; and he was obeying her every word.

Letters to The Editor

Community Hall Kitchen

Dear Sir: I have often heard uncomplimentary remarks about the condition of the kitchen in the Community Hall after a party,, therefore may I through the medium of your valuable paper offer a few suggestions. I had occasion to use it myself recently and I certainly found it in a disgusting state which made me remark "What encouragement has anyone to leave this place clean when they find it in this condition." The sink was full of dirty water and the corner between the sink and stove was piled with wood, papers and other rubbish. Before lighting the fire the stove had to be cleared of ashes and burned coal. It is no doubt difficult to fix the responsibility for this as so many people use the kitchen but surely a rule could be made that the place be left clean or an extra fee be charged to have someone clean it the following day.

As a kitchen, it leaves much to be desired in the way of conveniences, but I am of the opinion that with very little expenditure a number of improvements could be made. For instance a supply of hot water could easily be made available, a wood box provided and a large garbage can where all paper plates and other rubbish could be placed. Besides being more tidy this would greatly reduce the danger of fire.

The Community Hall is a fine building, serving a useful purpose and it is up to the people of the town and district to see that it is properly managed.

I would like to have other interested people make known their views on this subject and action taken to make our Community kitchen a credit to us.

Yours truly,

Large Attendance Out For "Safety Meeting"

A crowd of 200 turned out in the rain Monday evening to attend the Safety Meeting held by the Ottawa-St. Lawrence Division of the Industrial Accident Prevention Association, in the Community Hall, where the main speaker was Harry Mabson, Toronto, Chief Inspector for the I.A.P.A. Movies in Technicolor were shown by D. Kemp Edwards of Ottawa, depicting the need for safety precautions in industry.

O. L. King, district chairman, introduced the speakers who included, besides Mr. Mabson, E. Keith Davidson, Ottawa, chairman of the Ottawa-St. Lawrence Division; Wm. Sutherland, District Inspector; Geo. S. Piers, Ottawa, secretary of the Ottawa-St. Lawrence Division; D. Kemp Edwards, of Ottawa; E. Stotts, of Canada Foundry and Forgings, and Lewis Fields, of McArthur Belting Co., both of Brockville. Door prizes were won by Kenneth Kirkby and Ross Cass, both of Chesterville.

The task of the I.A.P.A., said Mr. Mabson who has 21 years of service in accident prevention, is to control the casualty lists of industry. 1944, he stated, saw 123,820 claims, of which 367 were fatal casualties. To date there has been an increase in industrial accidents in 1945, and 30 more have been killed than in the entire 12 months of last year. Over a million dollars a month are paid in Ontario to claims resulting from these accidents.

While workers may have the idea workmen's compensation "comes out of the boss", actually the money comes from every worker. Fees collected by the Workmen's Compensation Act must be considered in the cost of production, declared the speaker, and common sense dictates that when costs become too high the shop or fctaory has to close up.

The speaker used many factual cases to illustrate the urgent necessity for safety in industry. Pensions paid for claims arising from accidents while saws were unguarded cost $57,053.25 last year; a youngster injured in a platen press in a printing shop was paid over $10,000 for the loss of an arm. "Who benefits from this?" queried the speaker. "Certainly not the boy, for he cannot regain an arm; not the employer, and the country is worse off for it has one more permanently disabled citizen."

Control of accidents must start at the top, for the main factor of business is cost control. Workers must become safety conscious and see that safety devices are installed on their machines. And beginners were urged to listen to instructions on how to do their job safely.

Veterans returning to industry present a special problem, and the speaker asked for co-operation in seeing that these men relearned the tricks of their trade they may have forgotten while learning and practising the methods of war. He cited the case of a veteran who came safely through five and a half years of war to lose a hand on a rip saw that was not provided with a guard.

"Unless something is done," said Mr. Mabson, "we can expect 18,000 more accidents in industry before Christmas, which will include 45 fatalities."

E. Keith Davidson told briefly of the workings of the safety committee in his large lumber industry in Ottawa, and the bonuses paid workers for each three-month period passed free of accidents.

The meeting was attended by employers and employees of the district including Chesterville, Winchester, and the rural district. Numbered tickets were distributed proir to the meeting for the two $10.00 door prizes.

SPECTACULAR BRITISH ADVANCE IN BRAIN SURGERY

A new technique likely to revolutionize the treatment of brain diseases is being practised by surgeons of Saint Mary's Hospital, London. The patient is injected with a solution of malachite green dye. The effect is to turn the diseased tissue in the brain green. The normal tissue remains white. So well defined is the area of unhealthy tissue that the surgeon is able to remove it without damaging the brain as a whole. The London Sunday Express reports that the consulting surgeon to the hospital has so far carried out twelve operations with the aid of this dye. He is convinced that it will reduce the death rate in brain operations not only by ensuring the complete removal of the diseased part but by preventing a recurrence of the trouble. The dye method opens up a new approach to the investigation of epilepsy, the cause of which is still unknown.

40th Wedding Anniversary

The lamps are lit, the fires burn bright,
The house is full of life and light.

Such was the setting for the 40th Wedding Anniversary on Thursday, November 8th of Mr. and Mrs. Donald Carr. Mr. and Mrs. Carr (the former Nancy McMillan), have lived here all their married life and as a fitting remembrance of the occasion, their son, Claude and his wife entertained the brothers and sisters, their wives and husbands, and a few close friends to dinner. The dinner table was centred with a beautifully decorated three-storey wedding cake.

Yellow candles and yellow flowers and streamers cast a soft glow over a sumptuous table. Among the guests was a newly married couple, Mr. and Mrs. Kenneth Nugent of Berwick, the eldest granddaughter who shared congratulations with her grandparents. After full justice had been done to a splendid dinner, all repaired to the living room where reminiscence and music made the evening pass all too soon. Mr. John Clarke of Bouck's Hill, a violinist of no mean calibre, and the Carr sisters, piano and guitar accompaniment, gave the guests all the old and new in music. Although the invitations said, "Please Omit Gifts", the honored couple received handsome serviceable gifts. Mr. and Mrs. Carr have two sons, Elburn and Claude, one grandson, Dalton Carr, and three granddaughters. Mrs. Nugent and the Misses Dorothy and Arlene Carr.

Williamsburg

Mr. and Mrs. Alfred Gallagher of Brinston, were guests last week with Mr. James Deeks and Miss Ethel Deeks.

Miss Betty Strader and girl friend student nurses at the Civic Hospital, Ottawa, were tea guests on Sunday with her mother, Mrs. Geo. W. Strader and family.

"B.B.B." Sure Death For Wily Racketeers

Illustrating his talk with actual experiences, Geo. S. Piers, secretary of the Ottawa Better Business Bureau, explained the workings of the bureau to the Chesterville Rotary Club at the Monday evening meeting. Guests of the club included Harry Mabson, chief inspector of the Industrial Accident Prevention Association; Wm. Sutherland, District Inspector of the I.A.P.A.; E. Keith Davidson and D. Kemp Edwards, Ottawa business men who are members of the executive of the Ottawa St. Lawrence Division, I.A.P.A.; Delbert Hutt and Wilfred Hutt of Ottawa, and Geo. Olsen, of Chesterville.

Mr. Piers was introduced by O. L. King, who stated the speaker had served 15 years with The Ottawa Citizen, and is president of the Ottawa Musical Festival Association, as well as secretary of the Better Business Bureau and the Ottawa-St. Lawrence Division of the I.A.P.A. L. A. David expressed the thanks of the club.

Commencing 30 years ago in Minneapolis, where a young salesman became alarmed at the glaring advertising of the day and enlisted other ad men in a crusade to clean up the publicity campaigns, the National Vigilance Committee set as its task the protection of local advertisers, and then expanded to industry and the general public. Organization as the Better Business Bureau followed, and now is set up in 91 cities, five of which are in Canada.

The B. B. B. is a non-profit organization maintained by fees from the member firms, whose work of investigating schemes that appear questionable is carried on by a salaried staff. One of the works of the Ottawa bureau is the distribution of thousands of pamphlets to ex-servicemen containing warnings against the glib tongue of the racketeer waiting to pounce on some easy money.

Mr. Piers explained the working of the "Memorial Park" racket which was frustrated by the Ottawa Bureau. A large number of men, prominent in business and politics had unwittingly agreed to lend their names to its promotion, which would have resulted in a $200,000 swindle.

Other instances of foiling rackateers, included the salesman for "genuine" Nylon hosiery who goes from house to house collecting in advance from housewives. Then, there was the case of a salesman gypping a Montreal woman out of $3,000 with the promise she would be part-owner in the Peruvian rubber plantation he was establishing. 3

Affecting most homes, however, is the "Concert Promotion" racket. In this scheme, a promoter comes to town and enlists the support of a women's organization, then brings in a bevy of girls trained in salesmanship to distribute the tickets. These girls must make enough out of the promotion to pay expenses, and it is proven, said Mr. Piers, that the sponsoring organization receives but 17.2 cents out of every dollar taken in by the group.

A complete file of over 761 rackets is kept at the offices of the bureau, and persons may obtain information by contacting any of the bureau established in Montreal, Ottawa, Toronto, Winnipeg and Vancouver.

The speaker told of a young army officer, recently released, who was saved $3,600 when he asked the Ottawa bureau to investigate a firm interested in promoting an idea of his. Information in this case came from Oklahoma City, illustrating how widespread is the Bureau in its investigations of illegal schemes.

Pte. Ken Servage, Crysler, Drives Big Truck in London

Trundling a mammoth 60-cwt truck through the heavy traffic of London's busy streets, 10,000 accident-free-miles is strictly a tough assignment says Pte. Ken Servage, who watched his milometer creep slowly over the big hump.

This accomplishment makes Pte. Servage another silent member of the ever increasing group of "mileage without accident" drivers of the Canadian Army Overseas.

Since enlistment early in December '39, Servage has rolled vehicles a lot of miles for the Army in Canada, Newfoundland and in Britain, but he believes that the last 10,000 will always be rated as his toughest. The total includes many miles of far from care-free driving during the London buz and rocket bomb era of over a year ago, and a fair share of blackout driving.

"Old 76", as Servage calls his present "Big Bertha" of the highway, has only been forced off the road once in over a year and that time it was the debris of a buz-bomb exploding nearby. Luckily "Old 76" was not occupied at the time. A "stove-in cabin and stern damage" is the way Servage who has been attached to the Navy for the past year describes the damage.

In civilian life, Servage was a farmer near Crysler. Through his daily brushes with London cab-drivers he is taking home some driving language that is bound to astound the old gray mare as she plods steadily through the heat along the old furrow.

Servage is at present with No. 17 Dental Coy. attached to Canadian Navy Headquarters in London.

MERRILL MISSION BAND BAZAAR AND PLANS

Armistice Day being a holiday, the Mission Band varied their usual time procedure and held their meeting in the Sunday School Hall at 2:30 p.m.

The meeting conducted by Joan Price, assisted by Irene Paul, opened with the hymn "Jesus Loves Me", followed by scripture reading and prayer. The program was very interesting and consisted of a recitation by Margo Boyd, prayer by Gayle Henderson and a reading by Jean Doering. A trio, consisting of Sheila Morris, Patsy Durant and Una Merkley sang very sweetly.

Mrs. Munro dealt with the 2nd chapter of "Nyanga's Two Villages".

Following the meeting the Band divided into two groups. The juniors with Mrs. McKercher enjoyed a session of games with Trevor Julyan, Margo Boyd and Junior Johnston being the prize winners. The senior group with Mrs. Munro enjoyed group games with Beverley Shaver, Audrey Baindese and Sonny Paul the prize winners.

They will hold their next meeting in the form of a shower when each child will bring a donation for our Mission Band Bazaar to be held on December 8th in Trinity Sunday School Hall. It is the hope of the leaders that the whole congregation will assist in this bazaar. The village homes will be canvassed for donations by the Mission Band children, but they will be unable to canvass the country homes, but donations would be appreciated from there and might be left with Mrs. Dan McKercher, Mrs. L. H. Doering or Mrs. Chas. Munro.

We do hope you will encourage the children by keeping this date (Dec. 8) free, so that you may come and enjoy an afternoon with the Mission Band children of your church.

CHICKEN PIE SOCIAL

I guess you know how a fellow tries to think of something pleasant when he's sweating out a trouble (he said reaching for a third piece of pumpkin pie). Well some think of one thing and some another, but for my money it was mainly a chicken pie social.

Odd, eh? I saw it just about the way it is here. I figured on more butter and sugar than we have tonight, and more fruit, too. Notice there aren't any apples this year, or apple pies? And a good many of the old gang I used to go around with haven't turned up. Some aren't back yet, and some won't be coming back. The general setting is the same, though—the church cellar with the table set up on sawhorses, and the girls hustling good! More coffee? Sure—thanks. Jean. There's a feeling—a kind of glow—to a chicken pie social. It's more than just the eating, though that's important. I suppose partly it goes back to harvest festivals away before they took to writing about what went on. It stands to reason there's likely to be a feeling of satisfaction when you get into the groove with real old customs.

Anyway, I've kidded myself time and again in Italy and Holland with the idea of sitting up to this long table and looking at these decorations of leaves and feeling easy with the people I knew. Away down deep I didn't really believe I'd get to doing this again, but it sure helped to think about it. And if some more of the old gang were here it would be right up to what I remembered, in spite of the food. There's a kind of glow to a chicken pie social, at home.

IN MEMORIAM.

GALLINGER: In loving memory of my dear husband, Calvin Gallinger who passed away November 20th, 1944.

I miss you, dear husband,
From your accustomed place,
I never hear your foot-steps
Or see your loving face.
I hope some day to meet you,
And take you by the hand,
And twine my arms around you,
In that bright and happy land.
Ever remembered by his wife.
Jennie Gallinger.

BRITAIN'S NEW CONCRETE HOUSES

To speed up housing construction and to save labour a new British structure is being demonstrated at an exhibition of concrete houses near London at Eastcote, Middlesex. Wooden frames and huge moulds for the walls, with the necessary openings for windows, doors, water and gas-pipes, etc., are erected on the site by means of cranes. The concrete is then poured into the moulds resulting in 12-inch thick, weatherproof and heat-retaining walls. The wooden frames and moulds are then removed by the cranes. The front of the house is built with bricks and the roof is prefabricated. It is estimated that the erection can be carried out, to a great extent, by unskilled labour and can be made habitable within a month.

Through The Looking Glass

A Tennessee hillbilly discovered a mirror which had been left behind by a tourist.

"Well, if it ain't my old pappy. I never knowed he had his picture took."

He sneaked the mirror home and went up to the attic to hide it But his wife spied him, and that night while he slept she slipped up to the attic and found the mirror.

"Hummmm," she exclaimed, looking into the glass, "so that's the old hag he's been running around with."

ENGLISH FIRM PRODUCES AUTOMATIC WASHING MACHINE

A United Kingdom firm has developed a new "shilling-in-the-slot" washing machine which is simpler to operate than a radio set. It is completely automatic and will wash ten pounds of clothes in forty minutes. The housewife had to do no more than put the clothes in, add soap powder and turn on the switch. The machine fills itself with water, washes the clothes, triple rinses them and damp-dries them. It also empties and cleans itself and shuts itself off. "Laundrettes" equipped with ten or twelve machines will soon be opened in many parts of the country, reports the London Daily Mail. They will also be installed in working class blocks of flats.

NEW TRANSPARENT COOKER

The first women's electrical exhibition which opened in London recently shows the wartime achievements of Britain's women electrical engineers. One item in a wide range of new electrical equipment and devices for homes, schools, health and public services is a new cooker made of transparent plastics which enables the housewife to watch the progress of her various dishes while they are cooking. Other advantages are super speed heats, flexible simmer controls and automatic oven regulators.

The Forester's Column

Organization of The Department of Lands and Forests, Province of of Ontario

In the last article, it was emphasized that the time had come to practice forest management in Ontario. Our provincial government is organized to manage the crown lands and provision is made to assist municipalities to manage municipal forests and to help private owners with their management of woodlots or forests. We can truly say that the ground work for proper forest management has been laid.

Mr. Frank MacDougall, Deputy Minister of Lands and Forests, is a graduate forester with many years of experience in the woods. For many years he was stationed in Algonquin Park and is well-known to thousands of Park visitors for his knowledge of the forest, good judgment, tact, and geniality. Under him the head office of the department has ten divisions: Accounts, Air Service, Forest Protection, Land and Recreational Areas, Law, Operation and Personnel, Reforestation. Research, Surveys and Engineering, and Timber Management. For administrative purposes Northern Ontario is divided into forest districts. The district foresters and assistants, at Tweed and Pembroke, are in charge of fire protection, property rights, trespass, etc., on Crown Lands in the counties, such as Renfrew, Lanark and Frontenac. It is in the public interest to report to them any matters concerning these Crown Lands. Because of limitations of staff it is impossible for them to visit every lot and the good citizens will advise them if isolated public lands are being trespassed.

Southern Ontario is divided into 5 zones to administer reforestation matters. The chief of the Reforestation Division is Mr. E. J. Zavitz, one of the early graduates in forestry and a leader in forestry work. Zone 5 comprises the counties east of Renfrew and Frontenac, with headquarters at Kemptville.

Other articles will deal with the organization, activities and personnel of this zone.

NORTON-SUTHERLAND

The home of the bride's parents at Russell was the scene of the marriage on Saturday of Miss Phoebe Elizabeth Sutherland, daughter of Mr. and Mrs. Frank Sutherland, to Norman Arthur Norton, son of Mr. and Mrs. Arthur Norton of Montreal. Rev. Thomas McNaught officiated.

The bride was given in marriage by her father. She wore a beautiful floor-length gown of white satin and net with a fingertip veil and silver shoes and carried an arm bouquet of red roses.

The bride was attended by her sister, Mrs. N. Walsh and best man was Leonard Dellar. For travelling the bride wore a blue ensemble with grey coat and black accessories.

Following the ceremony a luncheon was held at the home of the bride's parents. The couple will take up residence in Montreal.

"And what's that?"

"Trying to write with the pencil."

The jury found the defendant guilty of burglary.

"Have you anything to say before I sentence you?" asked the judge.

"Only that I'm not guilty," replied the defendant, "and that I object to being identified by a fellow who had his head under the bed covers all the time that I was in the room."

BRITISH AND FOREIGN BIBLE SOCIETY

"For our times" is the Popular Report for 1945 of the British and Foreign Bible Society, 146 Queen Victoria St., London, E.C. 4, England, by the Rev. John A. Patten, M.C., M.A., Literary Superintendent. (Printed at the Ryerson Press, Toronto).

The Popular Report for 1945 is not only worthy of the society whose operations it describes, but of one of the great years in human history. The preface contains this sentence:

"The plain truth is that it is only as men and nations look to God and His teachings as set forth in the Bible that they can hope to build a new world upon sure foundations."

This little book describes how the British and Foreign Bible Society is facing "the immense task of taking the Bread of Life to a hungry world". The Prologue opens with a description of that remarkable day in 1911 when Mr. Winston Churchill became First Lord of the Admiralty. It tells of the Scripture he read that night—part of the ninth chapter of Deuteronomy. The lesson drawn from this incident is "The Timeliness of the Bible".

The claim is made as the report proceeds, that this is the Book for these days. It depicts how it is known and read in the majority of the world's languages. It tells of its operations in Europe, a continent set free. There are moving details of the Book and its ministry during those war years.

The next chapter, entitled "From China to Peru", practically spans the world and is most encouraging in regard to the effect of the circulation of the Word in the Far East and lands now happily being liberated. The Near East is not forgotten, nor are the efforts of the Dominions where Canada gets deserved and honourable mention, together with its sister nations and other parts of the British Empire Commonwealth.

The establishment of the Bible Society of India and Ceylon on November, 1 1944, receives great prominence and future consequences and prospects are clearly outlined.

Trends in Bible Society policy indicate closer co-operation with all existing Bible Societies, and with the ancient churches of Christendom which believe in the circulation of the Word, as well as the newer communions in those lands which used to be regarded as Foreign Mission areas.

The Report ends with stressing today's opportunity, gratitude for a record income, references to new departures in the Society's literature, and a great appeal for Reconstruction on the One Foundation.

Readers of this Report will be thrilled, and it is hoped inspired, by the happenings so vividly depicted and the word pictures so skillfully drawn by the author of the Report, the Rev. John A. Patten. He has added another to a series of Popular Reports, which it will be hard to equal and difficult to excel in the literature of any similar Society in the known world.

MERRYWEATHER-HARRISON

The marriage of Miss Hazel Agnes Harrison, of Russell, daughter of Mr. and Mrs. Burton S. Harrison, to Pte. F. W. Merryweather, of Ottawa, took place in the St. Mary's Anglican Church, Russell, on Saturday. Rev. P. E. Clarke officiated.

Mrs. Irvin McCaffery of Russell, played the wedding music and Mrs. R. Young sang "All-joy-be thine".

The bride was given in marriage by her father. She wore a floor-length gown of white satin and net. Her floor-length veil formed a short train, held in place by a halo of lace and she carried an arm bouquet of red roses.

The bride was attended by two sisters, Mrs. Roy Ford, of Russell, as matron of honor and Mrs. Harold Brisbois, Russell, as bridesmaid. Miss Patricia Ford, niece of the bride, was flower girl.

The best man was William Kempster, of Ottawa. Ushers were Frank Radke and King Kempster, both of Ottawa. The bridegroom's gift to the bride was a watch and the bride's gift to the bridegroom, an identification bracelet.

A reception was held at the home of the bride's parents. Later the young couple left on a motor trip to Ottawa, Montreal and eastern points.

For travelling the bride wore a black dressmaker suit with matching hat and a grey and black tweed shorty coat, tuxedo style. On their return the couple will reside in Ottawa.

Out-of-town guests were, Mrs. John Fleming, Chesterville; Mr. and Mrs. Mac. Wade, Russell; Mr. and Mrs. C. Kempster, Mr. and Mrs. H. Usher, Bill Croft, Miss A. Merryweather, Major and Mrs. F. W. Merryweather, Miss A. Scarf, Miss Lillian Dollighan and Miss Leona Larwill, all of Ottawa.

"You were always a fault-finder," growled the wife.

"Yes, dear," responded the husband meekly; "I found you."

North Russell Women's Inst.

The September meeting was held at the home of Mrs. Geo. Hitsman, with 12 grandmothers present. A bedspread was displayed by Miss M. Hitsman, over a 100 years of age, along with other antiques.

Readings were given from a book used in school in 1895.

Mrs. R. Hitsmn won a prize for having oldest granddaughter and Mrs. Wm. Booth for having most natural teeth.

"But if he couldn't swallow a glass of whiskey, what then?"

"Well, I wouldna fash we'him ony mair. If he's a Scot and canna swallow a glass o' whiskey—he's deid."

THE MIXING BOWL

By ANNE ALLAN

Hydro Home Economist

Hello Homemakers! Home lighting by electricity makes our work easier, but we are often careless in failing to use it to the best advantage. Insufficient or improper lighting can be guarded against. Use a table lamp placed so that the light shines on the work in hand from the left side. If there is not a close enough outlet, use an extension cord. Inside frosted bulbs and white-lined shades are highly recommended. Sixty to 100 watt bulbs are suggested for tedious work when the light source is three or four feet away. A good light will prevent unnecessary fatigue and strain from cleaning cupboards, painting, scrubbing, ironing or any household chore.

TAKE A TIP

1. Dark bulbs and dark shades absorb light.
2. Coloured lights are decorative but do not give as much light as white ones.
3. Clean lighting fixtures occasionally to obtain maximum amount of light and life of bulb.
4. Keep a few bulbs in stock for replacements.

REQUESTED RECIPES

SQUASH AND APPLE SOUP

1 onion, 4 apples, 3 tbsps. fat, ¼ tsp. salt, dash of pepper, 4 tbsps. flour, 2½ cups light stock or water, 2 cooked and peeled acorn squash, ½ cup cream, 2 tsp. chopped chives (optional).

Slice onion and apples. Add fat and cook until mushy. Stir in salt, pepper and flour. Pour on stock or water and stir until boiling. Sieve squash and add to stock mixture. Return to pan with cream and chopped chives. Reheat and serve. Serves 6.

FRESH BRISKET OF BEEF WITH VEGETABLES

2½ to 3 lbs. boneless beef brisket, water or soup stock to cover, 1 onion, seasonings as desired, 10 sweet potatoes, 1 turnip, chili sauce.

Cover beef with water. Add onion, salt and pepper—any other seasonings if desired. Cover and simmer until meat is tender—from 4 to 5 hours. One hour before meat is done, add sweet potatoes in jackets and peeled diced turnip. When meat and vegetables are done, remove meat to hot platter. Garnish with the turnips topped with hot chili sauce and serve sweet potatoes in a separate dish.

Note: Use the stock in which the beef and vegetables are cooked for soup.

BUTTERLESS CAKE

4 eggs (separated), 1 cup sugar, 1 cup flour, ⅛ tsp. salt, 2 tsps. baking powder, 1 cup raisins, 1 cup peanuts (skinned and chopped), 1 tsp. vanilla.

Beat yolks of eggs until light and lemon-coloured; then add sugar and beat well. Add vanilla. Sift flour, baking powder and salt together. Stir the dry ingredients into egg mixture. add raisins and nuts. Fold in stiffly beaten egg whites. Pour into greased oblong pan, and bake in a moderate electric oven 20 minutes.

TURNIP PUDDING

¼ cup baking fat, 1 cups mashed turnips, 2 tbsp. flour, 2 eggs (separated), 1 tsp. salt, ½ tsp. Worcestershire sauce, ⅛ tsp. pepper, bread crumbs.

Melt baking fat, stir in flour, add turnips and beaten egg yolks. Fold in seasoning and stiffly beaten egg whites. Pour into greased custard cups. Top with crumbs and oven poach in electric oven at 350 degrees for 30 minutes.

THE SUGGESTION BOX

Mrs. B. T. says: A white sauce for vegetables is improved by the adition of a pinch of dry mustard.

Mrs. S. A. N. says: Bake peeled egg plant that has been soaked in salted water for 20 mins. When partially baked (10 mins.) stuff with cooked diced meat and moistened bread crumbs and continue baking until stuffing is browned.

Mrs. T. M. says: Escalloped potatoes are a new dish if you blend peanut butter with the milk.

Mrs. H. C. says: Left-over cooked turnip greens go well in stews.

Mrs. J. R. says: Cook fish slowly to retain natural flavour and oils. Salt at the table.

BRITAIN'S LEAD IN FARM MECHANIZATION

Today British agriculture is the most highly mechanized in the world with more than two tractors to every square mile of territory and seven tractors to every square mile of arable land. One important feature of this wartime development has been the stress laid on the mechanization of small holdings. The National Institute of Agricultural Engineering has recently been demonstrating farming equipment which included machines specially adapted for use on small farms. The demonstrations covered machines for sugar beet harvesting, grain harvesting, drying and handling, and ploughs and cultivators. Machinery exhibited included new types of potato diggers, sugar beet drills, binders and harvesters. The Institute has recorded many advances in the use of ploughs, harvesters and cultivators. To take one example, up to now farmers using combine harvesters have experienced difficulty in ploughing in straw which tends to wedge under ordinary coulters. To obviate this handicap the Institue has developed a corrugated disc coulter which by continuously rotating easily works in straw and long stubble.

DEER HUNTERS RETURN AFTER GOOD SEASON

Deer hunters of Chesterville and District returned home this past week-end with reports of success in their search for venison. The weather was a trifle warm at the beginning, they state, for keeping the meat, but near the end of the two-week period about six inches of snow fell and the thermometer dropped. It makes the gastric juices flow when we listen to them recount the amounts of venison—along with hams, bacon, eggs, etc., etc., consumed by ravaging appetites whetted by hours of walking and climbing in the bush country.
