IMPORTANT

SPECIAL MESSAGE FROM MEL

Ten years ago, we introduced our 73 point inspection. I believe in it - and it is the best assurance I can offer you for safe - sure - dependable driving - could even save you money - breakdowns. My **mechanics DO** check 73 Points. They remove all wheels, check brakes, brake lines, steering, shocks, tires, gas lines, oil leaks.

THE UNDERNEATH IS SO IMPORTANT

(We actually found one customer's car with the gas tank strap broken and the tank ready to simply fall off) all coolants, belts, lights, electrical, fluids, horn, wipers, mirrors, switches, - etc., etc. The sheet shows it all --

Compare the detail.

It takes approximately one hour - Costs $29.95.

The technician checks every operation, and tells you if its O.K. or if it needs work. He road tests - and the service desk completes the estimate.

Then its your choice to authorize the needed repairs. Maybe just do priorities for now OR wait till after. At least you will know how safe you vehicle is. We all feel better to know your car will get you home on time.

Mel
