Death Came Unexpectedly to Mrs. J. McDougall, Winchester

Death came rather unexpectedly on Monday afternoon to a very highly esteemed Winchester lady in the person of Lily Elliott, wife of Mr. John A. McDougall, jeweller. Although in rather poor health of late, it was not thought that the end was so near. She was in her 56th year and had spent her life in Winchester, being a daughter of the late Mr. and Mrs. Geo. Elliott. A sister, Nora, and a brother, Rowat, survive her.

Mrs. McDougall's loving personality endeared her to everyone and she had a large circle of friends. While able she engaged actively in many organizations, especially the Public Library Board and the W. M. S. of the United Church of which she was an efficient treasurer for many years, also having been treasurer for the Presbyterial.

The funeral service held in the United Church, Winchester, yesterday afternoon at two o'clock was very largely attended and was conducted by Rev. John McKay.

HENRY'S Shorthand School Ottawa, Ont.

THIS INSTITUTION offers a superior training and thereby ensures a more successful future. It leads all others—a fact fully established by more than 625 pupils who have left other business schools to come to it—and ranks among employers as **"The School of Higher Efficiency."**

It is not surprising then that business men, in advertising for stenographers, should definitely state "Graduates of Henry's School preferred."

Get particulars about our course.

Injured In Fall

Mr. Edward Gillard, well-known local farmer, was badly bruised when he fell from his milk wagon at the Nestlé's milk plant on Tuesday. Mr. Gillard was unloading his milk at the receiving door and as he attempted to lift a can to the rollers his horse stepped forward and threw him to cement driveway. A doctor was called and it was necessary to remove Mr. Gillard to his home. Fortunately no bones were broken but his legs were badly bruised, and he is recovering nicely.

Funeral Held This Morning The Late James Curren

The death occurred early Tuesday morning at the family residence on Queen street of Mr. James Curren at the age of seventy years. Mr. Curren was formerly well-known in this district, having been born here but for a goodly number of years had resided across the line, returning some two years ago, since which time his health had not been so good until a short time ago when he grew much worse but was only confined to his bed for a couple of days previous to his death. In his youth he was a fine speciment of robust manhood and served in the United States army, receiving a pension from the American Government when he was retired. The Misses Mary and Maggie, of Chesterville, and Patrick J., of Detroit, survive their brother. The funeral took place this morninig at St. Mary's Church where requiem High mass was celebrated by Rev. Father Keaney after which interment was made in the Upper Cemetery.

Many Attend Funeral Of Mrs. Alex. Feeley

Attended by many relatives and friends, the funeral of Mrs. Alex Feeley, who died on Sunday at her residence near Cannamore, was held in Morewood United Church yesterday afternoon.

Mrs. Feeley was the former Miss Jane Byers, daughter of the late Mr. and Mrs. David Byers, of Dumfries, Scotland, and came to Canada at the age of five years.

She was married in 1871 and with her husband moved one concession north of Cannamore, where she lived until her death at the age of 83. Service at the church was conducted by Rev. G. H. Smith, pastor, assisted by Rev. A. Nimmo, of Morewood Presbyterian Church. The choir was in attendance and Mr. and Mrs. Wesley Reveler sang a duet.

Chief mourners and survivors are: two daughters, Mrs. F. Ruker, Lackworth, Sask.; Mrs. Hudson Reveler, Cannamore, Ont.; three sons, Robert, Aylsbury, Sask.; David of Dunfermline, Sask., and Thomas, Cannamore.

Many beautiful floral tributes were received from relatives and friends.

The pallbearers were Charles Baker, Hector Carruthers, Freeman Burd and Walter Norton.

Interment was made in the family plot in the Presbyterian Cemetery, Morewood.

Death of Child Is Mourned By Winchester Parents

Much sympathy was expressed for Mr. and Mrs. Clarence Deeks, of Winchester, in the loss of their youngest child, Raymond, who passed away early last Saturday morning at the early age of almost five years. Last December little Raymond had the grippe, followed by pleurisy from which he did not recover, but gradually wasted away. Besides his parents, he is survived by a young sister and brother.

A largely attended funeral service was held in the Wesleyan Church, Winchester, on Sunday at 2 p.m., being conducted by the pastor, Rev. D. W. Summers, after which interment was made in Maple Ridge Cemetery.

The Nag: "You're going to drive me out of my mind!"

The Nark: "That ain't no drive, my dear—that's a putt."

Blaze Discovered in Home Serious Damage Averted

The brick residence of Mr. and Mrs. James McAvoy on Victoria street had a close escape from destruction or serious damage by fire on Friday evening when a blaze was discovered in the ceiling of the upper floor by their daughter, Miss Frances McAvoy. Fortunately, Miss Frances, who had intended being out for the evening, had an upstairs room ablaze about the nine o'clock and found the walls of an upstairs room abalze about the stove pipes where entrance was made to the chimney.

Miss Frances called Mrs. D. J. Craig who was in her rooms and after dousing some water on the flames she summoned her parents who were visiting at the McCloskey House next door. Other help arrived and a serious fire was averted.

Coming Events

RACES AT CARDINAL

Horse Races under the auspices of Canada Starch Company Relief Society, will be held in Cardinal, July 1st, 1933. Other amusements, ball game, etc. For further particulars apply to Alvin Strader, Box 97, Cardinal, Ont. 28

DANCE

In Orange Hall, Chesterville, on Tuesday, May 16th, at 8 o'clock p.m. Good orchestra in attendance. Refreshments will be served. Admission 25c to all. By Order of Committee. 8

Most HEADACHES,

SEVEN OUT OF TEN, IN FACT,

are caused by straining eyes that have already been weakened by overuse. And at the age of forty, earlier, if the eyes have been aged by constant hard usage, most people find that their eyes are less able than ever to accomplish easily all the tasks set for them.

Twelve sets of nerves are in the head, and six of them lead to the eyes. No wonder, then, if extra work is given the eyes overcoming faulty adjustments, that they overdraw the energy allotted them, and sap the supply intended for other functions of the body. That is what happens when you have a headache.

One of the best and one of the pleasantest forms of health insurance is a regular eyesight examination. See that your eyes are right and you will reap benefits in better and safer work and in a more rested, healthful body.

Drowning at Cardinal When Allan Biggs Slips Into Water

Cardinal, Ont. — Allan Biggs, 37, was drowned in the Galop Canal, at this place about 4.30 o'clock Friday afternoon, when he lost his balance and fell into the water from a row-boat while helping a young girl, Nellie Gladstone, also of Cardinal, to climb the side of the canal wall.

Miss Gladstone also fell into the water, but was rescued by Gabriel Dungan, of Cardinal, who stretched out a stick for her to grasp. She was pulled to safety, but Mr. Biggs sank immediately.

With Miss Gladstone and two of his childen, Rachel and Hazel Biggs, Mr. Biggs rowed into the canal to allow his passengers to land. The light boat, which was not fastened, apparently drifted out from the wall, causing the accident.

Dragging operations were commenced immediately and the body of Mr. Biggs was recovered in half an hour. Coroner Dr. C. F. McPherson, of Prescott, who was in Cardinal, was summoned, and decided an inquest would be unnecesary, death having apparently been accidental.

While Miss Gladstone was struggling in the water, the boat with Mr. Biggs' two small daughters drifted out into the canal. Rescuers quickly went to their assistance, however, and the boat was towed to safety.

Mr. Biggs' sudden death caused deep regret among a large number of friends here. Born at Pembroke, he removed to Cardinal in 1928 and had been employed by the Department of Railways and Canals here since 1929.

In addition to his widow and two small children, Rachel and Hazel, he leaves to mourn his death three other small daughters. The funeral was held from his home here to St. John's United Church on Sunday.

Permit Now Is Required To Build In Williamsburg

The council of Williamsburg Township met at Boucks Hill on Saturday with all the members present. The minutes of the previous meeting were read and adopted. D .H .Weir was instructed to prepare plans for the improvement of the McMartin Drain from Provincial Highway No. 31.

A by-law was passed regulating the erection of buildings in Williamsburg village and vicinity, making it necessary to procure a permit for any building or altering same, and Orlin P. Becker was appointed to enforce said by-law.

The following accounts were passed:

Joseph Heagle, work on road $1.00; Herbert Merkley, work on road $3.50; W. T. McMartin, for cedar $73.00; Jas. Cook, work on culvert $1.88; Chas. Gogo, for stone $168.75; Wm. Pemberton, work on roads $13.34; Grading — Howard Beckstead 37.97, Jas. McMillan $3.50, Chas. Beckstead $7.87, Pliny Irving $3.50; J. A. Reddick $6.30; John Bowman $3.50; H. A. Gallinger $8.41; Fred McMillan, also repairing grader, $6.10; Ritchie Tupper $.80; Hugh McHaffie, work on roads $4.40; G. F. Barkley, grading $10.50; Alvin McIntosh, grading $2.97; R. F. Norval, gas. and oil $60.64; Garnet Loucks, grading with tractor $20.38; Geo. Hess, grading $9.10; C. N. Railway, crossing gates $31.06; Ezra McMillan, pay on salary of Road Supt. $62.50; Isaiah Loucks, work on roads $4.85; Bismark Barkley, grading $12.17; Geo. Brooks, grading $3.68; Workmen's Comp. Board, assessment 1933 $128.-79; Counties' Treasurer, hospital expenses indigents $180.78; A. J. Casselman, expenses garbage by-law $17.50; Municipal World, supplies $6.81; Hydro Electric Commission, charges $41.72; Roy Schell, supplies for Mrs. Ross Pruner $1.29; Frank Whitteker, salary and expenses as assessor $87.00; Globe Indemnity Co., premium of road policy $293.43; R. C. Whitteker, garbage collection $150.00.

The council adjourned to meet again at Boucks Hill on S aturday, June 3rd, at 10 o'clock a.m., as a court of revision on the assessment roll. The regular council meeting will follow the court of revision.

All cheese manufactured and sold in Canada must conform to certain standards for fat which are fixed by law under the Dairy Industry Act.

"Don't worry any more about him, dear. There are plenty more fish in the sea."

"I know," said the jilted one, "but he was a goldfish."

Weeds attract cutworm moths for the purpose of egg-laying. Remnants of garden crops and other refuse should, therefore, be removed regularly.

NEWS AND INFORMATION FOR THE BUSY FARMER

Furnished by the Ontario Department of Agriculture

Seeding has been general throughout the province, although held back in some districts by cold weather. Orchards have also been retarded for the same reason.

Dehorn Now, Says Duncan

"On the basis of approximately 700,000 beef cattle slaughtered annually in Canada, more than $175,000 is lost to the industry through horn bruising," said Garnet H. Duncan, Ontario Marketing Board.

Plan Production Now.

E. D. Bonnyman, chief poultry inspector, at Ottawa, advises producers that now is the time to make plans for producing poultry, with the aim in view to regulate the production so that there will be a more even supply coming on the market the year round.

During the summer months there is always a scarcity of high quality poultry, particularly chickens, and those that are marketed at that time are seldom the quality that commands the highest price.

Poultry is mostly handled to-day on Government grades, and price differentials have beeu fairly well established, with the premium always on the higher grades, and the market for fresh chickens is generally at its best during the summer months.

It is within the reach of every producer to grow some poultry that will qualify for A Grade, which is the grade most in demand, and which commands the highest price.

Poultry to qualify for this grade must be well fatted and fleshed, and only birds that have been crate-fattened for two or three weeks are likely to acquire this finish.

If part of the poultry crop is properly finished and marketed gradually through the summer months, it will help to relieve the congestion in the Fall, and stabilize the market.

A Good Mash.

A very satisfactory home-mixed mash for brooder chicks may be composed of the following:—one part each of shorts, middlings, yellow corn meal and ground oat groats with one-half part of animal feeds made up of meat meal, fish meal, buttermilk powder and bone meal in equal proportions. These ingredients may be varied in proportion to cost and availability of the different feeds, the bone meal, however, remaining at the same level. In addition to these ingredients one-half per cent of salt and two per cent of crude cod liver oil should be incorporated into the mixture. When the birds are on free range in the sunlight, the oil may be reduced to one per cent or eliminated entirely. If milk in any form is available, the animal feeds of the mash may be cut down accordingly.

Radio "Mothers' Meeting."

The first radio "Mothers' Meeting" will be presented through the courtesy of Hon. Thos. L. Kennedy, Minister of Agriculture, by the Federated Women's Institutes of Ontario on Monday, May 15th, between two and three in the afternoon, as their contribution to Mothers' Day.

Mrs. R. B. Colloton, President, will open the meeting. Colonel Kennedy will express greetings to the mothers of Ontario, followed by Mr. Geo. A. Putnam, Superintendent of Institutes.

A complete discussion of each phase of Maternal Welfare will be presented by Hon. Dr. J. M. Robb, Ontario Minister of Health, in his address on "Ontario Motherhood," by Dr. Bell, Deputy Minister of Health; by Miss Edna Moore, Director of the Public Health Nurses of Ontario, on "Education for Motherhood," and by Dr. Phair, Ontario Director "Maternal and Child Hygiene, on "Safety and Motherhood."

Enjoys Preference.

That Canadian cheese enjoys a distinct preference on the British market is proved, according to latest advices to the Ontario Marketing Board, by the fact that the Canadian product is receiving, at the present time, a premium of approximately 50 per cent over the New Zealand product.

Prices for New Zealand cheese, as of the beginning of April, were 40s per long cwt. for the white, and 47s per long cwt. for the coloured, or 7.36 and 8.65 cents per pound respectively. These prices covered new cheese. Canadian cheese was elling at 60 to 66s per long cwt., or 11.04 to 12.14 cents per pound.

This does not mean that New Zealand producers are getting less money for their cheese than are Canadian patrons. New Zealand products sell at a premium of about twenty per cent in relation to the pound sterling. Canadian products, on the other hand, sell at a discount of approximately 16 per cent due to exchange. In this way, returns to cheese patrons in both countries are about the same.

It should be pointed out that the prices for Canadian cheese are for mature cheese. There is practically no new Canadian cheese on the British market at present, therefore the benefits of this extreme premium are going to the trade, for cheese acquired last fall or earlier, rather than to the cheese factories in Ontario and Quebec at this time.

Sow Only the Best Seed Corn.

"Corn crop failure can be eliminated largely by purchasing only No. 1 seed of a standard variety from a reliable dealer and making a germination test before planting," declares Arthur H. Martin, assistant director of the Crops Branch. "In the opinion of the corn growers of Southwestern Ontario, corn dealers and officials of the Federal Seed Branch, the supply of Ontario-grown selected corn of high quality and germination, is sufficient to take care of the present season's demand." With a supply of No. 1 Ontario corn thus available at reasonable prices, Mr. Martin warns against the temptation of buying low-priced ungraded or low-grade corn from doubtful sources. The difference in price between the so-called cheap seed, and the best seed is only a few cents a bushel, yet the result of sowing low-grade seed may be absolute crop failure, due to poor germination. According to the Canada Seeds Act, corn eligibile for grade No. 1 must be clean, well-graded, true to variety and germinate at least 80 per cent.

When To Apply Fertilizer.

The opportune time at which fertilizer applications should be made will be determined to some extent by the nature of the crop, of the climate and of the fertilizer materials employed. Speaking generally most of the phosphatic and potassic fertilizers should be applied during the final cultivation of the land preparatory to seeding. The nitrogenous fertilizer may be applied at the same time or when seeding, though some prefer to preserve a portion (assuming it to be in immediately available form) for application as a top-dressing later on. Phosphatic fertilizers, intended for fall wheat, should be applied in the fall, but soluble nitrogenous fertilizers, like nitrate of soda, should be applied to the wheat in the spring. Immediately after their application to the thoroughly prepared land, the fertilizers should be incorporated with the surface soil by means of harrowing or light cultivating.

In the treatment of pasture and hay lands, the phosphatic and potassic fertilizers may be sown before spring growth followed by one or more dressings of a nitrogenous fertilizer during the early part of the growing season. Basic slag, when used for this purpose, should preferably be applied in the Fall.

It seems desirable to emphasize the fact that fertilizers cannot fully play their part in crop nutrition unless the soil is in good tilth. It should be mellow, warm, moist and well aerated, and these favourable conditions will be promoted by furnishing humus-forming material (as in barnyard manure), drainage, if necessarry, and a thorough frequent working of the surface soil. The mechanical or "drillability" of fertilizer materials is an important property towards their uniform distribution.

New Policy Effective Monday Testing of Pure Bred Cattle

A new policy in regard to compensation in the tuberculosis tests carried out by the Health of Animals Branch, Department of Agriculture, will be inaugurated on Monday, May 15th. Formerly, when pure-bred cattle were ordered to be slaughtered under the various tuberculosis policies, it was the rule that stock owners were allowed 90 days in which to deliver the registration certificate in the owner's name to the inspector engaged on the test.

As the regulations dealing with the issuing of certificates of registration demand that these certificates can be given only for living animals, the Dominion Veterinary Director General has now decided that compensation on a pure-bred basis will not be in future recommended for cattle which are not actually registered at the time the test is commenced, irrespective of age. This applies to all breeds.

All veterinary inspectors, therefore, have been instructed that before commencing a test of a herd or animal under the Government's tuberculosis compensation policies they must advise stock owners that compensation on a pure-bred basis will not be recommended unless the registration certificate is produced at the time the test is commenced. At the same time a statement, signed by the owner, that he has been so advised must be attached to the inspector's report. This applies, of course, only to herds in which there are pure-bred animals; and, if after having been advised, an owner desires to register his animals, the test will be deferred.

Recent experiments have demonstrated the feasibility of holding vegetables in cold storage on a large scale from October to April or May in fresh and marketable condition, says the Dominion Dairy and Cold Storage Branch. One of the important requirements is to select and store only the best of varieties in the best of condition.

Church Road

Mr. and Mrs. Howard Smith and family, of Morrisburg, spent Sunday with Mr. and Mrs. James Swerdfeger.

Mr. Tom Barkley, of Winchester, is spending some time witth Mr. Archie Crowder and family.

Mr. and Mrs. James McKenzie, of Riverside, spent Wednesday evening with Mr. and Mrs. Russell Link.

Mr. and Mrs. Howard Saddlemire and Mrs. Stanley Saddlemire, Glen Union, were guests of Mrs. Bowman and family on Sunday.

Mrs. Charles Swerdfeger and Mrs. M. Gowland spent Thursday afternoon at Mr. Sam Swerdfeger's.

Mr. David Salter, of Winchester Springs was a recent guest of Mr. Albert Bowman.

Straders Hill

Mrs. Olive Cook, of Cardinal, and Miss Mary Fawcett, of Hainesville, spent the week end with Mr. and Mrs. Lloyd Cook.

Mr. and Mrs. Clint Pitt, Williamsburg, were callers at Mr. and Mrs. R. Hanson's Thursday evening.

Miss Nina Casselman visited her sister, Mrs. O. Cook, Thursday.

Visitors at Mr .and Mrs. N. Beckstead's on Sunday were Mr. and Mrs. S. Beckstead and childen, Mr. and Mrs. G. Thompson and little girl, of Prescott; Mr. and Mrs. J. Barnhart and little boy.

Mr. and Mrs. R. Hanson visited Mr. and Mrs. R. Merkley at Williamsburg on Sunday.

Mr. and Mrs. E. Johnston visited friends at Grantley on Sunday.

Miss Luvia Merkley visited Mrs. H. Hanson recently.

Mr. and Mrs. Ross Hanson and Mrs. H. Hanson motored to Ottawa on Tuesday and spent the day with friends.

Mr. and Mrs. Percy Call, of Ottawa, and Miss Muriel were Sunday visitors of Mr. and Mrs. H. Hanson.

For the last three years Japan has imported about 60,000 tons annually of feed wheat from Canada. This amount will likely be greatly reduced this year owing to lack of supply in Canada.

A Million Deposit Accounts Denote Confidence

At its offices throughout Canada the Bank of Montreal has over one million deposit accounts.

The depositors, Canadian individuals and Canadian business firms, represent every class of the community in city and country alike—from persons of large means to children starting their life's savings, from industrial corporations of international scope to farmers and small tradesmen.

Good faith, good will and good banking practice on the part of those directing the Bank grow naturally out of the sense of responsibility imposed by this expression of nation-wide confidence.

Chesterville Branch: J. HANNA, Manager

Hon. G. H. Challies Is Host To Dundas Municipal Councils

Last Friday evening at Morrisburg, Hon. G. H .Challies, Provincial Secretary and member for Dundas in the Legislature, followed a similar course to that of the past few years in assembling the councils of the different municipalities with other officials interested, and after entertaining them to a banquet at St. Lawrence Hall, took advantage of the occasion to give a resumé of the work done by the Legislature during its past session, dwelling more particularly on that with reference to municipal interests. The gathering numbered between fifty and sixty guests whose interests were held until midnight.

The Provincial Secretary drew attention to the fine position Canada held in comparison to many other nations and drew attention to the part Ontario was doing in the production of gold which had been a large factor in maintaining Canada's credit in the eyes of the world. The production of new wealth in the country was contributed to by the production of one million dollars worth of gold per week throughout the year.

He instanced the many economies the Henry Government had made in reducing the cost of administration by many millions of dollars, showing that through efficiency in maintaining the inmates in the public institutions of. the province the cost had been lowered from a high of more than two dollars per inmate per day to slightly more than ninety-four cents per day.

Mr. Challies drew the attention of his guests to the fact that taxes had only been incurred in meeting the wishes of the public in providing services and equipment for which it had been insistently asked for, and there was no one left to pay for these things except the tax payers of the province, and while it was unfortunate, perhaps, that many works had been undertaken in times of affluence, it was none the less true that they had to be paid for under present conditions.

The speaker dwelt for some time on the good roads question, taking exception to the policy which townships and counties have assumed of seeking the endorsation of a road building programme of many thousand dollars with the government paying eighty per cent of the amount and the local authorities declining to appropriate any portion of the amount to the provincial highway.

Mr. Ed. VanAllen, of Williamsburg, in making a statement on the question said that through the greatly increased traffic which had come to his township and through which Highway No. 31 passes, the wear and tear on the side roads, occasioned by patients of Dr. Locke, that these required much more work than would have been needed under normal conditions.

The Provincial Secretary made a comparison of the amounts paid as school taxes which had not varied to any considerable degree for a period of years with the effort that is evidently being made to reduce the burden by all councils along the lines of the more controllable expenditures. He complimented the counties and township officials of these counties for the very efficient manner in which their affairs had been administered. He also expressed surprise that the Cornwall Collegiate Institute had been able to amass a surplus of funds amounting to more than $40,000. He did not say that it had been done in any underhand way, but gave it as his opinion that if the law allowed such an accumulation to be made it was time to look into the matter and see what could be done to alleviate the necessity of raising so much money that was apparently not urgently needed.

In speaking of Old Age Pensions he seemed to touch on a subject of much interest and provoked considerable discussion. After giving the number of pensioners belonging to the different municipalities he wondered how so many people came to be on the list and on whose recommendation they were there. Out of many more than a hundred cases he asserted he was not responsible for the recommendation of more than six out of the lot.

After the experience of Reeves Nesbitt, of Winchester Township; VanAllan, of Williamsburg; Casselman, of Chesterville, Arthur Flynn, of Morrisburg, came across with a suggestion which received more attention than any other. He suggested that when an application was made for an old age pension it should be made to the Counties' Clerk who in his turn would make an appointment with the Counties' Judge for the applicant to make an appearance and state his or her grounds for seeking a pension, the pension to be granted or withheld according to the judgment handed down. It was believed that this procedure would reduce to a minimum the likelihood of the undeserving getting on the pension roll.

Reeve Ross, of Winchester village, made a plea for the better upholding of those serving municipalities in all positions of responsibility, and for each one to do his best to assist all to reach more prosperous times. As regarded unemploymen and the transients moving up and down the country, he thought it presented a problem which should receive the attention of the government.

Warden Nesbitt, reeve of Winchester Township, thanked the Provincial Secretary for the occasion which brought them all together and made his contribution to the evening in explaining the borrowings for counties' purposes which had been necessary for the road building programmes which had been carried out.

Reeve Casselman, of Chesterville, in offering his suggestions for the relief of farmers and others from excessive interest rates thought that a law should be enacted making five per cent the maximum rate for borrowed money. Mr. Challies thought that such an enactment would work to the disadvantage of the borrowers in driving capital to other avenues of earnings. Money, like any other commodity, was simply rented for what it was worth according to supply and demand at the time it was required.

Referring to his position of Minister of Game and Fisheries, Mr. Challies said he was in communication at the present time with those in authority along similar lines in New York State with a view of restocking the St. Lawrence along the International portion of the river with game fish. Ontario would undertake to put fish for fish, fry or fingerling, into the St. Lawrence river with New York State to create a fishing ground for citizens of both countries.

The Minister is very anxious to see the ring-necked pheasant as plentiful in these eastern counties as they are in Western Ontario and to that end has had several shipments sent here to parties interested in their preservation who will liberate them and see that they are not molested. He could see in the not very distant future an open season of two or three days each year when they might provide excellent sport for our citizens.

Mr. Challies is very optimistic as regards the development of the St. Lawrence waterway and predicted that we would see the work under way within the next year. He visioned the great benefits that would come to all lines of endeavour and businesses situated in this area while work would be proceeding, and those who were prepared for it would reap the greatest benefit.

Reeve Casselman invited the Provincial Secretary to make Chesterville the scene of his next meeting of a similar nature and assured him that a hearty welcome would be given by the people of Chesterville.

"How like his father he is."

"It's the cold weather" explained the baby's mother. "Usually he looks quite cheerful."

An Englishman, a Scot, and an Irishman appeared at a police court following a night out. Addressing the Englishman, the magistrate said, "How do you feel?"

"Awful, sir."

"Well, take seven days' rest." And then to the Scot, "How do you feel?"

"Grand ,sir."

"Seven days to cool your ardor." And then to the Irishman, "How do you feel?"

"Sure, Yer Anner, just like a piece of elastic."

"What do you mean by that?"

"Well, sor, I know I'm in for a stretch, but I don't know the lingth yet."

The nice old lady smiled at the little girl who had been left in charge of the confectioner's shop.

"Don't you sometimes feel tempted to eat one of the cream buns, my dear?" she asked.

The little girl was quite shocked.

"Of course not. That would be stealing. I only lick them."

Pete Thought Big Iron Pot Might Be Safer For Them

A humourous story of the father of Mr. W. M. Saucier, of Chesterville, and the Fenian Raid of 1866, reprinted from the Old-Time Stuff, The Ottawa Citizen.

In the sixties, and prior to that, there lived in Vankleek Hill a watchmaker who went by the name of Pete Saucier. Pete was a clever watchmaker. He was also very clever with a gun. He was a great deer hunter. A great friend of Peter's was Arch. McLachlan, the town blacksmith. Mr McLachlan was also a very fine rifle shot. Like Pete Saucier, he was a great deer hunter. The pair used to hunt in couples.

In 1866 came the alarm of the Fenian raid, and talk went around that the Fenians might try to cut the country by putting an army into the district between the St. Lawrence and Ottawa rivers. It was rumoured they would try to capture Vankleek Hill, L'Orignal and Hawkesbury, and from these points move east and west.

The volunteer companies in Prescott and other counties were called to the colours and rallied to a man.

One day Peter and his friend Archie were discussing the possibilities of the invasion.

"Oh, Archie, why all this calling out the militia? All they have to do is to get a big iron kettle put it up on the high hill on your farm (about a mile and a quarter from the village); fill it with ammunition, put us into it, and I bet you those Fenians wouldn't get anywhere near Vankleek Hill, would they?"

From the high land of the McLachlan farm a view to the south was had for miles.

"I guess we could account for some of them at least," admitted Mr. McLachlan, "but why the big iron kettle, Pete?"

Pete shrugged his shoulders suggestively. "Oh, well," he said, "it might be better for us."

Health Service In Eastern Counties

Supplementing our statement of a couple of weeks ago regarding the proposed study of health conditions in Eastern Ontario under the auspices of the Provincial Department of Health, we note that with the arrival of four members of the public health nursing staff, the proposed programme is actually in effect. Dundas County has been divided into four divisions and one nurse has been stationed in each. They will make an early contact with the schools of the County.

The purpose of the survey is not to disconcert parents with the discovery of slight physical abnormalties which may be of no material significance to the health of the individual concerned. Its purpose is to find out what conditions are dertimental to the health of infants, children and adults; the extent of their existence and attempt to find a sound, non-irritating programme of prevention. The plan warrants the cooperation of all those in both high and low places within the County.

Payne Valley

The Dramatic Club is putting on the play, "The Old-Fashioned Mother," at Williamsburg on Friday evening. It is sure to be enjoyed as it is a really good play.

Miss Mary McMillan spent the week end at her home at Finch.

Quite a number from here attended the sale of the property of the late Mr. Erastus Helmer at Sandtown on Saturday.

Mrs. G. A. Miller and daughter Anna, Mr. and Mrs. Percy Walters and son Bruce, of Ottawa, spent Sunday with Mr. and Mrs. James Benning.

Mr. Earle Richardson and Mr. and Mrs. Hughie Cameron and baby, of Cornwall, called on Mr .and Mrs. G. Eligh on Sunday evening.

Mr. and Mrs. Kennie Cameron spent Sunday with their daughter, Mrs. Harris Rupert, and Mr. Rupert.

Mr. Morris Shaver, of Newington, was a business caller in our Valley on Monday.

Mr. and Mrs. Leslie Stephenson and family and Miss Ruth Saddlemire, of Cornwall, spent Sunday with Mr. and Mrs. George Eligh.

The Misses Mabel and Eileen Campbell attended the C. G. I. T. conference at Winchester.

Miss Ethel McEwen, of Dalhousie, and Miss Ray Sutherland spent Sunday with Mr. and Mrs. Dan Campbell.

Miss Cassie McMillan and Mrs. Clifford Eligh attended the Presbyterial at Martintown on Thursday.

Ministerial Association Selects Permanent Officers

The Ministerial Association of Dundas-Grenville met at South Mountain Tuesday in the United Church, when a paper entitled, "The Failure of Present Day Preaching," was given by Presbyterian Church, and Rev. H. L. Morrison, also of Kemptville, led in the discussion.

Permanent officers were appointed as follows: President, Rev. D. R. Morrison, Hallville United; vice-president, Rev. W. D. Turner, St. Paul's Presbyterian, Winchester; secretary, Rev. H. G. Tuttle, Heckston United; treasurer, Rev. A. W. R. McKenzie, Spencerville Presbyterian.

The next meeting will be held at Hallville on June 19th, when Rev. H. G. Tuttle will address the meeting on "The Theology of Karl Borth," and Rev. A. W. R. McKenzie will lead the discussion.

Blaze In Town of Alexandria Causes Damage of $1500

Damage totalling $1,500 was caused by a fire of undetermined origin Tuesday morning in a building owned by A .Chevrier, on Mill square. The heaviest loser was the Glengarry egg grading station, with damage of $800 due to smoke and water. The other part of the ground floor was occupied by the owner, a harness maker, and two dwellings above were occupied by S. Leger and B. Larocque. Chief M. Seger and his men did splendid work in quelling the blaze. The grading station had been in operation only since April 1st, and plans for its removal to the Banque National building have been made. All losses are covered by insurance.

The saw-toothed beetle includes meal, flour, manufactured cereals, bread ,cake, dried fruits, nuts, sugar and starch in its menu.

Resists Boiling Oil In Extraordinary Test

Spectacular Test Ushers in New Development in Household Product

A crucible of Boiling Oil heated to the terrific temperature of 407 degrees (twice the heat of boiling water) was recently poured over a table finished with a new household Enamel to demonstrate its heat resisting qualities.

This new Porcelain Enamel, to be known as NEPTO-LAC, is made in Canada by The Lowe Brothers Co., Ltd., manufacturers of "High Standard" Paints and Varnishes, and is widely advertised throughout Canada.

NEPTO-LAC Quick Drying Enamel can be used Outside as well as Inside; can be used on Cooking Utensils, Floors, Walls or Furniture, and is made in 20 of the most modern and colorful shades. Another interesting feature of this Super Enamel is that it is sold at prices no greater than ordinary enamels.

NEPTO-LAC pioneers the Heat and Moisture Resisting features in decorative quick drying enamels, and combines beauty with extraordinary service. R-2

Color Charts of this product include many practical decorative color schemes, which may be had through the exclusive local agent—

FULTON BROS., CHESTERVILLE

These 10 Important Features Characterize Nepto-Lac— A Super Enamel

1. **Nepto-Lac can be used inside or outside.**
2. **Nepto-Lac leaves no brush marks.**
3. **Nepto-Lac is heat-proof — water-proof—tough—and durable.**
4. **Nepto-Lac dries dust free in two to three hours—and hard in from four to six hours.**
5. **Nepto-Lac requires no special thinners.**
6. **Nepto-Lac requires no undercoating.**
7. **Nepto-Lac has no strong or objectionable odor.**
8. **Nepto-Lac is easy to apply and it can be brushed back and forth as frequently as necessary.**
9. **Nepto-Lac hides unusually well in one coat.**
10. **Nepto-Lac is very economical.**

H. J. McMAHON

Chesterville, Ont.

Morewood Presbyterian W.M.S

The members of the W. M. S. of the Presbyterian Church, Morewood, met at the home of Mrs. W. Marcellus for their May meeting. The meeting opened with the singing of a hymn, and the scripture reading from the third chapter of Exodus. Mrs. A. Dillabough led in prayer. In the absence of the secretary Mrs. Rainey read the minutes of the last meeting and also gave an account of the bale for the school home in the West which will be sent in June. Mrs. T. E. Coulthart, Mrs. Nimmo and Mrs. Hazel Countryman were appointed to attend the meeting of the Presbyterial at Cardinal this month. Miss Mary McLeod is the delegate from the Mission Band. The president, Mrs. Coulthart, read a fine address given at the Provincial meeting at Stratford by Mrs. McLeannan, the Provincial president. The message was full of hope and good wishes for the auxiliaries for the coming year. Mrs. H. Myers read the financial statement prepared by Mrs. Thoborn, of Ottawa, Provincial secretary. In answer to the roll call a verse of scripture was read with the word promises included. After the offering Mrs. Rainey sang a delightful solo, "Gather the Sunbeams." The meeting closed with the singing of hymn 545, "Faith of Our Fathers," and by all repeating the Lord's Prayer.

Berwick

Mr. Carl Dutt, of Massena, was the guest at the week end of his parental home here.

We are glad to see Mr. Geo. Nichols out again after his recent illness.

The Ladies' Association held their monthly meeting at the home of Mrs. A. McMillan on Tuesday.

Rev. Mr. Maxwell, of Finch, visited some of his congregation in town on Tuesday.

Mrs. Howard Prunner, of Waddington, is the guest for a few weeks of her parental home here.

House cleaning and fishing are the order of the day.

Mrs. H. Merkley and son George, of Massena, are the guests of Mrs. Barriger and Alex.

Mr. and Mrs. Thompson, Newiugton, spent Sunday the guests of Mr. and Mrs. Chas. Thompson.

Mr. Herbie Bogart, of Cornwall, spent over Sunday with Mr. and Mrs. Wm. Spotton.

Mrs. Jas. Servage, of Crysler, was the guest on Friday of her sister, Mrs. Christena Ouderkirk.

Miss Georgina Meldrum was the guest on Sunday of her grandmother, Mrs. Ruth Meldrum.

Mrs. J. J. Dutt, Mrs. Aubin, Mr. Bernie Dutt, Misses Theresa Kearns and Phyllis Legge spent Wednesday at Moose Creek.

Nation Valley

Mr. Cecil Froats, of Syracuse, was home to see his mother, Mrs. Wesley Froats, who has been ill with pneumonia.

Mr. and Mrs. Frank Nesbitt, of the Springs, were visiting the latter's parents on Sunday.

Mr. Preston Rae, of Morrisburg, spent Sunday with his parents, Mr. and Mrs. Walter Rae.

Mr. and Mrs. Colborne Barkley, of Syracuse, N. Y., spent the week end with the former's parents, Mr. and Mrs. W. G. Barkley.

Mr. and Mrs. A. Black spent Sunday in Morrisburg.

Some from here attended the farewell party for Mr. John Summers and Mr. and Mrs. Allan Summers and family.

Miss Helen Jamieson was in Cardinal this week attendinig the Presbyterial.

Mr. and Mrs. Malcolm Rae entertained a few friends on Thursday evening.

Orchardside

Miss Dorothy Merkley has returned home after spending some time visiting her sister, Mrs. Angus Smith, of Chesterville.

Mr. Ford Cunningham and his mother, Mrs. Guy Cunningham, of Williamsburg, spent Thursday at the home of Mr. Geo. Cunningham.

Miss Eldred Edgerton, R. N., of Ogdensburg, N. Y., spent the week end at her home here.

Mr. and Mrs. Edward Hummel spent Sunday visiting Mr. and Mrs. Willis Tupper of Williamsburg.

Mrs. James Robinson and daughters, Lois, Doreen, Ruth and Dana, and son Lorne, of Morrisburg, spent Sunday at the home of Mr. George Cunningham.

Mrs. Harry Edgerton and Mrs. Wm. McLean, of Chesterville, visited the latter's daughter on Sunday afternoon.

Interesting Letter Received From Australian Subscriber

Recently we received a communication from Australia which required some six weeks to complete its journey and which contains some very interesting information. Mrs. E. B. Dawson, of Brigton, Australia, was born in Chesterville and is no doubt still remembered by many people in this place and in Grantley where she lived for many years. Mrs. Jevons, her daughter, in writing The Record says:

"My subscription to The Record expires this month and on going to the Post Office for a money order I find it will cost me nearly $5.00 for a money order for $2.50, with adverse exchange, etc., so I am writing to Canada for a cheque book and will send you a cheque on my account in Canada for the 1933 to 1934 subscription. It will be about three months before it arrives (that is, before it comes here and I send you the cheque).

"Mother celebrated her 80th birthday on February 22nd. She was born in Chesterville but lived many years in Grantley. She had an afternoon tea party when all her Australian friends came to wish her many happy returns. She received many gifts and flowers, letters and telegrams. The table was centred with three birthday cakes, all gifts from friends."

The Record, although a little belated, wishes Mrs. Dawson many more years to enjoy her residence in Australia.

Real Fisherman at Work

Sunday morning last as Eric Casselman was strolling along one side of the river and Will Nash on the opposite bank they observed how a real fisherman does his work when a Fish Hawk hovered above the water, flashed down through the air, disappearing under the water to emerge almost instantly with a fish, estimated to be about a foot long, in its talons. Whether a Fish Hawk is an Osprey we do not know but it is well known that an Osprey does its fishing in the manner described by those fortunate to see the act.

Hydrant Being Repaired

The fire hydrant at the C. P. R. station is undergoing repairs necessitated by a collision with a motor car during the winter months. A valve is also being installed as at present it is necessary for a railway employee to come from Smiths Falls to turn off the water in case of repairs being needed as the pressure is supplied from the C. P. R.'s water tank. The hydrant will also be raised above its former level.

Local Folks Not Airminded

Chesterville folks airmindedness apparently has left with the gold standard. Not even the tempting bait of a ride above town for one dollar could entice any business for a blue Moth 'plane, bearing the letters CF-AFG, which landed in one of W. H. Casselman's meadows below town on Saturday afternoon. As soon as the ship landed it was surrounded by a curious crowd but no business was forthcoming and the aviators took off for other parts about six o'clock.

THE TAX PAYERS PAY.

Trouble developed in the House of Commons last night when the Prime Minister moved further consideration of his resolution to the increase from $12,000 to $15,000 the salary of Judge George Sedgewick, chairman of the Canadian Tariff Commission, and provide him with a retiring annuity of half his salary after he reaches the age of 64.

Young Man (gazing into sweetheart's face): "If those lips would only speak, what would they say?"

Sweetheart: "Guess, dear, what they would say."

Young Man: "Mind the paint."

CARD OF THANKS

Mrs. Joesph Stewart and family wish to express their thanks to friends and neighbours for many acts of kindness and expressions of sympathy in their recent bereavement of their uncle, Thomas Stewart.

Business Man is Bereaved By Death of His Father

Mr. C. F. Marshall, well-known local business man, has been bereaved by the death of his father, Mr. W. N. Marshall, who died at Hulbert on Thursday aged 79. The late Mr. Marshall was favourably known by many Chesterville people who came to know him on the many occasions he visited his son here. Many of the district will also remember him through his association with the Orange Order of which he was County Master for two years.

Not many knew that Mr. Marshall was not about as usual for his sickness was only of a few days' duration and he was able to converse with his family until the very last. Though he had been in failing health for some years that prevented him from taking an active part in strenuous work, he still took a keen interest in the work of the home, of the community and of the church. Anything that made life easier and better for those around him had his support.

In his home he was an ideal father and a true husband and none knew better than his own family his strength of character and his simple faith in divine guidance.

He was born near Inkerman on January 4th, 1854, and had lived all his life in Mountain Township. In 1874 he married Mary Gilroy and to this marriage was born four daughters and one son: Mrs. W. M. Thorpe, of Hulbert, deceased; Mrs. R. J. Ellis, of Iroquois, deceased; Mrs. Minor Henderson, of Shanley, and Mrs. R. S. Peterson, of Toyes Hill, and Christopher who died in infancy. Mrs. Marshall died in 1886.

In 1888 he married Margaret Jane Thorpe and to this marriage was born two sons, C. F. Marshell, of town, and W. E. Marshall at home.

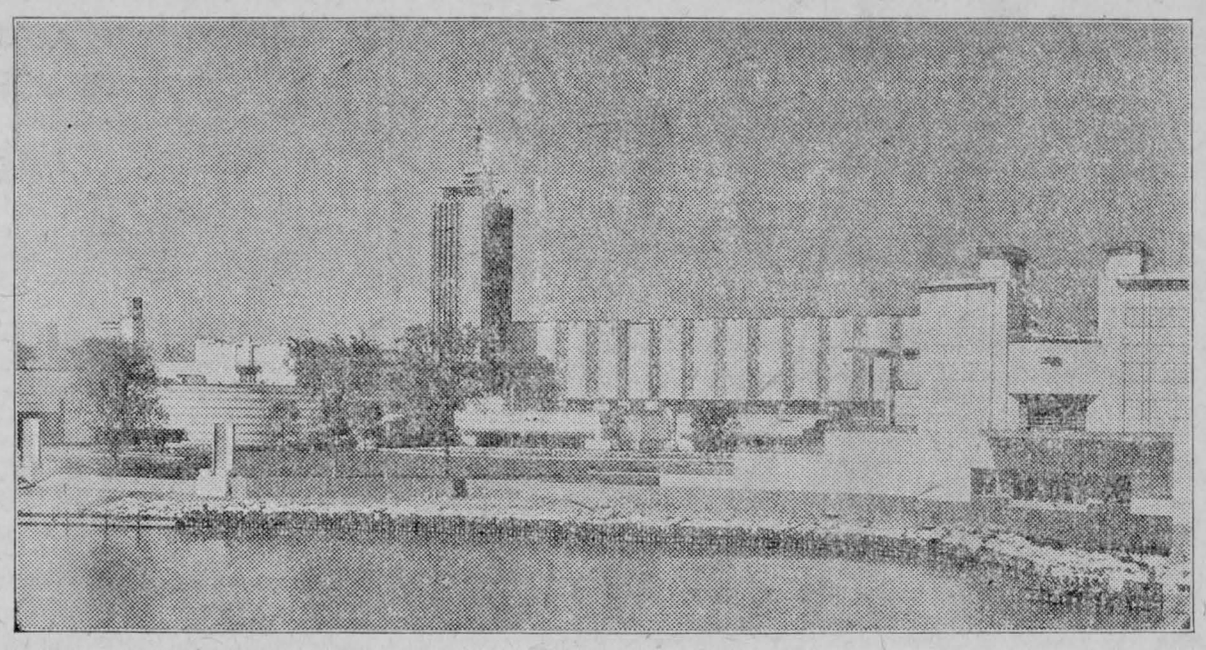

Though a life-long member of the Methodist Church, and now the United Church, he was broadminded in his religious views and every denomination that was true to the principles of Christ's teachings had his sympathy and support. In Hulbert Church his seat was seldom vacant and his voice was herd in song, in prayer, and in advice to the young and encouragement to the older ones.

In politics he had the same broadminded spirit. It was one of his boasts that no writer of his obituary could ever say he was a life-long member of any political party. He held his franchise as a trust to be used for the common good. The large number of friends who called to pay their last tribute of respect and the large funeral procession bore silent testimony of the far-reaching influence of the life that was gone.

The service was conducted in Hulbert Church on Saturday by his pastor, Rev.A. W. G. Wilson, assisted by Rev. R. E. Newman, Chesterville, chairman of Presbytery; Rev W. R. Johnston, South Monutain; Rev. T. Knowles, Iroquois; Rev. T. E. Townsend, Inkerman; Rev. H. G. Tuttle, of Heckston, and Rev. A. H. Sproule, of the Presbyterian Church, Chesterville. The pastor took as his text the words of St. Paul in second Timothy iv: 7. He paid loving tribute to the deceased and in closing gave out a challenge to members of the church in which he had laboured to carry on.

By request of the deceased there were no floral tributes Interment was made in South Mountain Cemetery.

The pall bearers were his immediate neighbours, three on each side of his home: Messrs. Morley Sullivan, William Montgomery, William Keyes, Harvey Frauts, Elmer Sullivan and Calvin Ellis.

Where the magic of modern science will be portrayed next year in Chicago—The Hall of Science of A Century of Progress. This hugs structure, 700 by 400 feet, is shaped like a U, and encloses on three sides a court capable of accommodating 80,000 persons. At one corner rises a 176-foot tower equipped with a carillon. The building faces a beautiful lagoon, an island and Lake Michigan beyond. At night it has the appearance of a brilliantly illuminated metal and glass creation, rising from coloured terraces. The Hall of Science was dedicated on June 1st. Exactly one year later the science exhibits will be officially started by the light of the star Arcturus, focused by means of a telescope upon a photo-electric cell. Arcturus is forty light years distant, so that the impulse which starts the science exhibits in 1933 left Arcturus in 1893, at the time of Chicago's first World's Fair.

Mr. and Mrs. Dan Burton and family were in Nudell Bush on Sunday.

We are sorry to report Mrs. Mina Barkley on the sick list.

Mrs. James Robertson and Miss Maria Robertson were callers on Mrs. Mina Barkley on Thursday.

KEEPING THE HOME TOWN CONTACT

Dear Mr. Lacey:

For the past months I have intended sending you the renewal money for my brother "Arch's" subscription of The Record, but it has been neglected until now. A few weeks ago I was ready to send it and found we were not allowed to send any money whatsoever out of the country, so I could not get even a $2.00 M. O. Now a friend who goes back to Morrisburg is taking this letter and will mail it there and put the M. O. in for you.

Last summer, Mr. Lacey, I spent my entire vacation with our immediate family in Calgary and Edmonton. I saw my sisters, Lucy and Alice, and my brothers Sime and Arch. I also saw many of the old home-town friends throughout the different provinces of Manitoba, Alberta and British Columbia and along the C. P. R. in various towns on the way. Maude Hummel at North Bay, Dr. Morrison, Mrs. Morrison and Kathleen at Winnipeg; the Carlyles, Hendersons, Fultons, Casselmans, Christies, Thoms—now of Calgary, and the Masterson sisters and Ken Myers and Mrs. Myers in Edmonton. Ken still loves the East the best and could not exist without his Record. Every one I met recalled stories of the old home-town, and many who take The Record knew even the country news. I think I went them one better because I told them I knew just who had "timothy seed" to sell or the best eggs for hatching, so closely do I read my paper from home.

My brother Arch told me that he considered The Record his very best Christmas present, and says he looks for his copies very eagerly each week, and so, Mr. Lacey, I feel that it is a satisfaction to you, the editor, to feel that after all, in putting out your weekly paper, you are not just editing a paper—you are sending out intimate letters to the many here and there all over the United States and Canada, whose early years were spent in and about the old home town and who still love it, and derive the greatest pleasure in following the pursuits of their old neighbours "back home." As its editor, I feel we owe you a great debt of gratitude in giving us this personal, homey contact.

One of the old home neighbourhood,
AMELIA MacMILLAN LAMBKIN.

Gallingertown

Mr. and Mrs. Alex Payment and family and Mrs. Garlough, of Cornwall, were Sunday visitors of Mr. and Mrs. Alonzo Murphy and Wallace.

Mr .and Mrs. Lloyd Gallinger visited the latter's parents, Mr. and Mrs. Willis Warner, on Sunday.

Mr. John Coyle spent the week end with Colquhoun friends.

Mr. Willis Warner, Miss Leitha Warner and Mr. Wallace Murphy visited Mr. and Mrs. Lloyd Gallinger on Monday evening.

Messrs. Calvin Carr, Geo. Thompson and Broder Bailey were recent callers of Mr. and Mrs. Alonzo Murphy and Wallace.

Mr. Wallace Gallinger was in Cornwall on Tuesday afternoon.

Mr. Tunis Hart, of Seventh Avenue, visited with Mr .and Mrs. Chas. Hart on Monday evening.

Morewood

Mrs. A. B. Allison is attendinig this week the branch meeting of the United W. M. S. being held in Ottawa

Misses Alta and Blanche Loucks, of Ottawa, spent the week end with their mother, Mrs. E. Loucks.

Miss Jean Rorison left on Sunday for her home in Carleton Place after spending some time with her grandmother, Mrs. Albert Steinberg.

Miss Anna Martin, of Manotick, visited on Sunday with her parents, Mr. and Mrs. A. J. Martin.

Miss Margaret Carlyle of Westboro, spent the week end with her parents, Mr. and Mrs. Adam Carlyle.

Mr. and Mrs. James Haines and Mr. and Mrs. Hubert Haines and son Stanley, of Ottawa, visited on Sunday with Mr and Mrs. Ward Bilow.

Miss Lulu Thompson, of North Russell, spent Friday with her grandparents, Mr. and Mrs. Ward Bilow.

Mrs. Olive Craik and son Ronny returned home on Sunday after spending a week with Mr. and Mrs. Charlie McLean of Ottawa.

Miss Tena Wilson, R.N., of Cornwall, is spending a few days with Mrs. Abner Dillabough.

Mr. and Mrs. W. J. Cobey, Morrisburg, spent Sunday with Mr. and Mrs. Thos. Coulthart.

Mrs. A. Nimmo and Mrs. Thos. E Coulthart and Mrs. Hazel Countryman, of the W.M.S., and Miss Mary McLeod, from the Mission Band, are the representatives from Morewood Presbyterian Church attending the Brockville Presbyterial at Cardinal on Wednesday and Thursday.

Mr. and Mrs. Wm. Ross, of Chesterville, had tea on Sunday with Mr. and Mrs. John Coulthart.

Management of Clay Soil Requires Careful Planning

The management, ploughing, draining, fertilizing and other tillage operations for clay soils are fully dealt with in a bulletin on crop rotations in Eastern Canada issued by the Dominion Department of Agriculture, Ottawa. Properly managed clay soils are very productive and farmers who understand their drainage requirements, how and when to cultivate, and what crops to grow, usually prefer them to the lighter soils.

Clay soils owe their special characteristics largely to their fine texture. Their large water-holding capacity and poor under-drainage is the immediate result of this texture. As a secondary result, they are liable to be slow in warming up in the spring and seeding may consequently be delayed. The activity of bacteria which prepare the nitrogen of the soil for the use of the plants may be retarded also because of the lack of air and the prevailing low temperature. For general farming, therefore, everything possible must be done to secure good surface drainage when the expense of tile drainage is unwarranted. Clay soils bake easily and readily form clods, making cultivation difficult even under good methods of management. Lack of organic matter increases the tendency to become cloddy.

Ploughing and other tillage operations must be conducted when the soil has the proper content of moisture, that is, when it is dry enough not to puddle when worked. Phosphorus and nitrogen are the elements most likely to be deficient in clay soils, while potash is usually found in sufficient quantities for the production of field crops. The liberal use of farm manure, the inclusion of legume crops in the farm rotations and, in some cases, the application of dressings of superphosphate are practices which, if carefully followed, should maintain the fertility of clay soils. The production of fine-rooted crops such as cereals and hay are especially well adapted to clay soils.

Farmer (in from the country): "What were those groans I heard coming out of that building? Is it a hospital?"

"No, that wasn't groans. It was the proprietors of the shop talking over business."

Mr. Smart received a letter from his friend, Mr. Sharp, and, as it bore no stamp he had to pay double the postage.

The letter read: "You will be glad to hear I am enjoying the best of health. Yours, Sharp."

Mr. Smart wrapped up a stone, and sent it to Sharp with the following note: "This great weight rolled off my mind when I heard the good news."

Bears in the Upped Okanagan and North Thompson sections, and coyotes in the lower Okanagan, Manette Lake and Cariboo areas of British Columbia constitute a menace to the sheep ranchers.

THOUGHTS ON LIGHTS.

CHECK the charging rate of your generator. It may be right for winter but too high for summer, with the result your bulb filaments will burn out because of the over-charged battery. If a filament burns out the traffic police will take your number, it will "cost you five" . . . Time was if you started away on a lighted street having forgotten to snap on the light switch, the first policeman would kindly shout "Lights." Nowadays you are more likely to get a summons a few days later Such inadvertences at $5 per inadvertence, are enough to spoil the motoring season. . . . Science is finding headlight glare (they call it "dazzle" in Britain") a big problem, but progress is being made. Next we want a fog-penetrating beam. . . . Lights are one of your biggest safety aids. Keep your equipment right and help yourself and the other fellow.

GOOD THINGS TO EAT

By Etta Bitta Pye

RELISHES AND SAUCES.

WE LIKE to assume that our readers are quite familiar with the routine of making those staple sauces on which so large a measure of reliance is placed by the average cook.

But there is real delight in concocting a new sauce that will give quite a fresh character to some of the most accustomed family menus.

Here a few sauces, easy to make, and useful enough to merit your adding them to your collection of worthwhile recipes.

Pimiento Cream Sauce.

Make one cup of good white sauce. Add to it three canned pimientoes rubbed through a fine sieve. Serve hot on any baked or boiled fish.

For Boiled Fish.

Make one cup rich white sauce, add to it one-half cup mushrooms which have been peeled and broiled lightly in butter, then cut in quartetrs. Beat one yolk of egg into the sauce while hot; or add hard cooked egg yolk finely grated. Season with salt, pepper and paprika.

Horseradish Sauce for Beef.

This sauce is delicious on hot or cold roast or boiled beef.

Make one cup medium thick white sauce; add to it two tablespoons grated horseradish; two tablespoons lemon juice; three tablespoons finely minced parsley; one-half teaspoon dry mustard; one-half teaspoon pepper and one teaspoon salt. Beat thoroughly, heating all the while in the double boiler. When at the boiling point serve.

Another version of this sauce is made with cream substituting for the white sauce. It may be chilled thoroughly in the refrigerator and served on hot or cold meat.

Mustard Sauce for Ham.

This is equally good on hot or cold ham. Make one-half cup white sauce medium thick. Add to it two tablespoons of white wine vinegar, or very mild cider vinegar; the yolk of one egg; one teaspoon dry mustard; one teaspoon salt; one-half teaspoon paprika. Beat thoroughly, heat to the boiling point and serve.

Shrimp Cocktail Sauce.

One cup canned tomatoes; one leek chopped fine; one onion chopped fine; one-eighth teaspoon ground cloves; one-half teaspoon dry mustard; one-half cu pwater. Cook all together for fifteen minutes, then rub through a sieve and add one and one-half teaspoons salt; one teaspoon paprika and one tablespoon Worcestershire sauce. Mix, chill, and serve.

A simple variation, is to use chili sauce into which the above seasonings are mixed, cutting down a little on the Worcestershire sauce and salt.

Mrs. Ferguson: "It was a big comedown for me when I married you."

Mr. Ferguson: "Yes, everyone said I took you down from the top shelf."

Wife: "Every time you see a pretty girl you forget you're married."

Husband: "You're wrong, my dear. Nothing brings the fact home with so much force."

Bride: "Who is the man in the blue coat, darling?"

Groom: "That's the umpire, dear."

Bride: "Why does he wear that funny wire thing over his face?"

Groom: "To keep from biting the ball players, precious."

To appreciate the great need of judicious care in handling orchard products, every picker, packer and shipper should bear in mind that a fruit is a living organism and has a definite life-cycle.

The way to frighten off moths is to use a pound of paradichlorobenzene among garments of an ordinary sized trunk, or one pound of napthalene flakes.

HEALTH

by

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

MIDDLE LIFE.

NONE of us is perfect. We accept as a matter of course, that, in one way or another, we fall short of perfection. It is, however, a matter of importance for us to know in what ways and to what extent our bodies are defective.

Some defects are of but little or no significance other than from an æsthetic point of view. There are, however, other defects or disturbances which mean a deviation from the normal, and these may be of grave import in their significance.

Most of the diseases of middle life are insidious in their nature; from insignificant beginnings, they slowly progress to the point where disabling symptoms are noticed. This applies to the chronic diseases of middle life, known as the degenerative diseases, which are due to changes in the heart, arteries and kidneys.

It would be most desirable to have these diseases detected early so that by proper treatment and through changes in the habits of life, particularly with regard to diet, the condition might be corrected or checked. One purpose of the periodic health examination is to find out the condition of the various organs of the body and to detect any changes which may have occurred.

It is in middle life that such changes should be looked for because it is at that time of life that they begin to develop. That is why the business man's practice of making at least an annual inventory should be extended to include an annual health inventory of the business man and his family. Health is our most precious possession. If it is worth while to take stock of our financial position, it is much mor necessary to take stock of the physical and mental condition of our bodies.

To accept disease as inevitable and to make no reasonable effort to ward it off places us on a level with primitive people who considered disease as the work of evil spirits. The body is a complex machine. It requires a periodic overhauling to keep it running smoothly and efficiently, and thus prevent the breakdowns which otherwise will occur.

Age should not mean incapacity. Too little attention has been given to the needs of adult life. We have accepted the health supervision of babies and school children as desirable; there is every reason to carry this same desirable practice into middle and later life.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

A little girl, returning from a visit to the barber's and alluding to his use of the electric clippers on her, remarked to her mother: "I know my neck was dirty, 'cause he used the vacuum cleaner on it."

Interest Act Stands.

Ottawa, May 9.—Short shrift was given in the House to-night to the private bill of George G. Coote (Prog. Macleod) to amend the Interest Act by fixing five per cent as the maximum rate of interest. Following the mover's closing arguments the motion for second reading of his bill was defeated by 65 to 34. The Liberals voted solidly with the Pro[illegible] and Labour members in favour of the motion, excepting A. W. Neill, who voted with the Government against the measure.

Bats found inhabiting the attics of summer cottages in Canada should never be destroyed because they are beneficial to the country. Their food consists mostly of insects, many of which are destructive pest. Bats are the only mammals capable of true flight.

Lowe Brothers

Nepto-Lac
QUICK DRYING ENAMEL

The Latest Development in HEAT and MOISTURE Resisting Enamels

Look at the illustration! It shows one of the severe tests to which Nepto-Lac Enamel was subjected. A kettle partly filled with water, finished in Nepto-Lac, was boiled for hours over a strong open flame, without peeling or blistering.

Nepto-Lac is the answer of the Research Laboratory of The Lowe Brothers Company, manufacturers of the famous "High Standard" Paints and Varnishes, to their many thousands of Consumer Friends for an enamel that can be used with as great success on Cooking Utensils—Hot Water Pipes—Radiators—Furnaces—Table Tops and other surfaces subject to heat—as on Furniture—Walls—Woodwork—Floors—Etc.

Nepto-Lac with all its unique and extraordinary features is surprisingly economical. It sells for less than many ordinary Quick Drying Enamels. Come in and ask for a free Nepto-Lac Color Card and other literature on this outstanding household product.

D-A

Here's What Nepto-lac Will Do—

¶ It can be used inside or outside.

¶ It leaves no brush marks.

¶ It is heat proof—water-proof-tough—and durable.

¶ It dries free in two to three hours—and hard in from four to six hours.

¶ It requires no undercoating.

¶ It requires no special thinners.

¶ It has no strong or objectionable odor.

¶ It is easy to apply and can be brushed back and forth as frequently as necessary.

¶ It hides unusually well in one coat.

FULTON BROS. Phone 36 r 2 CHESTERVILLE

"Coony"

IKE PARSONS bought Coony from a man who passed the Parsons farm in a wagon. The wagon had an open crate in it, and in the crate were Coony, three other pups and their mother, . Coony was known by that name, in this early stage of his life. He was the biggest pup in the crate, and seemed to be the most intelligent. So Ike chose him at once, and paid for him with a side of bacon. After that, you never saw Ike without seeing Coony, and whenever Coony came into view you knew that Ike was not far behind.

At most houses in our settlement Coony was very welcome. The only difficulty came when Coony wanted to follow Ike into church.

Coony was so determined about this, when he grew up to be a full-sized dog, that Ike went to see the preacher, Doctor Barton, about it. Doctor Barton was a friend of Coony's. He smiled wisely, and said: "Suppose we let him come just once, on probation. If he behaves well, there will be no objection to his coming again. If not, you must leave him at home."

There was shrewdness in this answer, because Doctor Barton liked and respected Ike and knew that Ike would bend every effort to teaching Coony to lie still. If the young man had merely wanted to bring Coony to church for his own diversion, or as a whim, Doctor Barton would have sternly refused permision. But Ike was the hardest-working young man in the settlement; he had to be, with his mother and sisters and brother to support. Sunday mornings he walked four miles to church, and the company of the dog meant much to him. Of course, he could have tied Coony outside the church door. But Doctor Barton reached a decision that proved satisfactory to all.

Ike spent a good deal of time teaching Coony to lie still before he brought him to church on probation. Coony was only too anxious, always, to do whatever Ike wanted him to do. As soon as Ike could make him understand things, Coony would do them. On this probation Sunday, Coony followed Ike into church so soberly that many people did not notice him at all.

Then he stretched out in the aisle close to Ike's pew, and never took his eyes off the preacher while he was talking—except once, when he shot a quick glance at Ike to see if Ike were satisfied with his conduct.

Doctor Barton had the pleasant old-fashioned custom of greeting each person as he or she came out of church after service. When Ike came out, with Coony following demurely behind him, Doctor Barton smiled and said that Coony could certainly come again.

Other boys were much interested in Coony's presence in the congregation. Several of them immediately asked permission to bring their own dogs. Doctor Barton said they could do so only when their dogs were as perfectly trained as Coony. That stumped them. Ike was one of those rare people who not only love dogs but can persuade them to do anything they wish. Try teaching your own dog to lie quietly, without moving a muscle, for an hour and a half, and then ask yourself whether the dog could do it while hymns were being sung, while people are rising and sitting down, and while you yourself are sitting nearby but paying no attention to him.

Coony had so many other accomplishments (they should not be called "tricks") that the list of them should be set down here as a challenge to other good owners and friends of dogs. He was not forced to do them; he enjoyed doing them, just as he enjoyed everything that brought him a smile and a hearty pat on the head from Ike. Here are some of the things he could do.

He learned to keep the kindling woodbox full for Ike's mother, Mrs. Parson's mother, filling it with sticks from the pile in the shed. He could open and close the door, with its old-fashioned thumb latch. He could go for the cows and drive them home. He carried bundles. He could guard any object and was a faithful watchman for the farm. He retrieved ducks when Ike went shooting, and he learned to find grouse and scare them up into trees and bark at them until Ike came.

He grew so careful that he could carry an egg from the barn to the house without cracking its shell. He knew each member of the family by name, and would deliver anything to the one whose name was mentioned by Ike, refusing to let anyone touch his packet. Besides these accomplishments, he had plenty of amusing tricks for the benefit of children.

No better-tempered dog walked the roads of Minnesota, and none more faithful to his master or to a trust reposed in him. When Ike told Coony to go with any other person he would obey and be that person's dog for the time being, but he would never stay after the sun went down. At sundown he would start on the shortest possible line for home, with his nose sticking straight out, and his long legs fairly flying over the ground, and on arrival he would whine at the kitchen door to let Ike and his mother know that he had come home.

Coony's bed was in a kennel that Ike built at the end of the porch. Ike could lean out of his window at any time and give one sucking intake of breath through his puckered lips and instantly hear the scramble of Coony's feet as he left his kennel to run round under the window and whine an answer.

Then Ike would talk to him as he would to a man, and the dog would listen and give sift little whimpers to show his appreciation. If Ike said, "The horses—I think you should see that the horses are all right," Coony would trot off to the barn and come back in a little time to whine for further orders.

WHEN Ike killed hogs, he always hung them in the trees behind the house. He would throw a blanket into a big barrel lying on its side, tell Coony to watch there, and then go to bed secure in the knowledge that the meat was safe from animals and human prowlers. Other dogs that came for a meal of pork went away howling for Coony was the master of any two in the place.

When Ike was working at his sugar camp, or in the distant meadow at Big Lake, Mother Parsons never had to worry about sending out his lunch to him. She merely waited for Coony to come for it. Promptly a few minutes before noon he would come, stretching out in that long gallop of his which could run down any rabbit in the woods. He would take the handle of the basket in his mouth and trot away with it, carrying it with such care that he never spilled its contents.

If his appearance has not been described until now, it is because his mind was so much more than ordinary. He was a mongrel do standing tall and rangy. He had a well-brushed gray coat, curiously mottled with markings that were almost black. Ike called him Coony in the first place because he was marked like a coon—but most people thought he deserved the name because he was so clever. Ike had his mother and three small sisters to care for; for his only brother was afflicted with spinal trouble that prevented him from doing any work except such as he could do while reclining in his wheel chair. Ben was a cheerful boy for all his suffering, and his laugh rang out as often as that of his big brother, who was one of the strongest men in the country. Mother Parsons was a large woman with a large voice. She could hold her end up in a race at hoeing corn as well as most men; also she was a noted cook, and the good old-fashioned hop-yeast bread that came out of her oven was a perfect golden brown and cut as smooth as a fine cake. She had won the first prize for her bread at the county fair until it was a mere matter of form to make the award.

Her heart was in proportion to her size and voice, and many a poor fellow had been glad to hear Mother Parsons roll out her words of encouragement in a voice that seemed to reach to the next section line. She always backed up her vocal sympathy by some substantial help.

She loved to tell stores of the wonderful "cuteness" of Coony, and in fact was more inclined to do that than Ike, perhaps because she could do it without being guilty of bragging.

"Why, do you know that pup went to town with Ike," she said to a neighbour, "and when Ike was coming home he dropped a sack of shot he had bought. He was riding old Nell, and when he missed the sack he turned her around, intending to ride back to see if he could find the shot, and that blessed pup sat down in the road in front of him and said, 'Wuf,' and Ike looked, and blessed if the pup hadn't the sack of shot in his mouth. There's no knowing how far he'd toted it. It wasn't but five pounds but Ike was glad to get it, and the fuss he made over that pup was scandalous."

Coony was very good to the animals on the farm. The house cat could ride on his back if she wished. With the horses he was hail-fellow-well-met. He would condescend to look with some favour on the cows, but for sheep he had the contempt of an old cattleman. Ike never could get him to be polite to sheep, even when he was driving them. He could herd sheep and drive them into their pens, but he did it with the air of a girl who has to wash dishes when she had planned to spend that half-hour on the tennis court.

Coony's third birthday came and went, and the summer passed in the usual round of work and heat. In September Coony felt better, for Ike would take a day off now and then to go out after ducks or grouse; hunting was the delight of both their souls.

When the winter began and the first snow fell the sheep were all brought up to the barnyard and given a yard of their own with a good stable where they could find shelter at night. This stood open at all times. There were about eighty sheep in the herd.

They were all led by an old Cotswold ram with curling horns — a rather vicious fellow at times, but a wonder at producing wool, and hence valuable. His lambs gave about double the yield of wool that the mothers did. They were all Merinos, and Ike was trying to grade up the flock to a good level.

After the fourth snowstorm of the season, when the snow was about two feet deep on the ground, rumours began to fly around that there were wolves in the woods.

"No doubt about it," said Henry Bascom, a neighbour. 'I've been in wolf country, and I know the signs."

Ike Parsons was not impressed. "I've got other troubles besides wolves," he chuckled.

"Lock the door of your sheep pen," urged Bascom.

"Coony's door enough for all the pens and stables I've got."

Henry Bascom shook his head. "You're a good boy, Ike," he said. "But you don't know everything. I hope you won't be sorry you are leaving things open."

ONE NIGHT Ike hitched his horses to the sleigh and took his mother to see her sister, who lived seven miles away. The little girls were not at all afraid to stay with their crippled brother Ben; in fact they were greatly pleased at the prospect, for he had promised them some stories. Ben was a great story-teller, and it was a treat to hear him when he chose to relate one of his fairy tales or adventure stories. He made them up as went along and never was at a up as he went along and never was at a loss for word or situation.

Ike told Coony to stay at home and watch, and drove off with his mother. She had seen her sister only once since the snow flew and, as Ike said, was "good for several hours of talking" when they got together. So the children did not expect them home for a long time.

They got out the corn popper and told Ben to begin while they popped corn, but he demurred; the corn, he said, would burn if they tried to watch it and listen at the same time. They overruled him, and he began to tell his little sisters the story of the return of Ulysses, the great hero of Greece, to his home in the island of Ithaca, long ago.

"He fought for ten years at the siege of Troy," said Ben. "People change a great deal when they leave home for ten years and pass through great adventures and hardships. And the voyage home was so long and there were so many adventures that Ulysses lost all his soldiers and sailors and all his fine armour and good clothes.

"He looked exactly like an old beggar-man—a tramp with a ragged gray beard. He came up from the shore and found the road up to his house. There were men working in the fields whom he recognized, but they did not know him. Some of them ordered him away, saying there was no entertainment for tramps on the island.

"Then Ulysses found that many of the neighbours had long since given him up for lost. They were a rough lot of men, and there was no law that could touch them in those days. Some of them were living in his house and making free with his goods. Ulysses knew that if he claimed his rights they would scorn him for an impostor and probably murder him unless he went away.

"He was so weak and tired and hungry that he had no hope. And yet, while he stood outside his home and watched the men feasting inside, he knew that if somebody would only recognize him he would have heart for the adventure. But there was nobody who knew him. An old shepherd on the island gave him shelter for the night; and Ulysses knew this man well, but the shepherd did not recognize him. Then they went to the big house together, and nobody knew Ulysses. They were willing to give him a hand-out, but that was all.

"And then," said Ben, "guess who recognized Ulysses after all."

"His mother?' 'suggested Alice.

"He had no mother living," answered Ben. "And his wife, Penelope, was in her room. The only chance was among the farmers and other men around the place. And not one of them knew Ulysses—not one. He was so changed, so old and ragged, that they could not know he was the great hero who had sailed away, ten years before. But there was one who recognized him. Guess who?"

"I can't guess," said Belle, after long thought.

"His dog," said Ben, smiling. "The old hound Argos, who lay in the courtyard. Argos could not go to war with his master; but he had lain there, day after day, year after year, waiting for Ulysses to come home. And now he got up on his old legs and walked over to Ulysses and licked his hand. He knew his master. Dogs always know."

"That's true, I'm sure," said Alice. "Coony would recognize Ike, no matter if Ike went away for a hundred years!"

"Then what happened?" asked Belle.

"What happened," said Ben, "was that Ulysses felt strong again, and very soon he cleaned all the rascals out of his home, and—"

The story was never finished. Little Sue, who had been popping the corn, became so interested in this old story of the faithfulness and wisdom of a dog that she let the popper droop till it rested on the coals and the corn caught fire. Then there was a scurrying to get it smothered, and the room filled with smoke.

Sue ran to the water pail and sluiced the popper with water, and Belle and Alice opened the windows to let the smoke out. Ben told them to open the door also, and when they swung it open they saw Coony come out of his kennel and stand with his head up as if listening; and Belle held up her hand for the rest to be quiet. Her sisters stopped their laughing and stood still holding their breath.

As they stood thus they heard the sound of the sheep as they rushed across their pen and into the covered part, followed by an agonized bleat. Coony jumped from the porch with a growl and rushed round the corner of the house at full speed.

The girls crowded and clung together, their faces were pale with fright, for in all Coony's three years of life they had never heard such a savage sound from him.

Ben motioned for them to keep still; then all strained their ears to catch the first sound that would tell what had startled the dog to such rage. They did not have to wait long. They heard Coony jump the fence and rush across the pen to the shelter: then there came through the open windows the sound of a fight that was like a battle of demons.

Ben was white and shaking as he grasped the sides of his chair and lifted his body with his arms.

"It is wolves,' 'he cried, "and Coony will be killed! So will the sheep. What can I do? I'm only the wreck of a man. Oh, for one hour of strength! Half an hour, ten minutes, would be worth a year of my life."

It was little, quick-witted Alice who thought of a way to help. She threw open the door that led to the next room and rushed to the corner where Ike kept his rifle. She came out with it hugged in her arms and cried to her sisters to wheel Ben up to the window that gave a view of the barn. Then she thrust the rifle into his hands and said, "Shoot! Shoot! The noise will scare the wolves away."

Ben lifted the gun and fired shot after shot, aiming high in order not to kill any of the cattle. In the bright moonlight the girls saw two forms glide like shadows from the sheep pen, cross the front of the barn and, whirling round its south corner, disappear in the trees beyond.

But still the noise of struggling went on, though in a little less degree. Half a dozen shots failed to stop it, and Ben sat back weakly. The sound was a terrible snarling that continued steadily for a time; it then became a little intermittent, but always had the utmost quality of cruelty and viciousness in it. Now and then the girls and Ben could hear the sound of bodies being hurled about the pen. The room become cold, and they brought blankets from the bed. Still the sounds went on, getting weaker and weaker, but persisting till the girls were all crying and Ben had long ago ceased to care that they should see his face wet with tears.

They could not shut the windows, thought it was torture to keep them open. They knew that out there in the darkness Coony was fighting for his life—Coony, their pet and comrade. And they could not help.

At last the sounds died down to an occasional feeble tussle, but a very weak snarling sounded most of the time.

Belle turned from the window at last with tears running down her cheeks and said to Ben, "Coony would not leave us to fight alone, and I'm going to help him."

Ben reached his hand to her and tried to draw her to him, but she slipped past him to the room where Alice had found the riffe. She came back in an instant with a box of cartridges and asked him to fill the magazine.

"You know I can shoot a little, and I am going down there if Sue will carry the lantern and hold it up behind me so that I can see what I am to shoot."

"I'll do it, Belle; I'm not afraid."

"Come on then. We must hurry, or I'll go frantic. I wish I'd learned more about using a gun when Ike wanted me to."

Ben said nothing, but his face was white. The girls went out with the gun and the lantern and ran down the path that led to the barnyard. Ben mustered enough strength to call to them from the window to go slow and be sure they did not shoot Coony. They answered to let him know they heard and then entered the sheep yard, leaving the gate open behind them.

THEY could hear the feeble snarl coming at intervals from within the covered part, and they stepped softly and slowly around the corner of the barn that jutted out into the yard. The rays of the lantern fell on Coony lying with his head on the threshold and his nose pointing inside. As they spoke to him a feeble movement of his tail was too small and weak to be called a wag. He held his eyes on something that they could not see, and the low snarl kept rolling up in his throat. Another snarl that was weak and full of fury came from just beyond Coony's nose, and the girls stepped a little closer. There on the floor of the sheep pen only about three feet from Coony's nose was the head of a great wolf; in the dim light they could see that his body lay in a curious sprawling position. He snarled more loudly and horribly at the sight of the lantern and struggled to drag himself along, but he was helpless. Belle raised the rifle, and, taking as good aim as her inexperience and agitation would allow, fired at the head.

When the girls were sure that the wolf was dead they dropped the rifle on the straw and stooped over Coony. He was torn in a shocking manner, and they were filled with a great fear that he would die before Ike could return.

"Belle, I'm going to get my hand sled and get him to the house."

"Oh, get it quick, Sue. Hurry.

And, without a further thought of danger to themselves, the two girls began the work of rescue for the dog that had battled so bravely. When they had hauled him up to the house they had a hard struggle to get him inside, for Coony was a heavy dog. But with the help of Alice they succeeded at last and placed him on a rug before the fire.

When Ike and his mother came home they found the dog with bandages on every leg and with great pads of cloth on his shoulders and neck. Belle was busy cleaning a wound in his nose. Ben was leaning over the side of his chair, giving directions, while the two other girls held salve and arnica and cried over the patience that Coony showed.

Ike went down to the sheep pen and inspected it. The dead beast was a great dog wolf, with scars of other battles all over his shoulders and head. His back and right fore leg were broken, and his neck and head were covered with marks of Coony's teeth.

There were two dead sheep in the stable and one outside, and the yard showed by its torn-up surface that the greater part of the fight had taken place there. At the south end of the barn Ike found drops of blood—proof that the two other wolves had not gone scatheless from the fight.

"Three to one, and timber wolves at that! They would have killed him if Ben hadn't frightened them, but the nerve of the old boy to tackle three wolves! And to kill the boss of the gang after being cut up by the three."

Ike came back from his inspection to declare that Coony had proved himself the best fighter on record. It was late at night, but he lost no time in hitching up a fresh horse and driving six miles to get a surgeon: and the surgeon said that he had never attended a finer gentleman than Coony. In half a dozen days Coony was on his feet again, still a little weak and stiff, but on a rapid road to complete recovery.

Ike spent two weeks in running down and killing the other wolves, and he said that it was worth it to avenge Coony.

There are two species of carpet-eating beetles in Canada. They came to Canada with the early settlers.

SAFE DRIVING

will save money

Our Merit Rating of Automobile Insurance provides reduced premiums for careful drivers.

Because we believe that careful motorists are entitled to a further reward for Care, Courtesy and Common Sense in their driving, we have extended our Merit Rating Plan in Ontario so that DISCOUNTS UP TO 25 Per Cent are now available for Private Passenger Automobiles on All Classes of Automobile Insurance—

PUBLIC LIABILITY,
PROPERTY DAMAGE,
COLLISION,
FIRE AND THEFT.

10% DISCOUNT to motorists who have owned and operated a car for the **past year without claims.**

15% DISCOUNT to motorists who have owned and operated a car for the past **two years without claims.**

20% DISCOUNT to motorists who have owned and operated a car for the past **three years without claims.**

25% DISCOUNT to motorists who have owned and operated a car for the past **four years without claims.**

Our Merit Rating Plan is **the only one available in Canada** which provides such discounts for all coverages for Private Passenger Automobiles. These discounts apply, whether or not the motorist has been insured with this Company in the past, and are deducted from the premium on the issuance of his policy.

A claim having been made under either the Collision, Fire or Theft coverages will not disqualify the motorist for his Merit Discount on the Public Liability and Property Damage sections, and likewise a claim under either the Public Liability and Property Damage sections will not disqualify the motorist for his Merit Discount under the sections of Collision, Fire and Theft.

"IT'S THE MAN AT THE WHEEL THAT COUNTS."

—*Further Reductions for Farmers. If you can qualify for this policy, see us to-day. Full details furnished gladly on request.

Former Chesterville Man, Geo. B. Allison, Died Sunday

The funeral of the late G. B. Allison, of Montreal, was held in Chesterville on Tuesday afternoon in the United Church, conducted by his own pastor, Rev. L. Smith, who was assisted by Rev. R. E. Newman, of Chesterville, and Rev. Dr. McRae, of Morrisburg. Among those present from out of town were — from Montreal: Mr .and Mrs. L. F. Just, Mr. A. H. Brooks, Mr. W. H. Gormley, Mr. and Mrs. R. H. Pattison, Mr. and Mrs. Southward, Mr. Homer Vipond; Mr. Carson, of Detroit, representing the Packard; Mr. and Mrs. L. G. Boker, Mr. Livingston, Windsor, representing Firestone; Mr. and Mrs. Atwood, Mr. and Mrs. Bell, Mrs. Empey, Mr. Morgan Johnston, Mr. Norman Johnston, Mr. F. W .Sharp, Mr. Arthur Webster, Mr. Andrew Webster, Mr. McClelland, Mr. D. F. Johnston, Rev. Lavell Smith, Mr. A. H. Howell; from Toronto: J. R. Johnston, Mr. and Mrs. W. R. Johnston, Mrs. (Dr.) Routley and Graham Allison, of McMasterville.

Prominent in Canada as a financier interested particularly in the automobile industry and real estate, and well-known in Montreal as a church worker and benefactor to many charitable organizations, George Barber Allison died Sunday morning at his resdience 619 Murray Hill, Westmount, following an illness of a few months' duration. He was 53 years of age.

President of Packard Montreal Motor Company, as well as of Just Motors, Limited, Mr. Allison had resided for upwards of 26 years in the metropolis. His career as a business man was outstanding; his devotion to the moral wellbeing of the community was exemplary.

Born in Chesterville, Ontario, in 1880, Mr. Allison was educated in the public schools of that province, and as a young man went to Raleigh, North Carolina, where he became affiliated with an insurance brokerage firm. Later, he spent some years in London, Ontario, Ottawa, and Winnipeg as a representative of the New York Life Insurance Company.

Some 26 years ago Mr. Allison came to Montreal and interested himself in finance. He was at first associated with J. W. McConnell and the late G. F. Johnston and the late Hudson J. Allison, who lost his life in the sinking of the Titanic in 1912. In 1913, he went into business for himself as a financier, being particularly interested in the automobile industry and real estate. At the time of his death. Mr. Allison was president of the Packard Montreal Motor Company, Limited; Just Motors, Limited; Just Equipment and Supply Company, Limited; Automotive Supply Company, Limited; Paramount Motors, Limited; Commercial Tires, Limited; Canadian Metropolis Securities, Limited; and H. C. Johnston and Company, Limited, building contractors. He was also a director of Canadian Fur Auction Sales, Limited, as well as many other companies.

Active Church Leader.

Always closely and actively identified with church and charitable institutions, Mr. Allison was chairman of the board of trustees of Westmount Park United Church, a governor of the United Theological College, vice-president of the Old Brewery Mission and a director of the Quebec League Against Alcoholism. He was also greatly devoted to the work of the Young Men's Christian Association, being a past president of the Westmount Branch of the Y. M. C. A.

Mr. Allison was a member of the Canadian Club, the Montreal Club, the Marlborough Golf and Country Club and the Islesmere Golf Club, as well as the Montreal Board of Trade and the Montreal Real Estate Board.

He is survived by his wife, formerly Lillian Workman, of Raleigh, N.C.; by two sons, Jesse Graham and Eric Franklin Allison, and by two daughters, the Misses Dorothy Enid and Marjorie Ruth Allison. One brother, W. P. Allison, of Morrisburg, and a sister, Mrs. Charles Graham, of Chesterville, also survive.

The remains rested in the chapel of Seale and Sons, Limited, 2181 St. Catherine street west. The funeral took place Monday afternoon at five o'clock in Westmount Park United Church, the pastor, the Rev. J. L. Smith, officiating. Tuesday morning the remains were entrained for Chesterville United Church where a service was held at 2.30 p.m., the Rev. Mr. Smith and the Rev. R. E. Newman officiating. Interment was made in the family plot in Maple Ridge Cemetery.

CARD OF THANKS

I wish to thank my neighbours and friends for the many acts of kindness to my family and myself while a patient at the St. Vincent de Paul Hospital, Brockville.—Mrs. John Kittle.

Mainly About People

Dr. W. A. Brown, of Kingston, spent yesterday in town.

Mr. Harry Fairbrass and Miss Gladys were in Ottawa on Tuesday.

Miss Florence Millea, of Montreal, visited her home here over the week end.

Mr. and Mrs. M. O. Robinson, of Grantley, visited with Mr. and Mrs. Smith Baldwin, of Cardinal on Friday.

Mr. and Mrs. W. A. Wallace, of Detroit, and Mrs. A. Burns, of Lansdowne, were the guests of Mr. and Mrs. S. Bogart over the week end.

Miss McNeely, of the High school staff, and Miss Rae Dixon, of the Public school staff, spent the week end at the home of the former in Perth.

At a meeting of the members of the Chesterville Citizens' Band Tuesday evening, it was decided that practices would re-commence on Monday evening in the Town Hall.

Mrs. A. E. Bolster spent several days recently in Montreal where her daughter-in-law, Mrs. Launcelot Bolster, has been confined to the hospital with an attack of pneumonia.

Mr. and Mrs. Colborne Barkley, of Syracuse, spent the week end with the former's father, Mr. W. G. Barkley, of Nation Valley, whose health is considerably. improved since last Fall.

Monday was clean-up day in town and the weather was ideal for the job. Wagons provided by the corporation gathered up the refuse and carted it to the dump while bon fires accounted for much of the inflammable junk.

CARD OF THANKS

Mrs. G. B. Allison and family wish to express their sincere appreciation for kindness shown in their recent bereavement, especially Rev. Mr. Newman, Mr. P. G. Hewitt, and the choir.

IN MEMORIAM

In memory of Wilbern Ball who departed this life May 16th, 1931.
He is gone but not forgotten
As it dawns another year;
In our lonely hours of thinking
Thoughts of him are ever near.
—Ever remembered by wife and family.

Easy Session For Council At May Meeting Last Week

The May meeting of the Village Council was held in the Clerk's office on Tuesday evening, May 2nd. The members had a fairly easy night of it as the amount of business before them was not very heavy.

Monday, May 8th, was set as clean-up day for the village. Citizens were asked to place their refuse in suitable containers at the street where it was collected by wagons supplied by the corporation.

A request from the Horticultural Society for the filling in and seeding of the ditch on the north side of Queen street from King to Albert streets (past Hunt's Drug Store), was granted and the work will be in charge of Councillor C. F. Marshall.

A motion was made by G. H. Barkley and F. W. Merkley that the agreement with the Hydro Electric Commission concerning the flat-rate water heaters offered by the commission, be executed, and on motion by Councillors G. H. Barkley and Thos. Flynn, the necessary by-law was passed.

Mr. A. W. Kimpton was granted a six-months' cigarette licence for $25.00 on motion of Councillors Thos. Flynn and F. W. Merkley.

A number of bills, totalling $1069.66, were passed and paid.

Reeve W. H. Casselman was in the chair and the councillors present were Messrs. G. H. Barkley, Thos. Flynn and F. W. Merkley.
