MORRISBURG — ONTARIO

### The LATE MRS. W. H. FETTERLY

The number of relatives and friends who attended the funeral of the late Mrs. W. H. Fetterly, Sunday last was the largest seen at a funeral in Morrisburg for many years. It was conducted from her late residence to St. Pauls Church, Rev. H. C. Kraft, officiated, assisted by Rev. Dr. Little of Waterloo. The remains were laid to rest in the Lutheran Cemetery, Riverside.

As announced briefly in The Leader last week, the deceased passed away at her home on Wednesday evening Sept. 12th, from the effects of a stroke of paralysis, which she suffered about four years ago. Her maiden name was Mary Jane Froats, a daughter of the late Mr. and Mrs. John Froats of Froatsburn, where she was born in 1864. In the year 1884, she was united in marriage to Mr. Wm. H. Fetterly of Williamsburg Township, and the greater part of her married life, which was spent in Morrisburg, was distinguished by the rare courtesy of a carefully cultured mind and nature.

Besides her husband, she is survived by one son, Ralph, at home five sisters, Mrs. Guy Casselman, Morrisburg; Mrs. Alice Merkley, Morrisburg; Mrs. Wm. Millward and Mrs. Peter Schell, Froatsburn; Mrs. Matthew Marcellus, Aultsville; and two brothers, Messrs. Roland and Lucius Froats, Froatsburn.

The floral tributes were beautiful and numerous, including a wreath from the Ladies Aid Society, St. Pauls Church; wreath from the McLaughlin Motor Co.; spray from Mr. and Mrs. J. L. Casselman; spray from Mr. and Mrs. J. L. Weir, Ottawa; wreath, Mr. and Mrs. W. Roach; bouquet, Mrs. Woodland; cross from the sisters; wreath, Mr. and Mrs. Smyth; wreath, Mr. and Mrs. W. C. Coir; cross, Mrs. A. M. Tupper; spray Mr. and Mrs. P. M. Marcellus; spray Mrs. Starbird, Mrs. Mouthrop and Mrs. Barkley; spray, Mr. and Mrs. G. H. Chalkies; wreath Mr. and Mrs. F. J. Hawkins; spray, Mr. and Mrs. D. C. Bush; wreath, Mrs. and Misses Pariseau; wreath, Mr. and Mrs. Herman Hummel; crescent, Mr. and Mrs. Frank Hummel; anchor, Mr. and Mrs. Wm. Rice; spray, Dr. and Mrs. Weegar, Buffalo; spray from the local orchestra; spray, Mr. and Mrs. J. E. Froats, Pittsburg; pillow from the employees, W. H. Fetterly & Co. spray, Mr. John Sherman; bouquet, Mr. and Mrs. Marcus Fetterly; pillow, the family; spray Mrs. Phil Fetterly and daughter, London; wreath, Willys Overland Co. of Toronto; spray, Newcombe Piano Co.; spray, Mr. and Mrs. J. E. Hart of Cornwall; wreath from the Ford Co.

Among relatives and friends who were present at the funeral were Mr. and Mrs. Phil Fetterly and daughter, London; Mr. Adam Fetterly and family, Cornwall; Mr. Chas. Lount and family, Cornwall; Mrs. Wm. Brooks and Mr. W. Merkley, Ottawa; Mr. and Mrs. Bark, er Antwerp, N.Y.; Mr. and Mrs. Gossman, Gouverneur; Mr. T. R. Price, Montreal; Mr. and Mrs. C. Flora, Winchester; Mrs. G. Mouthrop, Gouverneur; Mrs. Kelly, Canton N.Y.; Mrs. H. Sheridan, Canton, N.Y.; Mr. and Mrs. M. Barkley and family, Waddington; Mrs. A. Mouthrop, Waddington; Mr. and Mrs. Ed. Warner, Cornwall; Mr. and Mrs. J. Anderson, Cornwall; Mr. and Mrs. Ed. Hart of Cornwall; Mr. and Mrs. James Bato, Mr. and Mrs. James Payne, and Mr. and Mrs. Albert Payne, Duxton.

### LUTHERAN SERVICES

Sept. 23, Harvest Services will be conducted at St. Pauls Church at 10 a.m., and at St. Johns Church at 2.30 pm. The members will bring their fruits, vegetables and flowers to the church on Saturday afternoon to be arranged in the chancel.

There will be no evening services at St. Pauls because of the meeting of the Eastern Conference at St. Peters Church, Dunbar.

On Wednesday and Thursday, Sept. 26th and 27th, the Lutheran Womens Missionary Society of Central Canada will meet in 15th Annual convention in St. Pauls Church, Morrisburg.

The sessions will open Wednesday morning at 10 o'clock, when the Sacrament of the Altar will be administered.

The afternoon session will be devoted to the transaction of business and the reception of delegates and of sister societies.

In the evening, 7.00, Miss J. Thomas, a returned missionary, will have charge, and will lecture on her work in the mission field in India. Her lecture will be illustrated with a very excellent selection of lantern slides. She will give us an intimate account of the life and work of our missionaries in India.

The session opens again Thursday at 9 a.m., after a brief devotional service, conducted by the Rev. E. Maeder, Dunbar, business will again be transacted. The Rev. J. F. Klachen, Stratford, Ont. will be the speaker at this session.

The afternoon session will also be devoted to the transaction of business. The newly elected officers will be installed by the Rev. J. Maurer, D.D., Kitchener. Papers, short and pointed, will be read at the various services by Mrs. Olsen, Ottawa, Mrs. Hayange, Morrisburg, and Mrs. J. M. Lang, Waterloo.

The evening of Thursday will be

### OUR MEMORIAL NUMBER

Dr. Miles Brown, Chesterville, writes his appreciation of our Memorial Number, published last week, as follows:

"I wish to compliment you on the fine manner in which you handled the Unveiling of the Monument. It was a noble subject, nobly treated. Kindly send me six copies."

Space does not permit the reproduction of all the complimentary letters we are receiving, but all are much appreciated.

More than 300 extra copies have been sold to date, and we still have a limited number left which we would like to send to the boys whose names appear in the Roll of Honor. Any one having the address of any of these boys, kindly hand it in to this office, and a copy will be sent to them free of charge.

### COMMANDS RESPECT AND ATTENTION

That the people of Morrisburg and Vicinity are receiving due credit for the unveiling of the fine Memorial to their Soldiers, is evident from the many complimentary comments through the daily and weekly press, and just what the Department of Public Works are prepared to do by way of looking after their plot and monument, should be ascertained without any further delay. A work of this kind commands due respect and attention, and should there be any delay in performing this duty, on the part of the Department, there are, surely, volunteers enough left in Morrisburg and Vicinity, after the war, to take up the pleasant task of making this the most beautiful plot in town. The only thing lacking is organization.

### SERVE CANADIAN PIKE AT SURPRISE FOR CITY BAND HERE LAST NIGHT

(Alliance City, Ohio, Reporter)  
Pike caught in Canadian streams was the piece de resistance at a surprise fish fry for the members of the Alliance City band Tuesday night in the band room.

Mr. and Mrs. Charles Howson returned from a vacation trip to Morrisburg, Canada with a load of fish. Dire warnings had been heaped upon their heads on the eve of their departure if they failed to produce some tangible results of their trip upon their return. They produced the goods.

When the band reported last night for its regular practice, a group of ladies, including Mrs. Howson and her daughter Mrs. Archie Westover, Mrs. Edward Schultz, Mrs. Ira Latimer and her daughter, Miss Iva, was ready with a delicious fry of fish.

Prof. Emil Rinkendorf, in behalf of the band, called the band to its feet and three loud cheers rang out for the ladies. Forty-five guests, including several members of the Bergholz band, were present. Several musical numbers were rendered after the feast.

### BE PREPARED

The warning from "Jack Frost" during the past week was sufficient to direct our attention to the frosty, dark evenings which will soon be with us again.

The individual citizen will naturally make such provisions as are within his reach, but much assistance can be derived, in a collective sense, through the co-operation of the town council. One thought which naturally suggests itself, after the difficulties experienced last winter, is that of providing power and light. We understand that some 30 or 40 H.P. have, since last Spring, been added to the already overloaded generator, and the citizens would appreciate a statement from the council, as to what arrangements are being made to provide light for domestic use and power for commercial purposes.

A closer co-operation between the Council and Citizens would result in mutual benefit, and now is the time when co-operation would be most effective.

### NOTICE

Civil Service Examinations for Government positions as Stenographers, Typists, Clerks, etc., will be held in the rooms of The Brockville Business College, Brockville, Nov. 6th and 7th. Preparatory classes now forming. Write Principal, W. T. ROGERS for full information.

in charge of the Rev. Henry C. Kraft, pastor local. The W. M. S., and the W. W. S. of St. Pauls Church will provide the entertainment for our guests in the form of a missionary pageant entitled "The Way." "The Way" is a Japanese pageant, to be given in the interest of the Japanese Girls' School which the Womens Missionary Societies of our Lutheran Church are erecting and financing in Japan.

We extend a cordial invitation to all our friends to attend any or all the services. Come and see what the Women of the Lutheran Church are doing for the extension of Christ's Kingdom upon earth.

## Have You Seen The New 1924 McLaughlin-Buick?

NEW in every particular—A new and more powerful motor—New and more beautiful appearance. New and increased refinements; equipped with proved McLaughlin-Buick four-wheel brakes and many other features.

But as always, a McLaughlin-Buick with all the traditional dependability that has made McLaughlin-Buick, "Canada's Standard Car."

The 1924 McLaughlin-Buicks—fourteen models in all—provide, both Master-Fours and Master-Sixes, for every kind of motoring, with improvements that make them the most advanced motor cars yet offered.

Until you have seen and ridden in a 1924 McLaughlin-Buick you cannot realize how these cars have revolutionized motoring.

Come in and try them.

There are 14 McLaughlin-Buick Models to Choose From

### CHAPTER X.

#### KIRBY ASKS A DIRECT QUESTION.

The story of the Cunningham mystery, as it was already being called, filled the early editions of the afternoon papers. The "Times" had the scoop of the day. It was a story signed by Chuck Ellis, who had seen the alleged murderer climb down by a fire escape from the window of Cunningham's bedroom and had actually talked with the man as he emerged from the alley. His description of the suspect tallied fairly closely with that of Mrs. Hull, but it corrected errors in regard to weight, age, and color of clothes.

As Kirby walked to the Equitable Building to keep his appointment with his cousins, it would not have surprised him if at any moment an officer had touched him on the shoulder and told him he was under arrest.

Entering the office of the oil broker, where the two brothers were waiting for him, Kirby had a sense of an interrupted conversation. They had been talking about him, he guessed. The atmosphere was electric.

James spoke quickly, to bridge any embarrassment. "This is a dreadful thing about Uncle James. I've never been so shocked before in my life. The crime was absolutely fiendish."

Kirby nodded. "Or else the deed of some insane person. Men in their right senses don't do such things."

"No," agreed James. "Murder's one thing. Such coldblooded devilry is quite another. There may be insanity connected with it. But one thing is sure. I'll not rest till the villain's run to earth and punished."

His eyes met those of his cousin. They were cold and bleak.

"Do you think I did it?" asked Kirby quietly.

The directness of the question took James aback. After the fraction of a second's hesitation he spoke. "If I did I wouldn't be going to lunch with you."

Jack cut in. Excitement had banished his usual almost insolent indifference. His dark eyes burned with a consuming fire. "Let's put our cards on the table. We think you're the man the police are looking for—the one described in the papers."

"What makes you think that?"

"You told us you were going to see him, as soon as he got back from the Springs. The description fits you to a T. You can't get away with an alibi so far as I'm concerned."

"All right," said the rough rider, his low, even voice untroubled by excitement. "If I can't, I can't. We'll say I'm the man who came down the fire escape. What then?"

James was watching his cousin steadily. The pupils of his eyes narrowed. He took the answer out of his brother's mouth. "Then we think you probably know something about this mystery that you'll want to tell us. You must have been on the spot very soon after the murderer escaped. Perhaps you saw him."

Kirby told the story of his night's adventure, omitting any reference whatever to Wild Rose or to anybody else in the apartment when he entered.

After he had finished, James made his comment. "You've been very frank, Kirby. I accept your story. A guilty man would have denied being in the apartment, or he would have left town and disappeared."

The range rider smiled sardonically. "I'm not so sure of that. You've got

the goods on me. I can't deny I'm the man the police are lookin' for. Mrs. Hull would identify me. So would this reporter Ellis. All you would have to do would be to hand my name to the nearest officer. An' I can't run away without confessin' guilt. Even if I had killed Uncle James, I couldn't do much except tell some story like the one I've told you."

"It wouldn't go far in a courtroom," Jack said.

"Not far," admitted Kirby. "By the way, you haven't expressed an opinion, Jack. Do you think I shot Uncle James?"

Jack looked at him, almost sullenly, and looked away. He poked at the corner of the desk with the ferrule of his cane. "I don't know who shot him. You had quarreled with him, and you went to have another row with him. A cop told me that some one who knew how to tie ropes fastened the knots around his arms and throat. You beat it from the room by the fire escape. A jury would hang you high as Haman on that evidence. Damn it, there's a bad bruise on your chin wasn't there when we saw you yesterday. For all I know he may have done it before you put him out."

"I struck against a corner in the darkness," Kirby said.

"That's what you say. You've got to explain it somehow. I think your story's fishy, if you ask me."

"Then you'd better call up the police," suggested Lane.

"I didn't say I was going to call the cops," retorted Jack sulkily.

James looked at his cousin. Kirby Lane was strong. You could not deny his strength, audacious yet patient. He was a forty-horsepower man with the smile of a boy. Moreover, his face was a certificate of manhood. It was a recommendation more effective than words.

"I think you're wrong, Jack," the older brother said. "Kirby had no more to do with this than I had."

"Thanks," Kirby nodded.

"Let's investigate this man Hull. What Kirby says fits in with what you saw a couple of evenings ago, Jack. I'm assuming he's the same man Uncle flung downstairs. Uncle told you he was a blackmailer. There's one lead. Let's follow it."

Reluctantly Kirby broached one angle of the subject that must be faced. "What about this girl in Uncle's office—the one in trouble? Are we going to bring her into this?"

There was a moment's silence. Jack's black eyes slid from Lane to his brother. It struck Kirby that he was waiting tensely for the decision of James, though the reason for his anxiety was not apparent.

James gave the matter consideration, then spoke judiciously. "Better leave her out of it. No need to smirch Uncle's reputation unless it's absolutely necessary. We don't want the newspapers gloating over any more scandals than they need."

The cattleman breathed freer. He had an odd feeling that Jack, too, was relieved. Had the young man, after all, a warmer feeling for his dead uncle's reputation than he had given him credit for?

As the three cousins stepped out of the Equitable Building to Stout Street a newsboy was calling an extra.

"A-I-I 'bout Cunn'nham myst'ry. Huxtry! Huxtry!"

Kirby bought a paper. A streamer headline in red flashed at him.

HORIKAWA, VALET OF CUNNINGHAM, DISAPPEARS.

The lead to the story below was to effect that Cunningham had drawn two thousand dollars in large bills from the bank the day of his death. Horikawa could not be found, and the police had a theory that he had killed and robbed his master for this money.

### CHAPTER XI.

#### THE CORONER'S INQUEST.

If Kirby had been playing his own hand only he would have gone to the police and told them he was the man who had been seen leaving the Paradox Apartments by the fire escape. But he could not do this without running the risk of implicating Wild Rose. Awkward questions would be fired at him that he could not answer. He decided not to run away from arrest, but not to surrender himself. If the police rounded him up, he could not help it; if they did not, so much the better.

He made two more attempts to see Wild Rose during the day, but he could not find her at home. When he at last did see her it was at the inquest, where he had gone to learn all that he could of the circumstances surrounding the murder.

There was a risk in attending. He recognized that. But he was moved by an imperative urge to find out all that was possible of the affair. The force that drove him was the need in his heart to exonerate his friend. Though he recognized the weight of

### LIFE.

They told me that Life could be just what I made it—  
Life could be fashioned and worn like a gown;  
I, the Designer; mine the decision  
Whether to wear it with bonnet or crown.

And so I selected the prettiest pattern—  
Life should be made of the rosiest hue—  
Something unique, and a bit out of fashion,  
One that perhaps would be chosen by few.

But other folks came and they leaned o'er my shoulder;  
Somebody questioned the ultimate cost;  
Somebody tangled the thread I was using;  
One day I found that my scissors were lost.

And Somebody claimed the material faded;  
Somebody said I'd be tired e'er 'twas worn;  
Somebody's fingers, too pointed and spiteful,  
Snatched at the cloth, and I saw it was torn.

Oh! Somebody tried to do all of the sewing;  
Wanting always to advise or condone.  
Here is my Life, the product of many;  
Where is that gown I could fashion—  
—alone?

—Nan Terrell Reed.

### MISUNDERSTOOD CABBAGE.

If properly prepared, cabbage can be as delicate and tempting a vegetable as one could desire. Too many housewives are of the opinion that, because cabbage is somewhat difficult of digestion, it must be given long hours of cooking; therefore it is placed over the fire in a closely covered saucepan and boiled some one, two or three hours, according to the tradition prevailing in their families; and as a result it comes to the table tinted a pale mahogany shade, smelling to heaven, and almost poisonous.

No one would dream of treating the delicate cauliflower so rudely, and yet it is first cousin to the cabbage; and the very aristocratic Brussels sprout is another relation, highly prized by epicures and all discriminating persons. Kale is another member of the cabbage family, and likewise that very good and useful vegetable, kohlrabi; and every one of these satisfactory vegetables is cooked in just the manner that is best suited to it, every one is thoroughly understood and appreciated; only the poor cabbage alone is mishandled.

I know that I shall shatter ideals cruelly when I say that no cabbage is fit to eat which has been cooked for more than thirty minutes; twenty-five is ample, but for tradition's sake I am willing to admit the other five. And no cabbage which is cooked in a covered kettle should ever find its way to the table of right-thinking persons. But suppose I tell you what the correct method for cooking this vegetable is, and then explain the why and wherefores later.

Select your cabbage first, and let it be a firm, close head; then cut it into quarters and trim away the outer leaves and the core. Next wash it thoroughly through two waters, and let it drain until all the water has left it. Meantime place a big saucepan on the fire—one which will hold a gallon of water—for cabbage must be cooked in a large quantity of water, never in just enough to cover it. Bring the water to the boiling point—it must be bubbling merrily all over its surface before it is ready for the cabbage—when it is in rapid motion plunge

evidence against her, he could not believe her guilty. Under tremendous provocation it might be in character for her to have shot his uncle in self-defense or while in extreme anger. But all his knowledge of her cried out that she could never have chloroformed him, tied him up, then taken his life while he was helpless. She was too fine and loyal to her code, too good a sportsman, far too tender-hearted, for such a thing.

Yet the evidence assailed this conviction of his soul. If the Wild Rose in the dingy court-room had been his friend of the outdoor spaces, he would have rejected as absurd the possibility that she had killed his uncle. But his heart sank when he looked at this wan-faced woman who came late and slipped inconspicuously into a back seat, whose eyes avoided his, who was so plainly keyed up to a tremendously high pitch. She was dressed in a dark-blue tailored serge and a black sailor hat, beneath the rim of which the shadows on her face were dark.

The room was jammed with people. Every aisle was packed and hundreds were turned away. In the audience was a scattering of fashionably dressed women, for it was possible the inquest might develop a sensation.

The coroner was a short, fat, little man with a highly developed sense of his importance. It was his hour, and he made the most of it. His methods were his own. The young assistant district attorney lounging by the table played second fiddle.

(To be continued.)

Minard's Liniment, fo. Dandruff.

## Woman of To-Day

### LIFE.

They told me that Life could be just what I made it—  
Life could be fashioned and worn like a gown;  
I, the Designer; mine the decision  
Whether to wear it with bonnet or crown.

And so I selected the prettiest pattern—

### MISUNDERSTOOD CABBAGE.

If properly prepared, cabbage can be as delicate and tempting a vegetable as one could desire. Too many housewives are of the opinion that, because cabbage is somewhat difficult of digestion, it must be given long hours of cooking; therefore it is placed over the fire in a closely covered saucepan and boiled some one, two or three hours, according to the tradition prevailing in their families; and as a result it comes to the table tinted a pale mahogany shade, smelling to heaven, and almost poisonous.

No one would dream of treating the delicate cauliflower so rudely, and yet it is first cousin to the cabbage; and the very aristocratic Brussels sprout is another relation, highly prized by epicures and all discriminating persons. Kale is another member of the cabbage family, and likewise that very good and useful vegetable, kohlrabi; and every one of these satisfactory vegetables is cooked in just the manner that is best suited to it, every one is thoroughly understood and appreciated; only the poor cabbage alone is mishandled.

I know that I shall shatter ideals cruelly when I say that no cabbage is fit to eat which has been cooked for more than thirty minutes; twenty-five is ample, but for tradition's sake I am willing to admit the other five. And no cabbage which is cooked in a covered kettle should ever find its way to the table of right-thinking persons. But suppose I tell you what the correct method for cooking this vegetable is, and then explain the why and wherefores later.

Select your cabbage first, and let it be a firm, close head; then cut it into quarters and trim away the outer leaves and the core. Next wash it thoroughly through two waters, and let it drain until all the water has left it. Meantime place a big saucepan on the fire—one which will hold a gallon of water—for cabbage must be cooked in a large quantity of water, never in just enough to cover it. Bring the water to the boiling point—it must be bubbling merrily all over its surface before it is ready for the cabbage—when it is in rapid motion plunge

evidence against her, he could not believe her guilty. Under tremendous provocation it might be in character for her to have shot his uncle in self-defense or while in extreme anger. But all his knowledge of her cried out that she could never have chloroformed him, tied him up, then taken his life while he was helpless. She was too fine and loyal to her code, too good a sportsman, far too tender-hearted, for such a thing.

Yet the evidence assailed this conviction of his soul. If the Wild Rose in the dingy court-room had been his friend of the outdoor spaces, he would have rejected as absurd the possibility that she had killed his uncle. But his heart sank when he looked at this wan-faced woman who came late and slipped inconspicuously into a back seat, whose eyes avoided his, who was so plainly keyed up to a tremendously high pitch. She was dressed in a dark-blue tailored serge and a black sailor hat, beneath the rim of which the shadows on her face were dark.

The room was jammed with people. Every aisle was packed and hundreds were turned away. In the audience was a scattering of fashionably dressed women, for it was possible the inquest might develop a sensation.

The coroner was a short, fat, little man with a highly developed sense of his importance. It was his hour, and he made the most of it. His methods were his own. The young assistant district attorney lounging by the table played second fiddle.

(To be continued.)

Minard's Liniment, fo. Dandruff.

the cabbage into it, and add also a tablespoonful of salt and half a teaspoonful of soda. Cover the saucepan for a few moments only—just long enough to permit the water quickly to boil again; then remove the cover and let the cabbage boil swiftly and constantly for just twenty-five or thirty minutes—no longer if you value your digestion.

Pour the cabbage into the colander and drain it thoroughly, pressing it with a fork or spoon to expel the water; then it is ready to dress in any way that you may desire. It should be like marrow, tender, green and white, and as delicate as cauliflower.

Cabbage contains sulphur, mineral salts and much water, but it is the sulphur which makes it both a very wholesome vegetable and also a very easily misunderstood one. All green vegetables require placing in very hot—boiling rather—water; at the beginning of their cooking salt is added to preserve both their color and their flavor, and cabbage is like the rest in these essentials. But it is even more important that the water for its boiling be actually at 212 degrees, for the sulphur in the vegetable, if released slowly, as it would be in tepid or merely hot water, will become concentrated, as it were, and after the water has really reached the boiling stage it will be ready to boil back into the cabbage again.

Quick boiling is the secret of cooking properly all succulent vegetables; stewing or simmering will produce faded or discolored wilted products. The sulphur in the cabbage also necessitates the large kettle, the abundance of water and the uncovered cooking, for the cabbage must have room—plenty of it—to throw off the sulphur, and plenty of water also. The steam produced by the rapid boiling must be given an opportunity to disseminate, then the sulphur fumes will never become concentrated, nor will they scent the house in the unpleasant manner they have in the usual form of cabbage cookery. The soda is added to the cabbage to neutralize the gases formed during cooking, just as one sometimes adds it to beans when boiling for the bake pot.

However, now the cabbage is cooked and drained, and the house is free from its sulphurous odor, how is it to be served? Many persons answer this question by simply adding butter and vinegar to it, but I like it best in a white sauce. So to dress it, place it back in the saucepan after it is thoroughly drained, and pour over it about one cupful of milk. If it is a very small cabbage half a cupful of milk will be ample. Bring the milk to the boiling point, add one-quarter teaspoonful of salt and a dash of pepper, then stir in carefully a tablespoonful of butter rubbed to a paste with one of flour. Simmer until the sauce has thickened about the cabbage, then turn it into a vegetable dish and sprinkle with paprika.

### A JAUNTY CAPE FOR A "LITTLE MISS"

4476. Practical and all together comfortable in this design. The fronts are double-breasted, and rolled to form revers that meet a broad collar in notches. The Pattern is good for any of the cloakings now in vogue, also for fur, velvet and other pile fabrics.

The Pattern is cut in 5 Sizes: 4, 6, 8, 10, and 12 years. A 10-year size requires 2 1/2 yards of 40-inch material. Pattern mailed to any address on receipt of 15c in silver or stamps, by the Wilson Publishing Co., 73 West Adelaide St., Toronto. Allow two weeks for receipt of pattern.

### PASS IT ON.

To work buttonholes smoothly and quickly, mark the size of the button-hole on the material with a soft pencil. After it is worked, cut open with a sharp penknife. This is especially helpful in working on serge or material that ravel easily.—C. D.

When baking cake grease your pans and then flour good. This will prevent the cake from sticking and is good for making cup cakes.—M. M.

Another way to keep potatoes or vegetables warm, is to place towel over top of vessel and put cover on. Towel absorbs moisture and cover keeps the contents hot and fluffy.

Red or purple cabbage makes a delicious salad. Use a sour cream dressing, with the usual mustard, salt, pep-

per and vinegar mixture, add a dash of sugar and paprika.—Mrs. E. McD.

For burns use equal parts kerosene and sweet oil with all the camphor it will cut. If a bottle of this is kept in the house, much suffering will be saved from burns.—M. B. M.

Ill-made or badly hung curtains are as fatal to the appearance of a house as a mutilated or distorted face to the appearance of a person.

New electrical conveniences are being contrived by inventors as a substitute for manual labor in the routine home duties.

### Boiling Pins in Beer.

It was not until 1840 that solid-headed pins came into general use. About that time an American named Wright patented a machine which could turn out 160 pins a minute.

In the manufacture of modern pins brass wire is used. It is drawn to the required length and pointed by means of a revolving cutter, while the heads are shaped by a die. At this stage the pins are boiled in weak beer to remove grease and other matter. Then they are given a bright silvery appearance by coating them with tin, or "coloring," as it is called.

The most costly pins are those made of very fine hair-like wire; these are used by insect collectors.

In the middle ages pins were made by a very slow and tedious method, each pin passing through sixteen different hands before it was finished! The head, which consisted of a small piece of wire, was made separately and secured to the shank by compression.

The Saxons made their pins chiefly of bronze and bone; they were curiously fashioned, some being in the form of a horse-shoe, while others resembled a cross.

Specimens of these ancient pins have been unearthed from the prehistoric cave dwellings of Switzerland. In length some of them compare favorably with our modern hat-pins! They are wonderfully carved with ornamental heads, some resembling animals, while others, with round amber heads, look like modern scarf-pins.

During recent excavations at Pompeii, safety-pins were discovered resembling those in use at the present time.

The increased cost of fine teas has tempted some to try cheap, inferior teas to their sorrow. It is real economy to use "SALADA" since it yields to the pound more cups of a satisfying, delicious and healthy has such a fresh, delicious flavor.

### Following Directions.

A doctor brought a dyspeptic farmer a big brown pill.

"I want you to try this pill at bedtime," he said. "It's a new treatment, and if you can retain it on your stomach it ought to cure you."

The next day the doctor called again. "Did you manage to retain the pill on your stomach?" he asked, eagerly.

"Well, the pill was all right so long as I kept awake," said the farmer, "but every time I fell asleep it rolled off."

He—"You seem to think money grows on trees. What kind of trees does it grow on, I'd like to know?"

She—"On some family trees, apparently."

Minard's Liniment Heals Cuts.

Plan Miscarried.

Voice at the other end—"Is that you, darling?"

Gouty Pater—"Er—yes."

Voice—"Oh, good! How's the old boy's gout, my pet? I mean to say, if he still has it, I'll come round to-night, but if he hasn't, we'll go out to some show!"

Lord Jolcy, known as England's "coal king," started life as an office boy and won his way to a peerage and a place on the list of England's millionaires by sheer hard work and business brains. Two pit ponies and two miners' picks are enshrined on his coat of arms.

## Dominion News in Brief

St. John's Nfld.—The Notre Dame Herring Oil Co. has recently been formed to extract the oil from herring and process the residue for conversion into fish meal and fertilizer. It is capitalized at \$100,000, and will be established at Twillingate which is a herring centre. The plant will cost \$55,000 and will manufacture between 70,000 and 100,000 tons in barrels of herring oil yearly. The oil is used in the manufacture of soap and other commercial products and profitable markets can be found for it and the fertilizer and fish meal in Boston, Montreal and Liverpool.

Hallifax, N.S.—A heavy hay crop is being harvested in Nova Scotia. Roots are making good progress. Apple prospects continue favorable. Pasture is exceptionally good. Record all round crop expected. New Brunswick's hay crop is somewhat short. Roots rather below average, but improving rapidly. General conditions in Prince Edward Island are satisfactory. Excellent hay crop of good quality. Roots making good progress.

Fredericton, N.B.—A meeting of two hundred potato growers from the various districts of the province here recently resulted in the formation of a New Brunswick Certified Seed Growers' Association for the promotion of the industry of growing certified seed potatoes in this province. Last year 3,135 acres of seed potatoes were planted, with 1,248 acres passing the final inspection and reports show there are 2,794 entered this year. These figures place New Brunswick in the front rank of the provinces of Canada in the certified seed potato growing industry.

Montreal, Que.—Furs valued at \$2,000,000, and totalling in all over 750,000 skins, will be offered for sale by the Canadian Fur Auction Sales Co. at their September sale. Canadian

furs form the greater part of the merchandise which has been received, a large percentage of Labrador, Peace River and Alaska furs being noticeable in the list.

Ottawa, Ont.—Canadian flours, because of their quality, are offering effective competition on the markets of the Dominican Republic, according to a report submitted to the Dept. of Trade and Commerce by G. R. Stevens, Canadian Trade Com's'r. in Kingston, Jamaica. The need of advertising and exploiting a trade mark in this business is stressed by Mr. Stevens in his report.

Winnipeg, Man.—Consideration of a scheme for retaining in Canada the 7,000 harvesters brought out from the British Isles to help in the harvest fields will be one of the principal subjects for discussion at a meeting of the directors of the Canada Colonization Association. This is the first full meeting of the board of directors since the re-organization two months ago.

Regina, Sask.—A trial shipment of several thousand boxes of Alberta and Saskatchewan butter will be exported to the United Kingdom shortly by way of British Columbia and the Panama Canal. If the trial shipment is satisfactory, it is said, the transportation of dairy produce from the Prairies through British Columbia will develop into large proportions.

Edmonton, Alta.—Since the Lesser Slave Lake was opened for fishing July 15, thirty cars have moved to Chicago and one to Calgary. Local demands here have taken care of small shipments, from the various lakes in the near vicinity.

Vancouver, B.C.—The August export of lumber from all parts of the province by deep sea routes will total thirty-three million feet, according to estimates of the Associated Timber Exporters.

PRINCE CHARMING REACHES QUEBEC

Out of respect to the request of the Prince of Wales, who is travelling as Baron Renfrew, no crowds thronged the streets of Quebec when he arrived on Wednesday. He disembarked nearly three hours after the Empress of France docked, and the photographer caught him as he descended the gangway, preceded by the Chief of the Quebec staff, who has been welcoming him to Quebec, and accompanied by the Captain of the Empress of France, Commander Edward Griffiths, R.N.R.

## VAST EMIGRATION FLOW FROM SCOTLAND

60,000 Have Left for Canada and U.S. Since Year Began.

London, Sept. 14.—The flow of emigration from Scotland continues. During the next two weeks the exodus will be unparalleled for the period.

A dozen ocean liners are due to sail from the Clyde in the two weeks, carrying over 10,000 passengers, nearly all of the emigrant class. Canada will receive the majority of the emigrants, but a large proportion will go to the United States.

It is estimated that since the beginning of this year 60,000 emigrants have left Scotland for Canada and the United States.

## Five Killed in England in Air Mail Plane Crash

London, Sept. 14.—Five persons were killed, including the pilot and mechanic, by the crashing of the Manchester-London air mail plane near Evinghoe Beacon, on the Hertfordshire-Bedfordshire border, late today.

## LEAPS TO DEATH FROM 15TH STORY

Japanese Clerk, in Despair Over Loss of Family, Commits Suicide.

New York, Sept. 14.—Tokunoske Inoue, member of a family of high standing in Japan, driven to despair by the almost certain belief that his wife and children had lost their lives in the earthquake and fire horrors which overwhelmed Tokio, where they lived, jumped to his death on the Broadway sidewalk from the 15th floor of the American Express Building at 65 Broadway, at a little before 8.30 o'clock to-day.

## First Snowstorm of Year in Portage District

A despatch from Portage La Prairie says:—Reports received here Thursday from points south of the Assiniboine River in the Portage district, record the first snowstorm of the season. At Oakville and other points south of the river it began to snow during the night and when daylight came it showed to be about two inches on the ground, a real wintry day.

## The Week's Markets

TORONTO.

MONTREAL.

Calves remained strong at \$7 to \$9 for veals; grassers were from \$3 up; lambs, good, \$10.50; sheep, \$4 to \$5. Hogs, selects, \$11; do, other kinds, \$10; light hogs, \$9 to \$10.  
Cheese, finest easterns, 23½ to 23¾c. Butter, choicest creamery, 34½ to 34¾c. Eggs, selected, 40c. Potatoes, per bag, car lots, \$1.25.

## Snow at Sault the Earliest Since the Fall of 1900

A despatch from Sault Ste. Marie, Ont., says:—Snow Friday morning was the earliest to arrive in the Sault of any fall since 1890, when, on the same date, September 13, a trace of snow was recorded. The early arrival of snow was heralded by hail and sleet. Hail was reported from the section just east of the Sault, and right in the city there was sleet both in the afternoon and at night. The sleet turned to snow, though it did not whiten the ground at all.

The pounding waves on Lake Superior during the storm did not cause any serious damage to the ships, but the waves swept over the decks of some of the smaller freighters.

A despatch from Cobalt says:—The first snow of the season fell in Cobalt, Swastika, and other northern points Friday morning. It did not last.

## Imperial Appeal to Japanese Nation

A despatch from Osaka says:—An Imperial rescript dealing with the reconstruction of the national capital has been promulgated. After dwelling on the disastrous nature of the earthquake which was characterized as an unprecedented national calamity, the rescript appeals to the nation for a supreme effort and drastic measures to restore confidence and also emphasizes the necessity not only for restoring, but for further developing Tokio, which it says is the political and economical centre of the country and the main source of national civilization.

Tokio, says the rescript, remains the national capital, although its outward structure is destroyed. It further states that a special organization has been established for the revival of the capital and concludes by calling for a united effort by the Government and the people for the relief of sufferers, the suppression of disquieting rumors and the revival of the national strength.

The King of Spain.

His country is in revolt, not against the monarchy, but against the government, and observers expect a Spanish Mussolini to emerge.

## JAPANESE RELIEF FUNDS ARE LARGE

Washington Reports U. S. \$5,000,000 Objective Exceeded.

A despatch from Ottawa says:—The Japanese consul has advised Hon. T. A. Low, Minister of Trade and Commerce, who has charge of Japanese relief measures in Canada, that the districts suffering from the recent catastrophe need lumber and other building materials, as well as clothing and blankets. They are not asking for foodstuffs.

The minister said that further quantities of the materials in demand would be shipped to Japan, on the part of the Canadian Government, just as quickly as shipping facilities became available.

A despatch from Washington says:—Japanese relief funds are far beyond the \$5,000,000 goal. The Red Cross reported \$5,663,100 in hand Thursday night, and hundreds of thousands more in prospect.

The Red Cross bought 1,000 more tons of corrugated iron for prompt shipment to meet the housing problem. Purchase was also made of 300,000 additional suits of underwear, making a total so far of 500,000.

Relief supplies of all kinds, including much heating apparatus, are moving rapidly. Advice received by the Red Cross from Japan request all relief ships to go to Yokohama, indicating that harbor is not as disrupted as first reported.

## Nurses and Doctors Poisoned by Food

A despatch from Detroit says:—A thorough investigation has been ordered by Dr. Thomas K. Gruber, superintendent of the Receiving Hospital, to determine the cause of an illness from which 25 nurses and six doctors in the hospital have been suffering. It is believed tainted food crept into the menu, despite stringent precautions in the institution.

All the patients, with the exception of one doctor and six nurses, partook of a chicken dinner in the dining-room Sunday. The chickens were killed Thursday, and although they are supposed to have been continuously on ice until they went to the cook's hands, Dr. Gruber thinks they may have spoiled.

"No person can guard absolutely against bad food," said Dr. Gruber. "We have done everything we could, but apparently it was not enough in this case."

Sought Dempsey's Title

Louis Firpo, the Argentine boxer, who on Friday made an attempt to wrest the heavyweight championship from Jack Dempsey. Firpo knocked Dempsey through the ropes, and all but succeeded in wresting the championship from the great pugilist.

DEMPSEY DEFENDS HIS TITLE

In New York, on Friday, Jack Dempsey, the heavyweight champion of the world, defended his title against Firpo, the Argentine fighter.

## MOVEMENT OF GRAIN FROM WEST BEGUN

But the Heavier Producing Districts Have Hardly Started Shipping.

A despatch from Winnipeg says:—The annual movement of grain from the prairies to the head of the lakes is well under way, but the heavier producing sections have hardly commenced wheat shipments yet. Total inspections of grain from the opening of the crop year, Sept. 1, were 4,402 cars, as against 9,954 cars at the same date last year. Of the total 2,072 cars came via Canadian National and 2,330 by the Canadian Pacific Railway. Loadings were considerably lower to date than at the same period of 1922, and it will be some time before the peak of the movement is reached. In Edmonton district, from which it has been estimated there will be a total wheat tonnage in the neighborhood of half a million bushels, the harvesting of grain was delayed by unfavorable weather, so that only some 11,000 bushels have been loaded.

The car situation is very favorable, and on the Canadian National Railways it is stated to be better this year than at any previous time.

## PRINCE OF WALES SEEKS REST IN CANADA

Is to Pay Brief Visit to Lord Byng, but Attend No Public Functions.

A despatch from Quebec says:—The Prince of Wales, traveling as Lord Renfrew, arrived here Thursday morning on the Canadian Pacific liner Empress of France. On landing, he motored to the Chateau Frontenac, where he remained overnight and left Friday morning on a special train for his ranch in Alberta, where he is to stay for a month, tasting the simple life.

Officers of the liner said that apparently the Prince had thoroughly enjoyed himself on the trip over. He had mixed quite freely with the passengers and had taken part in all the dances. On Sunday he read the lesson at the service. His genial manner made it an easy task for everybody on the ship to regard him simply as an ordinary traveler.

## Empire Exhibition Buildings Going Up

A despatch from London says:—At Wembley Park, a short distance out of London, an army of men is toiling over a vast timber and metal strewn area constructing innumerable buildings for the great Empire exhibition next year.

Fully 2,000 men already are hard at work on the grounds, and by next winter that many more will be employed. The contractors are ahead of schedule, and at the present rate it is expected that all the buildings will be finished early in 1924.

The Canadian section will be one of the first completed, probably early in November. But it will be beaten by the Indian pavilion, which will be done a month before, and will constitute the exhibition's finest feature.

One of the most interesting sections will be that of West Africa. It will reproduce the conditions under which the natives live. Four compounds are being erected to house more than seventy picked craftsmen of the Yoruba, Fanti, Hausa and Mendi tribes.

An Energetic Visitor Coming.

David Lloyd George, the greatest of all statesmen of the war period, who reaches Canada on October 6, for a visit, accompanied by Mrs. Lloyd George, and their daughter, Megan. A new movement is developing in Britain, demanding his return to power. The above is a characteristic pose.

## ESKIMOS SENTENCED TO BE HANGED

Guilty of the Murder of Corp. Doak, R.C.M.P., and Otto Binder.

A despatch from Fort McMurray, Alta., says:—Two Eskimos, convicted of murder, were recently sentenced to death by Judge Lucien Dubuc at the Herschel Island detachment station of the Royal Canadian Mounted Police in the Arctic, according to passengers on the steamer Northland Echo, which arrived here from the North.

The Eskimos will be hanged on December 7. The executioner, who went North with the judicial party from Edmonton, remained at Herschel Island, but will possibly be brought to the "outside" by dog team via the Yukon and Alaska on the completion of his duties.

Another coast native, also accused of murder, was sentenced to three years' imprisonment.

Judge Dubuc and his party are coming down on the steamer Slave river, it was stated.

The murders for which the Eskimos were convicted were that of R.C.M.P. Corporal Doak and Otto Binder, Hudson Bay trading post factor.

## Silk Worth \$200,000,000 Lost in Disaster in Japan

Aboard Oriental Liner President Jefferson, Sept. 14.—Silk worth four hundred million yen (\$200,000,000), stored in the Yokohama Custom House, was destroyed in the disaster of September 1, according to Ray Gehr of the Wanger Company of New York, one of those who escaped.

## OUR CORRESPONDENTS

### WILLIAMSBURG

The Womens Institute intends having a booth at the School Fair on Wednesday September 26th. Donations of pies, apples, sandwiches, candy and pop-corn will be thankfully received by the Institute from the ladies of the community.

Hot Dogs! Hot Dogs! Where? At the Institute Booth at the School Fair.

Quite a number from here attended the funeral of the late Mrs. W. H. Fetterly in Morrisburg last Sunday.

Mr. and Mrs. W. S. Baker and son George of Archer spent last Sunday at Mr. Herman J. Whitteker's.

Mrs. M. Brown of Brockville spent a couple of days in our village renewing old acquaintances.

Mr. and Mrs. Ora McIntosh spent last Sunday with the latter's parents.

Mr. and Mrs. Frank Whittaker and family of Spruce Grove, Mr. John Merkley and Miss Ida Merkley of Williamsburg, were Sunday guests of Mr. W. W. Merkley, Iroquois.

Mr. and Mrs. Sam Allison, Mr. George Reddick of Mills, Mr. and Mrs. L. M. Brown, Brockville, and Mrs. H. M. Mouthrop of Antwerp, N.Y., were guests of Mr. and Mrs. J. D. Beckstead this week.

Miss Dora Merkley and Mr. Henry Merkley are spending a few days with their brother Mr. Forbie Merkley of Detroit, Michigan.

Mr. James McMillan was calling at Mr. Edgar McIntosh's on Tuesday of this week enroute from Kingston to his home in Avonmore.

Mr. Barney Weegar of the staff of the Molsons Bank is away on a couple of weeks' holidays.

Mrs. Strader McIntosh and baby spent last week end in Iroquois with her parents, Mr. and Mrs. Chas. E. Merkley.

Mr. and Mrs. Bert Whitteker and children spent last Sunday at the home of Mr. George Whittaker.

Mr. and Mrs. Bishop of Ottawa were recent guests at the home of Mr. George Strader.

Mr. and Mrs. Ezra Fetterly of Inkerman were week-end guests of Mr. and Mrs. Carl Fetterly.

Married—At the Lutheran Parsonage, Dunbar, on Wednesday, September 12th 1923, by Rev. Meander, Miss Lera Whittaker of Williamsburg, to Mr. Roy Steinburg of Dixons. The happy couple motored to Ottawa to spend their honeymoon. Their many friends extend best wishes.

Mr. and Mrs. Samuel Agire of Montreal are spending this week at the home of Mrs. Martha Weaver and other friends.

Mrs. Amber Miller, Mrs. Strader McIntosh and baby, Miss Florence McIntosh and Mr. Graham Casselman spent Thursday of this week in Newington.

### AULTSVILLE

Mr. Allen Morgan of Wales was the guest of his sister, Mrs. A. Pitts, last week.

Miss Annie McMillan of Honalula is visiting her aunt Mrs. Geo. Anderson Sr. 2nd concession.

Miss Addie Cramer spent a few days with Ottawa friends last week.

Mr. Thorold Lane who has been spending a couple of weeks in Iroquois returned home on Monday.

Messrs Geo. Markell, James and Arthur Morgan of Belleville, Russell Graham of Coteau Jct., Miss Eder Hanes of Iroquois, Rev. T. E. Bourke of Montreal, Mr. Harris Baker of Belleville, Don and Dale Wells of the M.C.I. spent the week end here.

Mr. Kenneth MacDonald of Toronto returned to the city Sunday night after spending a very pleasant holiday with friends here.

Mr. and Mrs. Dalton Loucks and son Jamie and daughter Jean, Messrs Arthur, Geo. and Wm. Loucks of Montreal, Mrs. Geo. Bouck of Cornwall spent the week-end here with Mr. and Mrs. S. T. Loucks who celebrated their 50th wedding anniversary on the 16th—Congratulations.

Mrs. Mable McCullough is visiting friends in Newington.

Mr. and Mrs. Ledger of Hamilton and Mr. and Mrs. Fisher and children of the same city are visiting at Mr. and Mrs. James Lague's.

Mrs. Sidney Dennison of Archer spent Wednesday here with her sister, Mrs. A. N. Dafeo.

Messrs D. Jarvis and F. F. Shaver expect to open their new store at Aultsville station next Saturday, Sept 22nd.

Mr. and Mrs. Evans and daughter Isabel, and Mrs. John-Cramer left on Wednesday by motor to spend their holidays at Kingston and Beaton, Ont.

Several from here attended the funeral of the late Mrs. W. H. Fetterly at Riverside on Sunday.

Quite a number from here attended the Central Canada Exhibition last week.

Mrs. John Dafeo, Station St., is spending a couple of weeks with Mrs. Martha Hickey, Ingleside, East Williamsburg.

Mrs. Allen Empey, East Front, is a patient in the Cornwall General Hospital.

Mrs. James Morgan and Mrs. H. Rupert spent a day last week at Morrisstown, N.Y.

Little Billy and Biddle Baker of Belleville, who has been spending a couple of weeks here with their grandparents, returned to their home on Sunday.

Thos. Shaver is spending a few days with Mr. and Mrs. M. S. Marcellus.

Mr. and Mrs. Grant Cassel have moved into Mr. A. N. Dafeo's residence lately occupied by Mrs. Ellen Cross.

Mr. Lloyd McRae of Coteau Jct., spent Sunday here with Mrs. McRae. Mr. and Mrs. Frank Carr, Grant, spent a day here this week with the latter's brother, Mr. Ross Beckstead and family.

Barkley-Hayes—At the Methodist Parsonage, Aultsville, Ont., on Wed. Sept. 20th, by the Rev. A. W. Stewart, Mr. Herbert Barclay, to Miss Eva Hayes, both of Farran's Point, Ont.

### CHURCH ROAD

A large number from here attended the funeral of the late Mrs. Fetterly at Morrisburg.

Dr. Little of Waterloo and W. H. Fetterly of Morrisburg were calling through here on Monday.

Miss Dorothy Willard of East Williamsburg spent a few days this week with Mrs. Milfred Swedfeger.

Mr. and Mrs. Harry Bowman of Glen Becker spent Thursday evening with Mr. and Mrs. R. J. Swedfeger.

Mr. and Mrs. Roy Styles attended the shower for Mr. and Mrs. Reddick at Glen Becker.

Messrs and Mesdames Wm. Dafeo and Murray Styles motored to Ottawa and took in the Fair Thursday.

Threshing is the order of the day. Mr. and Mrs. Jacob Swedfeger spent the evening last week with Mr. and Mrs. Archie Crowder.

Rev. and Mrs. H. C. Kraft and son Henry were calling on friends here recently.

### EAST WILLIAMSBURG

Mrs. George Weaver of Summers-town and Mrs. James VanAllen were recent visitors at Mrs. Martha Watson's.

Rev. and Mrs. Stewart and daughter were recent visitors at Mr. Walter Watson's.

Mr. and Mrs. Charlie Bates of Uncle Sam's Domain were visiting at Mr. Eddy VanAllen's recently.

Mr. and Mrs. C. Summers of Cardinal spent the week end at their home here.

Miss Gladys Stoddart has been spending a couple of weeks with friends at Montreal and Huntingdon Que.

Mr. and Mrs. Ernie Connaugh spent one day last week at the latter's home, Riverside.

Mr. and Mrs. Oscar Peterson and son, Oscar of Innisville spent Sunday at Mr. Samuel Wells'. Their daughter Mary accompanied them home.

Mrs. Martha Watson spent the past week at Finch and Avonmore and attended Ottawa Fair.

Quite a number from here attended Ottawa Fair last week.

Mr. and Mrs. Milton Carr of Grantley spent Monday at Mr. Alfred Wells'.

Mr. and Mrs. Dalton Saddlemire and family of Glen Becker spent Sunday with Mr. and Mrs. Walter Watson.

### MOREWOOD

Mrs. David Nadeau of Crysler and daughter Nellie of New York spent Tuesday at John Nadeau's.

A number of friends of the late Mrs. Wm. Fetterly of Morrisburg attended the funeral on Sunday.

Mrs. James Fetterly and daughter Mrs. Gordon Countyman spent Friday at Winchester.

Miss Margaret Carlyle spent the week end with Miss Gladys Swedfeger.

Mr. Cecil McConnell and Miss Hilda Swedfeger spent Sunday with their aunt, Mrs. R. A. Glasgow.

Mrs. Jacob Swedfeger returned home after spending a few days with her uncle, Mr. Thomas Garlough of East Williamsburg.

Our sympathy is extended to Mr. A. B. Allison on the death of his mother Mrs. Wm. Allison of Bethune Bush.

Mr. Emerson Swedfeger returned to Ottawa after spending two weeks holidays with his parents Mr. and Mrs. J. E. Swedfeger.

Mr. and Mrs. Ira Barrington have returned home after spending some time with friends at Toronto.

### GLEN BECKER

We are sorry to report Mrs. Wm. I. Beckstead on the sick list at present and hope for a speedy recovery.

Mrs. Mary Saddlemire and Mrs. Ellen Stewart of Morrisburg spent last week end with Mr. and Mrs. Willis Sheets of Farran's Point.

Quite a number around here took in the exhibition at Ottawa last week.

Miss Lila Saddlemire and Miss Beatrice McIntosh of Williamsburg spent last week in Ottawa the guests of the latter's sister, Mrs. Linden Shennette.

Mr. and Mrs. Neal Hunter and children spent Sunday at Reuben Hunter's.

Mr. and Mrs. Hugh McHaffie and family and Mr. and Mrs. Walter Saddlemire motored to Aultsville Sunday and spent the day with friends.

Mr. and Mrs. Charles Watson were guests of their daughter, Mrs. C. O'Shaughnessy on Thursday of

last week.

Mr. and Mrs. Merton Saddlemire and family motored to Farran's Pt. Sunday last to spend the day with relatives.

### FROATBURN

Mr. and Mrs. Roy Schell spent Tuesday in Ottawa attending the exhibition.

A reception was held in the honor of Mr. and Mrs. Thomas Reddick on Monday evening, Sept. 10th, in their new home in Froatburn.

A large number of friends and neighbors were present. The evening was spent in dancing, games and music, and refreshments. They received many useful presents. Mr. Reddick gave a short address, thanking his friends and neighbors for their beautiful gifts.

Threshing is the order of the day in the vicinity.

Miss Adah Durant spent the week end at Mr. Adam Reddick's.

Mr. and Mrs. Jacob Swedfeger spent Tuesday in Morrisburg.

Mr. and Mrs. Murray Styles and Mr. and Mrs. Will Dafeo spent Wednesday in Ottawa.

Mr. and Mrs. Harry Bowman spent Tuesday evening at Mr. Jefferson Swedfeger's.

Quite a number from this vicinity attended the unveiling of the Soldiers' Monument on Sunday.

Miss Grace Telly spent the week end with Mr. and Mrs. Carmi Thompson's.

Mr. Hubert Casselman was a recent caller at Mr. R. Swedfeger's.

### BRINSTONS

#### STANLEY—STRADER

A very pretty wedding was solemnized at St. Bartholemews Church, Ottawa, at high noon on Wednesday, August 22nd when Lola Blanche, only daughter of Mr. and Mrs. A. A. Strader, Brinston, was united in the Holy Bonds of matrimony, to Robert Allen Stanley of Detroit, Michigan.

The bride, who was given away by her father, was charmingly attired in a handsome gown of ivory duchess satin and large picture hat to match, and carried a bouquet of American Beauty Roses and Maiden Hair Fern.

The Rev. Jno. Dixon, cousin of the bride, performed the ceremony, and Miss Kate Dixon held the bride's bouquet during the ring ceremony.

Mrs. Strader, mother of the bride wore a gown of pearl grey canton crepe with hat to match.

After the signing of the register by Mrs. Albert Dixon, aunt of the bride, and Mrs. Kearns, sister of the groom, and Mr. J. J. Wayne, Mr. and Mrs. Stanley led the way to the church door to await congratulations. Amid showers of confetti the bridal party followed by friends and relatives, made their way to the Metropolitan Cafe where a sumptuous dinner was served. Mr. and Mrs. Stanley left later in the afternoon for their honeymoon trip, the bride travelling in a Navy Blue Suit, and Red Flush Hat. They will reside in Detroit, Michigan.

### WINCHESTER SPRINGS

Mrs. David Salter spent a short time with her sister in Watertown, N.Y.

Mrs. D. Kinade from Russell returned to her home after a week's visit with Mrs. C. Robinson.

Mr. and Mrs. Orren Casselman and Miss Gagnon from New Lisgar were guests of Mr. and Mrs. Jessie Casselman Sunday.

Rev. and Mrs. M. I. Robinson from Shawville, Que., spent a few days with Mr. Wm Robinson.

School reopened here with Miss Grey and Miss Fennell as teachers for the ensuing year.

The Presbyterian W.M.S. held their monthly meeting at the home of Mrs. Wm. McMillan Thursday afternoon.

Miss Winonah Reveler from Winchester returned to her home after a lengthy visit with Mrs. Cecil McIntosh.

Mrs. A. Cook and son Roy from Winchester is staying with Mrs. Orten Webb.

Mrs. F. Bolton returned home on Monday after a month's visit in Detroit.

Mr. Orren and Arnold Casselman spent Wednesday at Ottawa.

#### CARE AND ADJUSTMENT OF COLTERS.

The colter has much more to do with the proper operation of a gang plow than is generally supposed. It affects more than its main purpose of cutting off the side of the furrow slice so that the shins of the moldboard will not have to tear its way through the ground, consequently permitting the plow to do a nice, smooth job and materially lightening the draft.

One of the marks of a poor job of plowing is unevenness or where the furrows made the same round can not always be plainly distinguished. Sometimes this is because the plow is not running level. At other times one bottom is a little too high or low, due to variation in the shape of the beams. Or the front furrow wheel is regularly run against the furrow bank when it is supposed to run at least two inches away from it. But the most common fault is that the operator forgets that each bottom turns over the soil that the colter allots it, no more and no less. They cannot be set in a haphazard manner, but exactly the same with respect to each bottom except for the one instance which I will mention later.

Practically all plow instructions give three-quarters of an inch as the proper distance to set the colter away from the shins of the moldboard. This insures a clean furrow wall and the minimum friction on the landside. There is often difficulty in determining this distance after it is known to be correct. The following method is commonly used by manufacturers' plow experts when getting a plow ready to enter a competitive demonstration: Take a planed fence board three feet long and six inches wide. It will be nearly three-quarters of an inch thick. Lay it against the land-

side so that it extends forward beyond the point of the share and raised just enough above the point so that it lies flat against the landside. Hold in this position by placing the right foot against it. Now adjust the colter so that its blade lies flat against the outside of the board. Do this with each bottom in turn and you will have no variation as far as the colters are concerned.

A puzzling problem sometimes comes up in the case of a three-bottom plow following a standard-type tractor which does not run in the furrow. In spite of all that is done, the middle bottom will turn a furrow which is lower than the others. The reason will generally be found in the fact that the middle bottom follows the right drive wheel and because the dirt loosened by the grouters rolls into the furrow, leaving the middle furrow slice apparently lower than the others. The remedy is to set the middle colter a trifle farther out.

In sod plowing the colters should be set deep enough to cut off most of the roots, but not deep enough to interfere with the penetration of the plow. In stubble plowing there is no necessity of running them more than three inches deep, even in deep plowing. In cornstalk ground especially, the stalks and other trash will not be cut satisfactorily when the colters are set so deep that they will simply push the trash ahead instead of running over and cutting through it. The colter axle should be directly above or a trifle back of the point of the share. The colter blades must be sharpened from time to time to give best results. It is well to remember that it is cheaper and better to pay the cost of sharpening the shares and colters than to pay for the fuel necessary to pull dull tools through the ground.

## Ontario's Better Live Stock Train

By L. Stevenson, Secretary and Supervising Director, Ontario Dept. of Agriculture.

The Ontario Better Live Stock Train of 1923 was organized by the officials of the Live Stock Branch of the Ontario Department of Agriculture, assisted by the officials of the following organizations: Dominion Department of Agriculture, Industrial and Development Council of Meat Packers, Ontario Live Stock Association, the Canadian Pacific Railway, and the Canadian National Railway.

The train was made up of sixteen cars, eleven of which carried live stock for demonstration and sale. A lecture car and staff maintenance cars completed the train.

During March the train made twenty-one all-day stops (9 a.m. to 10 p.m.) and twelve half-day stops. During April, twenty-one all-day stops and four half-day stops were made. The total number of actual farmers visiting the train during the period was 37,600. The number of school children that were conducted through the train by officials and teachers was 6,500. Lecturers, demonstrators and salesmen were continuously on duty in the various cars, and dealt with the varied inquiries of the visitors.

#### EDUCATIONAL FEATURES.

The swine cars were specially fitted to make demonstrations in swine grading possible, and give the farmers throughout the province a clear idea of the type and conformation required for the different grades of hogs under the new grading regulations. Representative hogs, with the corresponding cured Wiltshire sides, were used in this demonstration. For the convenience of farmers desirous of purchasing young breeding stock of the bacon producing type, a carload of boars and sows from six to eight months of age was included in the train. Many sales were made, and good type young breeding stock left the train for new homes at every stop. The supply of stock was replenished at various points along the line of travel by previous arrangement.

#### POULTRY KEEPING.

The poultry car was fitted out to demonstrate the most approved methods of selecting, feeding, housing and preparing poultry and poultry products for market. In the exhibit were included live birds showing desirable types for egg production and also those for meat production. Culling demonstrations were given throughout the day, being illustrated with living specimens and skeletons. Models of poultry houses and equipment, and of hatching and brooding devices, occupied a prominent position in the exhibit. Poultry nutrition was illustrated in an attractive way through the use of colored transparencies, giving rationed used in chick rearing and the results. The Canadian Egg Standard was well illustrated by a continuous candling and grading demonstration. Killing and plucking, as done by the expert in charge, was a revelation to many, as the loosened feathers were stripped from the bird in the short space of one minute.

#### DAIRYING.

The dairy cow car contained good grade cows, representing the Holstein,

Jersey, Ayrshire and Shorthorn breeds. These animals were selected to show the influence of pure bred bulls, and demonstrate the high degree of excellence that may be obtained by careful breeding. Demonstrations and lectures were given on type and conformation as associated with high class cattle. Ayrshire, Holstein, Jersey, and Gurnsey bulls were offered for sale at cost. These bulls were selected for their excellence of type and the production of ancestry. A number of young bulls were sold at the various stops. A dairy lecture was given each afternoon in the lecture car, dealing with feeds, herd improvement, and the rearing of young stock.

#### SHEEP AND WOOL.

In the sheep and wool car, a very attractive exhibit was presented, prepared by the Provincial live stock men, co-operating with the wool growers, the breeders and the woolen mills. Typical fleeces of the principal grades of Canadian wool were shown and used in demonstrating the various grades, classes and purposes for which each was used. The preparation of wool for market was strongly emphasized. Samples of cloth, knitted goods, blankets and yarn made from Canadian wool from Canadian mills, were shown and described. A number of live sheep were carried and suitably displayed, emphasizing the best breed types and market classes. Lectures were given on breeds, breeding, judging, and the care and management of the flock. Two pens, one showing the progeny of a good type pure bred ram and another showing the progeny of a grade ram, attracted considerable interest through the lesson of superior lambs from the pure bred sire. A full line of shepherd's tools and sheepfold requirements was shown, and explanations or demonstrations in the use of same were given by the officials in charge.

#### BEEF CATTLE.

The beef cattle exhibit consisted of a display of steers illustrating market grades and type improvement through the use of pure bred sires. The Ontario Agricultural College supplied a number of animals from a breeding experiment that has been under way during the past two years, so that the farmers of the Province could see for themselves the result of good breeding, coupled with proper care, feeding and management. From the five cars of bulls for sale, many sales were made. Buyers were looking for quality and appreciated the guarantee and the likelihood of getting a good bull when purchasing from the government. To indicate the type of farmer that the lessons taught by the train was reaching, it can be said that, out of the first fifteen bulls sold, all but one went to farms where the owner had not previously kept a pure bred sire.

The demonstration train attracted and enlightened farmers who hitherto had been disinclined to admit the advantages of pure bred sires and of better live stock.

#### Britain Needs Wrangel Island.

Wihjalmur Steffansson, who is urging Britain to assert its rights to Wrangel Island, because it will become an important base for wireless and airplanes when mail carrying across the Arctic has become a commonplace. Soviet Russia is reported to have given orders to prevent any British ship reaching the Islands.

#### Eat Vegetables for Vitamins.

By L. F. Burrows, Secretary, Canadian Horticultural Council.

Comparatively recent is the addition of the word "Vitamin" to our vocabulary, and even though the use of the word is now common, its meaning is not yet understood. Physicians have long recognized the value of vegetables in the daily diet and we are now told that this value lies largely in the fact that they contain vitamins, and that vitamins are necessary to life. Some vegetables contain greater quantities and of different kinds than others. Three distinct kinds of vitamins have been named "A," "B" and "C."

Vitamin "A" is a mysterious element in food, without which children cannot grow, but which grown folks also need. Shortage of vitamin "A" leads to disease of the eye, skin, and kidneys, and may cause bad teeth, diarrhoea, pellagra and other ailments. As a rule, seeds of all kinds are rather deficient in vitamin "A," although green peas contain appreciable amounts. Leafy plants, on the other hand, are valuable foods in this regard. Spinach and chard are probably the richest of the common leafy foods in this element; lettuce ranks next, with cabbage holding third place.

The roots and tubers vary, sweet potatoes and carrots ranking first, while white or Irish potatoes contain but a small amount, and it is doubtful if beets, rutabagas and parsnips contain appreciable amounts. Tomatoes, however, are very rich in vitamin "A" and Hubbard squash is also a valuable source. Little work has been done on the fruits, but there is evidence that apples, bananas and oranges contain small amounts of this vitamin.

Vitamin "B" is guardian of good digestion and proper functioning of the liver and other glands. This vitamin is found in the germ and branny portion of cereals. In the milling of wheat, however, this vitamin is so completely removed that the best grades of flour are entirely lacking. This does not mean that we should condemn the white breads, starchy foods, white rice, etc.; it merely means that we must choose our foods intelligently and eat more vegetables.

Potatoes, sweet and white, contain appreciable amounts of vitamin "B," although the turnip and onion are more valuable in this regard. The beet root contains a fair amount, although its leaves appear to be much richer. This vitamin is also found in the tomato, cabbage, spinach, lettuce, parsley, and the lowly dandelion, the tomato being especially valuable.

## Home Education

"The Child's First School is the Family"—Froebel.

#### Mother's Clothes—By Lydia Lion Roberts

"Why, mother," cried the little boy, his eyes shining, "you look just like a schoolgirl in that white waist and blue tie. I like that, wear it again!"

Children do notice mother's clothes and are quite fine little critics. It is interesting and profitable to question the reasons for their approval or disapproval of various dresses, and a wise mother will talk over her clothes with the children. If she explains the reason she chose a certain color, how she matched her hat to her gloves, why this cloth is stronger than something else, and all the little effects that combine thrift and good taste, the children will not only be pleased at her confidence in their understanding, but will absorb much useful knowledge about clothes.

Sometimes a mother does not realize the pride and interest the children take in her clothes.

"I like to go out with you since you made that new skirt," said a little girl, "the other one didn't look so nice."

If a mother gets careless or discouraged and lets her clothes lose their charm, the children resent it even if they do not voice it. It is only fair to the children for mother to spend as much effort and thought on her own clothes as she does on their fascinating apparel, and then in later years they will not demand everything, but will want mother to have pretty things too.

It pays to understand and weigh a

While many fruits have not been studied, it is probably safe to state that most fruit juices contain appreciable amounts of vitamin "B." It is likewise probably true that nuts are valuable sources of this vitamin, inasmuch as all nuts that have been studied contain appreciable amounts.

Vitamin "C" prevents disease and promotes the general health. Lack of it gives the skin a bad color and makes the heart weak. It has long been known that lemons, limes, oranges and fresh fruits were curative in scurvy. It has only been in recent years that we have understood that this curative effect was due to vitamin "C." While oranges have been used for a number of years in the treatment of infantile scurvy, it is only recently that it has become the common practice to supply orange juice to infants as part of the regular feeding practice. More recently it has been discovered that tomato juice is practically equal to the juice of the orange in this regard, and many physicians in the poorer districts of the large cities are prescribing strained tomato juice in place of orange juice. The juice of canned tomatoes seems to be very satisfactory for this purpose, indicating that the canning process is not particularly destructive as far as vitamin "C" is concerned. Berries are known to have scurvy-curing properties, although little investigational work has been done.

The Swedish turnip or rutabaga is very valuable as a source of vitamin "C" and the same is true of the carrot. Young carrots are apparently more valuable than old carrots and this appears to be true for many vegetables. As a rule, it is probably safe to state that the vitamin content of vegetables is highest at the time that the vegetable is most prized from the standpoint of tenderness and taste. Potatoes, onions and parsnips are also considered valuable antiscorbutic foods. Rhubarb, lettuce and cauliflower must also be included in the list, while lovers of cabbage salad and "slaw" will be glad to know that raw cabbage is one of the best sources of vitamin "C" that we have. Tomatoes have the three kinds of vitamins necessary to human health. Most vegetables have one or two but seldom all three.

It is probably best to eat our fruits and vegetables in the fresh form when it is possible to do so. There is little, however, to be feared from the usual methods of canning and cooking. If we eat a sufficient amount of vegetables and fruits throughout the year, it will not matter if a small percentage of the vitamins are destroyed in the cooking process. As a rule, long continued heating or cooking is considered undesirable, and air should be excluded as far as possible.

It is not necessary that we be vegetarians. We should be reasonable and sensible and not faddists. Every diet, especially that of growing children, should contain milk, butter, eggs, fresh vegetables, and fresh fruits if we expect to obtain the best results.

Various fruit and vegetable canning recipe books have been issued from time to time, but the best that has recently come to my attention is that issued by the Fruit Branch of the Dominion Department of Agriculture. These booklets contain recipes which have been thoroughly tested, are practical and economical. They may be had free upon application to the Fruit Commissioner, Department of Agriculture, Ottawa.

#### He Needed Another Year.

"Position wanted" ran an advertisement in a Shanghai newspaper. "A young Chinese with four years' experience in English seeks place as a junior clerk. Salary no objection." As a matter of fact, it usually isn't.

Keep looking ahead unless you are in a pasture with a ram.

Dissolve in boiling water

Use enough to get a big lasting suds

Big lasting suds—one secret of Rinso's amazing power to dissolve dirt. If you don't get lasting suds, you have not used enough Rinso.

After soaking, only the most soiled clothes need a light rubbing with dry Rinso.

Your clothes don't need boiling if you use Rinso. But if you like to boil your white cottons, use enough Rinso solution to get the suds you like.

Rinso is made by the largest soap makers in the world to do the family wash as easily and safely as LUX does fine things.

Soak an hour

or more Overnight if you wish—  
(Colored clothes only half an hour)

#### POULTRY

For several years past, the food value and medicinal qualities of yeast have been constantly before us. As to its tonic properties, as an aid to digestion and assimilation, as a corrective of constipation tendencies, and an appetite stimulator, it has been thoroughly and satisfactorily tried out—first by the family and now with the poultry.

One of the first experiments in feeding yeast to baby chicks, was found to be so satisfactory that its use as a general poultry feed has been adopted.

It is prepared by soaking a package in a half-gallon of water until the yeast is soft. Then it is made into a soft batter with cooked potatoes and flour, and allowed to raise. Then it is stiffened with cornmeal until crumbly, and spread out in the sun to dry. When it is thoroughly dry it may be sacked and stored for use, and will keep indefinitely if placed in a dry place where it will not mold.

For feeding baby chicks, goslings, ducks or turkeys, it may either be crumbled fine or soaked until soft; but do not feed oftener than three times a week.

For feeding the older fowls, allow a pint for each dozen fowls, mixed with the other feed used. It may be given either as a dry feed, or with a wet mash.

#### The Silo Foundation Has a Hard Job.

The silo foundation has two big jobs—it has to carry the vertical load of the silo walls and the bursting strain caused by the settling of the silage. To insure that it will do both jobs, use plenty of steel re-enforcing and make the masonry footings wide, so as to prevent uneven settling with the resulting cracking. Regardless of the kind of foundation that you build, always use the best of materials. Probably there are more silos standing upon concrete foundations to-day than upon any other.

The silo foundation on my neighbor's farm was made with dirty gravel (in the concrete), and the result is, the foundation has gone to pieces within a year after building. This same gravel was used for other work about the farm with pretty good results, but under the peculiar strain of the silo foundation it went to pieces.

Use one part cement, two and one-half of sand, and four parts of crushed rock or graded gravel for silo work. Use only clean, sharp sand, and water that is good to drink. Dirty water will not make good concrete.—R. K.

"Kraut or pickle kegs and tubs are cleaned thus," writes a subscriber: "I use plenty of boiling water, in which bicarbonate of soda is dissolved (one-fourth pound of soda to a gallon of water). After the kegs have been well scalded, I place them in the sun for several days, then go over the inside of the keg or tub with melted paraffin or kerosene. This makes the keg perfectly sweet inside and keeps it from leaking."

## CREAM

We are large buyers of good churning cream. Our service must be giving satisfaction, as our patronage is increasing every year. Ask for particulars—if you live within 200 miles of Toronto.

TORONTO CREAMERY, 9 CHURCH ST., TORONTO  
(Owned and Operated by United Farmers' Co-operative, Ltd.)

Let us remember that the only way to keep our life peaceful and happy is to keep the heart at rest.—C. H. Spurgeon.

See that you lay drains below the frost-line and out of the way of the plow-point.

## The Father Who Is Not Loved or Respected

One of the bitterest things in many a man's life has been the discovery, after he has made a fortune, that he has lost his hold upon his boys.

I have been in homes where the relations between father and sons were so strained and formal that the latter would no more think of making a confidant of their father than they would of a stranger.

The mother is sometimes responsible for this unfortunate state of affairs. I know mothers who have deliberately prejudiced their children against their father. They seem to be jealous of him, and do all they can to poison the young people's minds against him, to undermine their love and respect for him. Sometimes this is done by speaking slightly of the father. Perhaps he is not much of a business man, and the mother will criticize his methods before them, and find fault with him regarding his way of financing the family. Or she will magnify every weakness and imperfection of his character, make him appear weak and contemptible in their eyes.

There are multitudes of mothers who, while they have no intention of injuring the father in the children's regard, unconsciously do so by the methods they adopt to control them. Just as many ignorant people will frighten small children by telling them that they will call in a big policeman to arrest them and put them in jail, thousands of mothers will encourage fear of the father by making them believe he is cruel and hard, and that he will punish them severely for every little mishap or misdeed of which she threatens to inform him.

This is very unfair to the father, for it robs him of his most precious possession—the love, admiration, and respect of his children. It helps to build a barrier between him and his children, a prejudice which may last a lifetime and deprive him and them of much possible happiness. To know that his children love him dearly and want to be with him, that they are always delighted to have him at home, to have him join them in their play, is a great compensation to him for the sacrifices he makes for them.

It is a most unfortunate thing for a child to look upon his father as a cruel task-master instead of a companion, to dread meeting him because he always expects criticism or scolding from him instead of sympathy, and companionship. Unfortunately some fathers encourage this feeling. They will constantly nag and find fault, and never think of praising their children or expressing any appreciation of their work, even when they do it well.

A father should regard the confidential relation between himself and his son as one of the most precious things in life, and should never take chances of forfeiting it. It costs something to keep it, but it is worth the price. I have never known a boy to go very far wrong who regarded his father and mother as his best friends, and kept no secrets from them.—O. S. Marden.

## Would Signal Mars by Flashing Light.

Dr. A. M. Low, an English inventor, believes it possible to get into communication with Mars by means of light signalling.

"There are several known chemical means of producing a light screen of sufficient size which would last long enough to be noticed by the Martians, if such exist," he said. "I think a suitable screen could be set out on a high altitude by airplanes, to eliminate as far as possible the effect of air and clouds, which combine to make difficult any observation of the earth itself."

Dr. Low considers wireless waves less practical, as they travel in curves, making it difficult to gauge the target. He holds it ludicrous to expect to find the Martians' life similar to our own.

"Some years ago we thought that animals and plants were the only things which lived," he said, "but now we know there is life in everything. I have never seen anything yet which was not alive."

"The Martians might be able to see by heat waves. A small difference in our physical makeup would revolutionize our world and ideas of living. If we were born with eyes having only slightly different lenses to normal we would see the air around us full of life and our bath water a mass of horrible looking creatures."

Dr. Low disagrees with those who assert the Martians are more advanced than earthlings. "If they were, they would have found some means ere this of communicating with us," he said.

The *cos* trouble with "the height of fashion" is having to wear it a long time after the "height" has changed.

Women in Egypt are appealing for a law to be passed raising the marriage age for girls to sixteen.

## A FINE COMPLEXION

Can Be Had Through Keeping the Blood Rich and Pure.

A girl's complexion is something more than a matter of concern to her vanity. It is an indication of the state of her health. Pallor in a growing girl means a thinning of the blood. Eruptions mean impurities in the blood. Mothers should be watchful of their daughters' complexions and see to it that these signs are corrected—not covered up.

When a girl in her teens becomes pale and sallow, especially if, at the same time, she shows an inclination to tire easily, a listlessness and inattention to her work or studies, she needs Dr. Williams' Pink Pills, a tonic which directly and specifically corrects the condition from which she is suffering. A chemical analysis of the blood of such a girl would show it to be deficient in just the elements that Dr. Williams' Pink Pills can supply, but the physical signs are plain. The girl with a bad complexion, or who suffers from occasional headaches, who is easily tired and breathless after slight exertion, should begin taking Dr. Williams' Pink Pills at once. A good appetite, sparkling eyes and rosy cheeks follow the fair use of this medicine.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## When Tin Catches Cold.

You would scarcely suspect a metal such as tin of being able to catch cold, but it can do so for all that. In countries like Northern Russia all sorts of utensils are apt to become useless in winter time.

A tiny greyish spot makes its appearance on the surface of the tin. It grows in size, and then others appear. In course of time the metal crumbles into a dark-colored powder.

Some years ago a whole shipload of blocks of tin, stored in the Customs House of Petrograd during the winter, was found the following spring to have crumbled into dust.

What really happens is that the cold causes tin to change from one of its forms to another. Tin is often found in mines in the grey powder form which is quite useless. When it is heated it turns into a well-known shiny metal, but under the influence of cold it may return to its other form.

Finger prints of criminals are sent by telegraph all over Italy by a simple invention, involving the use of from 300 to 400 numbered squares.

Salamanders, small creatures not unlike newts, have been made to change their sex by alternately feeding and starving them.

Common sense is not a common thing.

Keep Minard's Liniment in the house.

## Stories About Well-Known People

### Royalty Gets a Diploma.

When the Wharton School of Business administration at the University of Pennsylvania held its graduating exercises this summer many foreign students received diplomas and none showed more pride in the hard won bit of sheepskin than a scion of Oriental royalty, Vasa Virakorn, who is a cousin of the King of Siam.

By very ancient tradition the business activities of royal persons have been limited to the narrow but not unfruitful fields of imposing taxes or receiving for the contents of the privy purse voted them by their adoring subjects. Common report has it that Siamese royalty has also kept up a herd of white elephants to let off its excess energy.

Whether Virakorn will stick to the good old days when he gets back to Bangkok, or branch out for himself in same new line, has not been indicated. It may well be that the Siamese monarch has a good many cousins to keep up, and that the young graduate's thorough acquaintance with American methods in commerce, industry and finance will not prove unacceptable to his exalted uncle.

### Cars by the Dozen.

The Bey of Tunis, who is now on an official visit to Paris, is well-known as a teller of good stories, and figures himself as the hero, or perhaps the victim, of many a true one. The most amusing of those about himself is perhaps of the following tenor:

"If any in my family were sick with stomach trouble or run-down condition, I would rather have one bottle of Tanlac than all the other remedies put together," is the positive statement of F. A. Barrowcliff, 8 Locomotive St., Hamilton, Ont., well-known yardman for the Grand Trunk Railroad.

"My wife's health was restored by the Tanlac treatment in such short order it was astonishing, for she suffered so terribly with nervousness, headaches, sleeplessness and loss of appetite that I thought she would break down completely. She went meal after meal without eating, and was so

## Surnames and Their Origin

### LOCKYEAR

Variations—Lockyer, Lockman, Locke, Lockerman.  
Racial Origin—English, also Dutch.  
Source—An occupation.

Lockyear, Lockyer, Lockman and Locke are all only different forms of the same family name, which in its original use was but descriptive of the callings of its first bearers.

Lockyear is really not a "true" form of the name; it is a changed spelling of Lockyer. The "lockyer" of the Middle Ages in England was, as you might opine, a locksmith, as was also the "Lockman," the two forms of the word being interchangeable, with the former, perhaps in wider use.

Originally this name, like all others which have been derived from trades, was preceded by a "le" (meaning "the") under the influence of the French tongue of the Normans. But even before such names lost their descriptive sense, and virtually always afterward, the "le" was dropped.

The family name of Lockman, however, is sometimes a contraction of that of Lockerman, which is not English at all, but Dutch, the true form being "Loockerman." And though this family name also is based upon an occupation, it is not the same from which the English names have developed. The "loockerman" among the Dutch was a man who raised or dealt in locks.

### LARDNER

Variations—Lardiner.  
Racial Origin—English.  
Source—An occupation.

Lardner is by no means an infrequent family name, though probably it is most widely known when it has a "Ring" in front of it.

You might suspect from the first syllable that the name originally had something to do with the word "lard." In many cases when you suspect things like this about a family name you are wrong. But in this case you would be right. There is a connection. In fact the name is founded upon it. But the trade or occupation through which the connection was made is no longer referred to as it was in the Middle Ages at the time when family names were formed.

In medieval England the "lardner" or "lardiner" (for you will find both spellings) was a specific kind of swineherd. His occupation was that of fattening or "lardening" pigs for the market or for the tables of the feudal lords. He had to be a good bit of a forester, for he took his herds into the woods to fatten them upon acorns and nuts, and very often he also held a commission as a forest warden from his overlords.

Originally, of course, the name was descriptive of the individual's occupation, and in the old records you will find many entries of such names as "Hugo le Lardner" and "Roger le Lardner."

## A GOOD MEDICINE FOR THE BABY

Nothing can equal Baby's Own Tablets as a medicine for little ones. They are a laxative, mild but thorough in action, and never fail to relieve constipation, colic, colds and simple fevers. Once a mother has used them she will use nothing else. Concerning them Mrs. Saluste Pelletier, St. Damas des Aulaines, Que., writes:—"I always keep a box of Baby's Own Tablets in the house. They are the best medicine I know of for little ones and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Robert Burns.

Visitor—"Dear me! Fancy your being called Robert Burns—why, that's a very well-known name."  
Native—"Nae doot it is; I've been blacksmith in the place for nigh on forty years."

### MONEY ORDERS.

Remit by Dominion Express Money Order. If lost or stolen you get your money back.

The worker bee lives six months, the drone four months, and the female bee four years.

## Measuring Things You Cannot See.

We are accustomed to hearing of measurements of tremendous distances such as those between the earth and some of the stars, which run into thousands of billions of miles. But what do you think of measuring accurately the 500,000,000th part of an inch?

The most accurate of ordinary instruments can measure the 500,000,000th part of a mile, which is less than three 10,000ths of an inch. To measure the 500,000,000th part of an inch an instrument must be 50,000 times more delicate; yet it has been done.

The appliance used is nothing like the tuning circuit of a wireless valve set. You know that if you turn the knob of the condenser the wave-length is altered. We can make a condenser by placing two plates of metal one above the other with an air space between them.

If the tuning circuit is a delicate one, an almost infinitesimal bending of one of the plates will make a difference in the wave-length. It is easy to calculate how much bending causes any given difference.

The measuring appliance employs a condenser of this kind, by means of which the tiny distances mentioned can be measured with ease. If a half-inch bar of steel is placed in a vice and connected with the apparatus, the distance it sags when a fly settles upon it is instantly and accurately recorded on a dial.

If a fly walks on a piece of iron the pointer records how the whole mass quivers under its weight, and it will even measure the expansion of the iron caused by the heat of the insect's body!

The invention will be of great use to scientists, who hitherto have been baffled in their work when very tiny measurements were needed.

Ask for Minard's and take no other.

Although some kinds of fungus are imbued with a deadly poison, no insect or bird ever falls a victim to them.

Perfect evaporation and exact proportioning of gasoline and air are claimed for a new carburetor.

## MRS. DAVIS NERVOUS WRECK

Tells Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said he could do nothing for me. My husband's mother advised me to take the Vegetable Compound and I started it at once. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine bouncing baby and am able to nurse her and enjoy doing my work. I cannot help recommending such a medicine, and any one seeing me before I took it, and seeing me now, can see what it does for me. I am only too pleased for you to use my testimonial."—Mrs. EMILY DAVIS, 721 McGee Street, Winnipeg, Man.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ont. This book contains valuable information.

# ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

| Toothache | Neuralgia | Neuritis   |
| Earache   | Lumbago   | Pain, Pain |

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate of Salicylic Acid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## Railroad Man Gives Out Surprising Facts

"If any in my family were sick with stomach trouble or run-down condition, I would rather have one bottle of Tanlac than all the other remedies put together," is the positive statement of F. A. Barrowcliff, 8 Locomotive St., Hamilton, Ont., well-known yardman for the Grand Trunk Railroad.

"My wife's health was restored by the Tanlac treatment in such short order it was astonishing, for she suffered so terribly with nervousness, headaches, sleeplessness and loss of appetite that I thought she would break down completely. She went meal after meal without eating, and was so

fearfully weak the care of our five children and the housework was more than she could do.

"After her first few doses of Tanlac my wife was like an entirely different person, and hasn't had a sick spell since she quit taking the medicine six months ago. Tanlac has certainly been a blessing in our house, and we are glad to recommend it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

### MORASH FOUNDRY

The large number of subscribers who are taking advantage of paying their subscriptions in arrears at the advance rate before October 1st, is gratifying. There are still a large number, however, who are in arrears and it is hoped that they will take advantage of the last week to attend to this matter after which time all subscriptions in arrears will be handed in for collection.

Mr. and Mrs. H. E. Pauli are spending the week in Toronto.

Mrs. F. J. Hawken spent a few days in Ottawa last week.

Miss Gladys Nash has returned home after spending the past few weeks in Perth.

Mr. Stanfield of Montreal spent the week end with his family.

Mrs. Edward Lawson will receive on Friday, Sept. 28th, instead of the 21st, as announced last week, from 4 to 6 p.m.

Miss Ida Pariseau attended the millinery openings in Montreal and Ottawa last week.

Mr. and Mrs. H. Wilson and son of Valleyfield spent a few days with her mother, Mrs. Wm. Allison, last week.

Mrs. J. A. Toner, Miss Teresa and Mr. Harold Toner of Montreal spent a few days in town this week.

Miss May Suffell is spending a couple of weeks' holidays in Montreal and Ottawa.

Mr. and Mrs. Geo. D. Dardis and family have taken up residence in Ogdensburg.

Mr. and Mrs. C. S. Babcock have returned to Montreal after spending the past month with relatives in town.

**W. MARSH & SON** are offering special reductions on Furniture and Rugs for the next 10 days.

Mr. R. P. Adams of London, is spending a few days with Mr. and Mrs. H. H. Bradfield.

Mrs. Geo. Ennis and daughter, Miss Lola of Regina, Mrs. Herman Raney, and Mr. L. Ennis of Inkerman, were recent visitors at the home of Mr. J. W. Suffell.

Miss Lyle Lock, nurse-in-training, Brockville, is spending a couple of weeks' holidays with her parents, Mr. and Mrs. G. W. Locke.

Mrs. Maud E. Lawless spent a few days last week in Cornwall with Mrs. Sanderson and other friends.

Miss K. M. Robb has returned to Kewilton after a two weeks' visit with her sister, Mrs. W. C. Cochran.

Mr. and Mrs. Wm. Steed of Port Colborne spent the week-end with Mr. Jos. Steed.

Mr. and Mrs. Hugh McIntyre, Mr. and Mrs. P. H. McEwen of Maxville and Miss Stuart of Montreal spent Sunday the guest of Miss Empey.

Miss Marion Hilliard returned to Toronto on Friday last to resume her studies at the Toronto University.

Mrs. Frank Powell and little son returned home on Sunday, after spending a couple of weeks in St. Catharines.

Mr. Rob. Casselman of Ottawa spent the week end the guest of his parents, Mr. and Mrs. Henry Casselman.

The Mission Circle of the Methodist Church will hold a Food Sale and afternoon tea in Melkies' carpet rooms, Sept. 22nd. Sale to commence at 2 o'clock.

Miss Mildred Meikle left last week for Toronto where she has entered the Wellesly Hospital as nurse-in-training. She was accompanied to Toronto by her father, Mr. Fred H. Meikle.

Mr. and Mrs. Frank Cline and son Donald, and the former's mother, Mrs. Cline of Massena, spent Sunday with Mr. and Mrs. Melvin Barclay.

Little Patricia Cochrane is convalescing after a serious attack of Typhoid. She has regained her sight and use of her voice. Her nurse Miss Gavin has returned to Brockville.

Mr. Chas. Barkley, Miss Bessie Robinson, Winchester, Mr. W. Smith, Miss Vera Smith, Chesterville, Mr. Bushaw, Detroit, Mich., were callers at the Star Theatre this week.

Visitors at Mr. and Mrs. J. Heiney's this week: Mrs. Bill Harris, Fort Goodhope, N. W. T., Mrs. L. W. Burns, Toronto; Mrs. William Downey and son Gerard, Mrs. John Hurley and son, William of Brockville.

Mr. and Mrs. J. Frank Beckstead of Marlattown, accompanied by Mr. and Mrs. Frank Stewart, attended the opening of the North Mountain Consolidated School on Wednesday

Tonight—At the Music Hall, "The Cross Roads of New York." Children 12 years and under 25c. All others 35c. Prices include War Tax.

Mr. Harry Garlough of Toronto was in town the first of the week.

Mr. F. D. Stata spent a few days last week with relatives in Kingston and Harrowsmith.

Miss Hilda Nash has returned home from Cornwall.

Mr. W. C. Cochrane spent last week end in Montreal, and his mother returned there with him to take up house in the city for the winter.

Miss Corinne Old, Mr. Thomas McDermott, Mr. Walter Lunn of Montreal are spending a few days with Mr. and Mrs. F. J. Timmins.

A tea will be held in the Lecture room of Knox Church on Thursday, Sept. 27th. Everybody welcome. Come and have a good supper. Admission 35 cents.

For Sale, one thousand snow white cauliflowers at F. H. Herby's.

Mr. and Mrs. Geo. W. Perkins and daughter, Ottawa, spent Sunday with Mr. and Mrs. C. W. Marsh.

Miss Teresa Biccum underwent an operation for appendicitis at the Cornwall Hospital on Wednesday.

Mr. and Mrs. Harvey Wiggins and Miss Lorena Wiggins of Toronto were the guests of Mr. and Mrs. F. A. Wiggins recently.

Mrs. Henry Clark, Bessie Clark Mrs. P. J. Timmins, Miss Vera Smith, Mr. Wilson Smith and Mr. Melvin Bushaw motored in to Ottawa Wednesday for the exhibition.
