Quiet Operation. The "Sit-and-Sue Construction" reduces noise by completely enclosing the compressor, condenser and condenser fan behind galvanized steel panels. This creates a smooth-back design which eliminates the need to clean exposed condenser coils and permits installation close to the wall for a built-in look.

INGLIS LIMITED LAUNDRY LEADERSHIP TECHNOLOGY

Canada's #1 Wash System. The Direct Drive transmission handles large, heavy loads with ease. The motor is attached directly to the transmission shaft — no belts or pulleys to replace, reducing the chance of a breakdown, saving you time and money.
