Mrs. Geo. Empey Dies in Minnesota

Died on the 3rd of April in the town of Northfield, Minnesota, Mary Irving, wife of George Empey. The funeral was held on the following Saturday.

The deceased was born March 14, 1838, in Dumfriesshire, Scotland, and came with her parents to Canada the following year, remaining in the County of Dundas until the year 1865 when she with her husband moved to Minnesota. The deceased leaves her husband, two sons and two daughters, besides four brothers, David Irving of Manitoba, Christopher and Thomas Irving of Winchester, James Irving of Morrisburg, Mrs. Geo. Scott of Winchester and Mrs. Thomas Algate of Cass Bridge.

The Late James Spotton

After an illness, extending over a period of time, James Spotton passed away at his home in Connaught, on Saturday evening, April 12th, 1913, at the age of 68 years.

The funeral, which was very largely attended, took place from his residence on Tuesday morning at 9 o'clock to St. Mary's Church in this place where mass was celebrated by Rev. Father Fleming, after which interment was made in the burying ground.

The deceased was well and favorably known in this district, having lived here the greater majority of his life.

Smith—Robinson

A very pretty wedding took place on Wednesday April 9th, 1913, at 2 p.m., when Lillian Edith Smith, second daughter of Mr. and Mrs. John A. Smith of Wellington street, Ottawa, became the bride of Mr. Charles Robinson of the same place.

The bride was given away by Mr. J. D. McRae of Maxville, Ont. She was dressed in white duchess satin and carried a lovely bouquet of white roses and maiden-hair ferns.

After the ceremony which was performed by the bride's uncle, the Rev. I. E. Smith of Richmond, Ont., the company resorted to the dining room, where a very dainty lunch was served by the bride's parents.

Mr. and Mrs. Robinson intend, after their honeymoon, to reside in Ottawa. We all join in wishing the newly married couple a very happy and prosperous life.

The bride received many handsome and useful gifts, comprising silver-ware, cut-glass, china and linens.

The bride is a sister of Mrs. Milton Ball of this place.

McEwen—Watson

An event of more than ordinary interest to the citizens of Maxville, took place on Tuesday of last week when A. J. McEwen, Esq., reeve of Maxville, was joined in the holy bonds of matrimony to Miss Ray Watson, the ceremony being held at the parental home, Winchester, at 2 p.m. that afternoon. The Rev. James Cormack, now of Vars, but for many years pastor of the Presbyterian Church Maxville, performed the ceremony, in the presence of the relatives and a few intimate friends of the contracting parties. They were unattended. At the conclusion of the ceremony a luncheon was served, after which Mr. and Mrs. McEwen boarded the eastbound train for Montreal and other points on a short honeymoon, carrying with them the hearty congratulations of many friends in which the residents of that place join.

Must Register All Births.

Vigorous prosecution of all parties who neglect to register births is to be instituted under the instructions of the Provincial Registrar General.

For some time past the department has been receiving complaints that births are not being registered as fully as they should be and, as a result, Dr. McCullough is sending out instructions to the division registrars requiring the names of all parties responsible for the non-registration of births to be sent to the department.

Instructions will then be sent to the county crown attorney in that particular district to prosecute.

MANAGER.

Personal

Mr. Arthur Lawson, who has been attending Queen's College, Kingston, is home for his holidays.

Mr. Chet Merkley left last week for Saskatoon Sask., where he intends remaining for the summer.

Mr. Asa Merkley left yesterday for his home in Dawson City, after spending two weeks with relatives here.

Mr. and Mrs. Charles Robinson of Ottawa, spent the week end with the former's sister, Mrs. Milton Ball.

Police Court Case

Police Magistrate Wholehan was called on Tuesday to hear a case of assault between Coughler and L-salle. The trial lasted for some time and was adjourned till yesterday afternoon to hear medical evidence, with the result that the Police Magistrate reserved his decision until the County Crown Attorney peruses the evidence.

Avonmore Delivery

A delivery of Agricultural Machinery manufactured by the Deering Harvester Company, occurred at Avonmore on Friday, April 11, 1913, when Mr. J. C. Simser, the district agent for that company had a large display of implements in line, where a large number of farmers from the vicinity of that place gathered there to secure their purchases. Very seldom is it that Avonmore witnesses such a large gathering of farmers as was in that town on Friday. Dinner was served at Mr. E. Warner's, after which a procession was formed and a photograph taken of the large display. This is the third delivery that Mr. Simser has had charge of this spring and we understand there are a few more to be held in his district in the near future. This speaks well for the Deering Machinery, and especially for Mr. Simser, who has been extra successful in his business.

Struck A Snag.

Over a week ago Mr. Thos. Irving of Winchester had a call from Constable Hamilton of Ottawa and it was not one of those sociable kind but one that trouble is brewing. The Constable had the papers with him calling for the appearance of Mr. Irving at Ottawa on a certain date for an infraction of the license law, claiming that he had illegally sold stock by auction. To the constable's surprise Mr. Irving produced the license required, and he has not heard from him since, but no doubt the license issuer at Ottawa has heard from Auctioneer Irving.

Little Boy Killed.

On Saturday afternoon a sad and fatal accident occurred near Elgin, when a little boy, George Warren, a son of Henry Warren, who is in the employ of Henry Carty, a well known farmer of that place, met his death.

The particulars are that the little fellow had followed his father to a sugar bush on the farm and on returning attempted to climb over a fence, when a large stick of timber attached to the fence fell on him and his neck was broken. On missing him his father made a search, and found his son lying in a pool of water with life ebbing.

Dr. Coon was hurriedly summoned but he was of no avail.

TRINITY METHODIST CHURCH CHESTERVILLE

Minister, - - REV. W. H. STEVENS.

Sabbath Services:

Public Worship 10.30 a.m. and 7.00 p.m.
Class Meeting 10 a.m.
Sunday School and Bible Classes 2.30 p.m.
Senior Epworth League, Monday, 8 p.m.
Prayer and Praise Service, Wednesday Evening, 7.30 o'clock.

Strangers Cordially Welcomed.

Dr. S. C. McLean Dead

The death occurred at Spencer-ville, on Saturday last, of Dr. S. C. McLean, for many years engaged in the practice of medicine in that village, and one of the best known medical men in the counties.

Dr. McLean was born in the township of Augusta and was in his 67th year. In 1871 he entered Queen's University, Kingston, and graduated from the medical faculty of that institution in 1874. At first Dr. McLean started practice with Dr. Dunn of North Augusta, and also resided at Bishop's Mills for a year. Finally he settled at Spencer-ville, and has since been at the head of a most successful practice there. Dr. McLean had many warm friends throughout the counties, and his death has caused profound sorrow not only in Spencer-ville but also in all the surrounding district. One of the most respected men in Grenville county, he was beloved by many for his kind words and actions. Dr. McLean was a prominent worker in the Methodist church. All his life he was a staunch Liberal and a steadfast supporter of the party. He is survived by a widow and a family of five. No medical gentleman ever in practice in this district was ever held in higher estimation by all classes. As a friend to the poor and as a true gentleman of the old school he will be greatly missed and his place will be a hard one to fill.

Whitaker, the Optician, will be at Chesterville on Tuesday, May 13th; Russell, Thursday, May 15th; Finch, Friday, May 16th.

Died In Mexico.

Mrs. R. W. Mathews, late of this place, died at Macineso, Oaxaca, Mexico, on Oct. 6th 1912, after a brief illness of four days.

She leaves to mourn her loss a husband, two sons, Walter and Fayette of Los Angeles, Calif., and two daughters, Mrs. P. H. Wilson of North Hatley, Que., and Mrs. Henry Wilson of Sherbrooke, Que.

Born.

DILLABOUGH—At Chesterville, on April the 6th, 1913, to Mr. and Mrs. Morley Dillabough, a 12lb daughter.

Married.

BAKER—CRAWFORD—At the home of her parents, Mr. and Mrs. Jas. T. Elder, Cedar Hill Farm, on April 9th, 1913, by the Rev. J. B. McLean, Huntingdon, Que. Catherine Mary Crawford, only daughter of the late Wm. Crawford, jr., to Reddick William Carleton Baker, of Chrysler, Ont.

DIED

SPOTTON—At Connaught, on Saturday April 12th, 1913, James Spotton, aged 68 years.

THOMSON—At the Manse, Hastings, Ont., on April 7th, 1913, James Thomson M.D., late of Winchester, Ont., aged 25 years and eight months.

MCMARTIN—At Berwick, on March 23rd, 1913, Duncan McMartin, aged 68 years.

MATHEWS—At Macineso, Oaxaca, Mexico, on October 6th, 1912, Mrs. R. W. Mathews.

Agricultural Education.

In connection with the introduction of the teaching of agriculture into the schools of Ontario, the Department of Education has recently commenced the publication of a series of agricultural education bulletin. Up to date the bulletins have been:—

No. 1—Foreword and the story of an Ontario school garden.

No. 2—Agriculture in the schools, summary of regulations, etc.

No. 3—Suggestions and helps for teaching agriculture and carrying on school gardening.

No. 4—Agricultural instruction Act and rural school topics on O. E. A. programme.

No. 5—The Carleton County potato growing contest, 1912.

Other bulletins will follow from time to time dealing with school improvement, parents' and teachers' associations playground equipment, school fairs, work of agricultural representatives, methods of teaching, and such matters as may help to arouse public interest in the work of the schools and make for the very best possible education for boys and girls in the country. Charts and lessons in agriculture and horticulture will be distributed also.

These bulletins and charts are mailed to every school in the province, one copy being sent to each urban school. In the latter case, one copy is for the teacher and the extra copy for circulation amongst its ratepayers. They are mailed to the secretaries of women's institutes, farmers' institutes, horticultural societies and agricultural societies as well.

On account of the frequent changes the bulletins are not addressed personally to the teachers, but to the post-office nearest to the school in this way:—

To the Teacher,
S. S. No. 1 Esquesing Tp.,
Mansewood P. O.
Ontario.

Halton Co.

From reports made by correspondents it is learned that the bulletins in many cases are not reaching the teachers' hands through wrong addresses or faulty postal arrangements. In such cases teachers are advised to make special enquiries at the post-offices or of rural route mail carriers. If this fails to find missing bulletins please notify this office and send correct address.

The bulletins should be kept in the school library for the use of the present and of future teachers.

We will be pleased to send the bulletins to any person interested in this phase of education if they send their name and address.—S. B. McCready, Director of Elementary Agricultural Education, O.A.C., Guelph.

Cost Of Producing Milk.

The increased cost of feed and labor and the rise in price of good cows without a corresponding increase in the price of milk gives special significance to any accurate data bearing upon the actual cost of milk production. Such data are furnished by records given in a report of the New Jersey experiment stations, of 31 head of milch cows, mostly grade Holsteins, Jerseys, Guernseys and Ayrshires, fed both home-grown and purchased feeds the calculations of cost of production being based both on the actual cost of growing the crops fed and on the market prices of the products used. The feeds used included soiling crops of different kinds, corn silage, mixed hay, oat and pea hay, alfalfa hay, corn stover, beet pulp, distillers' grains, wheat bran and oilmeal. The average cost of feed per cow per year (based on actual cost of producing the crops used) was \$95.73, or 2.4 cents per quart of milk produced. Placing the market valuation upon the home-grown products, the cost of feed per cow per year was \$121.60, or 3.04 cents per qt. The estimated average cost of labor (but not supervision) and incidental expenses was \$70.22 per cow per year, or 1.76 cents per quart. The incidental expenses include bedding stabling (\$5 per cow), interest on investment in animals, depreciation in value of cows, keep of bull, etc., but not interest on land, buildings and dairy equipment.

Based on actual cost of growing and harvesting products consumed and of labor, the total cost for feed, labor, etc., for the year was, per cow, \$165.95; based on market valuation of feed consumed, \$191.82. The yield of 31 cows averaging 8,661 pounds of 396 per cent milk, the total cost per quart of milk will be in the 1st case 4.16 cents, in the second case 4.8 cents. No credit, however, is given the cow for the manure voided or the calf produced, neither is the farmer's time charged for. Calculating the manure worth \$20 per cow, and the grade calves \$6 each at 5 days old the cost of producing 4 per cent milk, even with the high yield reported, and not including cost of supervision, was approximately 4 cents per quart.

Child Burned in Sight of Parents

When Adam Fox and his wife, of Augusta, went out to milk Thursday morning shortly before seven o'clock they left their two little girls, aged four and two years, safely tucked in bed. They also left a fire burning in the kitchen stove for the purpose of heating water for breakfast.

The children arose and got playing with some slivers that had been left near the stove. The dress of the younger child took fire and the other ran to the barn to summon the parents. When the father and mother appeared the little one was standing in the door a mass of flames. Mr. Fox immediately attempted to smother the flames with coats and blankets and himself sustained some nasty burns.

Dr. Sutherland of North Augusta, was summoned and he arrived on the scene but could do nothing. The tot lingered on in great agony until 11 o'clock, four hours later.

The sympathy of the community is extended to the bereaved parents.

PARALYSED AND COULD NOT WALK

"Fruit-a-tives" Completely Restored
New Brunswick Merchant To Health.

MR. ALVA PHILLIPS

BRISTOL, N. B., JULY 25th. 1911.
"I am unable to say enough in favor of 'Fruit-a-tives' as it saved my life and restored me to health, when I had given up all hope and when the doctors had failed to do anything more for me. I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the Constipation of the bowels was terrible. Nothing did me any good and I was wretched in every way. Finally, I took 'Fruit-a-tives' for the Constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis. Under the use of 'Fruit-a-tives', I grew stronger and stronger until all the palsy and weakness left me. I am now well again and attend my store every day and all day."

ALVA PHILLIPS.

"Fruit-a-tives" is the only remedy in the world that is made of fruit juices and tonics.
50c. a box, 6 for \$2.50—trial size, 25c.
At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Largest Coal Mine will be in Alberta.

Calgary, April 10.—Northwestern Alberta will have the largest coal mine in the world, with the consummation of the plans outlined by Dr. K. Hoppe of San Francisco, who has been in Ottawa conferring with the officials of the Dominion Government regarding this undertaking.

He holds leases on 71 claims of 211,000 acres, situated 200 miles northwest of Edmonton, between the main line of the Grand Trunk Pacific Railway and Grand Prairie, where, it is announced, work will begin this season, with a view to shipping within twelve months. A winter trail was built during the months of snow from Hinton, on the main line of the G. T. P., to the confluence of the Smoky and Muskeg Rivers, in order that supplies might be hauled into the various camps that will be used as bases for the summer's operations.

Mr. W. D. O'Brien of San Francisco, a coal expert of international reputation, and consulting engineer for the company has a corps of engineers and surveyors working out plans. Mr. O'Brien confirms Dr. Hoppe's estimates of the commercial value of the coal fields, saying that analysis of the product shows that it is not surpassed in quality, by any bituminous coal on the continent.

Official Cow Testing.

A course of instruction in official cow testing was given recently at the Ontario Agricultural College, Guelph. The lectures covered the importance and value of testing; the history of cow-testing in America with due emphasis upon the relative values of 7, 14, 30 and 365-day tests. The principle laid down was the longer the time covered by the test the greater its value, although all forms of test, properly conducted, are valuable. Proper feeding during and preceding a test was fully explained. The following short rules were given:—

1 Do not feed a cow too heavily during the test—rather less meal than usual is preferable to increasing the meal ration.
2 Feed all the roughage which a cow will eat, and from 8 to 24 lbs. of meal daily of the 2-2-1 combination of wheat bran, ground oats and oilcake, cottonseed meal, gluten or malt sprouts, or a mixture of two or more of these latter feeds.
3 Feed as many times per day as the cow is milked.

4 Feed one pound of meal for 3 to 5 lbs of milk produced; or 6 to 8 lbs. meal for each pound of milk-fat.

5 The German standard of 32 lbs. of dry matter, 3.3 lbs. digestible protein, and 15 lbs. of digestible carbohydrates and fat, with a nutritive ration of 1-4-5, was advised as a guide or feeding standard.

Considerable time was spent discussing rules and regulations governing official testing.

So much interest was manifested in this course that it will likely be repeated in 1914, and cow owners will be given an opportunity to be present at the same time as the official testers. This should make the course doubly interesting.

Seeding General In Manitoba April 15

Winnipeg, April 11.—Seeding will be general in Manitoba by the middle of next week. This would be very nearly the same day as last year: April 15.

In a very few districts the snow is still on the ground, but is rapidly disappearing. Seeding operations appear to have been delayed more by wet fields than from weather causes, although in some districts rainfalls have delayed the farmer after the spring moisture had dried up.

Prize Winners in Diary Contest

Toronto April 12.—Many of our readers will scan with interest the following list of names to see if they are among the best writers of a diary in this great country.

The committee of judges this year were following well-known newspapermen; Mr. J. F. MacKay of The Globe, Mr. Geo. E. Scroggie of The Mail and Empire, and Mr. Somerville of The World. After careful consideration of each of the almanacs entered in the 1912 contest the prizes have been awarded as follows:—

(1) \$50.00 in gold, Mrs. William Shaw Winchester, Ont.; \$25.00 in gold, Miss Enid Simpson, Bay View, P. E. I.; \$25.00 in gold, Mrs. A. C. Russell, Avonton, Ont.

(2) \$10.00 in gold, Mrs. T. P. Cullen, Shepard, Alta.; \$15.00 in gold, Mrs. P. C. Peterson, Chamberlain, Sask.; \$10.00 in gold, Mrs. E. M. Schultz, Lower Sackville, N. S.

(3) \$10.00 in gold, Miss Dora S. Perry Havelock, N. B., Butternut Ridge P. O.; \$10.00 in gold, Mrs. E. G. Hutton, Athelstan, Que.; \$5.00 in gold, Miss Grace L. Fullerton, Prince William, N. B.

(4) \$5.00 in gold, Miss E. Stoughton, 165 6th avenue west, Vancouver, B. C.

(5) \$5.00 in gold, Miss Ida M. Brantford, Snowflake, Man.

(6) \$5.00 in gold, Mrs. Edgar Duncan, Dundalk, Ont.

(7) \$5.00 in gold, Miss Margaret M. King, Lochend, Alta.

(8) \$5.00 in gold, Mrs. Robert D. McDonald, Scotch Hill East, N. S.

(9) Dr. Chase's Receipt Book, leather, R. J. Quantrell, Coldwater, Ont.

(10) Dr. Chase's Receipt Book, oilcloth, Mrs. E. P. Jenkerson, Dudswell Centre, Que.

(11) Dr. Chase's Receipt Book, oilcloth, Mrs. F. R. Crick, Gladstone, Man.

(12) Dr. Chase's Medicines (\$2.50) Miss Emily Samways, Country Rd., Bay Roberts, Nfld.

(13) Dr. Chase's Medicines (\$2.25), Miss L. M. Bell, Simcoe, Ont.

(14) Dr. Chase's Medicines (\$2.00), Miss H. Hibbs, Clinton, Ont.

(15) Dr. Chase's Medicines (\$1.75) Mrs. J. J. Harris, North Lake, P. E. I.

Hotelmen Want to Keep Open Saturday Night.

Toronto, April 11.—A large body of liquor dealers from the province waited upon the Ontario government this morning, to urge certain amendments to the Liquor License Act in the nature of longer hours and recompense because of the stringent restrictions now placed upon the trade.

The delegates which were from the committee of the Licensed and Allied Trades Association were headed by President Paisley of Ottawa, who acted as spokesman.

The chief change advocated was in the extension of the hours on Saturday evening from seven to eleven o'clock. They claimed that more drunkenness followed the present law in this regard than on any other night of the week. Further in view of so many licenses being suddenly cut off they thought the license revenue should be drawn upon to provide recompense for the hotel keepers thus despoiled of their living.

Sir James Whitney and Hon. W. J. Hanna received the visitors in camera and a long and serious discussion of an hour followed. When the delegates issued they were in a very reticent frame of mind, and several in disgruntled fashion intimated that they had obtained little sympathy from the government.

The further request that organdrider girls be kept out of hotels did not receive much attention, Mr. Hanna explaining that proposed legislation would eliminate this.

Titanic Wreck Claims.

New York, April 14.—Tomorrow, the first anniversary of sinking of the steamship Titanic, has been set as the last day on which claims against the Oceanic Steamship Company, owners of the ill-fated ship can be filed in the United States District Court for loss of life and property. Damages in excess of \$10,000,000 already have been asked.

The last day for filing claims was originally set for February 11, but the time was extended. Up to that time a total of \$8,000,000 in alleged damages had been demanded of the company. Ninety-nine claims, aggregating \$2,216,000, have been filed since that date and more may be added to-morrow.

The amount in which the Oceanic Steamship Company is liable will be announced in a decision to be handed down this week by the United States District Court.

The ninety-nine claims filed since February 11 are principally those of persons seeking to recover for the death of sailors and steerage passengers. The largest suit is for \$510,000, for the death of Clarence Moore, who was a broker of Washington, D.C. Another large claim is for 50,000. It is made on behalf of the mother and father of Ama Skoog, who was lost with her husband and three children.

For Better Steamship Service With West Indies.

Ottawa, April 14.—It is reported that an arrangement has been made for one year for a better steamship service between Canada and the West Indies. In the past there have been four boats with sailings from Halifax every 12 days, calling at St. John on the homeward voyage. This service was provided by the firm of Pickford and Black, and received an annual subsidy of \$100,000.

The new arrangement, it is stated, will be with Pickford and Black, who will as sociate other steamship interests with them and have two most modern vessels on the route. A service will be given to all the West Indies which are in the new trade agreement, the ports of call in Canada remaining the same. The subsidy, it is understood, will be larger than in the past.

To Prevent the Sale of Stale Eggs

Montreal, April 12.—How to protect a long suffering public and long-suffering produce merchants from the sale of stale or rotten eggs was the object of a meeting of the egg trade of the province at the Board of Trade yesterday. It was stated that the matter had been effectively dealt with in the States of Kansas and Michigan, and the necessary legislation should be secured in this country. The result of the discussion was the unanimous adoption of a resolution in favor of a Dominion Egg Marks Act, similar to the Fruit Marks Act, such act to make unlawful the buying, selling or trading in rotten eggs and to include such other regulations as may be thought advisable.

Another resolution favored changing on June 1st next from the present system of buying eggs, known as 'case count', to a system of buying only on a basis of quality, and also disapproved of paying for any rotten eggs in receipts after that date.

Steps were also taken towards forming the whole produce dealers all over the Dominion into the Canadian Produce Association.

At present when bad eggs are found in the cases there is no recourse for the dealer to take. This system is known as the 'case count', and has prevailed for some years. It provides for no discrimination whatever. A flat rate is quoted; stale and bad eggs command just as large a price as the highest grade. In such an arrangement the producer receives no encouragement to market an article of high quality. Moreover, it was pointed out that country storekeepers receive no premium even when particular care is taken to place their shipments upon the final market in the best possible condition. As a matter of fact, the 'case count' or flat rate system is equivalent to placing a premium on careless and dilatory methods in this production and care of this product.

Representing the Federal and Ontario Provincial Governments, the following officials attended at the request of the trade: Prof. W. R. Graham of Guelph; Mr. W. A. Brown, Live Stock Dept., Ottawa; Mr. J. H. Hare, Live Stock Dept., Ottawa; and Mr. F. C. Elford, Poultry Manager Experimental Farms for the Dominion, Ottawa.

The efficacy and the imperative need of a system of payment based upon quality was set forth by these speakers.

Farmer Is Killed By Bursting Palley

Aurora, April 11.—Mr. Leonard Hutchinson died at 5.30 o'clock this afternoon at his home, Hillcrest Farm, near here, as a result of having his forehead split open by a piece of a pulley wheel. Mr. Hutchinson was filing a new piece he had put into the wheel, which was connected with a trucking machine, and was leaning over it, when without warning the wheel flew in pieces. One large piece, after striking him, tore a hole over two feet long through the roof.

The accident happened at 2.30 p.m., and Drs. Stevenson and Hillary were called, but the injured man never regained consciousness.

Mr. Hutchinson was in his thirty-sixth year, and was the only son of Mr. John W. Hutchinson, who lives at the junction of the G.T.R. and the Metropolitan Railways and Yonge street. He is survived by his wife and two small sons and his parents.

Interment will take place in Aurora Cemetery at 3 p.m. Monday.

Mrs. Pankhurst Released From Jail Today

London, April 12.—Mrs. Emmeline Pankhurst, the suffragette leader, was released from Holloway jail this morning after having been on a hunger strike since she was sentenced, only nine days ago, to three years of penal servitude.

Mrs. Pankhurst was never offered the ordinary prison fare, but had placed before her well cooked meals, consisting of roast meats, fowl and vegetables until her strength declined as a result of her hunger strike.

Then an attractive diet such as is given invalids was supplied for her—boiled chicken, custards, beef tea, jellies, and tea and coffee. All these, however she strenuously refused to partake.

SINGER

Home Trial.

We want to put a Singer Sewing Machine in your home for a free, fair, full trial.

We want every woman to see for herself why the Singer is recognized as the best in the world.

Use it for your everyday sewing—use it for your fine dressmaking—use it for hemming, tucking, binding, all kinds of work, and then you will know why the Singer is used in every country in the world by those who make sewing a business.

Needles for all makes in stock.
Old machines taken in exchange.

Income Exemption To Be Increased.

Toronto, April 11.—Exemption on personal earnings of householders raised from \$1,200 to \$1,500 in cities, and from \$900 to \$1,200 in towns and villages.

Repeal of section allowing 'farm land' assessment in towns and villages.

Exemption on incomes from investments raised from \$300 to \$400.

Rural telephone lines of less than 25-miles in length to be exempt from taxation.

Public utility corporations to be exempt from taxation.

Clearing up of section respecting assessment of land and buildings.

These half dozen important amendments to the Assessment Act, three of them based upon the report of the Special Assessment Committee were introduced in the Legislature yesterday by Hon. W. Hanna, and given first reading after a short explanation of the changes.

The most important of the proposed improvements in the Act are those dealing with the increasing of the income exemption, the method of assessing land and buildings, and the wiping out of farm land assessments. Clause 36 of the Act as it stands at present is supposed to direct assessors to assess a building or improvement, not at its cost, but at the amount by which it adds to the value of the land upon which it has been placed. The special committee in turning down the 'local option' bills recommended that since many assessors were not working on this basis the section might be altered in order to make its meaning quite clear, and this has been done.

The exemption of earnings of householders and heads of families is made in response to a general demand. With the increased cost of living the former exemptions, while at one time fair enough, are now too low. The same reason is given for the proposed exemption on income from investments.

The wiping out of the 'farm land' assessment in towns and villages is important in that it will act as a check upon the holding of land for speculation in districts bordering growing cities or in small municipalities that have begun to grow rapidly. Instead of putting a couple of cows, or planting oats on their lots speculative owners will have to pay on an assessment based on the actual value of the land.

Rural telephone lines which do not exceed twenty-five miles in length, and have no more than one switch or party on the same circuit are exempt from taxation. The law is also to be made clear that public utility enterprises are exempt.

Glenagry And Stormont Ry.

Cornwall, Ont., April 11.—In order that strength may be added to the deputations recently appointed by the Cornwall town council and board of trade to go to Ottawa to interview the Government regarding a subsidy for the Glenagry and Stormont Railway, which C.L. Herve, C. E., and a company propose to construct from Cornwall to connect with the C.P.R. at St Polycarpe, Que., the Charlottetown council has appointed a deputation of influential citizens of that municipality as follows: D.D. McDonald the reeve of Green Valley; G. E. Clark, councillor, Martintown; Geo. A. Watson, township clerk, Williamstown; A. P. McDonald, ex-reeve of Williamstown; and Major H. A. Cameron, ex-reeve and ex-warden of the united counties.

Mr. Harvey was here this week conferring with the members of the town council and the special committee of the board of trade. If a subsidy is granted the road will be proceeded with at once. The deputations will go to Ottawa shortly to interview the Minister of railways and canals.

Lady Thompson Dies Following Operation.

Toronto, April 11.—Lady Annie E. Thompson, widow of Sir John Thompson, who was Premier of Canada from December, 1894, died yesterday at the general hospital following an operation.

Lady Thompson has resided in Toronto practically continuously since the death of her husband in Windsor Castle, December 12, 1894.

Born in Halifax, N.S., Lady Thompson was educated there. On her husband's death a fund was raised for her benefit, to which the Parliament of Canada contributed \$25,000.

A founder of the National Council of Women in Canada, she was at one time Dominion president, and took an active interest in its undertakings. Mr. John Thompson arrived from Ottawa on Wednesday, and was at the bedside of deceased when the end came.

Buffalo Street Car Strike Ended

Buffalo, April 11.—The welcome news that the street car strike has been settled came from the Mayor's office shortly after 5 o'clock today. President Connette and Attorney Porter Norton of the International Railway Company, President McMahon and W. B. Fitzgerald of the Street Men's Union, and the members of the men's local committee were seen smiling and shaking hands as the door of the Mayor's private office was opened. Copies of the agreement between the company and its men were passed out, and in a few minutes word that the strike was at an end was all over the city.

All the men who were in the employment of the company on Saturday, April 5, 1913, go back to work in their old positions and with the seniority of service that they then held. Within five days after the men have returned to work the company is to take up with a committee of its employees the adjustment that led up to the strike.

The men have protection for their union in a clause which states that if the committee delegated to deal with the company cannot reach a satisfactory agreement a demand for arbitration can be made by either the men or the company, binding on both after a written notice has been served.

The strikebearers are now being paid off by the International Company and are being escorted to their trains.

Back to the Farm.

The people of this continent are about to be behold a great object lesson in the neighboring republic the Democrats go into power and the Republicans go out. The latter, like a great army who have surrendered with all the honors of war march out with their arms in their hands.

They turn their backs on the gorgeous palaces, the rich and splendid temples of the vast city they held so long, to go forth into the desert.

When one realizes that there are millions and millions of rich wheat, fruit and grass lands still unclaimed on this great continent, one wonders an intelligent youth would prefer an office to a farm. Thrones and administrations may crumble and fall in hideous ruin, but the farm stays on. The young fellow who preferred to stay on the farm rather than take an office under the McKinleys and the Roosevelts and the Tafts is better off today than his brother who did.

The title 'independent farmer', is no misnomer. He is his own master. The man who holds office, whether it be a country post-office at an obscure cross-roads or a seat in the Cabinet, is not his own master. He who is not his own master is more or less of a slave. The farmer is the only man who is free. His farm may be rocky and thin, but if he have any brains at all he can make a living. One thing sure: he always has an abundance of good milk for the baby. If he is any manager at all, he can set aside a healthy and wholesome young cow to cater to the baby. How many men and women in crowded centres would consider this the greatest luxury of life. They can have their autos and player-pianos and their first nights at the opera and the play houses, but they haven't got a cow behind the garage that caters for the baby. Baby's may come a hundred—three hundred—miles; the farmer's baby gets it right at home, and gets the pure quill, the real thing, undiluted, sweet and warm—and all of it she wants. The clever ladies who write about the nursery and the home tell us that a baby that gets all the fresh, sweet, pure milk she can surround won't die—she can't die!

But some of these fellows in offices have not only one master; they have a dozen or more. And there's always someone looking for their job. And they are likely to get into trouble. They are charged with offensive partisanship. Can you blame them? Their bread and butter and the baby's pint bottle of milk depend on the 'administration remaining in power.' Self-preservation is the first law of nature. No wonder some of these fellows work frantically to maintain the Government.

It will not be a very elevating spectacle of this chat go of administration to see the broken and discomfited horde march out and the eager and exultant horde march in.

If the horde that marches out will go on the land, if they will raise hogs and ho niny, sugar cane and alfalfa, beef and mutton and corn, the election of Woodrow Wilson will be the best thing that could have happened to them.—THE KAHN in the Toronto Star.

John L. Garvin Dead.

Ottawa, April 11.—John L. Garvin, aged 47, a former well-known newspaperman, of Toronto and Montreal, died here this evening. He came to Ottawa in 1880, as parliamentary correspondent for the Toronto News and afterwards represented the Toronto Globe, and Montreal Herald. Latterly he was with the Ottawa Journal. He was a well-known athlete in his earlier days, and in 1888 went to Great Britain with the famous Toronto lacrosse team.

I have have just returned from the west, after buying a car of GOOD CLEAN SEED OATS; also CAR OF GOOD SEED CORN of the best that I could buy. Call or phone and get prices before buying.

The Farmers Feed and Seed Friend.

W. HAMILTON, Chesterville

A Neighborly Conspiracy

Mr. Grimes had a large lawn in front of his house and another at the side, and it was his custom to get up and run his lawnmower at five o'clock in the morning. In vain his neighbors protested. In vain they complained that he woke them up just when they were sleeping the soundest; and that they could not go to sleep again.

"Nobody has any business snoozing after five o'clock," he said. "Go to bed early and get up early. That's the way I do. Think I'm going to wait half a day for you to sleep off the effect of your late hours, when my grass needs cutting? I guess not!"

Then his neighbors did a little planning. They found out that he went to bed at nine o'clock, and they made their arrangements accordingly. Punctually at nine o'clock the next moonlight evening the sound of a lawn mower in action was heard directly across the street from the Grimes dwelling. Presently another one came in, then another and another, and in less than fifteen minutes at least a dozen were in active operation.

At ten o'clock or thereabouts an upper window in the Grimes house was closed with a vicious bang, but the rattle of the machines ceased not, and the noise became even louder. It was a bright night and the industrious neighbors, bareheaded and in their shirt-sleeves, appeared to be enjoying their exercise. There was no more grass to be cut, but they continued to go through the motions. In accordance with the prearranged plan, there was no conversation. The lawn-mowers were permitted to make all the noise, and they needed no assistance.

At eleven o'clock the window that had been closed was opened again, and the unkempt head of Mr. Grimes was thrust forth.

"Say," he called out, "how long are you fellows going to keep that racket?" "Not more than an hour longer," answered a voice.

"Well, say," spoke Mr. Grimes again, after a pause, "if I'll agree not to run my lawn-mower before seven o'clock in the morning after this, will you stop that noise and let me go to sleep?"

"We will."

"Well, it's a bargain," he said.

Concrete is the cheapest building material

Canada Cement

which Canadian farmers use, with their own sand, stone and gravel to make concrete, is the only ingredient you have to buy.

We have, by reason of our large output and scientific methods, been able to bring the price of "Canada" Cement so low that it is within the reach of everyone.

An increase in demand results in a greater economy of production, and when conditions have warranted it, we have, from time to time, shared this saving with the consumer by reducing the price of Canada Cement. This demand will continue to increase—as fast as farmers learn of concrete's superiority over other materials.

When you buy cement, see that you get "Canada" Cement; by so doing you will assure the complete success of all your concrete work.

Send a post card for our book "What the Farmer Can do With Concrete." It is free.

There is a Canada Cement dealer in your neighborhood.

Canada Cement Company Limited - Montreal

McINTOSH & SMITH, Dundela, Ont.

PUBLIC NOTICE.

For the benefit of the public it has been decided to enforce Bylaw No. 192 of the Village of Chesterville, and I hereby give notice that persons violating this Bylaw, or any part of it, will be liable to the penalty set forth in said Bylaw, which is \$50 for each and every offence. I will here mention a few of the offences covered by this Bylaw.

First, that no one shall run or draw a bicycle or other vehicle on sidewalks; that three or more persons standing or loitering on walks in such a way as to obstruct passage of pedestrians; anyone using abusive or profane language; or the throwing of rubbish of any sort on the streets or vacant lots in the village; also the playing of base-ball or lacrosse on the streets.

These are just a few of the infringements commonly made on this Bylaw. Said Bylaw may be seen by any citizen applying at the clerk's office.

G. W. BOGART, Reeve. Chesterville, April 9th, 1913.

Put Companies On The Same Basis As Hydro

Toronto, April 16 — Another move has been made in the engagement between the forces of public ownership and the private corporations in Newmarket, and, since the Hydro-Electric Commission has made it, the Metropolitan Railway emissaries will have something to worry them for a few days to come. On Monday evening the Newmarket council decided to turn down the Hydro-Electric Commission's offer in favor of one made by the Metropolitan Railway Company. Yesterday the Hydro-Electric Commission answered that action by securing the introduction of a measure in the Legislature that will block any contract between the town and the company and force the council to put the matter to the people.

The bill was introduced by Hon. Adam Beck, and puts private power companies on the same footing as the Hydro-Electric Commission with regard to making contracts. At present it is necessary to take a vote of the people before a municipal corporation can enter into a contract with the commission; but no such vote is required in the case of a contract with a private company, provided that the power is distributed by the municipality, which of course, does not involve the granting of a franchise.

The present law would allow the council of Newmarket to enter into a contract with the Metropolitan without giving the people a voice in the matter at all.

When the minister had introduced the bill, Mr. Rowell asked the minister to explain it, but he smilingly declined.

"I would rather explain it on second reading," he said.

While Hon. Mr. Beck would not state that the bill was chiefly intended to cover the Newmarket situation, it is understood that the commission is not satisfied to accept a "turn-down" at the hands of the Newmarket council unless satisfied that in favoring the Metropolitan they are expressing the will of the townspeople.

Churches and Newspapers

One or two Toronto clergymen have lately advocated advertising campaigns in the newspapers as a means of promoting the work of the churches. A number of Boston congregations are associated in an organization headed by business men and this society has been using the columns of the local press somewhat freely for large type advertisements. A half-page display advertisement, which recently appeared, bore a head line reaching across the page and reading: "Why Not Go to Church?"

Beneath this heading ran a few sentences and easily grasped sentences regarding the vital importance of the church as a social and moral influence. Then followed this paragraph: "Every non-attendant upon religious services virtually votes for the elimination of the institution from society. If a person believes that the world needs the church, he has but one clear, unmistakable, and unanswerable way of stating his position. That is by regular church attendance. The man who goes to church stands for an indispensable institution, even as a good citizen stands for the state by voting. Absenteeism from the ballot-box and absenteeism from the church are kindred failures in duty to society. Thoughtful persons stand for the church because the church stands for the best things. The church-goer lines up with the forces which make for righteousness."

The rest of the half page had advertisements of the different city churches, and their services, with this significant line in the middle: "In case of illness, death or other trouble, any of the city ministers will be glad to help." All this looks as if the churches of at least one city have agreed upon a new measure of union, or at least of united effort that may be far-reaching in its good results.

Excitement Proved Fatal

Kingston Ont. April 14—Jonathan Knight, 86 years of age, rose this morning in a joyful mood, for he was to celebrate the sixtieth anniversary of his wedding. The excitement was too much for him, however, and he became suddenly ill and died in a few minutes, heart failure being the cause of death.

For the Children

Canary That Loves Music of the Flute.

© 1912, by American Press Association.

Many young folks have canary birds as pets and have taught them amusing and cute little tricks. Canaries when gently handled are very amenable to discipline and learn to do in a way some very interesting feats. But a really wonderful little bird is that possessed by Master Cassin, an English boy who plays the flute. When its master plays the bird will fly to him and perch on his fingers, hopping from one to another as the performer manipulates the various keys, all the while accompanying the music with his own sweet little song. Frequently Miss Nanny Cassin plays an accompaniment to her brother's flute on the piano, and then the canary seems filled with ecstasy and warbles its sweetest notes. Truly this is a remarkable musical trio—the two children and the feathered performer.

Trick Paper.

Boys who are fond of performing tricks in the parlor when company is being entertained will find the piece of fireproof paper quite a mystery making thing. Take a bit of paper—say a sheet of ordinary note paper—and dip it in a strong solution of alum water. Let it dry and repeat process, again drying it. After it has been dipped and dried three or four times press it quickly and gently with a warm iron and place back in the box of stationery. When you decide to show the trick remove the sheet of paper from the box casually, as though it is the same as the other paper, and hold it over a lighted candle. It will not burn. The trick must be performed within a few minutes after the last application of alum water. It can be prepared after the company has arrived, the boy doing so in the kitchen secretly and some member of the family slipping it into the box of stationery for him as he talks to the company about tricks, explaining what he is about to do, etc.

Don'ts In Handling Books.

Don't leave a book lying open face downward. It might split the back. Don't handle any book before you are sure your hands are clean. Don't lean upon a book. It makes you look lazy, and, besides, the binding won't stand it. Don't turn down the corners of the leaves to mark your place. Make a bookmark for this purpose. Don't hold a book near the fire. The binding might not be able to stand the heat. Don't use a textbook without putting extra covers on it. Don't increase your library at the expense of anybody else's. Of course we don't mean to say that you mean to keep any book that does not belong to you. You simply "forget." But don't let your memory clog up in this matter.

Birds Rise Early.

The song of the thrush is heard about 4:30 in the morning. The whistle of the quail is first audible in the woods about 5 o'clock. The blackcap turns up about 2:30 on a summer's morning. The blackbird is flooding the wood with melody by 4 o'clock, and the sparrow and tomtit are the laggards in the list of early rising birds. It is 4:30 before the voices of the robin and wren are heard in the land. You will have heard the chaffinch, the linnet and any number of other hedgerow warblers a good long while before your attention is attracted by the rising song of the lark.

Cruise of the Twenty-six.

Said A to B, "Let's go to C." But B said, "Sail the river D."

Province Sues Nurse.

The Attorney-General of Ontario is the plaintiff in an action against Ellen Page, a nurse at the Asylum for the Insane, Mimico, which comes up before Mr Justice Lennox in the Non-jury Assize Court today.

According to the claim of the Attorney-General's Department, a number of articles, including an insurance policy for \$1,000, a signed check for \$30 and a gold watch, were taken by Miss Page from Frederick Halis, a patient, shortly before or after his death. The claim states that Halis has no relatives, and therefore the estate passes to the Province. Miss Page declares Halis gave her the money.

Free Site For Drill Hall And New Armory

At a meeting of the Cornwall council Monday night a free site was granted to the militia department for the purpose of erecting a drill hall and armory.

Pope's Death A Matter Of Hours

Ottawa, April 16—Archbishop Gauthier, Ottawa, tonight received a cablegram from Rome, stating that the Pope's end is near.

Rome, April 16—Although tonight's bulletin seems favorable the condition of the Pontiff is really no better. He is fast growing weaker. Today a high Vatican official, who for obvious reasons does not wish his name mentioned, said: "Naturally none of us are allowed to see the Holy Father, but the conviction is general in the Apostolic Palace that we are at the beginning of the end. His Holiness has a very high spirit, but is gradually losing his grip."

Bulk Sales Act Shelved Again

Toronto, April 11.—The wholesalers and manufacturers of the province were "bumped" in the Legal Committee again yesterday, the "Bulk Sales Act," which was expected to become law this session being shelved for another year. The bill stands over until next session on the understanding that two or three months before the House meets copies will be distributed among the retailers of the province in order to secure an expression of their views.

J. R. Dargavel of Leeds, was the chief champion of the retail merchants, who have set themselves strongly against the Act. The arguments of the retailers are that the proposed Act is class legislation, it would mean that an honest merchant desiring to transfer his stock would practically have to go into an assignment, and that by protecting the wholesaler it would make him more reckless in extending credits and thus injure the trade.

The supporters of the Act claimed that it would protect and benefit not only the wholesaler but the retailer as well, since he would not have to shoulder the losses due to fraudulent debtors. The others could not see it that way, however, and the committee finally adopted a suggestion urged by T. W. McGarry and T. H. Ferguson in favor of postponing a decision. This went to a vote and resulted in six voting for postponement and four against.

Sir Thomas Shaughnessy Gives His Views On The Naval Question

London, April 13.—Sir Thomas Shaughnessy, who arrived in London on Saturday, in giving an emphatic denial to the story telegraphed from Canada to the effect that a shipping agreement had been concluded which provided for the construction of ships "capable of being converted into armed cruisers in time of war" gave his opinion on the naval defence scheme now under discussion.

"My view," he said, "is that most Canadians with whom I have come in contact think that Parliament should endeavor to arrive at a non-partisan decision. Notwithstanding the character of some of the debates on the matter in the House, I still cherish the hope that an understanding will be come to in which both parties can concur. Personally, I see no reason why the Borden policy and the Laurier policy should not be coupled up in one measure, which would receive the unanimous approval of Parliament and command the general support of the country as a whole.

"There is no doubt that Canada as a nation is anxious to do its duty in the matter of protecting British commerce on both shores of the Dominion. Canadian commerce is growing at such a rate that it must in the near future assume such magnitude that the provision of adequate naval defence will become imperative.

"At the present time there are not the necessary facilities existing in Canada for the adequate construction equipment, arming and manning of warships of the size and power that would be required. More particularly does this apply to the manning of ships. The demand for men in Canada is so great in every walk of life that we really have no spare population available for the manning of these ships, even if we could build and equip them. There is no doubt, however, that as the years roll on these conditions will undergo such change that we shall have a population in sufficient numbers and of the required class of men to man our warships.

"In the meantime, Premier Borden's proposals meet the existing situation by providing for an immediate contribution to the British navy. My view is, those proposals, when adopted, should be accompanied by a declaration of policy that hereafter, when Canada is in a position to build and man her own ships, she shall proceed to do so at the earliest possible moment.

CITY CIRCULATION AGENT

Of Leading Montreal Daily Endorses GIN PILLS

FOR long years of suffering from Kidney Trouble—two boxes of GIN PILLS—and it's all gone. That has been the experience of Mr. Eugene Quesnel, Chief City Circulation Agent of La Patrie, of Montreal. He describes it feelingly:

Montreal, May 3rd, 1912

"I have been suffering from Kidney Trouble for over five long years. I had also Rheumatism in all my bones and muscles, could not sleep nights and on some occasions could hardly walk. I had been treated by some of our best Physicians but without relief and I lost over fifteen pounds. One day I met one of our leading hotelkeepers, who had been cured by your famous GIN PILLS, and he advised me to try them. So I bought two boxes at my druggist's and before I had used one box I felt a big change. Before I finished the second one I was completely cured.

I can assure you I can hardly believe it for I had only known what I know now I would not have spent over One Hundred Dollars for nothing when two boxes of GIN PILLS cured me."

EUGENE QUESNEL.

GIN PILLS are gaining a world-wide reputation, by the way they conquer the most obstinate cases of Rheumatism and all kinds of Kidney Trouble. 50c. a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto. 149

Ottawa & New York Railway.

For many years, says the Ottawa Journal, patrons of the Ottawa & New York Railway, using the line between Ottawa and Cornwall have been complaining most bitterly of the equipment and accommodation provided by this company in operating its passenger trains. Two or three years ago the matter was drawn to the attention of the Board of Railway Commissioners for Canada and the road ordered to clean up its cars. To a certain extent the Company obeyed the order, but in so doing it evidently did not go far enough to satisfy the travelling public and the matter was up before the Board again on Tuesday, April 1.

The complainants were represented by George May, ex president, and Cecil Bethune, secretary of the Ottawa Board of Trade, and R. B. Faith.

Evidence was given by these gentlemen, backing up the complaints and letters were read from the Ottawa Commercial Travellers Association and the Board of Trustees, Russell village, setting forth the conditions as every one who has occasion to use the road knows them—and calling attention to the apparently deliberate failure to make connections at Finch Junction, which is a great inconvenience to many travellers.

Mr. Gays, General Manager of the road said the company would provide spittoons for its smoking cars, and that it would not be necessary for the Board to pass an order to this effect.

After considerable cross-firing the Board of Railway Commissioners decided to withhold their decision until A. J. Nixon, chief operating officer, had investigated the matter and made a report to the Board.

A Cause of Much Loss in Cattle Raising

Unfortunately for Canadian cattle raisers many calves are lost each year through the accident of premature birth. While no doubt many of these losses are due to injuries a much greater number are caused by contagious abortion. When this disease obtains a foothold in a herd the consequences are apt to be serious, as it is readily transferred from animal to animal making it almost impossible under usual farm conditions to raise calves for perhaps a series of years.

For the information of cattle raisers the Veterinary Director General has issued a reprint of a leaflet of the British Board of Agriculture and Fisheries on this disease which is being made the subject of very careful study and experiment in the Old Country.

This reprint which constitutes a brief pamphlet of less than four pages deals with the subject under the following heads:—Animals affected, The Microbe, Virulent Material and Method of Infection, Symptoms and Prevention.

It is written in plain language and contains information of great value to all cattle raisers and persons who are studying the disease. It is printed free for distribution to those who apply for it, but it is not sent out to the regular mailing list of the Publications Branch of the Department of Agriculture, at Ottawa.

Magistrates To Show What They Have Been Doing

Toronto, April 14.—In the future all police magistrates will have to "toe the line" and show what work they have been doing and the fees they have been collecting for it.

In the statute law amendment act now being prepared by the government had inserted a clause requiring every police magistrate who receives a salary from the government to make an annual return to the Attorney-General of all indictable and other offences tried by him, together with the amount of the fines and by whom paid. While no official explanation of this clause has been given it is understood that the Attorney-General's department has recognized the need of keeping tab on the fees collected by the magistrates and has taken this means of doing it.

The new legislation gives the government the right to prescribe any form of return considered best. The government has adopted an opposition suggested to place each registration district into which an electoral district is divided under a chief registrar. At present the board of registration has power to appoint as many registrars as it considers necessary.

Another change incorporated in the act widens the authority of coroners by giving them control over all wreckage in which a person has met a violent death. This will include the wreckage of buildings, bridges, in fact structures of all kinds.

The act contains a provision to allow veterinarians who graduate from some recognized college other than the Ontario Veterinary College to practice their profession in Ontario. They are given this privilege upon passing the senior year examinations and upon payment of a fee of \$25, providing they can produce a veterinary preceptor's testimonial that they have put in six months' practice under him, or a statutory declaration that they have had a year's practical experience.

Aged Statesman Off For England

Winnipeg, April 11.—Sir Charles Tupper, notwithstanding a natural infirmity consequent upon his ninety two years, arrived in Winnipeg this morning feeling " hale, hearty and strong," to quote the words of his son, W. J. Tupper, at whose house he is visiting. "Sir Charles has never had a better journey," said his son, "and the talk of his indisposition was a pure fabrication."

The veteran ex-Premier left Vancouver on Tuesday night, and after visiting a few days here he will proceed to Halifax, remain there a few days, and on May 3 embark on the Empress of Britain for England. His goal is the family seat, "The Mount," Bexley Heath, Kent, England.

Port Dover ratepayers carried a by-law to spend \$10,000 more on the high school in addition to \$22,000 previously voted; also sanctioned submission of a Hydro-electric by-law.

The McLaughlin Carriage Company have been engaged in the development of vehicles for 43 years—over 38 years of that time have been devoted to making carriages. They were made well, as might be expected when every effort, every new and tried idea was applied to the betterment of their construction and to the extension of their service. McLaughlin buggies bore a good name, but they earned it. It was won on sheer merit. A farmer or townsman bought a McLaughlin buggy when he had the price simply because it represented the best he could get. He could buy cheaper buggies, but he couldn't get McLaughlin service. Service can't be had for nothing; it costs money, and it's worth it.

But here's the point. The same standards that made the McLaughlin buggy famous are still applied to the making of McLaughlin cars. Each McLaughlin car is the product of the accumulated experience, skill and knowledge of over forty-three years directed solely along one line. Methods haven't altered. It is only the principle of locomotion that has changed.

In relation to service, consider well that which goes with every McLaughlin car. Through its depots located all over the country, the resources of the McLaughlin plant are placed convenient to the needs of the McLaughlin motorist. Over one hundred thousand dollars' worth of parts are carried for the single purpose of giving quick, economical service. You may never need this service, but all the same, it's mighty comforting to know that it is at your disposal when and where you want it. This is partly what is meant by McLaughlin service. It covers the country.

No other Company in Canada has so much invested in service for its customers.

Do A Bigger Day's Work With Champion Side Delivery Rake and Champion Hay Loader

Sulky rakes are all right as far as they go, but you can do a far bigger day's work in the hay field by using the "Champion" Side Delivery Rake and the "Champion" Hay Loader. The Side Delivery Rake shakes up the hay so it will be in best condition for curing and leaves it in a continuous windrow ready for the "Champion" Hay Loader. This machine then follows along and loads the hay just as fast as you please—two tons in ten minutes. Just let us send you catalogue so you can see for yourself how much you require these machines.

WINCHESTER SPRINGS.

Miss Essie Connor spent a few days renewing old acquaintances.

Mr. Irwin Hilliard of Morrisburg passed through here on Monday.

School reopened last week with Miss McDonald and Miss Levign as teachers.

Mr. Frank Gardiner left last Monday night to attend college at Toronto.

The annual Women's Missionary meeting of the Methodist church was held at the home of Mrs. Gavin Christie.

Mr. and Mrs. Gordon Merkley returned home after visiting friends in Ottawa.

Mr. and Mrs. George Barkley spent last Sunday at the latter's parents, Mr. J. A. McIntosh's.

The Women's Missionary meeting of the Presbyterian church was held on Wednesday at the home of Mrs. J. P. McIntosh.

At Winchester Springs on March 24th Mr. John Munroe passed away. The sympathy of the community is extended to the bereaved ones.

Born—To Mr. and Mrs. Robert Ball on Saturday, April 5th, a daughter.

One Time Doctor To Li Hung Chang Is Dead.

Montreal, April 16.—The Rev. Dr. Edgerton H. Hart, brother of the Rev. E. I. Hart, pastor of the Dominion Square Methodist Church, a noted surgeon, who was at one time the doctor attached to the family of the famous Li Hung Chang, died on April 14th at Wuhu, Central China, according to a cablegram received here today.

The Rev. Dr. Hart was well known throughout Canada and the United States, although not a visitor to Montreal for ten years. He had been connected for twenty years with the Methodist Episcopal Church of the United States. He was particularly well known in Toronto, having received the greater part of his collegiate and university education there, although he was also a graduate of Columbia University, New York.

As a surgeon he was well known throughout the Empire. It is ten years since the late Dr. Hart has visited Montreal, being here on furlough, when he delivered several addresses in this city. He was also on furlough last year, and delivered a number of addresses in the United States. Interment will take place at Wuhu.

GRANTLEY.

Mr. Milton Carr spent a few days in Berwick last week.

Miss Banford spent the holidays at her home near Iroquois.

Mr. Tom Carr, of Smith's Falls, visited friends here last week.

The local cheese factory opened on the 7th, a week earlier than last year.

Mrs. John Bryant, of Berwick, visited her parents and other friends here recently.

Miss Nettie Munro left on Tuesday for Cornwall, where she will attend the C.C.C.

Misses Mary and Jane Hart and Mr. B. Hart, of the M. C. I., were home for Easter.

Mr. Stuart Woods, of Chesterville, was a guest at Mr. Sandy Gordon's on Tuesday.

Mrs. John Munro, of Nation Valley, spent the week at her father's, Mr. J. McMillan, sr.

Miss Jean Gordon and her friend, Miss McGillivray, of Montreal, spent Easter at the former's home here.

Messrs Arthur and Pliny Fetterly and Mark Starbird, of Cornwall, spent Easter with Mr. and Mrs. S. Gordon.

We are sorry to report the serious illness of Mrs. John Shaver and Mr. Herman Shaver. We hope for their speedy recovery.

Mrs. Mark Fetterly, sr., and Mrs. R. Starbird, of San Francisco, Cal., were visiting the former's grand-daughter, Mrs. S. Gordon, recently.

Four Injured When Engine Left Track With Cars

Sherbrooke, April 16.—One man was rendered unconscious and three were slightly injured when the baggage car and four passenger cars of an immigrant special went down the bank about two miles east of Lennoxville, this morning.

How practically all the nine hundred passengers escaped injury seems a miracle. The engine was the first to leave the track and it is supposed that this was caused by a spread rail. The excitement among the passengers was intense and the greatest confusion prevailed so that it was impossible to tell for some time how many were injured.

The engineer and fireman were badly shaken and slightly bruised when they jumped from the engine. A new train was made up and the passengers proceeded on their way about ten o'clock.

An engineer of the Hydro-Electric Commission is in town for the purpose of preparing estimates for the poling and wiring of the village for electric current.

DUNBAR.

April, 14th. Miss Emma Bantford spent part of the past week with her cousin, Miss Winnie Johnston.

Mr. and Mrs. John H. Deeks spent Sunday the guests of their daughter, Mrs. E. M. Beckstedt of Glen Becker.

Miss Flo Ouderik and Mr. Herbert Durant were the guests of Mr. and Mrs. Harvie Dillabough on Sunday.

Messrs Orrie Bouck and Bismack Barkley spent Sunday in Goldfield visiting Mr. Jacob Marcellus.

Mr. A. MacMaster of Winchester, was calling on friends in our vicinity recently.

Mr. and Mrs. Henry Whittaker and Mr. and Mrs. Henry Barkley of Williamsburg, spent Sunday at Mr. Lemuel Dillabough's.

The Emporium School has re-opened with Miss Mullin as teacher.

Mr. and Mrs. Herbert Clarke and son Theodore visited friends on Thursday.

Mr. and Mrs. C. S. Merkley were the guests of Mr. and Mrs. George Merkley on Sunday.

Messrs Jacob Froats and Frank Lennox went to Cornwall on Monday to serve as jurors.

Mr. and Mrs. Myron McDonald are moving to Ottawa this week.

The annual meeting of the Dunbar Brass Band was held on Thursday evening. The following officers were elected for the ensuing year:

Pres.—Mr. Myles Marcellus.

Sec'y.—Mr. Geo. S. Carlyle.

Treas.—Mr. Harvie Dillabough.

Board of managers.—Messrs Harvie Durant, Orrie Bouck and John Carlyle.

Auditors.—Messrs Charlie MacMillan and Willie Carlyle.

Mr. Elza Barkley acts as Chairman and the first practice is to be held on Friday evening under the able management of Mr. John Fulton.

Made Dash For Freedom.

St. Catharines, Ont., April 15.—There was great excitement on the Niagara River, opposite Niagara-on-the-Lake, yesterday. Two military prisoners from the U. S. Fort Niagara, had been allowed out for an airing, and they decided to try and get away to Canada. They seized a small boat. They could find no oars, so they pushed off for the land of the Union Jack, relying on some small boards they found in the boathouse, for paddles.

The guards noticed them and raised the alarm. The fugitives finally upset the boat, and found themselves floundering in the icy water. They cried for help. The life-saving crew picked them up and carried them back to Uncle Sam's land.

Canadian Lost in N. Y.

New York, April 15.—The police were asked today to look for Dr. Lewis W. Hoppin, a physician of Kingston, Ontario, who has not been seen since he left the office of Dr. J. R. Shannon, 17 East Thirty-Eight street, shortly before noon on Monday. Dr. Hoppin and his wife came here a week ago, and have been visiting the former's brother, John J. Hoppin, at 363 Charlton avenue, South Orange, N. Y.

The physician left the home of his brother on Monday morning to come to this city and visit Dr. Shannon. He promised his wife that he would meet her at noon in the lobby of the hotel Martinique. Broadway and Thirty-Third street. They were to lunch together and later go to the theatre. Mrs. Hoppin arrived at the hotel shortly before noon and she waited for her husband for more than an hour. She went to the office of Dr. Shannon and was informed that Dr. Hoppin left there at 11 a.m.

Dr. Hoppin was sandbagged and robbed on the streets of Kingston a month ago. The blow inflicted a deep wound. Dr. Shannon treated the wound before the doctor left, apparently to keep the engagement with his wife. As a result of his injuries Dr. Hoppin has suffered sharp pains in the head and has had occasional spells of dizziness. Mrs. Hoppin now believes that her husband may have been seized with a spell of dizziness and got lost. The police were asked to make inquiry at each public and private hospital.

The missing physician is 35 years old. He is licensed to practice in Kingston, Canada, and in this city. He is a graduate of Queen's University, Kingston. He had at the time of his disappearance \$100 in cash, a cheque for \$200, and a gold watch and chain and a small diamond ring of a total value of \$150.

Dr. Hoppin is six feet in height, and weighs 192 pounds. He has brown eyes, dark complexion, and short full beard and moustache. His hair is black, streaked with gray near the temples.

When last seen Dr. Hoppin wore a gray sack suit, black derby hat and overcoat, black laced shoes, and a blue tie.

Friedmann Coming to Montreal

Providence, R. I., April 15.—Dr. F. Friedmann, who was in Providence tonight demonstrating his vaccine, said that he intended to return to New York the latter part of the week to look after the patients he has treated there. Dr. Friedmann said that from New York he would go to Montreal for the same purpose.

The German physician made the announcement before learning of the letter addressed to him by Dr. John F. Anderson, chairman of the board appointed by the Public Health Service to inquire into the efficacy of the alleged remedy.

Tonight Dr. Friedmann was busy taking care of private patients who had flocked in large numbers from many sections of the country. He said that during his stay here he would clinics besides attending to private work.

Six Killed in Wreck on South Shore

Montreal, April 14.—Six persons are dead and from ten to fifteen injured as the result of the derailment of an excursion train yesterday afternoon on the Montreal-Chambly branch of the Central Vermont Railway about four and a half miles out of St. Lambert. The train which was one carrying about 700 passengers who had taken advantage of the free trip given by Cottrell, Ltd., real estate agents, to prospective purchasers of the lots at Albani subdivision, was returning to Montreal at a speed of between twenty-five and thirty miles an hour, when on striking a spread rail the engine and the three first coaches left the rails a few hundred yards the other side of the Sunlight City subdivision, near East Greenfield station.

The engine was running tender first, as there had been no means of turning it before starting the return trip. When the derailment occurred, the tender jumped to the right side of the track, turning bottom up, while the engine fell on its side across the track. The engineer and fireman were both thrown from their cab, the fireman receiving injuries from which he died soon after, while the engineer escaped with some painful bruises. The three coaches, which were derailed, remained upright on their trucks, but the impinging of their ends caused most of the fatalities. The first coach rested across the track nearly at right angles, its front end being imposed upon the overturned engine. The second coach stood in an oblique angle across the track, its front end jammed against the rear of the forward coach, while the third coach to the left of and parallel to the track, was wedged into the side of the second car near its rear end. The passengers of the first and second cars suffered most severely, all the deaths except the fireman, and most of the injuries, occurring in these two cars. As the train was crowded to its full capacity, many persons were standing on the platforms, and it was among their numbers that the victims were chiefly found. Escaping steam from the boilers of the locomotive filled the derailed coaches, adding to the horror and confusion of the surviving passengers impeding them in their efforts to escape, and scalding some painfully.

The occupants of the four rear coaches which remained on the rails, quickly made their way out and a number of them hastened to extricate the dead and injured from the wreckage. Their efforts were fruitless in the case of some of the victims whose bodies were so firmly wedged in the shattered remains of the coaches that they were only released after hours of work by the wrecking crew. Between the first and second coaches two bodies were crushed, one being that of Maggie Dear, aged 12, and the other that of a yet unidentified man. They were still unreleased at midnight. A heartrending incident was the presence of the child's mother herself badly shaken by the accident, who begged the rescuers to release her child until she was led away by force and brought to the city on the first train which brought in the badly injured passengers. Another man, Rochon by name, was pinned under a truck, and although almost disembowelled lived for several hours in an unconscious condition, while efforts were made to effect his release. The accident occurred about 5.20, and it was over an hour before the wrecking crew arrived with the appliances necessary for effective rescue work.

The line where the accident occurred has been operated by the Central Vermont for a number of years, but has been in process of electrification for the purpose or being taken over by the Montreal and Southern Counties Railway. The poles and wires are already in position, and the change of operation was to have taken effect this week. The old 56 pound rails have been retained, and although some new ties had been put in many of the old partially decayed ones are still in place.

The wrecked locomotive was G. T. R. engine No. 2199, the crew being Engineer Chas. Bangs, 62a Lacasse street, and the dead fireman, J. I. Mosel, St. James street west. Mosel was married, but had no children. The conductor was R. Houle, and the brakeman E. Larin. The engine was either running with the steam shut off at the time of the accident or the engineer instinctively closed the throttle as he felt the shock of derailment, for investigation after the accident showed that the throttle was closed. The engine was so badly damaged by the crash that it is fit only for scrap. It was an old engine of the type known as the four-wheel coupler, but was in good condition. The tender in jumping the rails struck and snapped off one of the new electric poles erected beside the track.

PARISIAN SAGE

PUTS HAIR ON YOUR HEAD AND KEEPS IT THERE

What's the use of being bald? What sense is there in deliberately allowing your hair to turn gray?

Do you want to look old before your time? Give up the thought; old age will come only too soon.

Look after your hair. PARISIAN Sage will cure the dandruff germs, and is the only preparation so far as we know, that is guaranteed to do so.

Man or woman, no matter how old you are, PARISIAN Sage will make you look young.

Why not go to W. G. Bolster and get a large bottle today, it only costs 50 cents, and your money back if it does not cure dandruff, stop falling hair, or itching of the scalp. It will make your hair luxuriant, bright and beautiful, and it is the most refreshing, pleasant and invigorating hair dressing made.

Alexander F. MacDonald Dies At Cornwall

Cornwall, April 14.—Alexander F. MacDonald, a member of one of the most prominent and influential families in this part of Ontario, passed away at his apartments at the King George Hotel here last night. The deceased was in his 96th year, and the greater part of his life had been spent in Cornwall.

Born in St. Raphaels, Glengarry county, in 1818, a son of the late Alexander MacDonald, he came to Cornwall when 11 years of age, and has lived here ever since with the exception of a few years, which he spent in railroad and other contracting work.

He was the last of a family of four brothers, one of whom the late Hon. John Sanfield MacDonald was the first Premier of Ontario, and another brother Hon. D. A. MacDonald, was Postmaster General in the Mackenzie government, and afterwards Lieut. Governor of Ontario. The fourth brother was Ronald Sandfield S. MacDonald, of Lancaster.

The late Mr. MacDonald represented Cornwall in the Dominion Parliament for one term in 1872. He made improvements in the present city of St. Paul, Minn., before its incorporation. He also held contracts on the G. T. R. in the west and was engaged in the lumber business with his brother. On retiring he returned to Cornwall and has made his home at the King George Hotel for the past 18 years. He was unmarried.

Surviving are the following nephews and nieces, Lady Hingston, Miss Annie MacDonald, Mrs. McD. McCarty, Mrs. Campbell McDougall of Montreal, Mrs. Col. J. G. Uppleby and Mrs. Col. Pemberton in England; George Sanfield MacDonald, barrister, Montreal; A. G. F. MacDonald of Alexandria; John S. MacDonald and Miss Kate MacDonald Lancaster, Madame Langlois, Portneuf, Que.

The funeral will take place on Tuesday morning at the Roman Catholic cemetery at St. Andrew's.

Said Hotelman Paid For Votes.

Exeter, Ont., April 12.—Ezra Bremmer, hotelkeeper at Grand Bend, was committed for trial by Magistrates Saunders and Moir here to-day on a charge of bribery in connection with the local option vote in Stephen Township last January. Joseph Bremmer, his father, was similarly charged but his case was dismissed.

County Crown Attorney Seager of Goderich conducted the case, while F. W. Gladman of Exeter watched the interests of the temperance people. The case, in which a hearing has several times been postponed, caused keen interest, and the courtroom was crowded. Rev. S. S. Sharpe, Rev. E. G. Powell and G. H. McAllister of Exeter being present.

Nelson Jesjardine, one of the witnesses swore that Ezra Bremmer gave him one dollar to vote against local option. The next day Constable Down came to the house and the money was turned over to him, together with the information regarding its receipt. Bremmer came back again the following Saturday, and Jesjardine told him what he had done with the money.

A. H. Dixon, counsel for Bremmer, tried to break the evidence of Constable Down, who corroborated the testimony of Jesjardine, that he had received the dollar from Jesjardine after its receipt from Bremmer.

A Fortune Of \$87,216,691.

New York, April 14.—The expert appraisers appointed by the executors under the will of the late Col. John Jacob Astor, to determine the value of the real and personal property in the estate for the purpose of the transfer tax, have completed their work.

Their reports, coupled with the affidavits filed by the executors, show that the total value of the estate will be \$87,216,691.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address E. J. HENEY and Co., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

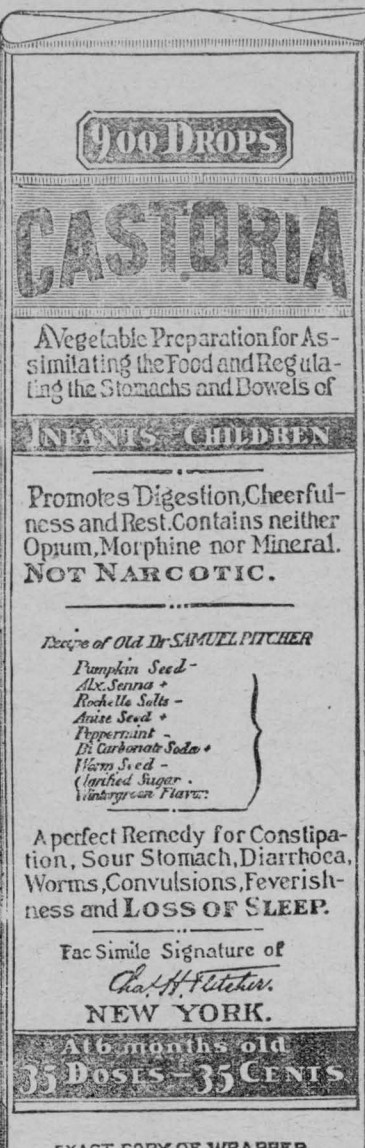

Gananoque Buys Power

Gananoque, April 11.—At a special session of the council to confer with J. M. Campbell, Kingston, president of the Gananoque Electric Light Company, on the proposed ten year contract between the town and the company for the lighting of the town, it was unanimously decided to accept the company's offer, and to sign a contract for ten years. The terms of the proposed contract are far better than those of the old one, which expires in September next.

Prescott Journal—Several cases of typhoid are reported in town at present, and the water, recently tested, is reported as slightly contaminated, in other words a little rotten, and orders from headquarters are "boil it." All this is good, except the water and the typhoid, and you will please take notice that the garbage may stick around in the back yard for months without being boiled, baked or fried, except by the rays of the sun. Of course, it is just possible that typhoid germs are of too high an order to intermix with garbage.

Electric Ry. Extension.

Brockville, April 11.—J. G. Kilt of Ottawa, president of the Morrisburg-Ottawa Electric Railway Company, addressed a joint meeting of the Reeves of Elizabeth town, Rear of Yonge and Escott, and the Village of Athens in the latter place to-day. The meeting was held to consider the proposition of the company to extend their proposed line from Brockville to Charleston Lake via Athens.

The Late Mrs. T. G. Holmes

A lady well known to many in this district passed away in Russell on Tuesday of last week in the person of Selina Edith Marcill, wife of T. G. Holmes of that place, at the comparatively early age of fifty-four years. Deceased was a sister of Mrs. Andrew Christie and Miss Mary Marcill of Winchester.

The funeral took place to Maple Ridge Cemetery the services being conducted by Rev. Mr. Hughes, pastor of the Russell Methodist church, in the various organizations of which the deceased was a leading figure. Among the floral tributes of friends were Spray from Methodist Ladies' Aid; Spray from Presbyterian Young Peoples Society; Wreath from A. F. & A. M.; Wreath from I.O.O.F.; Wreath from Bank of Ottawa; Spray from W.H. Lowrie and wife; and a wreath from the family.

Besides the bereaved husband the family consists of three sons and one daughter:—Frank of Saskatoon Charles of Detroit and William H. and Effie at home.

Two brothers Ernest and Charles are residents of Detroit.

Prescott Residence Destroyed By Fire.

Prescott, April 15.—Fire which broke out at noon yesterday completely destroyed the handsome residence of Wentworth Chapman, situated on the second concession of Johnstown, three miles east of here. Only a small quantity of household goods were saved from destruction. A quantity of rare and unique china and silverware was lost. A defective chimney is supposed to be responsible for the fire. The loss is heavy, being only partially covered by insurance.

Chesterville Continuation School.

Winter and Spring terms.

Entrance to normal schools,—
Florence Daly 76, Bert Casselman 71, Frances Grady 71, Gladys Smith 68, Frank Dwyer 65, Florence McGee 63, Theresa Master-son 62, Harold Rose 56, Molly Jordan 51, Dora Sauve 45, Arthur Hummel 22.

Junior matriculation,—Florence Daly 68, Francis Grady 64, Gladys Smith 60, Frank Dwyer 58, Florence McGee 56, Theresa Masterson 57, Harold Rose 50, Molly Jordan 45, Dora Sauve 42, Arthur Hummel 19.

Local and District News.

The militia council has increased the establishment of the 41st Regt., Brockville, by 15 privates per company, bringing the number to 47 instead of 32. Four companies constitute the regiment.

Waddington's annual horse show will be held on Tuesday and Wednesday, April 22nd and 23rd. B. S. Crapser is president and W. W. Algate secretary.

F. W. Ault has sold his residence and seven acres of fruit land east of Iroquois for \$3,500. Mr. and Mrs. the Ault will probably return to States next fall.

Mrs. Mary Serviss, an old resident of Dickinson Landing, has passed away, in her 84th year. She was the widow of the late John Serviss, who died twenty years ago. One son and three daughters survive her.

The Boy's Camp in connection with the Cornwall Y.M.C.A. will be held at Stonehouse point, a few miles East of Cornwall, on the river front, from June 30th to July 20th. The committee in charge consists of Messrs R. Dodd (chairman), W. O. Relyea, Percy Relyea, Fred Raymond, Robert Douglas and Dr. A. Ross Alguire.

Dr. James Thompson, who had been for some time practising in Winchester, died on Monday of last week at his parental home in Hastings, at the early age of 25 years. Nine months ago he had a bad attack of typhoid pneumonia, from which he never fully recovered. Dr. Thompson was a son of the Rev. D. A. Thompson of Hastings and a son-in-law of the Rev. John Moore of Springbrook.

John St. John and Louis Lafontaine, who were arrested at Apple Hill on a charge of stealing a horse from Peter Kippen of Greenfield, from a shed at Maxville, were up before His Honor Judge O'Reilly at the Court House at Cornwall. After hearing the evidence His Honor sentenced St. John to twenty-three months in Central Prison, Toronto, while Lafontaine was discharged.

Methodist Missions Need \$900,000 In 1913.

Over \$900,000 is the estimated sum required for the Home and Foreign Departments in the Methodist Church in Canada for 1912-13. The various items are as follows:—

Domestic missions, including supplementary amounts required for salaries of 679 missionaries, \$280,172; Superintendent of home missions, \$16,450; work among European foreigners, \$14,245; miscellaneous maintenance, \$28,450; mission plant in Canada, \$75,800; total required by home department \$415,117. Estimated requirements for the work in the foreign department for the year 1912-13:—West China maintenance \$138,323; Japan maintenance, \$66,900; Indian work in Canada, \$65,235; work among Orientals in Canada, \$27,080; miscellaneous maintenance, \$2,083; mission plant in China and Japan, \$142,750. Total foreign requirements, \$442,371; total home requirements, \$415,117. Grand total \$857,488.

Certain additional expenditures of a miscellaneous character will swell the total to over \$900,000.

Killed By Own Motor Car.

Miss Fern J. Willoughby, aged 21, eldest daughter of Mr. and Mrs. S. J. Willoughby, 202 James street, Ottawa, was instantly killed Tuesday afternoon at four o'clock on the lawn in front of her home when her motor car, which she was cranking, suddenly started, pinned her against a tree and broke her neck. Her mother was standing in the window and saw her daughter killed. Dr. C. H. Brown, who happened to be passing, and other neighbors, ran to the assistance of the young woman, but before they reached her side she had succumbed.

Miss Willoughby was a well known and popular young lady in the social circles of the capital.

The automobile had stalled as Miss Willoughby was about to start from her home. She jumped out to recrank it without throwing off the lever. As she threw the crank over the machine gave a leap forward, and in a moment had pinned her against a tree.

At a meeting of the Canadian Order of Foresters held last evening it was decided to try and organize a band for Chesterville.

Local and District News.

Mr. and Mrs. W. W. Pellet, of Frankford, announce the engagement of their daughter, Muriel A. to Mr. Stanley R. Brownell, son of Mr. Curtis Brownell of Moulinette, Ont. The marriage will take place quietly at the end of April.

Mrs. Merkley, whose home is at Chipman, will sue the village of Waddington for \$15,000 because of injuries sustained through a horse running away. She and Mr. Merkley were driving home when their horse took fright from holes in the road. Mrs. Merkley sustained injuries which have rendered her helpless ever since.

The Rev. D. N. McPhail, B.D. Ph.D., late of St. Columba Church, Lochiel, Ont, who more than a year ago accepted the call to the Church of Scotland, St. Vincent, West Indies, for one year, on another offer by the Colonial Committee of the Church of Scotland, accepted for five years, at the end of which time the appointment may be renewed.

An English company has lately been active in securing options on a number of farms in Mountain and South Gower townships, adjacent to the C.P.R. It is understood that the intention is subdivide the land and to settle it with truck-farmers from the old country who will make Montreal the centre for their produce. As a natural result land in these districts are gone up noticeably in value and impetus given to this branch of farming.

Hot Times In Alberta

Edmonton, April 14—With the last few days of the election campaign, charges and counter charges of corruption and intimidation are being made. Following instructions from the attorney-general's department, two arrests were made of Conservative workers Saturday. At Camangay, a man named Schaffer was arrested and in Acadia riding, a Manitoba worker, named Stevens, was taken in charge.

Both were charged with offences under the election act and the latter also was accused of giving liquor to an interdict. Liberal candidate, P. Gary, Beaver River has asked the attorney-general to send him protection and detectives were forwarded today to that point.

Needle Worked Way Out Of Man's Ankle

Prescott, April 10.—A peculiar circumstance was that that happened recently to Mr. E. Shewell, a well known farmer, residing a couple of miles west of here on the river road.

Mr. Shewell for some time had suffered from what he had supposed was rheumatism in his knee, so much so, that for more than a week he was unable to leave his bed.

The other day, feeling somewhat better he came to town to consult a physician. Leaving his rig he started to walk to the office of Dr. Jones, a distance of two blocks, when the pain returned greater than ever before.

When the doctor made an examination a full sized needle, which was the cause of all the trouble, protruded from the flesh just above the ankle.

It is thought the exertion consequent on Mr. Shewell's walk to the doctor's office, caused the needle to work out of the flesh.

Mr. Geo. Mason, a member of Prescott town council, has placed his resignation before that body.

Cornwall General Hospital.

This institution provides skilled nursing and care at very moderate rates to those able to pay, and without charge to indigent persons from the three United Counties, other than the Municipal Grants.

It is kept up by:

1. Fees from paying patients.

2. Grants from the Government and Municipalities.

3. Donations and Subscriptions from Churches, Corporations, Societies and Individuals, the last being the largest source of revenue.

You are asked to assist in this work

The nucleus of an endowment fund has been established by a legacy recently received, and parties remembering the Hospital in their wills may stipulate that bequests made by them shall go to this fund.

If you would like a copy of the last Annual Report, drop a card to the Secretary, who will be pleased to send you one.
