

The Chevrolet

Valve in The Head \$690 DELIVERED

Regarding horse power if you want to know N. A. C. C. rating on the average view of eminent engines as to a fair conservative rating for a four cycle motor at one thousand feet per minute, piston speed, which is the real H. P. Purchaser—protect yourself and ask him to show you the National Automobile chambers of commerce of N. Y. which will tell the truth: all about the specifications of all makes of cars and Dealers who come to you without that hand book can't prove any statement without one, regarding the real horse power. However I always carry one in my grip in order to save arguments and prove specifications any time, when the man has the proposition he carries all statements to prove; but when a man has't he forgets the book at home and comes afterwards with another statement. The Chevrolet at \$690 has more power than any car between \$800 or \$900 and is away lighter and easier on tires and will go close to 30 miles on 1 gallon of gasoline and you pay less for it and you also buy it from one who is able to look after it with all kinds of service guaranteed, all equipped with a large garage with lots of room and help; our trouble is to get the cars.

Wonderful Invention—The Gasoline & Oil Improver HERROLINE

INCREASES MILEAGE OF GASOLINE; KEEPS SPARK PLUGS
CYLINDERS AND VALVES FREE FROM CARBON.

HERROLINE when used as directed, will increase the mileage 35 per cent
and increase the efficiency and power of any gasoline engine, motorcycle,
motor boat, stationary gas engine or gasoline or kerosene tractor.

HERROLINE will clean all carbon from the cylinders, valves and spark
plug points; keeping them permanently clean, and is worth its whole cost
to any motor for that purpose alone. It sparks much quicker and causes
the engine to pick up speed faster, to run smoother and with less
vibration and noise. Give this article a trial. Save money on high cost
of gasoline and get better results. RECOMMENDED by Ford Motor
Co., the McLaughlin Carriage Co. and many others.

To introduce Herroline we put it up in sample graduated bottles of 4 ozs.
each, which is sufficient to treat 10 gals. gasoline. 4 ozs. only 50 cts

FRED NASH AND BERT WOOD FIRING AT THE ENEMY

A letter received this week by
Mrs. Bert Wood from her hus-
band, who sailed a short time ago
with the Grenadier Guards for
England, states that he and Fred
Nash have volunteered for the
front and are now on the firing
line. Bert, although having had the
option of remaining in camp for
further training, preferred to fol-
low out the course of his primary
intentions, and remarks: "What do
you think of Fred Nash—The last
man to join the Regiment and the
first man at the front. Fred was
on the firing line three days be-
fore I was." If the Grenadier
Guards are made up of all such
men, there is more glory in store
for Canada.

Appoint Officers

At the Recruiting meeting held
in the Fire Hall on Thursday even-
ing, Rev. Father Meehan, Messrs.
Farlinger, Hilliard, Broder and
Meikle were appointed delegates to
attend a Central Recruiting meet-
ing to be held in Kingston on July
14th.

At the afternoon Ladies' meet-
ing, Mrs. G. W. Cook was elected
President and Miss Farlinger, Sec-
retary of the newly formed Emer-
gency Corp.

Presents First Contingent

Mr. Isaiah Facutt, banker of
Chicago, an old Morrisburg boy,
who has acquired a vast amount
of wealth abroad has presented
the First Contingent with one of
the latest Victrolas and a large
number of patriotic records in re-
membrance of his Canadian boy-
hood days, and to cheer the boys
in their sad moments. Mr. Facutt
is a brother of Mrs. M. S. Brown
of the Sanitarium.

Holmes and Bronnel Join 207 th

Capt. T. S. Owens, recruiting of-
ficer for 207th Battalion of Otta-
wa, under command of Lieut.-Col.
C. W. McLean, spent the week in
town seeking recruits for his Bat-
talion. As a consequence two valu-
able warriors have joined the ranks
Mr. W. J. Holmes of Morrisburg
and Mr. C. E. Bronnell of Farrans
Point. They left on Wednesday for
training in Ottawa.

Through the kindness of the Com-
manding Officer and popular Cap-
tain, Secretary Marsh succeeded in
making arrangements to have the
Regiment Brass band attend the
Morrisburg Horse Show and Races
August 1, 2, 3. The Society are
fortunate in having secured the
services of one of the best bands in
Ottawa, and are assured that
their program will add much to
the pleasures of the days.

Excursion to Barrfield Camp

All arrangements have been com-
pleted for a grand, cheap excur-
sion to Kingston and Barrfield
Camp, by G.T.R. special train,
Saturday, July 22nd, 1916. Re-
turn fare from Morrisburg, \$2.35.
Tickets good to return by any
regular train not later than Mon-
day, July 24th. Special leaves
Morrisburg 7.35 a.m. Returning
leaves Kingston 6.30 p.m. The
boys are expecting you.

FOR SALE

A handsome, large Rubber Plant
cheap. Apply Mrs. M. S. Brown,
Sanitarium.

A Midnight Blaze

A fire broke out in a shed at the
rear of Mr. Geo. Cameron's Bakery
Tuesday night about midnight.
From the sparks and glare seen
above the adjacent buildings, the
fire appeared much more extensive
than it was. Had it not been for
the prompt action of willing citi-
zens, however, who had two
streams of water playing in a
miraculously short time, there is
no doubt the result would have
been most disastrous. The spot is
a veritable fire trap and within ten
yards of the fire a quantity of am-
munition is stored. The building,
the property of Mr. John Fitz-
patrick, was totally destroyed.
But for the fact that the numer-
ous other small wooden structures
in the immediate vicinity were
water-logged from the recent con-
stant rains and that there was
absolutely no wind, together with
the prompt action of the citizens
in connecting old "Hi Drant" with
the seat of trouble, we might have
had to change the map of the
business portion of the town.

Dominion Day In Morrisburg

Dominion Day did not bring
forth much extra commotion by
the citizens of Morrisburg, particu-
larly among the business men,
who carried on business as usual.
The west-end citizens, however,
manifested their loyalty with an
abundance of flag decorations on
their premises. In the business sec-
tion the rising generation had to
take the National inspiration from
the Calendar.

NEXT WEEK

HYMENEAL

HESS-MILLAR

On Tuesday afternoon at 3 o'-
clock, June 27th, 1916, the mar-
riage of Miss Sarah Millar, daugh-
ter of Mr. and Mrs. Geo. Millar of
Morewood and Mr. Frank Hess,
son of Mr. and Mrs. Asa Hess,
Williamsburg was quietly solemn-
ized at the Methodist parsonage,
Morewood, Rev. Elliott officiating.
—Congratulations.

OBITUARY

Gideon Barkley

The death occurred on Tuesday,
at Inkerman of a most highly es-
teemed resident of that place in
the person of Mr. Gideon Barkley.
He had been ill for some months.
The deceased was 61 years of age,
and had spent all of his life in
that vicinity, following farming
successfully as an occupation. He
is survived by his wife and a
grown up family. They are George
W., Winchester; Walter C., Brock-
ville, Mrs. Johnston, Winchester,
William G., in the States; Lon-
celot, Winnipeg; Mrs. G. Robinson,
Easton's Corners, Mrs. Eckett
Quart, Alexandria Bay; James of
Easton's Corners, Frank, Ink-
erman, Mrs. D. Straiter, Winchester
Miss Nellie Barkley, Ottawa, and
Roy of Inkerman.

Mrs. John Robinson

Again, death has claimed an
old and respected citizen in the
person of Mrs. John Robinson who
resided with her son, Mr. Wm.
Robinson at Winchester Springs.
Deceased was 91 years of age
and had been in failing health for
some time. The funeral was held
at the Methodist Church on Sun-
day afternoon. Rev. Meredith con-
ducted the service and spoke words
of sympathy for the bereaved.

Those left to mourn are four
sons and a daughter: Mr. Wm.
Robinson, Winchester Springs, Mr.
Hiram Robinson of Toronto, Mr.
Joe Robinson of Norwood, W.S.,
Mr. Gordon Robinson, London,
Ont., and Mrs. Woods of Mont-
real.

Those who attended the funeral
from a distance were: Mr. and Mrs.
David Craig, Russell, Mr. Hiram
Robinson and daughter, Myrtle,
of Toronto, Mr. Joe Robinson of
Norwood, Rev. M. Robinson of
Montreal, Mr. and Mrs. Lorne
Kincade of Winchester and Mr.
and Mrs. Errington of Russel.

THE GRAY-DORT

ALMOST any automobilist to-day recognizes a cantilever spring (n
sight. This construction, which has been generally adopted by
those manufacturers who build the best, is familiar to nearly all of us
but how many drivers really know why a cantilever spring makes a car
ride easier than other types of rear suspension?

MY own idea of the cantilever spring is a spring that is so anchored
or attached to the chassis that the rebound of the spring is down-
ward instead of upward. Thus the occupants of the car get the benefit
of the flexing of the springs when road shocks are encountered and the
downward rebound of the springs tends to keep the rear wheels of the car
on the road instead of lifting them clear off the road, as is the case with
semi-elliptic, three-quarter elliptic or full elliptic spring. This means
not only easier riding but less wear on the tires as the rear wheels are
kept on the ground practically all the time.

THE length of the spring has considerable to do with its riding qual-
ities and a long, wide spring is particularly desirable. Mr. Planche,
the chief engineer and designer of the Gray-Dort has taken advantage of
this, in full cantilever springs that form the rear suspension of this car
and he has made these very wide and 50 1-8 inches long. This relation
of spring length to chassis and wheel base is exceptional, being greater than
in any other car at anywhere near the Gray-Dort price and it has
much to do with the fine riding qualities of this car.

THE LAPSE OF ENOCH WENTWORTH

By ISABEL GORDON CURTIS,

Author of "The Woman from Wolverton"

CHAPTER V.—(Cont'd.)

He dropped lightly upon his knees in front of Wentworth when he finished.

"I await thine orders, most grave and reverend seigneur." Then he laid his fingers upon Wentworth's arm and looked up with an expectant smile.

Enoch wrenched his arm free and rose awkwardly to his feet. The comedian drew back with a startled expression, as if fear struggled with bewilderment.

"You, see," Enoch's lips were perfectly colorless, "Your mental ability is pledged to me."

Merry started at him, curious and perplexed.

"It is your mental ability which I claim now," Enoch said deliberately. Andrew spoke in a coarse whisper. "I don't understand."

"I demand your play?" To sell?"

"No; of course not." Wentworth jerked out the words abruptly. "Why should I want to sell? I want to produce it—as mine, as one—I have written."

Merry moved toward him with an agony of terror in his eyes. "You want to take from me my one complete effort, my one ambition, my everything—the work which is making a man of me, on which I have toiled steadily for weeks? You would do that! Do you understand—while I wrote I scarcely stopped to eat or sleep? When I did sleep I dreamed of it and—"

He stopped, too much affected to trust his voice. He laid one hand over the other as if to still himself, for he was trembling.

Wentworth stood looking at the younger man. Something cold and relentless crept into his eyes. He laid his hand on Merry's arm.

"Let me talk to you, Andrew."

"Talk! Talk! You damned thief!"

He pushed Enoch aside with quick repulsion. His face was blazing with wrath. He went tramping about the room in a vague headless, half-blind fashion. A thought seemed to strike him abruptly. He wheeled around suddenly and faced the man beside him.

"Why in the devil's name, Enoch, would you do this? Have I ever done one cruel, disloyal act in all my life?"

Wentworth did not answer. He returned the terror in Merry's eyes with a cold glance.

"Did you have this hellish plunder come into me when you were a boy?"

Wentworth gazed at him. The man told him that night, and I am telling you it was nothing but a fancy of Enoch's hand dropped on the script which lay upon the table came with a great temptation; it was too much for me."

"Evidently," cried Merry. His tone was withering in its scorn. He seated himself and his eyes turned fiercely upon Wentworth. The muscles of his cheek twitched as regularly as a pulse.

"The play is mine." Enoch seemed

to have grown strangely cool and impervious to contempt or anger. "The play is mine," he repeated; "it is the due and forfeit of my bond."

The eyes of the actor narrowed and he laughed savagely.

"Take your pound of flesh," he cried. "What will you do with it?"

"Everything we had planned."

Enoch's voice was calm. "Give it a big production, advertise it as a play never was advertised before, and build up your fame as an emotional actor."

"What, will you not play the convict?"

"I! Of course not. There is only one actor in America who can play 'John Esterbrook.'"

Andrew rushed across the room in a blind fury. He stretched out his hand and dealt Wentworth a stinging blow across the mouth. "That actor won't play it. Do you understand?"

Wentworth lifted his arm fiercely, then it dropped nervelessly by his side. The veins rose in his neck and forehead like taut cords. He stood staring at Merry, who strode about the room in ademoniac fury.

"God! You're not a man. You're a damned, low-down, scurrilous black-leg. And to think of you standing there, looking me in the face—God!"

Merry raised his hand again as if to strike, then he dropped it by his side, shuddered, and dashed across the room. He picked up his hat and turned to the door.

"Where are you going? asked Enoch sternly.

"I'm going straight to—hell."

He lifted his gloves from the table. Beside them lay the manuscript of his play. He stretched out his hand and turned his eyes on the other man, watching him as a thief might, who fears being caught in an act of robbery.

"Take it," cried Enoch. "I have a copy of it, a copy in my own handwriting."

Merry stood fingering the pages.

"What do you propose to do with your—swag?"

"Call it by a decent name. It belongs to me. Money does not count with me in this transaction. You may take all the royalties. I want nothing but the authorship of the play."

"Nothing but the authorship?"

Merry's glance was a malediction.

He dropped the pages and tossed his hat upon his head. Wentworth watched him curiously. The outer shell of the man had changed. His clothes, immaculate an hour ago, looked disheveled. A lock of fair hair strayed down over his forehead, his linen had a battered appearance, the white hyacinths drooped from his buttonhole like blossoms which had been touched by frost. He stood for a moment with the door-knob in his hand staring at Wentworth, who returned his gaze with a cold, ruthless scrutiny. Merry's eyes fell before them. It was the first palpable concession to Enoch's stronger will.

"Good-by," he said with an unsteady laugh. He closed the door behind him. Wentworth turned to the table, lifted the manuscript and stood glancing through the closely scrawled pages. Then he crossed the room, dropped it upon the mantel, and watched until each gray ash became a filmy atom of dust.

CHAPTER VI.

"Jason, this is nobody I know." Wentworth sat staring at a card his man laid before him. He knitted his brows querulously. "Make him understand that I'm engaged."

"He's terrible masterful, Marse Enoch," said the darky apologetically; "he's boun' he'll see yo', He's a gentleman all right. I don't believe I kin git rid ob him easy."

"Tell him I can spare ten minutes." Jason ushered the visitor into Wentworth's library. He was a tall distinguished man, with a fine, highbrowed face. His manners were exceedingly gracious, yet simple.

"I don't believe, Mr. Oswald, I've met you before," said Enoch.

"You haven't," said Oswald smiling cordially. "Your man tells me you have exactly ten minutes to spare. I'll go straight to business. I'm an Englishman. I have been in New York for three weeks. I want to invest money in something along the theatrical line."

"Oh," Enoch looked up sharply.

"Andrew Merry mentioned you."

"Yes, I spoke to Merry one night on the elevated. He's one of your few American actors whom I admire. If a play could be found that fitted him—he spoke of having one—I'm willing to venture a hundred thousand dollars on its production."

"A hundred thousand! That would be a production worth while!"

"But—remember—only if the play appeals to me. I've been studying theatrical business since I was a younger. I never threw money away on it."

"If you can stay I will read you the play now."

"My ten minutes are up." The Englishman smiled.

"This work can wait. Excuse me a minute." Wentworth lifted a head of

Vaseline Camphor Ice

Soothes and smooths chapped hands and lips. Keeps the skin soft. Sold in metal boxes and tin tubes at chemists and general stores everywhere.

Refuse substitutes.

Free booklet on request.

CHESEBROUGH MFG. CO. (Consolidated) 1880 Chabot Ave. Montreal

clippings and copy which littered his table. Then he walked to the safe and knelt before it. He had just opened the door and laid his hand upon the manuscript when the door opened and Dorcas ran in. Jason followed, carrying a suit case. For a minute Wentworth forgot the visitor in his inner room.

"Bless my heart, I'm glad to have you back," he cried. "Never in all my life have I seen you look so well."

She held him at arm's length and gazed at him critically. "I wish I could say as much for you, Enoch. You look decidedly seedy. I've got to stay right here. I'm the only one who can manage you."

"I beg your pardon, Dorcas, I've a guest here." Her brother led her to the inner room and introduced his caller to her.

"Mr. Oswald and I were having a business talk, Dorcy—not exactly business either. You may stay if you wish and hear a play. I was just going to read to him. If he likes it he will star Andrew Merry in it."

"Oh! A glow of anticipation shone in the girl's eyes. She laid her coat and hat on the window seat and dropped into a low chair beside her brother. Once or twice she patted him affectionately on the shoulder. The Englishman watched her. There was vivid admiration in his eyes, but Dorcas did not see it. Her only thought was of the happiness in store for Merry.

Wentworth laid the pages of manuscript on the table and cleared his throat. Oswald sat ready to bestow a business-like attention upon the reading. When Enoch lifted the first page his visitor asked: "May I know who wrote the play?"

"Ah!" said the Englishman. He noticed the startled look on Dorcas' face. It escaped her brother, who set turned half way from her.

Wentworth began to read. He was an excellent reader; his enunciation was slow and distinct. The story quickly unfolded itself in strong, vivid language. Grant Oswald, who was an ardent student of dramatic literature, fell immediately under its spell and listened with intent quiet.

The minds of both men were so vitally concentrated upon the drama that they were scarcely conscious of a movement when Dorcas crept from her low chair to the window seat. She lay back against a pillow, gathered the folds of a silky portiere around her, and stared down at the square. She heard her brother's voice in fragments. Those fragments were always the words of the girl, Cordelia, or of the father fallen to pitiful estate. She clasped her hands together with such a grip that it numbed her fingers. A strange pain and a horrible suspicion were seeping through her body and burning in her veins. Outwardly she was inert.

Suddenly she was awake again, wide awake, tingling with life and emotion listening to her brother's vibrant voice. The day of release had come for John Esterbrook. He tood with halting, tremulous steps, fearful at the sight of the world he had left twenty years before, hiding his eyes from its tumult. Then Cordelia ran to meet him—young, hopeful, loving and eager, Dorcas forgot the horror and doubt which had swept her down for a moment, she was thinking of nothing but the play. It was greater, more human, than she had dreamed of that day when Andrew and she walked home over the beach at Juniper Point. Her eyes grew wet with pity, then she smiled happily as life ceased to be a problem for Cordelia. Love had come, and the father turned to work out what was left of a future.

(To be continued.)

Cats-Up.

"Sarah," said her mistress during the dinner hour, "will you go down to the basement and get the catsup?"

Sarah departed, and a few minutes later the family heard a great shooing and scampering of feet. Shortly after Sarah came breathlessly into the dining room and said to her astonished mistress "They're up, mum."

"What are up?"

"The cats, mum."

Vocal Bravery.

"My voice is for war."

"But are you willing to offer the rest of yourself?"

PRACTICAL FARMING

The Farm Home Grounds.

During 1915, an agricultural survey was conducted by the Commission of Conservation on 400 farms in Ontario. In answer to the question "Are the grounds around the house neat?" it was found that 53 per cent. of the replies were in the negative. In travelling over Canada one cannot but be impressed by the general untidiness and the absence of plan or system in the planting and care of the farm home grounds.

Clean-up and Arbor Day campaigns, conducted each spring in many of our towns and cities, should be extended to rural communities. The first question the farmer asks is: "What will it cost?" feeling that he cannot afford it. It will cost a little time in planning and work in planting, but these will be well repaid by the added attraction and consequently increased value of the farm. In many parts of Canada trees and shrubs for planting can often be secured from the wild. Nothing is better for home planting than the common trees from the surrounding woodland; no shrubs purchased from an agent are superior to those native to the district, and no purchased vines can surpass some of those growing wild, such as the Virginia creeper, bitter sweet or the wild grape. Many of the choicest wild flowers, when transplanted to the flower border, often flourish more than in the wild. Yet in spite of the ease with which these attractions may be obtained, many farm home grounds are unplanted, untidy and unattractive. All that is needed to make them really beautiful is a little planting and care.

The morning glories, used to beautify the cabin, were planted by the housewife. In fact, it is usually the woman who takes an interest; the man is too busy with the crops to bother with such things.—F.C.N. in Conservation.

Try Alfalfa Again.

Although it is now generally admitted that alfalfa is the one best feeding crop for live stock, and despite the fact that it has been proved suitable to nearly every district in Ontario, many farmers refuse to give the plant a trial on their farm, while others give up trying to grow it after making a very feeble effort for success.

Those who wish to excuse themselves for neglecting to even try alfalfa say that it interferes with their rotation, is hard to break up if once established, and is not suited for pasturing; while those who give up trying to grow the crop say that their land is unsuited for it.

The first reason given for not sowing alfalfa is perhaps the best, but it is not a very good reason at that. Alfalfa is known to improve with the length of time that it occupies a field, but even if the third or fourth year are sacrificed to maintaining a rotation the whole benefit of the crop is not lost; and what cuttings are made in the first few years of its life are equal, if not superior, in value to cuttings of any other crop in the same period.

As for the trouble of breaking up a field of alfalfa, this only occurs in very old fields; and the fault found by the plowman—that the roots run his plow out—is often due to the occurrence of an odd plant of alfalfa that comes as a surprise after the plow has been running through light or poor sod for some time.

The third reason for objection to alfalfa cannot be very well maintained by many who make it, because the crop is so valuable as hay, and is capable of producing so many cuttings in a season that other ground than the alfalfa field may well be given over to pasture and the alfalfa crop used for soiling if the Summer feed is insufficient.

The Contented Cow.

There is a firm, whose business it is to supply milk to city consumers, who make a specialty of advertising that their milk is drawn from contented cows. There is a lot in this for the farmer to consider. Milk production bears close relationship to nervous condition. An excited cow will not readily "let down" her milk, as everybody knows. Excitement is an intimation that she may require her energies for self-preservation, and the milk making process adjourns its activities to allow her to meet the apprehended emergency.

Annoyance in any form produces some degree of worry, irritability, and consequently excitement. Keep the cows contented, and functional activity in milk secretion will be the more generous.

Hence it is that dogs, unusual odors, vitiated air, sudden chills or draughts of air, irregular feeding or watering, noise, roughness in handling, all help to decrease the milk yield. Keep the animal quiet and contented, in well ventilated but quiet quarters, feed regularly, and act in a kindly and gentle manner when about the cattle.

The War on Smut.

The prevalence of smut in the Ontario grain crop last season induced many farmers to treat their seed before sowing this spring. One drug-

The Secret of Flaky Pie Crust

THE CANADA STARCH CO. LIMITED
MONTREAL, BRANTFORD, 218 FORT WILLIAM.

THE PRINCE OF WALES.

Is Unaggressive, But Will Not Stand for Nonsense.

When the Prince of Wales got short leave to go to Buckingham Palace to say "good-bye" to his parents and brothers and sister before going to the front, Prince John asked him: "What are you going to do when you get there, David?" (David being the name by which he is called at home).

"David" rubbed his chin and smiled. "I think I'll grow a beard for one thing," he answered.

Figuratively speaking, the Prince of Wales has "grown a beard" since the war began—that is to say, he has ceased to be a boy and has become a man. The change is very apparent to all who come in contact with him. Always inclined to seriousness, he has taken his share in the war very seriously indeed. His staff work has included carrying despatches, acting as interpreter, superintending the making of trenches, and duty as assistant transport officer, and he has been in imminent danger of death scores of times.

There is nothing aggressive about the personality of "P. W.," but he has a quiet way of standing no nonsense.

One day at the front he was on duty watching transport wagons being filled. Packages were being thrown up to the man in the wagon, whose duty it was to count them out loudly, pausing as each fresh 25 packages were reached. The man in the wagon, "tried it on" with the Prince; to save himself trouble he started calling out "25" when he should have been saying "20." But it did not work. "Twenty-five already," said the Prince blandly. "I make it 20. One of us is wrong. Just unload the whole wagon and begin from the beginning again."

The world can get along without you but that's no reason for not trying to be one that the world doesn't want to get along without.

When a mother begins to tell her children how smart their father is, they look at her as reproachfully as if they thought she was losing her mind.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to do so.

to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent. in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use in almost every family."

It is sold in Toronto

"The All-Purpose Sugar"

About the House

Useful Hints and General Information for the Busy Housewife

Marmalades, Preserves, Pickles.

Pear Marmalade—Peel, core and weigh the pears, then allow 12 ounces sugar to every pound of fruit. Put the pears in a saucepan together with a little of the sugar and enough water to cover, bring to a boil gently and then simmer slowly until the fruit is quite soft. Rub through a sieve and return to the saucepan, bring to a boil and add the rest of the sugar; stir until completely melted, allow to come to the boil and then simmer until of the right consistency. Great care is required during this second cooking as the mixture is very apt to burn. It can be flavored with either lemon rind, ginger or spices. The flavoring should be put in at the first cooking.

Plum Marmalade—Take out the kernels of the plums and boil the fruit in just enough water to cover, simmer until soft. Rub through a sieve, return to the saucepan, and cook until they begin to show signs of sticking to the pan. Then take up, weigh and measure out an equal quantity of sugar with which to make a syrup, allowing one-half pint of water to every one and one-half pounds of sugar. Skim carefully and cook until a little dropped into cold water hardens immediately. Put the fruit puree and the syrup together into a pan and cook until it just comes to a boil. Do not allow it actually to boil, and put immediately into sterilized jars, dust over the top with finely granulated sugar and cover.

Preserved Figs—The figs should be matured but not ripe. Scrape them, cut a small slit across the top, and put them into a basin of cold water into which put also one tablespoonful of lime (for 50 figs). Put a plate on top to keep the figs under the water; leave them for about 12 hours, then take them out and wash them clean. Put them into a clean saucepan with about one and one-half quarts of clean water, one-half teaspoonful of carbonate of soda, and one-half teaspoonful of salt; let the figs boil up in this with the lid off. Take them out when soft enough to be pierced with a sharp stick, and drain them through a colander. Take one pound of sugar more than the weight of fruit, make a syrup one-half pint of water to three-quarters pound of sugar, and when it has been strained and cool, lay the figs in it for a night and the next day boil them over a slow fire till the fruit is quite clear.

Pickled Beets—Wash very carefully, taking care not to break the skin, as all the color will come out if this happens. Boil for an hour, and let them stand until perfectly cold. Scrape and slice them, and pour over them vinegar in which a few peppercorns and some cloves have been previously boiled. Cover the jars closely, and see that the beets are thoroughly covered with vinegar.

Pickled Cauliflower—Trim the cauliflower and break it up into small pieces. Strew these with salt, and leave them from 12 to 24 hours between plates. Drain them well, pack them with salt, and cover with cold vinegar, previously boiled up with spice. The cauliflower can be quickly parboiled in salt and water before it is put in the jars, if you find the raw vegetable indigestible.

Pickled Cucumbers—Choose small and perfect cucumbers without any spots. Lay them in strong salt and water until they turn quite yellow, stirring them twice a day to keep them from softening. When they are quite yellow, pour off the water and cover with grapevine leaves. Boil up the poured-off water and pour it boiling over the cucumbers. Leave them all in a warm corner near the fire. When the water is almost cold, boil it up again and pour it over the cucumbers again. Repeat this process until the cucumbers turn a good green, keeping them covered with the leaves, a clean cloth and a reversed soup plate to keep in the steam. When they are thoroughly green, drain them well, pour the following pickle over them and tie down with bladders or parchment.

For the pickle.—To each quart of white wine vinegar allow a quarter of an ounce of mace or half a dozen cloves, half an ounce of sliced ginger, half an ounce of black pepper and half a handful of salt; boil this all together for five minutes, then use hot.

Pickled Walnuts—Gather the walnuts before the shells begin to form. Wipe them, prick with a darning needle and put them in a large crock or basin. Make enough brine to cover them, allowing a quarter of a pound of salt to each quart of boiling water. When quite cold, pour the brine over the walnuts and leave them in it for about a fortnight. They ought to be stirred occasionally and the brine changed twice during this time. Now drain the walnuts and spread them out on trays in a single layer to dry in the sun until they turn black. Have ready some dry, wide-necked bottles, three-parts fill them with walnuts, and fill up with vinegar which has been boiled previously with spices.

Pineapple Dishes.

There is no more delicious warm-weather fruit than the pineapple. Fruits are a welcome change at any time, but particularly so after the

heavy meats and highly seasoned sauces of the winter. Then the pineapple has a great many medicinal qualities that make it invaluable. Children love it, and it is one of the best things that they can eat for their general system, and for digestion, because of its pepsin-like qualities.

A fine fresh pineapple may be made into a delicious variety of summer desserts, and it is a good idea to have enough of the fruit for future reference. The best crops come from Cuba, Porto Rico and Florida and some from Hawaii. It is a good idea to watch the market, and choose the fruit the time that it is at its lowest price, and buy enough to last.

The best way to cut a pineapple is to remove the crown or blossom part, then cut through the fruit from top to stem. Divide into quarters. Remove the core; then cut into cubes or shred.

Pineapple shortcake is good. Use two cupfuls of sifted flour, into which you have put for teaspoonfuls of baking powder and a teaspoonful of salt. Add a tablespoonful of lard and two tablespoonfuls of butter; chop until the shortening is quite fine. Now add a cupful of milk (scant); beat thoroughly and bake in a large biscuit pan until done. Separate the biscuit by quickly drawing a clean white thread across the top between the top and the bottom. Butter each side well, add powdered sugar to the upper piece, then add shredded fresh or canned pineapple; sprinkle again with powdered sugar. Put whipped cream over the top; garnish with slices of orange.

Pineapple toast is a novel recipe. Cut slices of old sponge cake a half-inch thick. Shape them round or diamond to give variety. Brush these with butter, dredge with sugar and brown lightly in the oven. Cool, then pour chopped pineapple and whipped cream over them. Serve with a strawberry on the top.

Pineapple marmalade is an English dish. Pare and remove the eyes from the pineapples; cut in small cubes and shred with a silver fork; weigh the fruit and place two-thirds of its weight of granulated sugar in the lower part of a moderate oven. Cook the pineapple in an uncovered pan until it is reduced, then add the juice of a lemon to each pound of the fruit, add the hot sugar, boil five or six minutes, fill jelly glasses, and when it is cool fill with the mixture. Thin peelings of the lemon skin add the marmalade flavor if desired.

Pineapple custard is another favorite dessert. Cut a pineapple with a silver fork, or shred it into small pieces. Add a cupful of sugar, and set on the ice. Make a good boiled custard, pour it over the pineapple. Make a meringue of the whites of the eggs. Cover the top of the pineapple with this and brown delicately, chill and sprinkle grated almonds over the top.

Things Worth Knowing.

Half a pepper minced fine will flavor an omelet.

Overdone food is as bad for the digestive as underdone.

Apples, bananas and lettuce are a delicious salad mixture.

Don't forget that split peas make an excellent luncheon soup.

Orange gelatine served in the orange hull makes a most attractive dessert.

Add a little apple to the rhubarb pie; it will be less tart and of delicious flavor.

Charming footstool covers are made of grey linen worked on cross stitch design.

The lid should not be lifted from a pot in which dumplings are cooking. They are apt to be heavy if the lid is taken off before they are done.

When scalding sour milk for cottage cheese, have the water warm, not boiling; if boiling water is used the cheese will be lumpy and hard.

When turnips are young, wash them thoroughly and cook without peeling. The rind will cook as tender as the rest of the turnip.

Good flour adheres to the hand, and when pressed lightly remains in shape and shows the imprint of the lines of the skin of the hand.

A rich soup, with whole wheat bread and butter, a vegetable or salad, makes an excellent foundation for a dinner.

A good way to keep mattresses fresh is to let them have slips of their own covered with unbleached muslin.

To pop corn successfully, first put it in a sieve and dash cold water over it. The kernels will be large and flaky.

These Men.

"Perhaps it is just as well that wives do not always know how husbands disburse their funds."

"How now?"

"My wife would have a fit if she knew I spent my 15 cents' lunch money for a sandwich and a 10-cent cigar."

Common Paradox.

"My wife's bills have a queer way of doing."

"How do you mean?"

"The more she contracts them the more they expand."

A NAVAL CHURCH SERVICE.

Pen Picture of Sunday Ceremony on a British Ship.

Kingstown harbor was filled with patrol boats at anchor, writes a contributor to the Cornhill Magazine. Once, in the days of peace, these were trawlers. Now each mounts a gun on her foredeck and goes out to trawl for the most dangerous fish men ever chased. They are small boats, these trawlers, but it is an evil business for the submarine that feels the drag of their nets, or venturing to the surface, hears their guns speak. Among them lay two torpedo-boat destroyers, side by side, moored bow and stern, so close that men could step from one deck to the other. Their high-built bows rose with a sort of threat above the mooring buoys. From the tall foremast the wires of their telegraphic installation sloped sharply aft. The narrow, low decks were covered with the machines of the terrible business that these boats do—guns, three of them, and four great torpedo-tubes, ready to swing out to port or starboard. Our launch slipped alongside. We mounted a narrow, steep ladder. The commander saluted, and greeted us with an apology.

"We used to have a nice ladder," he said, "like a yacht's; but when the war broke out, it had to go." Then, to my companion, "If you're ready, padre, I'll muster the ship's company."

The ship's company were mustered, the companies of both ships. The men, a hundred of them, perhaps, or rather more, stood in two groups, one on each side of the deck, with a space between them. Above the vacant space stretched the long gray barrel of a gun. Aft, facing the men, stood the officers. The padre took his place and laid his books on some part of the ship's fighting gear draped with a flag.

An order was given, very quietly, with none of the sharp staccato vigor with which soldiers speak.

"Ship's company, hats off!"

The men stood bareheaded. A flag, red and white, was broken out at the foremast head. From one of the two tall spires that dominated the town came the sound of church bells summoning the townsfolk, peaceful people, to their prayers. Our padre bade us sing a hymn. It was, "Rock of Ages." How is it that our soldiers and sailors both choose this hymn, both seem to sing it with special delight? Here we had no band to help us, no choir to lead us. The padre pitched the first note for us. The men's voices caught it. There passed across the water a great wave of sound.

I stood and wondered. The faces before me were boys' faces. It would have surprised me to learn that in all that company there were four men of thirty years of age among officers or crew. I looked up, and the long gun was above my head. I looked past the men and saw that over the shelter of a hatchway there hung a wooden shield. On it was painted, "Heligoland—1914." Here were no gorgeous monuments of a mighty past, no chronicling of great names and splendid deeds; only a simple record of the fact that this ship had been in one great fight. Of all the rest that she had done, of lesser battles, of long vigils, of manifold perils, there was no note at all. And the faces of these who had done and borne such great things were the faces of boys still, simple, joyous, confident. The horror of war had not cowed them and never would.

The hymn was finished. We prayed, standing with heads bowed. The voice of the padre spoke for us, asking the protection and help of God for the companies of these two ships, for all who fought by sea or by land, for the dying, for the wounded, for the sorrowful.

We sang again. I saw that Howth Head, far away to the north of us, was blackened with a thundershower. Right round the long bend of the bay the cloud clung to the land. The thickly grouped spires and chimneys of Dublin were caught in it. I could see the rain pouring over the city like a thick black veil. A shaft of sunlight struck the water of the bay between us and Howth; but a flanking outpost of the storm cloud darkened our nearer sky. The water of the harbor grew suddenly black.

Our padre spoke to us, a few words only, telling us a very simple thing, which certainly, here and now, our hearts believed; which it were well for us if at all times we believed and held fast. Then came the last words of all, that wonderful benediction which promises, which gives, the peace of God. Even as he spoke a few drops of rain fell heavily. The roll of thunder came to us from the darkness that covered Howth. Jagged lightning flashed in a sharp zig-zag against the cloud.

City of Salonika.

Salonika, which has figured so prominently, for some time past, in the news of the day, is one of the old cities of the old world. Before Salonika there was Thessalonika, the Thessalonika of St. Paul, and before Thessalonika there was Therma. The site, in fact, at the head of the gulf of Salonika, on the great bay whose southern edge is formed by the Calamarian heights, is too obviously one for a seaport not to have early found settlers. The actual founder of Thessalonika was Cassander, who, about the year 315 B. C., began the building of a city on the present site.

THE FASHIONS

One-Piece Frocks.

Just at this time of the year, when we are all of us finding the coat very irksome indeed, one-piece frocks play a most important season for them, but at this time their real charm is best appreciated.

Fabrics Important Considerations

Aside from the simple, trim models of serge, gabardine, faille, and taffeta, which one meets everywhere, the shop windows are gay with voiles, nets, figured organdies, and the dainty imported cottons, fashioned into frocks which are wonderfully appealing. Frills, narrow and wide, cobweb-like laces layer of the sheerest of fabrics are used to create these full-skirted, fluffy frocks, for summer dances, and the thousand and one other requirements of the summer playtime.

Interesting Tub Frocks

Of course, many of these dainty, lace-trimmed, befrilled lingerie frocks are anything but economical when one considers that they will not launder, but must be cleaned each time they are soiled. However, there are many dainty materials which will launder and make up quite as effectively—figured voiles, colored handkerchief lin-

Russian Blouse of Embroidered Batiste with Plain Tussah Skirt

ens, crepes, many of the organdies, and most of the imported novelty cottons, when simply trimmed.

A particularly effective summer frock, suitable for almost any daytime occasion, illustrated here, is developed in a dotted voile, a white ground embroidered with a soft pink batiste, just tinted to match the dot. The satin girdle, which is in a darker tone, affords the necessary touch of sharp contrast.

Color Combinations.

Colors, more, perhaps, than almost anything else, should be chosen, not according to the shades which are fashionable, but for their becomingness. There are certain tones which are more becoming than others, and these should be selected. It is not a difficult matter to do this season, for, although we hear of the seriousness of the dye situation on every hand, there seems to be no dearth of beautiful shades. The many shades of gray are popular for muslins and silks; and the soft pinks and blues predominate in

the cool, pretty waistings. Navy blue is always favored, and this summer it is as popular as ever for serge, taffeta and linen suitings. Checks and stripes vie for favor with the plain colors, being used for

6967-6988

Embroidered Voile and Tinted Batiste Flouncing

skirts, combined with dark coats, and for one-piece frocks. Pongees and tussahs, with the natural tan ground, figured or striped in soft tones of green, rose, tan orange and like colors, are being used for the Russian blouse frocks, such as the one shown here, combining the figured and plain material as illustrated. The linen suitings are striped in the same colors, giving much the same effect. These Russian blouse suits and dresses are well liked for sports and also for more formal wear. For instance, the frock illustrated is developed in embroidered batiste combined with a skirt of plain white tussah, making a dainty, cool frock for summer afternoons.

These patterns may be obtained from your local McCall dealer or from The McCall Company, 70 Bond St., Toronto, Ont. Dept. W.

FOR ANOTHER'S BRAVERY

French Soldier Must Wear Through Mistake.

An amazing story of French army official obstinacy was told in Paris recently by a young sergeant-major. He was in charge of a section of trench and had one day to demand a volunteer for a specially dangerous job. Three men offered themselves. One went out and was killed, the second did likewise, the third accomplished his mission safely.

The sergeant-major sent in a report of the incident, but must have been infelicitous in his description, for he found a few weeks later that he himself, instead of the real hero, had been cited for the war cross.

He at first refused to wear the cross and wrote again and again to have the matter put right. No notice was taken by the authorities.

Military regulations force him to wear the cross.

"The only thing for me to do now is to accomplish some deed worthy of it," he concluded.

False Alarm.

Aunt—"You'll be late for the party, won't you, dear?"

Niece—"Oh, no, auntie. In our set nobody goes to a party until everybody else gets there."

GERMANY'S HEROIC HAUSFRAU

The Official: "The Kaiser needs your pan." Hausfrau: "He's welcome to it. We have nothing to cook in it, anyhow."—By Calcatini, in "Pasquino," Turin.

From Erin's Green Isle

NEWS BY MAIL FROM IRELAND'S SHORES.

Happenings in the Emerald Isle of Interest to Irishmen.

The flag of the "Irish Republic" taken from the G. P. O., is now in possession of the Irish Rifles at Portobello barracks.

Dr. Brennan, Camolin Dispensary medical officer, who volunteered for the front, has been gazetted to the Royal Army Medical Service.

Corporation officials, assisted by the fire brigade, are making rapid progress in pulling down dangerous walls in and across Sackville Street.

The name of Prince Arthur of Connaught is being talked of in influential circles as a likely and acceptable representative of his Majesty in Ireland.

Until further notice no aliens will be allowed to land in Ireland unless in possession of a permit to be obtained from the Military Permit Office.

Among the losses by fire during the rebellion in Dublin is that of the Burbridge Memorial Library, founded by and belonging to the Irish Gardeners' Association.

The Military Cross has been awarded to Second Lieut. Wm. Francis Ellis, 8th Battalion, Royal Inniskilling Fusiliers. He is son of Mr. James F. Ellis, Rathgar.

The "Summer Time Act," which came into operation in Ireland recently, when all clocks were advanced an hour, is stated to be running smoothly.

Contrary to general rumors, the R. I. C. depot in Phoenix Park, Dublin, was not taken by the Volunteers. The depot was guarded by armed sentries throughout the week.

A large number of Irish rebel prisoners have been sent to internment camps in France. They are to be used for road-making and for other useful work in the rear of the lines.

Stating that direct work is "more efficient and economical," the Mount Nugent, County Cavan, Labor Union has passed a resolution calling on the farmers and laborers to refrain from tendering for war contracts.

A fire which broke out in the stables of the Field Bakery Company, at 81, St. John's Street, Dublin, on Saturday night, did not spread to the adjacent premises.

Several carts, which were being driven by a team of horses, were overturned by the fire.

No persons were injured as passengers on board any vessel except at the ports of Dublin, Kingstown, Belfast, Larne and Greenore. All passengers must produce credentials or papers of identity and must show valid reason for their journey.

Several carts, which were being driven by a team of horses, were overturned by the fire.

COTTON FROM NILE DELTA.

Irrigation Will Open Millions of Acres in Egypt.

The Egyptian Ministry of Public Works, which has been experimenting in cotton raising during the past ten years in the Gezira region in the Sudan, has issued an optimistic report to the effect that it will be possible to do better than double the yield of cotton in the Nile delta by means of a system of dams for irrigation in connection with the White Nile and the Blue Nile.

Vast quantities of water have been stored already, and during the past thirty years nearly a million acres of entirely new land have been added to the taxable soil of the country. It is estimated that in this newly explored region about 2,500,000 acres of land could be made capable of growing cotton. This, as a matter of fact, would give more land than is now planted with cotton in Egypt. Irrigation works are now being constructed, and a plot of 150,000 acres is being treated.

We see here only one of many illustrations that might be offered of the modern development of Egypt under British guidance, says the Providence Journal.

A COMEDY OF BEANS.

French Beat the Germans in Race to Get Seed.

From a certain large camp in Germany every letter written in early spring by a French prisoner made the demand to have kidney beans sent. Letter after letter arrived, begging for beans and still more beans. There was some surprise in Paris at this sudden and insistent call for beans, but many large packets were mailed. At last some one "tumbled." The Germans had compelled their prisoners to procure bean seed for them.

The French continued to send the beans—but they first carefully plucked them into boiling water. The Germans will wait a long time for a crop from these beans.

Children Cry FOR FLETCHER'S CASTORIA

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's

Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2812 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound. Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness. For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

A Timely Warning

ELEVEN well-known automobiles have advanced in price within the last ninety days.

The Maxwell Company has not increased their prices. We do not know what their plans are, but we do know *and you know* that materials entering into the construction of *good* automobiles now cost from 20 to 300 per cent more than they did six months ago.

Nothing is to be gained by delay. Much may be lost.

Not only may you lose several dollars in the purchase price, but you are sacrificing the enjoyment, the relaxation, the health-giving properties—everything, in fact, that makes motoring the favorite pastime of the nation.

We urge you to come in and investigate the Maxwell.

Or, we will refer you to any number of Maxwell owners and let them tell you their own story in their own way.

They will tell you what they have told us. That the Maxwell is good-looking—that it is powerful—that it is comfortable—that it is economical—in short, that it is the best investment they ever made. They will tell you more and they will tell you gladly and freely.

That's the way they feel toward us and the Maxwell Car.

Whatever you do, don't put this off. We have a few cars on hand and can take orders for immediate or future delivery—at *present prices*. If you can't come in today, phone us for a Maxwell demonstration.

AUTOINTOXICATION OR SELF-POISONING

The Dangerous Condition
Which Produces Many Well
Known Diseases.

HOW TO GUARD AGAINST THIS TROUBLE

"FRUIT-A-TIVES" — The Wonderful
Fruit Medicine — will Protect You

Autointoxication means self-poisoning, caused by continuous or partial constipation, or insufficient action of the bowels.

Instead of the refuse matter passing daily from the body, it is absorbed by the blood. As a result, the Kidneys and Skin are overworked, in their efforts to rid the blood of this poisoning.

Poisoning of the blood in this way often causes Indigestion, Loss of Appetite and Disturbed Stomach. It may produce Headaches and Sleeplessness. It may irritate the Kidneys and bring on Pain in the Back, Rheumatism, Gout, and Rheumatic Pains. It is the chief cause of Eczema — and keeps the whole system unhealthy by the constant absorption into the blood of this refuse matter.

"Fruit-a-tives" will always cure Auto-intoxication or self-poisoning — as "Fruit-a-tives" acts gently on bowels, kidneys and skin, strengthens the bowels and tones up the nervous system.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

HAMILTON'S CORNERS

Miss Winnie Loucks of Brockville is visiting at Mr. Elgin Hamilton's.

A number from this vicinity spent the 4th of July in the "Burg."

Mr. and Mrs. Ellis Casselman were visiting friends in Winchester last Saturday.

Mrs. D. Hanes of Morrisburg spent Monday in this vicinity.

Miss Myrtle Hamilton returned home after spending a few days with Brockville friends.

Mr. and Mrs. J. L. Smyth attended the wedding of Miss Ruby Bouck of Irena on Wednesday of this week.

Mr. J. H. Locke has been very busy painting his house last week.

Mrs. D. F. Hamilton returned home after spending a few days with her daughter, Mrs. Richard Thompson of Black Creek.

A number from this vicinity attended the special services held in the Presbyterian Church, Williamsburg Sunday and Monday last.

Children Cry FOR FLETCHER'S CASTORIA

OUR CORRESPONDENTS

WILLIAMSBURG

Rev. and Mrs. A. E. Rønnells and son, Arthur of Montreal were guests of Mr. and Mrs. J. D. Becksted at the Temperance House on Tuesday of last week.

Sgt. J. H. French and Pte. Lenzie Pitt of "Barrifield" spent the week-end with friends here.

Mr. and Mrs. Peter Darling of Nation Valley were guests of Mr. and Mrs. Garfield Darling on Sunday last.

Guests of Mr. and Mrs. George Durrant last week were—Mr. and Mrs. John Weegar and son, Harold, Mrs. Mahue Tupper of Boucks Hill Mrs. J. E. Schlichter of Cardinal and Nurse Schlichter of Berlin, Ont.

Mrs. Martha Dillabough and grandson, Master Lawrence Brown of Brockville, and Mrs. Arthur Nash of Morrisburg are visiting Mr. and Mrs. Isaac L. McIntosh this week.

The concert given in the Presbyterian Church, Williamsburg on Monday evening proved a most enjoyable and successful event. Addresses were given by Rev. J. Maurer, Williamsburg, Rev. H. Cameron, Morrisburg and Rev. W. A. McLroy of Ottawa. Messages of greetings were sent from Rev. and Mrs. R. A. Lundy, Rev. and Mrs. J. R. McCrimmon and Rev. A. K. McClelland, former pastor of the Church. The selections rendered by Miss Gillis, contralto soloist of Lunenburg and Mr. Underwood, soloist of St. George's Church, Ottawa, were very much appreciated.

Miss E. Maude Strader is spending a few days this week with friends in Morrisburg. Miss Leida Merkley returned last week from New York to spend the summer holidays with her parents, Mr. and Mrs. Chas. Merkley. Rev. and Mrs. W. A. McLroy and son, Stewart, and Mr. and Mrs. J. W. McIntosh and daughter, Mary, motored from Ottawa on Saturday last to Mr. Edgar McIntosh's.

Rev. and Mrs. McLroy are spending this week visiting their many friends in this community.

The people of this vicinity are anxiously looking forward to the Excursion from Lancaster and all intermediate stations on the G.T.R. to Kingston and Barrifield Camp which is booked for Saturday, July 22nd. There will be special trains each way, leaving Morrisburg 7.35 a.m. Return ticket the 154th goes over seas and here is a chance to pay the boys a visit before they go. Return fare from Morrisburg, \$2.30.

Mrs. Geo. Durrant and Mrs. L. C. Barkley and Mrs. Alice Strader were delegates of the Williamsburg Methodist Sunday School and attended the convention held in Morrisburg last week.

Mr. J. Weston of Prescott was a caller in our Burg on Saturday last.

Mr. John S. Casselman has purchased a McLaughlin car and Mr. S. C. Merkley, a Maxwell from Mr. W. H. Fetterley, Morrisburg.

WINCHESTER SPRINGS

Mr. Elmor Baker and daughter, Mary of Ottawa spent the latter part of the week at the home of Mr. Robert Morrow.

Miss Lillie Moore of Morrisburg visited at the home of Mr. Archie Loucks the last of the week.

Mrs. Hilton Nesbitt and little daughter has returned home from Ottawa accompanied by her father and mother, Mr. and Mrs. Smith.

Pte. David Steele of Barrifield camp spent the last of the week with her parents, Mr. and Mrs. Wm. Steele, Toyes Hill.

Miss Nellie McQuaig of Kemptville High School has returned home for her vacation.

Mr. and Mrs. John Hanson visited on Thursday at the home of Mr. Walter McIntosh.

The people of this vicinity are anxiously looking forward to the Excursion from Lancaster and all intermediate stations on the G.T.R. to Kingston and Barrifield Camp which is booked for Saturday, July 22nd. There will be special trains each way, leaving Morrisburg 7.35 a.m. Return ticket the 154th goes over seas and here is a chance to pay the boys a visit before they go. Return fare from Morrisburg, \$2.30.

Mrs. Roy Weaver and children are spending a few days with her mother, Mrs. Wm. Webb.

Mrs. Kincaid and Walter Kincaid of Russell, Mr. and Mrs. L. Kincaid of Winchester and Mrs. Ward Johnston of Chesterville spent a day last week at the home of Mr. Wm. Robinson.

Those who have been successful in passing their examinations here from first form to second, are—Otis McMillan, Johnston Morrow and Willie Thompson.—Congratulations.

Died — On Tuesday, Lawrence Thorpe, youngest son of Mr. and Mrs. Henry Thorpe at the age of four years.

The funeral took place on Wednesday to the Wesley Church, Rev. Bain officiating, assisted by Rev. Shea and Rev. Meredith.

The remains were laid in the Maple Ridge cemetery. The sympathy of the community is extended to the bereaved.

Mr. and Mrs. Smith of Ottawa have returned home after spending a few days with her daughter, Mrs. Hilton Nesbitt.

Mr. and Mrs. Brontmire of Matilda, Mr. and Mrs. Sam Thorpe of Hulbert, Mr. and Mrs. Marshall of Hulbert spent Wednesday at the home of Mr. Henry Thorpe.

Died—At Winchester Springs on Friday, June 30th, 1916, Mrs. John Robinson, aged 91 years.

Mrs. Hutt has returned home to Berwick after spending some time with her parents, Mr. and Mrs. Solomon Coons.

Mrs. Fred Beckstead of Inkerman is visiting at the home of Mr. James Smith.

Quite a few from here attended the celebration at Winchester on Saturday.

Pte. Arnold Casselman spent the latter part of the week with his parents, Mr. and Mrs. Orren Casselman.

Mr. and Mrs. Lucius McIntosh and children are spending some time with the former's father, Mr. Norman McIntosh.

FROATBURN

Mr. and Mrs. John Brown of Wales spent a couple of days with friends here.

Mrs. Milinda Casselman of Morrisburg is at present visiting friends in the Burn.

Mr. and Mrs. Sidney Rooks and son of Morrisburg spent Thursday with Mr. and Mrs. Lucius Froats. Mr. and Mrs. Luther Froats left on Wednesday for a visit with their son in Rochester.

Mr. and Mrs. Geo. W. Froats spent Sunday with Mr. and Mrs. Wells of Hoasic.

A large crowd attended the social at Colquhoun on Thursday evening.

Mr. and Mrs. M. Reddick of Nudell Bush spent Monday at Allen Froats's.

Mrs. Cora Brown of Morrisburg is at present visiting her parents, Mr. and Mrs. P. D. Schell.

Miss Eleanor Swedfeger spent one day with her friend, Miss Blanch Wells of Hoasic.

NATION VALLEY

Misses Grace and Dean Darling visited their aunt, Mrs. Wm. Scott of Winchester on Saturday evening last.

Mrs. Beckett of Oxford Mills is at present visiting her son in this vicinity.

Mr. Jno. Barkley of Syracuse, N.Y., spent the week-end at his home here. He returned Tuesday last to be present at the anniversary of his father's and mother's twenty-fifth year of their marriage which they celebrated on Wednesday last.

Several from here attended the 1st of July Celebration at Winchester on Saturday last.

A number from here attended the funeral of the late Mrs. Thomas Forward of the vicinity of Chesterville.

The people of this vicinity are anxiously looking forward to the Excursion from Lancaster and all intermediate stations on the G.T.R. to Kingston and Barrifield Camp which is booked for Saturday, July 22nd. There will be special trains each way, leaving Morrisburg 7.35 a.m. Return ticket the 154th goes over seas and here is a chance to pay the boys a visit before they go. Return fare from Morrisburg, \$2.30.

Misses Bessie and Minnie Shaver, daughters of Rev. J. A. Shaver, B.A., B.D., and Mrs. Shaver of Strathroy will spend the summer at the home of their grand parents, Mr. and Mrs. Jno. Jamieson. Mr. Duncan McKercher of Winchester was calling in the Valley on Thursday.

Miss Alice Smith of Chesterville presided in our school during the examination and our teacher, Miss Mabel Rae, took charge of Miss Smith's school.

Rev. D. A. Ferguson of North Williamsburg was calling at the home of Mr. and Mrs. Peter Darling on Thursday last.

Mr. W. J. Cass, B.A., and Mrs. Cass of Chesterville were calling in the Valley on Saturday.

Children Cry FOR FLETCHER'S CASTORIA

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

STUDEBAKER

SERIES 17 FOUR, 40 Horse Power
7 PASSENGER \$1225

This grizzled Studebaker veteran has done 97,980 miles (90 per cent of it at 30 miles an hour and over) under the scorching sun and over the roughest roads of central California

Without a single exception this new Series 17 Studebaker motor is the most wonderful motor that the industry has ever seen—and it is wonderful not because it is a novelty or offers a new and hopeful experiment in engine designing—but because it represents the highest development of a long established type of motor and because in the hands of more than 50,000 Studebaker owners, this motor has proved itself supreme in POWER, flexibility and most important, ECONOMY.

Fact is simply that Studebaker has never looked on the motor as a device by which to sell a car—has never sought to follow styles or to inject untried novelties into its design. Instead Service and performance have been Studebaker's chief ideals. And for four years Studebaker engineers have worked over this one design.

For example, they spent two years on the gas passages getting them to taper off just so without angles or any other impediments to the freest flow of the gases. That alone gave increased POWER.

BRITISH AND FRENCH SMASH THE GERMANS

Total Number of Prisoners Taken by His Troops to Date 3,500
—Germans Admit a Retirement

British and French smash the Germans, London, July 2.—The "big push" of the allies continues with unabated energy and increasing gains. Throughout the day the Germans have been pushed steadily back until to-night the French are within six miles of Peronne, a vital point on the main feeding railway of the Germans and the centre of a system of radiating highroads. They have recaptured the villages of Curly and Frise, and have broken into the German second line of defences at a number of points. The British, operating on a fifteen-mile front to the north, have captured the village of Fricourt and pushed farther eastward toward the Bapaume-Peronne highroad, which now is less than seven miles away.

In the first thirty-six hours of their Picardy drive the French and British have captured more than 9,500 German prisoners, cleared fifty square miles of French territory of the invaders, and have carried eleven villages and a complicated series of entrenchments and redoubts which the Germans have been more than twenty months constructing.

"Situation is Favorable."

The situation at the end of the second day is summed up in a sentence by the British Headquarters. "The general situation may be regarded as favorable," says the report received in London to-night from Gen. Haig in France.

The day was one of consolidation rather than of the surging rushes which yesterday carried the allies more than two miles deep into German lines at some points. The greatest progress during the day was recorded south of the Somme, between that river and Assevaliers, by the French

and east of Albert by the British centre.

On the northern end of the British front, around and below Gommecourt, the Germans are offering the strongest resistance. Berlin's first official word on the fighting, received here today, announces heavy losses for the British from Gommecourt to Lo Boiselle and "no advantages worthy of mention."

British Take Fricourt.

In front of Albert, however, despite strong German resistance, the British to-day completed their capture of Fricourt, which had been practically surrounded in the first rush of the offensive, by the capture of La Boiselle and Mametz. The town was strongly defended, being in reality a small field fortress, defended by an elaborate system of redoubts and entrenchments. Pressing through the village the British made an advance toward the east. The extent of this advance is not made clear by despatches so far at hand.

Germans Admit Reverse.

The Berlin statement, admitting that the Teutons were forced to abandon their entire system of first line trenches on both banks of the Somme for some distance north and south, states that the troops withdrawn took up specially prepared positions some distance to the rear.

It is likely that it is this series of trenches into which the French report having penetrated during to-day.

Over the twenty-five-mile battle line the air fleets of the opposing armies are unusually active. The French have carried out a series of raids on important points held by the Germans behind the front.

QUEEN VICTORIA OF SWEDEN HAD A NARROW ESCAPE

A despatch from Berlin says:—Queen Victoria of Sweden, sister of Grand Duke of Baden, escaped during a raid on that city, says an Overseas agency despatch from Karlsruhe. She escaped harm, however, as on the occasion of the previous raid, when she also was in the city.

KITCHEN REFUSE FOR GERMAN COWS

A despatch from Amsterdam says:—German newspapers received here contain an order of the Federal Council compelling towns and communities exceeding 40,000 inhabitants to collect kitchen refuse from all households. The refuse is to be sent to a Government factory, there to be converted into condensed food for milch cows.

INTENSITY OF BRITISH FIRE FRIGHTFUL AT CERTAIN POINTS

First Line Enemy Trenches Straightened Out and Munition Depots Five Miles in the Rear Blown Up.

A despatch from Paris says:—The correspondent of La Liberté at the British front says: "The intensity of the British artillery at certain points is frightful. Shell follows shell at only a few seconds interval. The efficacy of the fire has been noted by reconnoitring parties. Not only first line trenches have been wrecked over a considerable area and some of them entirely straightened out, but the second line and third line defences have come under the British fire. Two munition depots five miles in the rear have been blown up. The prisoners brought back by the British appear to be stunned."

The correspondent after highly praising the British trench raiders and the general spirit of the army, adds:

"The British flying corps lately has been very successful. Time and again

German aircraft have attempted to cross the allies' lines to spy out preparations, and each time has had to retreat, pursued by British airmen. Since the beginning of the week British aircraft have destroyed five German aeroplanes."

Major Morant, the German military critic, commenting in a recent issue of the Berlin Tageblatt on the British activity in Flanders and Northern France, says: "We believe that when the English really make up their minds to undertake a great strategical offensive the end of the British army will certainly be in sight. We do not wish to underrate the seriousness of such a fight. Neither, on the other hand, do we want to allow the British to frighten us. The British army has not, and never will, have the operative strength to drive us out of Northern France and Belgium."

BERLIN EXPECTS CLIMAX OF WAR ON BRITISH FRONT

Impressed by Great Activity of Haig's Forces, Which Includes Several Attacks With Gas.

A despatch from Berlin says:—The intensified artillery activity on the British front is believed here to herald the long-expected great British offensive. If the British mean business at this time they should find the Germans in a state of preparedness. The correspondent is in a position to know that the German line in the far west has not been weakened as the result of having to rush help to the Austrians, and that operations at Verdun are being continued systematically in the face of the possibility of a British offensive.

Military circles here are calmly confident that Great Britain's greatest effort will meet the fate of the previous offensives, but there is keen interest to see Kitchener's new armies in action. The general opinion is that a supreme test of strength between the British and German armies during the coming summer will mark the climax of the war.

In the expectation of perhaps decisive military events on all fronts, peace talk has never been so dead as it is to-day.

CHATSWORTH HALL, DERBYSHIRE OWNED BY DUKE OF DEVONSHIRE

MAGNIFICENT COUNTRY RESIDENCE OF CANADA'S NEW GOVERNOR-GENERAL

SMASHING BLOW ON TEUTON LINE

Austrians Hurlled Back on the Kolomea Front and Southward.

A despatch from London says:—The Russians again are hammering their way toward Kolomea. With slow but sure strokes, before which the Austrian lines, weak without the support of German troops, are crumbling, the Czar's forces are closing upon the Galician stronghold, the key to Lemberg.

"On Thursday General Letchitzky, after artillery preparation," says Petrograd's official statement, "inflicted upon the enemy, despite his desperate resistance, a great defeat in the region between the Rivers Dneister and Puth, and took possession of three lines of trenches."

Over a front of 25 miles the Russian masses were hurled at the opposing lines. Fierce battling followed, in which artillery combat gave way to hand-to-hand fighting. Austrian reserves were hastily rushed to the threatened sector. With these new forces the Russian onslaught was halted, but in the evening the Czar's troops renewed the assault with fresh vigor, and drove their wedge through the Austrian line. Vienna admits that the Teuton forces were compelled to retire "from part of their front at Kolomea and southward."

HALIFAX GOES DRY AFTER 169 YEARS

Forty-six Bars Were Lost Last Night—Liquor Men May Fight.

A despatch from Halifax says:—The 46 liquor saloons in this city closed up on Thursday night to remain closed, in consequence of the prohibition law passed at the last session of the Legislature making Halifax "dry" as well as the rest of the province. It is 169 years since Halifax was founded, and for the first time it will be impossible legally to obtain a drink in any public house.

THREE PEOPLE DROWNED.

Canoeing Tragedy on the Jacques Near St. Catherine, Quebec.

A despatch from Quebec says:—Three persons were drowned on Thursday morning while canoeing on the River Jacques Cartier near Saint Catherine. They are Mrs. Guillot, whose husband is manager for Narceau and Company, dry goods dealers, of this city; M. Jobin, formerly a farmer of L'Evenement, and his son, aged sixteen. It is thought that the canoe capsized in rough water.

ROUMANIAN FOOD RIOTS

Four Killed in Fight With Police at Galatz.

A despatch from Amsterdam says:—According to Bucharest despatches in German newspapers received here, four persons were killed and five wounded by the police at Galatz, Roumania, Monday, while representing a demonstration of workmen against the high prices of foodstuffs. The despatches add that the workmen of Galatz declared a general strike Sunday, owing to the authorities having prohibited meetings and demonstrations in protest against the high cost of living.

SPLENDID BRITISH GIFT TO CANADIAN SOLDIERS

A despatch from London says:—Princess Louise, Duchess of Argyll, presented a silk Union Jack and a silver shield to the General Officer Commanding the Canadian forces on Saturday. The colors and shield are the gift of women and children in the United Kingdom and will remain at Shorncliffe until the close of the war, when they will be taken to Canada. A souvenir, in commemoration of Lord Kitchener, was also given to each disabled soldier.

CANADA'S NEW GOV.-GENERAL

DUKE OF DEVONSHIRE.

DUCHESS OF DEVONSHIRE.

THOMAS KELLY FOUND GUILTY

Of Theft, Receiving and Obtaining in by False Pretences.

A despatch from Winnipeg says:—Thomas Kelly has been found guilty of theft, receiving, and obtaining money by false pretences. A verdict of guilty on four out of the five counts in the indictment on the charges arising out of the contracts for the erection of the Manitoba Parliament Buildings, was found by the jury in the Assize Court on Thursday afternoon at 5 o'clock, after it had deliberated for three hours.

ONLY MUNITIONS FACTORY IN ROUMANIA DESTROYED

A despatch from Bucharest to London says that the only munitions factory in Roumania has been destroyed. The destruction is laid to a plot of German and Bulgarian agents. All the machinery in the plant and millions of shells were destroyed.

PRUSSIAN LOSSES APPROACH 3,000,000

A despatch from Amsterdam says:—The latest Prussian casualty lists covering the period from June 8 to 20 bring the total of Prussian losses to 2,740,196. This figure is not believed to include the losses at Verdun.

A woman's work is never finished if she is trying to reform some man.

LOST STRIPES, NOT HIS LIFE

German Socialist Dismissed From Army and Given Thirty Months.

A despatch from Berlin says:—Dr. Karl Liebknecht, the Socialist leader, was sentenced on Wednesday to thirty months penal servitude and dismissal from the army for attempted high treason, gross insubordination and resistance to the authorities. The court adopted the view that Dr. Liebknecht was guided by fanaticism and not by unpatriotic feeling, and therefore imposed the lowest penalty on him. Dr. Liebknecht is entitled to appeal from the sentence.

KEEP POOR KITCHENS OPEN INDEFINITELY

A despatch from The Hague, via London, says:—The municipality of Berlin has decided to keep open indefinitely the municipal poor kitchens, which in previous years were open only during the winter months, closing at the end of March. This year the closing has been postponed, month after month, under pressure of the needs of the poor people, and it has now been finally decided to keep the kitchens open for an indefinite period. The Vorwaerts says the kitchens are crowded as in mid-winter and that there are many complaints regarding the insufficiency of the rations served.

BRITISH WOUNDED IN LONDON ALREADY

The first batch of wounded from the British front in France arrived at Charing Cross station this evening. An enormous crowd assembled at the station and the police had considerable difficulty in securing passage for the Red Cross vehicles through the cheering, flag-waving people.

TURKS DRIVEN BACK IN BAGDAD DIRECTION

A despatch from Petrograd says:—The Russians continue to make progress in the Caucasus. "South of Lake Urumiah we pushed back the Turks from the region of Bann toward the Turco-Persian frontier. In the direction of Bagdad we have defeated the Turks, driving them toward the fortified region of Kalavstrahine."

IRISH OUTLOOK IS MORE HOPEFUL

A despatch from London says:—"The Irish outlook generally is more hopeful. The Daily Mail predicts an amicable settlement. The Daily Chronicle, on the other hand, says that Lord Lansdowne, Minister without portfolio, and Walter Long, president of the local Government Board, have resigned. Some other papers say that no one has resigned from the Cabinet except Lord Selborne."

Fish Changes Color.

In Siam there are small freshwater fish so pugnacious that when two of them are placed near each other they begin to fight. When the fish is quiet its colors are dull, but when excited it is of a metallic brilliance.

GERMAN PAPER PAYS TRIBUTE TO CANADIAN GALLANTRY

One General and Several Officers, It Says, Preferred Death to Surrender.

A despatch from London says:—The Cologne Volkzeitung, describing the gallant stand made by the Canadians at Ypres at the beginning of the month, says many of them made an obstinate resistance, preferring to be killed rather than surrender. One general and several officers who refused to give in were killed. The general drew his sword, and when a sergeant demanded his surrender he cut him through the face, whereupon an infantryman bayoneted him. Many such groups who resisted desperately and refused all mercy had to be cleared out with bombs.

A WOMAN'S HEALTH NEEDS CONSTANT CARE

When the Blood Becomes Poor Disease Speedily Follows

Every woman's health is peculiarly dependent upon the condition of her blood. How many women suffer with headache, pain in the back, poor appetite, weak digestion, a constant feeling of weariness, palpitation of the heart, shortness of breath, pallor and nervousness. Of course all these symptoms may not be present—the more there are the worse the condition of the blood, and the more necessary that you should begin to enrich it without delay. Dr. Williams' Pink Pills are beyond doubt the greatest blood-building tonic offered to the public today. Every dose helps to make new, rich red blood, which goes to every part of the body and brings new health and strength to weak, despondent people. Dr. Williams' Pink Pills are valuable to all women, but they are particularly useful to girls of school age who become pale, languid and nervous. Thin blood during the growing years of a girl's life usually means a flat-chested hollow-cheeked womanhood. There can be neither health nor beauty without red blood, which gives brightness to the eyes and color to the cheeks and lips. Dr. Williams' Pink Pills do all this, as is proved in thousands of cases. Mrs. Wm. Rowe, Carlaw Ave., Toronto, says:—"I have received so much benefit from Dr. Williams' Pink Pills that I feel it my duty to recommend them to others. I was about completely prostrated with anaemia. I had no appetite, was terribly weak and subject to fainting spells. I suffered greatly from dizziness, and the various other symptoms that accompany a bloodless condition. Remedy after remedy was tried, but to no avail until a friend advised me to try Dr. Williams' Pink Pills. Before completing the second box, I was again enjoying splendid health, and have since remained in that happy condition."

You can get Dr. Williams' Pink Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

FELL FROM ZEPPELIN.

German Tumbled Right Into an English Conservatory.

Curious things happen in war time, but there has been nothing more startling than that which happened to a certain family which lives in a town on the east coast of England. Some weeks ago Zeppelins flew over this port, which was nothing unusual. The members of this certain household were partaking of a late evening meal, seated around the table in the dining-room. They heard bombs exploding and the fire of anti-aircraft guns. Suddenly there was a tremendous crash at the back of the house. Evidently something had dropped into the conservatory. It was assumed that it was a bomb. For a few minutes the people remained where they were, fearing a further explosion. Then they investigated. In the conservatory, most of the glass of which was broken, they found a dead German air-sailor. He had evidently accidentally fallen from a Zeppelin or perhaps he was knocked out by a well-placed British shell. He had fallen from a tremendous height, probably no less than 7,000 feet, and he was naturally badly mutilated.

Like a Train Schedule.

"Nora," said the mistress to the new servant, "we always want our meals promptly on the hours."

"Yis, mum. An' if I miss th' first hour shall I wait for the next?"

For Pure Goodness and delicious, snappy flavoured no other food-drink equals

POSTUM

Made of wheat and a bit of wholesome molasses, it has rich color, aroma and taste, yet contains no harmful elements.

This hot table drink is ideal for children and particularly satisfying to all with whom tea or coffee disagrees.

Postum comes in two forms: The original Postum Cereal requires boiling; Instant Postum is made in the cup instantly by adding boiling water.

For a good time at table and better health all 'round, Postum tells its own story.

HIGH PRICES CAUSED BY WAR

COST OF FOOD IN GERMANY IS UP 85 PER CENT.

Increase in England, Due to the War, 49 Per Cent. and in Italy, 29.

Prof. Einaudi, one of Italy's most prominent economists, explains in the Corriere della Sera of Milan the failure of Germany's much admired organization intended to avert the shortage of food, as illustrated in what he calls the "tragicomic story of potatoes." "If preparation in peace time and organization in war time had been so economically efficacious in Germany," Prof. Einaudi says, "then that country would have become a close market sufficient unto itself and prices of foodstuffs should have been cheaper there than elsewhere."

"Instead, according to official statistics published by the Statistische Korrespondenz, the average increase in prices between July, 1914, and February, 1916, exceeds 85 per cent. Thus the price of rye bread increased 42 per cent., that of corn bread 14, rye flour 46, butter 106, lard 224, and milk 36. The consumption of the above articles has been limited to quantities fixed by the authorities. Beans and lentils have respectively increased 187 and 132 per cent., and are no longer procurable. Sugar increased 28 per cent., coffee 48, eggs 185, beef 117, mutton 106 and pork 72.

"Prices in England, according to the Labor Gazette, have on the whole increased by 49 per cent. The highest increases in prices are those of wheat bread, 52 per cent., flour, 60, and sugar 128. The rise in prices in England, however, is easily supported, owing to the low prices prevailing in ordinary times.

"As regards Italy prices have risen on the whole by about 29.78 per cent., despite unfavorable exchange, high freights, high price of coal and other drawbacks. Bread has only increased 23 per cent., flour 54, milk 13, beef 50, lard 15, and oil 20.

Increases Due to War.

"Thus, in conclusion, the average increase of prices in the three countries is as follows: 85.6 per cent. in Germany, 49 in England and 29.78 in Italy. The German genius for organization has not led to brilliant results after all.

"Where German organization has completely failed is in the case of potatoes, despite the fact that the Germans are still bragging that the price of potatoes has not increased since the war. And yet it is sufficient to relate the story of German potatoes briefly and chronologically as follows:

"November, 1914—Complaints about the scarcity and high prices of potatoes compels the Government to fix the maximum prices in all the empire for growers.

"Winter, 1914-15—Potatoes disappear from the markets. The Socialists blame speculators, agrarians blame unfavorable weather and transport difficulties, the people suspect the potatoes are being devoured by pigs.

"January-February, 1915—The slaughter of pigs is ordered and as a result the prices of pork rise by 70 per cent. Yet potatoes are still scarce in the western industrial cities and Berlin. Potatoes are sold by the municipalities in small quantities. Prof. Ballod announces that the potato crop was only 43,000,000 tons, instead of 52,000,000 as in former years.

"March-April, 1915—The Government decrees that potatoes should be censused and enforces distribution.

"May-June—Sensational developments. The agrarians, realizing that the prices of potatoes will not increase and fearing that the stocks they hoarded will deteriorate, dump them on the market. The newspapers urge the consumption of potatoes, especially as prices are low and it is announced that the crop yielded 55,000,000 tons.

"July, 1915—The inhabitants of Berlin whose houses are close to the railroad stations complain to the Hygiene Office about the pestilential odor from stacks of potatoes allowed to rot in the station yards.

Potatoes Sold at Loss.

"August, 1915—Accounts of the Government's administration of potatoes are published and reveal that the Government purchased 24,000,000 hundred weights of potatoes, sold only about 4,000,000 to the municipalities and was forced to get rid of the remaining 20,000,000 by selling them at a loss to distilleries.

"September, 1915—Potatoes again scarce. At Marburg farmers refuse to sell, but decide to wait for spring.

"October, 1915—Farmers who have more than ten acres of land under potato cultivation are ordered to keep 20 per cent. of their crops at the disposal of the Government.

"Winter, 1915-16, and spring, 1916—Impossibility to get potatoes at the prices fixed by the Government and impossibility on the part of the Government to compel the farmers to sell the potatoes they are hoarding."

Prof. Einaudi concludes his tragicomic story of German potatoes by merely pointing out that even the most wise and all powerful German bureaucracy failed to change the

habits of man and to avert the inevitable mistakes that every bureaucracy in the past has been in the habit of committing.

GERMANS ADMIRE BRITISH FINANCE

THE SOCIALISTS URGE A TAX ON CAPITAL.

British System Is Praised As Less Burdensome Than Teuten Method.

Dr. Helfferich, the German financial secretary, some time ago laid stress on the advantages of German finance as compared with British methods, but some critics, even in Germany, have since realized that it is a short-sighted policy to raise taxation merely to maintain a balance in the civilian budget, while the colossal expenditure of the war remains to be covered entirely by loans, writes a London correspondent.

In fact Vorwaerts goes so far as to express preference, by implication, for the British system of finance and taxation. That journal says: "If the English State has to pay almost 5 per cent. interest for its loans, it must not be forgotten that it recovers a considerable percentage in the shape of taxes. Thus, in war no less than in peace, the English system of State economy remains an example which no other country has yet been able to emulate."

It is a significant fact that the name of the war profits tax law of Germany has been altered to that of the war tax law, in order to express the fact that it is not properly a tax on profits.

Urge Tax on Capital

Since the outbreak of the war violent struggle has been in progress in the Reichstag between the Government and the Social Democratic and Labor parties. The latter have urged that the capital and industry of the empire should be made to bear a far heavier share in the way of direct taxation, while the Government parties have favored indirect taxes, maintaining that further direct taxation is out of the question.

In urging that the tax on war profits should be raised the Socialists maintain that undue consideration is shown for the interests of the propertyed agrarian classes. All indirect taxation, the Socialists maintain, bears too heavily on the working classes. It is argued, with not a little shrewdness, that if Germany cannot stand further taxation on property, then the Government may as well declare the empire to be bankrupt, as all idea of any adequate war indemnity must be abandoned.

LONDON MUTUAL FIRE INSURANCE COMPANY

F.D. WILLIAMS, MANAGING DIRECTOR
HEAD OFFICE—33 SCOTT ST. TORONTO.

Hungary have been following the example of Germany. In the fourth Austrian war loan there was a departure from the policy adopted in the cases of the three earlier emissions. The latest issue was in two forms, a long and a short period loan.

The Austrian Loan.

As in Germany, the pawning methods have been adopted freely in Austria. In the Neue Freie Presse the borrowing facilities have been fully explained. It states that "1,000 kronen of the forty year bonds cost 925 kronen. Any person wishing to subscribe this amount can borrow 750 kronen on the bonds which are to be issued to him, so that he need only find 175 kronen in cash, and does not even require to pledge older securities."

The fourth Hungarian war loan was issued in the form of a perpetual short period loan, as with the second and third loans, but the Government has aimed at securing the bulk of the small subscriptions to the perpetual loan.

The Austrian war profits tax is expected to yield 300,000,000 to 50,000,000 kronen in three years. However, the President of the Association of Austrian Industrialists, writing in the Neue Freie Presse, expressed the opinion that the actual results of the tax, especially as regards the profits of industrial undertakings, would provide a "big disappointment" for the Government.

HEALTHY BABIES SLEEP WELL AT NIGHT

A well child sleeps well and during its waking hours is never cross, but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. Concerning the Tablets Mrs. Chas. Dittie, North Temascaming, Que., writes:—"My baby was greatly troubled with constipation and cried night and day. I began giving her Baby's Own Tablets and now she is fat and healthy and sleeps well at night." The Tablets are sold by medicine dealers or by mail at 25 cents a box, from The Dr. Williams Medicine Co., Brockville, Ont.

Dog Tax to Yield \$4,500,000.

French Minister of Finance Ribot expects to add \$4,500,000 to the nation's income by his new tax on dogs. There are 900,000 dogs kept for pleasure in France and 2,700,000 watch dogs. The former must pay \$2 each and the latter \$1.

Minard's Liniment Lumberman's Friend

Its Present Color.

"Say," said the landlord to the tenant who was two months shy with his rent, "when am I to see the color of your money?"

"Can't say," replied the party of the second part. "The color just now is an invisible green."

Minard's Liniment Co., Limited.

Gents—I cured a valuable hunting dog of mange with MINARD'S LINIMENT, after several veterinarians had treated him without doing him any permanent good.

Prop. of Grand Central Hotel
Drummondville, Aug. 3, '04

Had Enough.

"Having satisfied you, sir," went on the book agent, "that you are in constant need of our superb dictionary, permit me to show you also its greatly enlarged appendix, which no family should be without."

"Nothing doing!" gasped the prospective victim. "It's cost me \$500 to have one of those things cut out and I want no more."

Minard's Liniment used by Physicians.

Not Too Busy.

Nervous Employer—"Thomas, I wish you wouldn't whistle at your work."

Office Boy—"I ain't working, sir; I'm only just whistling."

Handsome Prizes Will Be Given

The Management of the Toronto Fat Stock Show announce their intention of holding a show at the Union Stock Yards, Toronto, December 8th and 9th, 1916. We understand the prize list will contain many new classes, and offer handsome prizes to breeders and feeders of cattle, sheep and hogs.

Unconscious Joker.

What the case was about no one seemed to know exactly. The lawyers themselves were pretty well mixed up.

Then an important witness entered the box and was presently asked to tell the court the total of his gross income.

He refused; the counsel appealed to the judge.

"You must answer the question," said the judge sternly.

The witness fidgeted about and then burst out with:

"But—but, your honor, I have no gross income. I'm a fisherman, and it's all net."

Money also helps the man who tries to help himself.

EXHIBIT OF WOOL.

Canadian National Exhibition Will Feature It.

Through the wool display of the Dominion Live Stock Branch, Ottawa, which will be presented at the Canadian National Exhibition, farmers will be given a splendid opportunity for obtaining a thorough knowledge of the sheep and wool industry of Canada. The exhibit has been prepared by T. Reg. Arkell, chief of the Sheep and Goat Division of the Branch, who will be in charge with Mr. James A. Telfer as demonstrator. The object of the exhibit will be to explain the various classifications and grades, and to show how wool may be handled in such a way as to secure the best advantages to both the producer and buyer. In order to command the highest market prices, wools should be presented in a carefully folded and packed condition and should contain as little foreign matter as possible. Actual demonstrations in grading and sorting will be given daily by wool experts. One of the most interesting and instructive features will be samples of wool in both the greasy and scoured condition, showing the injurious effects of using insoluble paints, which are difficult to remove, rather than the standard dipping fluids for marking purposes. Samples of wool that have been tied with binder twine will show how the sisal fibre becomes incorporated into the wool with the consequent defect in the finished product. The injurious effects of shearing wool while damp or permitting it to become damp while in storage, will be shown, together with the damage caused by the incorporation of straw and chaff into the fleece.

FOR TRANSFUSION OF BLOOD

Argentine Surgeon Practising in France Finds New Method.

This month's number of La Revue, Paris, describes a new method for transfusion of blood, an operation of often necessary under conditions which do not always allow certain precautions to be taken.

The method is due to Prof. Luis Agote, an Argentine surgeon, and successful experiments have been made before the rector of the Sorbonne, the dean of the faculty of medicine, and several professors and doctors.

Blood is taken from the bend of the elbow of any subject willing to lend his aid and collected in a receptacle which contains a solution of neutral citrate of soda, prepared in the proportion of one gram of salt for 100 grammes of blood. This mixture prevents the blood from coagulating without destroying its vital properties, and the citrate employed is inoffensive. The arm without drawing the chief drawbacks of transfusion as generally practiced.

The receptacle for the blood drawn is in graduated glass with double tubing and has a large enough opening to allow the blood to fall directly into it. The end is pointed to allow the tube for injection to collect the maximum of blood without allowing air to enter. From three to five grams of solution are placed in it, being a sufficient quantity for 300 grams of blood.

"TELEPHONE" CURES THIRST.

French Soldier Confesses and Penalty It Cut in Two.

A court-martial at the front. The presiding officer, speaking with a distinctly kindly intonation, to the accused:

"Now, now, admit that you telephoned."

"No, my Colonel, I did not telephoned."

"If you confess, you will only have half the penalty."

"Well, then, yes, my Colonel, I did telephoned."

All the court laughed and a nominal sentence was pronounced.

The civilian should not imagine that the use of a telephone is a crime in the French army. To "telephoned" in army slang is to bore a little hole in a full barrel of wine, to fit a rubber tube thereto and apply the mouth to the other end.

If a man owes you money he is always ready to laugh at your weak criticisms.

The L.A. & M.S. of St. John and St. Pauls Lutheran Churches will hold their anniversary supper at the Parsonage Friday, July 14th. Tea served from five to seven o'clock. Admission, adults 25c, children 15c. A cordial invitation is extended to all.

Mr. and Mrs. Robert Mullin and party motored to Ormstown, Que., on Dominion Day by way of Waddington and Massena and returned to town on Wednesday.

Three of the Germans who have been interned at Kingston were called upon on Monday last to fix a Colonel's motor boat and after fixing same escaped to the American side. The prisoners are supposed to be in the vicinity of Watertown.

Through the kindness of Mr. B. S. Wickware we enjoyed our first mess of new home-grown potatoes on July 1st. We have noticed about town many promising gardens, but considering the very late season we venture to say these potatoes are the "early birds" of the season in this vicinity.

Mr. S. G. Finnie of New Jersey is spending the week in town.

Mr. Asa Wood and Robert Wood of Campbellford spent the holiday at their home.

Mr. Ralph Bouck of Ottawa spent Dominion Day at his home here.

Mr. and Mrs. R. J. Lockhart and Mr. and Mrs. H. Lockhart of Montreal were holiday visitors at the home of Mr. D. T. Henderson.

Mr. Archie Carson who has been teaching school in Lauring, Ont., arrived home on Saturday to spend the vacation with his parents, Rev. and Mrs. C. O. Carson.

Elmer C. Hicks, a member of the 156th Battalion at Kingston will be transferred to the county jail at Canton, after having spent a few days in the Ogdensburg jail.

Pte. Hicks deserted from the ranks with Iva Hawkins, an English girl of 18 years, who lived in London until two years ago. The soldier crossed the St. Lawrence with his lady friend and landed three miles above Morrisburg. He was still wearing his uniform.

Capt. Luke Mallen resumed his duties on the "Bronson" on Tuesday afternoon. The Captain had somewhat of a severe workout for the last few days, having been engaged in freeing three tugs which grounded among local islands on Monday last, having been abandoned by the "Bronson" when her engine became crippled at the "Head of Canal."

CARD OF THANKS

I wish to thank the Citizens who assisted in extinguishing the blaze at the rear of my Bakery on Tuesday evening.

GEO. CAMERON

CORNWALL GENERAL HOSPITAL

This institution provides skilled nursing and care at very moderate rates to those able to pay, and without charge to indigent persons from the three United Counties, other than the Municipal Grants.

It is kept up by:

1. Fees from paying patients.
2. Grants from the Government and Municipalities.
3. Donations and Subscriptions from Churches, Corporations, Societies and Individuals, the last being the largest source of revenue.

You are Asked to Assist in this

The nucleus of an endowment fund has been established by a legacy recently received, and parties remembering the Hospital in their wills may stipulate that bequests made by them shall go to this fund. If you would like a copy of the last Annual Report, drop a card to the Secretary, who will be pleased to send you one.

J. T. KIRKPATRICK, J. C. ALGUIRE,
