ARCHITECTS' SKETCH OF NEW PLANT — The new Square C Textile plant is rapidly taking shape and the finished structure will look like the above sketch by the architects, Spevack & Gross, of Montreal. Concrete floors were being poured this week and today some 21,000 feet had been poured. The big plant takes in some 80,000 square feet of floor space. Steel is expected to start rising within another two weeks and the walls will be finished in a new material Gal-bestos. The dye house will be to the left of the picture, the weaving shed and office space to the right.

Auxiliary Bishop Of Alexandria Has Had Active Career In Preaching, Teaching

Rt. Rev. Msgr. Joseph Aurele Plourde, who will be consecrated Bishop of the titular See of Lapda, and Auxiliary Bishop of the diocese of Alexandria, at Edmundston, N.B., August 26th, has had a distinguished career in pastoral work, in social studies and in teaching.

A recent issue of Le Madawaska, French language weekly printed in Edmunston, N.B., gives this information on his career:

Msgr. J. Aurele Plourde was born at St. Francoise de Madawaska, N.B., January 22, 1915, one of ten children of Mr. and Mrs. Antoine Plourde. Following his studies in the local schools he attended Sacred Heart University at Bathurst, N.B. and Rigaud College at Rigaud, Que. His course in philosophy was taken at St. Joseph's University after which he attended Saint Coeur de Marie seminary in Halifax.

Ordained May 7, 1944, at Bathurst, N.B., Msgr. Plourde served as curate in St. Quentin parish until 1946 when he was appointed secretary to His Excellency Marie-Antoine Roy, first Bishop of Edmundston. He was also founder-director of the diocesan Retreat House. One year later he went to France for studies in philosophy and social science and in 1949 came to Ottawa University for further study in social science and theology.

Through the period 1951 to 1955 the new Bishop taught philosophy and social science at St. Louis University in Edmundston where he instituted evening adult courses. At the same time he served as director of social work for the diocese and during summer vacations served as Army chaplain at Petawawa, Halifax and Gagetown.

In 1955 he was appointed pastor of St. Leonard's Parish and during his four-year pastorate saw erected the magnificent St. Leonard's church which was destroyed by fire early this summer. In 1959 Msgr. Plourde went to Rome for further study at the Gregorian College. Since his return he had been on the staff of St. Louis University, latterly as professor of philosophy, and his services had been much in demand as a preacher at clergy and lay retreats in many dioceses.

He plans a new housing subdivision on the property with some commercial building on the Main Street frontage.

Taffy Party In August--- Yet?

August has been unusually dry and cool in these parts but scarcely cold enough for taffy on the snow. That's what you think.

Mr. and Mrs. Real Chenier, McCormick Road, threw just such a party on a recent Sunday; but it had long been planned for. The syrup had been kept over from the Spring and snow had been stored in the freezer for just this purpose.

Her parents, Mr. and Mrs. Josephus Montpetit, former residents but now of Montreal, had not been able to enjoy the syrup season in Glengarry. So the season had been extended into late summer for their visit.

Mrs. Armand Samson, another daughter, Mr. Samson and family, of Greenfield Park, Que., came along to join area members of the Montpetit family in the taffy-on-the-snow party.

Plan Glengarry Club In Ottawa

Possibility of organizing a Glengarry Club in Ottawa will be discussed at a get-together of former residents of this county, Tuesday, September 1st. Meeting place will be the Montmarte Room of the Belle Claire Hotel at 227 Queen Street, and anyone interested in forming a Glengarry Club in Ottawa is asked to attend. Meeting time is 8.30.

Donald Norman MacLeod is one of the proponents of the plan to revive the Ottawa Club which flourished some 20 years ago in the capital.

Miss Patricia Kelly, daughter of Mr. and Mrs. Howard Kelly, Alexandria, left Friday for Ottawa, where she entered the novitiate of the Holy Cross Order.

Likes First Month Learning Weaving

Eighteen area men are now learning the weaving trade, on the job and in school, in preparation for the day later this year when the new Square C Textile plant will be ready for production.

Raymond Bedard, of Alexandria, is one of the originals and after one month of training he informs us he likes the work and even the weekend return to school. His ears have become accustomed to the din of the weaving shed and he reports he and his fellows are finding the new work interesting.

Each Sunday night they leave for the Consolidated Textile plants at St. Hyacinthe or Joliette where they are learning all about weaving and warping and other operations. Come Thursday afternoon, the men head back to their homes.

Fridays they get the theory of textile production in book sessions at the High School. Classes are from 9 to 12, and 1 to 4.30, with another two-hour session on Saturday mornings.

At the St. Hyacinthe plant, where Mr. Bedard is taking his training, he is now on the mechanics of the trade, learning to keep the looms in running order. But for the first month he was shown the general operation of the plant, watched experienced workmen weaving and warping, learned how to put another warp on the loom and was taught other operations in the big plant which has 400 looms working.

By late October when it is expected the local plant will be ready for occupancy, Mr. Bedard expects he and his fellows will have absorbed enough knowledge of looms to be of help in installing the equipment in the plant. They should also be in a position to assist in the training of the many more men who will then be added to the local production line.

Monday as more Alexandria men reported to St. Hyacinthe and Joliette for training, our town got its first new citizens because of Square C Textiles. Mr. and Mrs. Andrew McNulty and their six children arrived from Thompson, Conn., to occupy the former home of Dr. H. L. Cheney on Elgin Street.

Mr. McNulty will be manager of the dye plant and meanwhile he can be sharpening up his golf on the local course while the children get set for school.

Renovated Store To Have Opening

The entire store interior has been transformed into a modern shopping outlet from new display windows to enlarged rear. A new shoe bar and air-conditioning are among the improvements.

Town Seeking New Police Chief

Members of the Alexandria Police Commission met last night and accepted the resignation of Police Chief Fern Seguin.

Chief Seguin has been appointed an inspector with the Ontario Department of Transport and he resigned the post August 13th, effective at month's end.

The Police Commission decided to advertise for applications for the post of chief and a temporary replacement will probably be hired to assist Constable King until the chief's post is filled.

Mr. Seguin will be stationed at Prescott and will cover this eastern area. His family will remain in Alexandria at least for the present.

Planning Consultant Sees Population Of Charlottenburgh 8,050 In 1983

A population increase from 5,550 to 8,050 by 1983 is predicted for Charlottenburgh Township by Dr. E. G. Faludi, township planning consultant.

Dr. Faludi made his prediction at the first meeting of the Charlottenburgh Planning Board at Williamstown, last Thursday night. At that meeting Harold Farlinger, of Cornwall, who owns a farm in the township, was appointed first chairman of the board.

Other members of the planning board are Mac C. MacRae, vice-chairman, Williamstown; William J. Murray, secretary-treasurer, Summerstown; Roger Roy, Green Valley; Raymond Filion, Glen Roy; George Shoniker, Glen Walter; Mrs. Dorothy Nicholson, Martintown; Herbert Johnson, Lancaster; and Laurent Benoit, Summerstown.

The board will meet with township council and Dr. Faludi Aug. 26 for a day-long tour of Charlottenburgh. They will inspect roads, buildings and all other features of the township affected by planning.

Accompanied by his assistant, James Miller, Dr. Faludi told the planning board Thursday that he was taking "a personal interest" in Charlottenburgh and would attend planning board meetings on the second Wednesday of each month.

The planning board also intends to hold one other meeting each month.

The Toronto town planner, in his report, says Charlottenburgh will be influenced by the future expansion of Cornwall, just west of the township. The city should have a population of 73,600 by 1983.

"This city growth," says the report, "will only require about one third of Cornwall's 19,000 acres, so that no need for city expansion into the township will exist during the next two decades."

Charlottenburgh land will continue to be used mainly for agriculture in coming years, except near Highways 2 and 401 and along the St. Lawrence River where tourist, marine and water-front activity will expand.

In preparing an official plan for Charlottenburgh, Dr. Faludi says he will study past and present trends and then estimate the future labor force and population and the kind of housing needed in the next 20 years.

Then he will forecast the needs for residences, businesses, industries, recreation areas, transportation facilities, major institutions and other land uses. Where they should be located will also be considered.

IT'S OUR OPINION

Is The Fire Truck Complaining?

If Alexandria is to have a centennial project of any kind with which to mark Canada's one hundredth birthday in 1967 time is of the essence. A firm decision must be made within the next two months if the formal application for grants in aid is to reach the higher levels of government within the already extended deadline.

There appears to be a difference of opinion among town councillors who have two possible projects in mind. Some progress was being made on plans to take over Glengarry Gardens as a community centre, adding a library and community hall in the front of the arena.

Now there is the alternate suggestion that the present Fire Hall be torn down and replaced by a more modern building that would house police and fire services, a library and a senior citizen's recreation room. We know nothing more of this idea than the information emanating from the minutes of the last meeting of council. Its proponents estimate it would cost "less than $75,000," and no doubt they are counting on generous grants from various departments of government and the centennial financing to help meet the expenditure.

Perhaps we will learn to like the idea of a $75,000 Fire Hall when more information is made available on the grant factor and the type of municipal building visualized. Our present Fire Hall is a relic of the horse and buggy days, we realize, and some day it will have to be replaced by something more adequate to the needs of a growing town.

But it seems to be serving its purpose now, and it might make do at least until we find the need for a permanent fire brigade. The police have an office of sorts. The cells are no doubt way below the standards set by sociologists who would pamper the prisoner. But crime is almost unknown in our town and the Counties gaol at Cornwall is within easy reach of the criminally inclined. We pay our share of the costs of the Cornwall gaol and we offer a free ride to those who prefer confinement there to a brief stop in our cells that at times may be found cold.

If our town is in a position to spend this respectable sum, less whatever government grants may be available, we know several other services that we see more essential than more comfortable quarters for the odd wino who wants to sleep it off. Our fire apparatus may be somewhat confined, but it is answering alarms in good time and what more would it do if it were better housed?

Our senior citizens who gather now above the Fire Hall to pass the day in card playing might appreciate modern air-conditioning and more cheerful quarters. Surely these can be supplied without so ambitious a municipal undertaking. The Public Library seems to be an afterthought, included in such planning merely to gain the support of those citizens who see the need for better reading. Any Public Library planned as merely an adjunct to another municipal service will fail to fill the function visualized by those who really want this type of facility for our town.

We editorialized years ago on the need for a Public Library in Alexandria and we still think this would be the ideal centennial project, especially if its reading matter included a study of early Glengarry. We have advocated, too, municipal ownership of Glengarry Gardens as the only possible guarantee our town will not lose those recreation facilities it now enjoys and which might be more widely made use of under a community program.

If it proves feasible to combine a library and other community centre facilities in the present arena, then we see possibilities in a centennial project that will retain the artificial ice plant we are in danger of losing, and add another recreational benefit, good reading matter, that our young people do not now enjoy.

Centennial planning should be beamed at the young, we believe, rather than in providing better housing for a fire truck or the one-night stay of those unfortunate enough to run foul of the law.

Whatever decision town council comes to in this matter, it should keep in mind that centennial grants are but a small part of the cost of any project. Municipal taxes will pay most of the outlay and the taxpayer will want to see a sensible approach to this business of centennial planning.

It Is A Modern Miracle!

The average normal man who keeps his eyes neither on the stars nor on the ground cannot fail to observe the startling trends in feminine fashion. And it is mighty puzzling, too, suggests the editor of The Smiths Falls Record-News.

Consider the fishing trip on which the female companion needs a helping hand to get into a boat, or to cross a stream on a slippery log. Yet, return her to the asphalt jungle and she will perform the amazing feat of walking and balancing on high spikes — also known as heels of shoes — with never a wiggle or a wobble. How does she do it?

More recently the younger set is seen walking the streets in skin-tight slacks that virtually scream: "Look, Ma! No girdle." Men may ask themselves how the women in our world can walk on spike heels, but not on a log. How they appeal for man's help to close a zipper but shoe-horn themselves into skin-tight slacks.

Women argue that men, and not they, are the weaker sex. Whatever merit there may be in that debate it must be admitted that men are the losers in physical contests with wearing apparel. With women it seems that they can wiggle into the tightest, balance on the tiniest, and still be mobile. It is a modern miracle!

Little Justice In Taxation

One of the more distasteful tasks we have been doing before taking off on a brief holiday was the writing of cheques to cover all those taxes we have been collecting for Big Brother, our governments. One of the banes of our existence is this unpaid service government demands of us by a certain day of the month, or else.

Where is freedom when a citizen who neglects to collect his own due bills, must yet render to Caesar, on a specified date each month, the sales tax on work he may never get paid for? It was in this questioning frame of mind that we read this editorial from the Wingham Advance-Times:

"A recent edict from the Department of Labour demands that all employers must provide a full statement of wages and deductions to their employees along with their pay cheques. This ruling is eminently fair and reasonable. The workman has every right to know what deductions are being withheld and their exact amounts.

"It would seem, however, that governments should have the same obligation to the taxpayers. We, who foot the bills, should be permitted full knowledge of where and when the money is being taken from us.

"Examples of what amounts to almost slick duplicity in the field of taxation are numerous. One prime case is in the matter of sales taxes. If you happen to be a purchaser of printed matter in our office you should take note of the fact that most items of printing you buy are subject to 11% federal sales tax. A second tax entry on your invoice is added to take care of the 3% provincial sales tax — but the latter figure is not computed on the basis of the actual cost of the printing. The law demands that we calculate the 3% on the total of the actual cost, plus the federal tax. In other words, the customer is charged three percent of the cost of the printing, plus three percent of the federal tax.

"Another example, and one which seldom occurs to most taxpayers is the overlapping of municipal and income taxes. When you are making out your annual returns for the federal income tax department you are not permitted to make any deduction for the taxes you have paid to your own municipality. The money you have already spent to support schools, law enforcement, fire protection, etc., is considered by the Ottawa officials as funds you have used for your benefit, and therefore as taxable income.

"The average taxpayer in Wingham who pays, let us say $250.00 in local taxes is likely to be coughing up about $57.50 in income tax on the taxes he has already paid to the town.

"The list of "taxes on taxes" is as long as your arm. There are dozens of them — not the least of which is the income tax you pay on consumer goods already bearing 3% sales tax and often federal sales taxes as well.

"The entire principle of "no double taxation" seems to have been abandoned as governments have sought to meet fiscal demands without insulting too many voters. It may be a necessary method of raising money but it is certainly not an admirable one."

WITH OUR

RAMBLING REPORTER

If you think we're getting too much government, just imagine what it would be like if we got as much as we're paying for.

****

ORANGE GERMS

Seems we're always reading about some newfangled notion that leaves the thought we were born a few decades too soon. The latest is flavored lipstick and it's intended mainly for younger girls.

Four colour-flavor combinations have hit the market: Orange Kiss, Caramel Kiss, Peppermint Kiss and Cherry Kiss; and there's the promise other flavors will be added.

From what we read, the flavor is only noticeable when it's applied and the wearer becomes used to it in a short time. But someone who kissed a girl using such a lipstick several hours after its application would definitely taste the flavoring, we're told.

Doesn't that sound yummy, guys? Won't it be fun smooching around until you can gorge on orange lips, or caramel? Personally we have no penchant for peppermint but then might those not turn out to be real hot lips. Cherry might be a bit too sophisticated for a young chick to be wearing, don't you think?

We foresee a return to favor of that old game "Spin the bottle." That will be an ideal opening gambit at a party, giving the boys a chance to shop around until they come up with their favorite flavor. You take it from there, kids; it's too heady conjecturing for a Rambling Reporter.

That's what we mean about being born decades too soon. In our day girls were being warned there were 40,000 germs in each kiss. Now they're being encouraged to flavor each caress.

It ain't fair. We still like caramels.

****

Then there's the golfer who has been drinking two at a time since his doctor told him a pair of glasses might improve his game.

****

AND NOW TO REST

If you bothered reading through that bit above you'll probably agree it's time your Rambling Reporter took a rest from his labors. Such stuff should come easily to a mind that's inclined to ramble, but there are times, like after an afternoon of golf, when the dogs are barking and even the mind has a mind to rest rather than ramble.

You'll be relieved, then, to know we're taking a week off from our labors and there'll be no paper published next week as we enjoy a staff holiday.

Your Rambling Reporter will be rambling to Toronto to take in the Canadian Weekly Newspapers convention. It's at the Royal York Hotel and we're more than a little shaken by Friday's fire in that giant hostelry. The timing was terrible. Can you see us rambling down bed sheets from the 14th floor?

We've decided to take along some fire-water, just in case it happens again.

"Be seein' ya," as Uncle Walt puts it.

Things 'n Stuff

By WALTER HENRY JACKSON

HAVE YOU HEARD THESE LATELY?

Some weeks ago a friend gave me a book supposed to contain five-hundred of the world's best jokes. Four hundred and ninety-seven of these I hadn't laughed at since I was in short pants. Here are the other three.

The village idiot was driving an ancient car along a country road when he overtook a pedestrian to whom he offered a lift. Every few minutes the driver would slow down, reach down to grab a handful of yellow powder in a tin box at his feet, and throw the handful of powder out of the left window. This strange action was repeated several times when the stranger asked: "What is that you keep throwing out of the window?" "That's yellow powder," replied the driver. "Yes, I can see that. But what's it for". "To keep wild lions and tigers from following the car." "But there are no lions and tigers in America." "I know that. And a mighty good thing, too. I'll tell you why. This yellow powder is no damn good!"

At a rural lodge meeting the chairman was much concerned

Stewart Campbell McCrimmon, Dies

A lifelong and highly respected resident of the McCrimmon area, Stewart Campbell died August 12 at his home following a lengthy period of failing health. He was 83.

Mr. Campbell was born on the family farm, lot 1-9th Kenyon, where he spent his entire lifetime. He was a son of John P. Campbell and his wife, Jessie Sturrock.

Of a retiring disposition he yet made many friends who regret his passing. Mr. Campbell served as a trustee and elder of Kirk Hill United Church and was active in McCrimmon Loyal Orange Lodge.

To mourn he leaves one sister, Miss Jean Campbell, who resided with him, and two brothers, Rev. Duncan Campbell, now at home, and Dr. William Campbell, of Hastings, Ont.

The largely attended funeral was held Friday afternoon from the McRae Funeral Home, Vankleek Hill, to Kirk Hill United Church and cemetery. Rev. John Hurst conducted the service, assisted by Rev. William McLean of St. Columba Church.

The pall bearers were: Donald Campbell, W. R. MacLeod, Albert Lasalle, William Fraser, John Campbell and Neil F. MacCrimmon.

Relatives and friends present from a distance included: Mr. and Mrs. John Campbell, Kingston; Mr. and Mrs. Lorne Fisher and Mr. and Mrs. Cecil Fisher, Joyceville, Ont; Miss Isabel Campbell, Miss Alice Campbell, Miss May MacLeod, Ottawa, and Dr. Janet Campbell, Hastings.

Couple Wed At St. Raphael's

FILION — POIRIER

St. Raphael's Church was the setting for the marriage of Miss Marie Claire Poirier, daughter of Mr. and Mrs. Rene Poirier, St. Raphaels, to Ronald Filion, Ottawa, son of Mr. and Mrs. Hilaire Filion, Cornwall.

Rev. M. J. O'Brien officiated at the ceremony. Rene Roy, Green Valley was soloist, accompanied by Willa McDonald at the organ.

The bride, escorted to the altar by her father, chose a straight-cut floor-length sleeveless gown of white satapeau, styled with an overlay of chantilly lace, and sequin appliques on the front of the skirt. The chantilly lace jacket had elbow-length sleeves, and the back of it formed a full-length scalloped train.

A crown of three white roses trimmed with seed pearls, held her shoulder-length veil of tulle illusion, and she carried a bouquet of lilies.

The bridesmaids were Miss Doris Poirier and Miss Marguerite Poirier, both of St. Raphaels.

Roy Filion, Cornwall, was best man, and ushering the guests were Marcel Filion, Cornwall, Laurin Filion, Hawkesbury, and Raymond Poirier, St. Raphaels.

Following the ceremony, a reception was held at the Green Valley Pavilion.

For a wedding trip to St. Anne de Beaupre and Quebec City, the bride travelled in a white silk ensemble, accented by black accessories and a corsage of red roses.

Mr. and Mrs. Filion will reside in Eastview.

Guests attended the wedding from Ottawa, Montreal, St. Hyacinthe and Perce, Que.

A miscellaneous shower given by friends, was held in St. Raphael's Hall, prior to the marriage.

Saturday Game To Decide The Soccer Tittle

Greenfield and McCrimmon meet Saturday night in the final game of the regular Glengarry League schedule. And this game will decide top spot on the loop ladder.

Last year's champs, Greenfield, won a big one last night, 5-3 over Glen Sandfield, and the two-pointer was enough to provide a one-point lead in league standings over second-place McCrimmon.

That set the stage for Saturday night's big, big one.

Picnic Surprise On Silver Date

FARM EXTENSIONS

Farm families in the Alexandria area might want to consider the usefulness and convenience of having extension telephones in buildings other than the house. After all, it makes sense to have a telephone where you spend a lot of working time! Take the barn, for example. You can make important business calls without leaving your work — planning schedules of livestock shipments, ordering feed, taking orders or enquiries, checking up on deliveries, etc. And since the telephone rings in the house as well as in the barn, no incoming calls are missed.

I suppose most people have come to think of extension telephones as belonging only inside the home itself. But actually they belong wherever they serve a need — and that includes in farm buildings.

ON STAYING IN SCHOOL

Some young people may shudder at the thought of it (and blame me for throwing cold water on what was up to now a pleasant holiday), but next year's school term is just around the corner. I certainly hope that as many Alexandria students as possible are intending to return to complete High School or technical school, because this is certainly the minimum requirement today in order to have any satisfactory control over what kind of jobs will be held over the next forty-plus years. And that can be a mighty long time to regret not staying in school a few more years! I hope that parents who grew up when times were different are aware of how much our society has changed and are properly determined that their children be as fully equipped as possible before tackling the working world.

NO CHARGE!

Your telephone is built to take it. Its only reason for being is to give you dependable, trouble-free service, year after year. But if anything should go wrong, we'll gladly fix it without extra charge. All you need to do is call the "repair service" number in the front of the phone book. Often, we can take care of the problem from the exchange. If necessary, we'll send someone out. But whatever the case, you'll never receive a bill for repairs. This is one of the values that goes with your service.

Use Royal Bank services to help you manage your money; to keep chequing, borrowing and other expenses down too. Building a nest-egg? . . . open a Royal SAVINGS ACCOUNT. For bill-paying? . . . a Royal PERSONAL CHEQUING ACCOUNT. Cash for a car or some other heavy expense? . . . a Royal TERMPLAN LOAN. For *all* your banking, your local "Royal" branch is the helpful place to go.

SPORTS in the GLENS

by ANGUS H. McDONELL

It is an interesting coincidence to note that the weatherman has cool winds blowing while the hockey school instructors are again whistle blowing.

In Kingston, old friend of the Glens, Bill L'Heureux, is chief instructor at the C.A.H.A. hockey clinic this week.

You will recall that the former Maxville high school teacher was the Doug Harvey of the Millionaires during the memorable days of their winning the Ottawa Valley Intermediate Citizen Shield. L'Heureux was promising enough to attract the pro scouts, however, he moved on to Ottawa Tech., and following a successful term took up residence in London, Ontario, where he joined the athletic staff of Western University.

Attending Bill L'Heureux's ice classes are two prominent young Alexandria athletes, Bernard Morris and Ronny Levert.

Indirectly there is a Glens' representative at a similar school being conducted in Sudbury — Ronald Cameron MacKinnon, son of Mr. and Mrs. Cameron MacKinnon, from Balmertown in the Red Lake area. Thus we have pretty solid hockey students, as both Bernard Morris and Ronny Levert have shown ability from their beginning as pee wees. Ronald MacKinnon, age 14, certainly shouldn't lack ruggedness. His father is a veteran miner, and his grandfather is Charley (Blacksmith) MacKinnon of Alexandria. When Charley had to put a horse in the rack to be shod, that horse was even tougher than Angelo Mosca and Howie Young combined.

There is another important hockey school underway in Hull. Montreal Canadiens and N.H.L. Clubs are sponsors. Among the instructors are Bobby Hull, Marcel Pronovost, and Gump Worsley. We understand a tuition fee is charged at this school, while the C.A.H.A. course is gratis.

Tony MacDonald, Green Valley, was one of the first to register early this week at the Hull arena. It is encouraging to minor hockey in general, and those who donate so much of their time in particular, that an athlete of Tony MacDonald's calibre is attending. Tony has been coaching, especially St. Raphael's minor teams, since he was 15, and also is a solid junior with Cameron MacDonald's young club.

Bernard Morris is slated to proceed to the Hull Arena school following his stint at the C.A.H.A. Kingston camp.

Maxville softball team won the first round in the Eastern Ontario "A" playoffs. Although Maxville are leading Apple Hill 2-1 at the time of writing in the League playoffs, in view of the fact Maxville finished in first place, winning the Duncan McDonell Memorial Shield, they have the right to represent the League in district playoffs.

Sunday's fixture was sudden death. In view of this single home game for Maxville, the visiting R.C.M.P. Club had last turn at bat.

At the top of the 9th the Mounties were leading 5-4. With a runner on base, Gilles Doth hit a homer that gave Maxville a 6-5 lead. Neil Scott was next at bat and he hit the first pitch for a circuit clout, adding another run.

Maxville made no mistakes in the final half of this inning to win 7-5, and earn the right to proceed in the next round of district playoffs. The date and opposing club will be announced later.

While on the softball trail, Lochiel Girls' Softball League is also in the playoff bracket. When McCrimmon lost to Vankleek Hill, it was their first defeat of the season. These two clubs are tied at one game each. Lochiel girls eliminated Dalkeith two straight, and are now awaiting the winner of the McCrimmon-Hill series.

The "Big" game of the year in the Glens' football is at hand. This Saturday night under the lights, 8:30, at Lochiel, McCrimmon and Greenfield meet in the schedule final. This game will decide the league championship and Glengarry Cup holder.

As we write, Greenfield is one point behind McCrimmon. On Wednesday night Glen Sandfield plays in Greenfield and the result will have a bearing on the Saturday final.

Should Greenfield win, they will then be in first place and a tie against McCrimmon Saturday night would be the clincher.

However, should Glen Sandfield win or tie in Wednesday's Greenfield tussle, then Greenfield must win over McCrimmon or settle for second place. In the event that Greenfield and McCrimmon complete the schedule tied in points, a sudden death game will decide the championship.

As we go to press (Thursday), McCrimmon is playing Lochiel in the Greenspon Challenge Trophy final.

Gillivray Mrs. Maurice Wilkins of Vankleek Hill and Mrs. Joanie Fulton were recent visitors with Mr. and Mrs. J. K. Munroe.

Mr. and Mrs. Azer Menard, of Ottawa, visited with Mr. and Mrs. Ovide Menard overnight last week.

Mr. and Mrs. Donald T. Hay, of Mille Isles, Que., were recent callers in Dalkeith with friends.

Mr. and Mrs. Neil A. MacLeod were in Cornwall Sunday, to see his sister Mrs. Hugh Dewar, very ill in Cornwall General Hospital.

Mrs. J. K. Munroe, Heather, and sons Allen and John returned home after a three-day visit with her sister, Mrs. M. Wilkins and family of the Vankleek Hill area.

about the falling off of membership. "One reason," he said, "Is the disgraceful state of the lodge hall. The windows are too dirty to see through, the furniture is covered with dust, the floor is littered with cigar and cigarette butts. Why, we haven't even got a cuspidor."

A timid little man at the back of the hall rose to his feet. "Mr. Chairman," he commented. "May I say a few words? I have been a member of this lodge for twenty years and have never held any kind of an office. How about electing me cuspidor ?"

A man just returned fom a fishing trip was describing his adventure with an angry bull that had chased him across a pasture.

"There was only one tree in the whole field," he said. "The nearest branch was fifteen feet from the ground. The bull was right behind me. I made a mighty leap for the branch, and luckily, I caught it."

"You mean to say you caught a branch fifteen feet from the ground ?" said his listener.

"You bet I did. I missed it going up, but I caught it coming down !"
