NEW FIRE HALL OPENED—Some 200 citizens, area municipal officials and representatives of fire departments visited Alexandria's new fire hall Sunday for the official opening and Open House held throughout the afternoon. Members of town council and the fire brigade played hosts and refreshments were served following an inspection of the building which contains lecture and recreation

rooms, kitchen, showers and other facilities. Opening ceremonies were on the informal side with Councillor Ronald MacDonald speaking briefly and Mayor J. P. Touchette cutting the ceremonial ribbon. Flanking him, above, are Councillor MacDonald, Deputy-Reeve Marcel Ranger, Reeve Bruno Massie and Fire Chief Gerald Charlebois. Members of the brigade take up the background.

Sections Designated Development Roads

Sections of two county roads in Glengarry have been designated as development roads, according to word received yesterday by Osie Villeneuve from Highways Minister Charles MacNaughton.

Part of County Road 22, the Greenfield road, from Highway 43 northward toward Greenfield, will be improved, as well as part of County Road 23, from the boundary of Lochiel and Lancaster Townships southward to the border of the Province of Quebec. The latter section is north of Dalhousie.

The Highways Minister notes this action was requested by United Counties Council and area officials will be contacted to enter into development road agreements.

Firemen's Medal For Chief Casey

Maxville's fire chief Merton Casey has been awarded the new long service medal recognizing at least 30 years of service as a regular or volunteer fire fighter. Mr. Casey began his association with fire brigades in his teens at Bedford, Que. He later served in Longueuil, Que., and after Navy duty during the war came to Maxville in 1946.

He was appointed fire chief in 1949 and has served in that capacity since.

Last winter the Maxville brigade held a Junior Fire Fighters Training Course for boys 16 and over. Another such will be given this winter, starting after Christmas. Chief Casey will be presented with his new medal Saturday night at the annual banquet of the Counties Mutual Aid Association in Cornwall.

Injured In Collision

A two car accident on Highway 401 near Lancaster Sunday night resulted in injuries to one passenger, Mary MacDonald 59, of Green Valley.

The accident occurred when a car driven by Morris Legue, 47, of Green Valley, pulled off the shoulder and was in collision with a car driven by Sigfried Neuhelmer, 26, of Toronto. Mrs. Neuhelmer, a passenger, was not injured.

Mrs. MacDonald passenger in the Legue car was taken to Cornwall General Hospital with a broken shoulder. She was treated and released. Damage to the Neuhelmer car was \$400. The Legue car received \$50 damage. Const. M. Cherecki investigated.

Alexandria's First Fire Brigade Was Organized Back In 1888

Fire Prevention Week and opening of the new fire hall prompt a flashback to fire protection in Alexandria's earlier days. The following notes were prepared by the late Clarence Ostrom from News files and have been furnished to us by Miss Ethel Ostrom:

Until the year 1888 the only fire protection Alexandria had was from an old time Bucket Brigade. Citizens kept a pail handy at all times in their homes. When an alarm was sounded someone in the house grabbed the bucket and sped to the fire. Once there, a line was formed to the nearest pump and while some people pumped continually, others filled their pails and carried them to the fire where the water was used in the best way possible.

In 1888 a second hand hand-pump along with 500 feet of hose was purchased. A volunteer fire brigade was formed with Magloire Daprato as fire chief. With the advent of waterworks in 1895-6 a new volunteer fire brigade was formed Jan. 25, 1896, with D. D. MacDougall as chief.

The village was divided into two parts, North of the Bridge and South of the Bridge. A captain was appointed for each part, A. D. MacDonald, known as Sandy Duncan Bhui (afterward first mayor of the Town of Alexandria) was first Captain North, and Alex Lalonde, tinsmith, first Captain South. Because the village council would not supply rubber boots and rubber coats, etc. for these volunteers, D. D. MacDougall resigned his position on April 22, 1896. There was much bickering back and forth but the village council refused to spend one cent. A public subscription was set going, but only \$79 was donated. Finally, some time between Sept. 1, and Sept. 5, 1896, another fire brigade was formed with James Mooney, owner of the grist mill, as chief. They had their first practice on Sept. 5th.

At the request of the council, Deputy-Chief Beckingham of Montreal came to Alexandria about Nov. 1 and spent five or six days in the village, instructing the brigade. His services were so valuable and so much appreciated that he was given a banquet at the Grand Union Hotel on the eve of his departure, Nov. 6, 1896. He

A fire which caused \$50,000 damage to Ron's Marina in Summerville, Sept. 20th was arson.

Fire inspectors said last week a boat partially removed from the building contained a part-full bottle of gasoline.

Almost 70 Per Cent Of Current Municipal Taxes In By Due Date

Close to 70 per cent of the current taxes due in Alexandria, on Sept. 15th were collected by that date, reports Town Clerk Don Collin. This represented a better showing than in most years.

Taxes this year were well over the half million mark, at \$552,491.13 and of this sum, \$346,656.49 had been paid by the deadline.

Also collected this year were arrears of taxes totalling \$103,711.04 covering 1970 and prior years.

Still payable in 1971 taxes is the sum of \$205,835.44 and there is a further \$93,098.99 owing in arrears from previous years. Of those arrears some \$52,000 is from the 1970 roll and \$29,000 from 1969. Arrears of prior years amount to less than \$12,000.

During September all owners in arrears were notified that they would be registered if arrangements for settlement were not made. Two properties are presently registered and four are now subject to registration with arrears of three years. The total amount due on properties registered is \$31,249.86. Properties that are registered can be taken over for taxes after one year.

Several businessmen who are in arrears of business tax have also been notified that if they fail to make arrangements taxes will be collected by seizure of chattels or rents where applicable.

Council's finance committee has authorized the Treasurer to take any drastic steps deemed necessary.

Fiddlers' Contest

Set For Saturday

This annual event sponsored by the Glengarry Historical Society, has a new name, "Fiddlers' Contest and Music Festival", but almost the same format as usual. The difference this year is the addition of the Junior Piping contest for the Glengarry championship of piping in the county, it is felt that this should be recognized, and this contest is limited to pipers of 16 or under, residents of Glengarry, or members of any piping school in Glengarry.

There is very little change in the other contests—the same Open Violin Classes, Scottish and Old Time, also the Junior and Intermediate classes.

There is also the Senior Piano class, and the Junior, 15 and under, and Senior and Junior Step dancing, with the same age limits. Step dancers, this year, are asked for Clog, Jig and Reel, which should add interest to this competition.

The program will end with a rousing display of music by the massed violins, and will be followed by a Collish at the Hub Hall, where the musicians will be able to display their talents more informally.

Lancaster Legion To Burn Mortgage

Plans for a special night on Oct. 15th at Lancaster Legion Branch will be completed at the regular monthly meeting being held tonight at 8.30 o'clock.

There will also be organization for the advance sale car poppies and wreaths as well as the blitz for lapel poppies to be held on Nov. 2nd.

IT'S OUR OPINION

No Place For A Handyman

October is the month the wise homeowner is readying his property for the onslaught of winter. There may be housecleaning called for, storm doors and windows to replace the screens of summer, shrubs and plants need protective coverings against the snow, the heating system should be checked.

Many things need doing around the home in late fall and not all householders have the time or the know-how to get them done.

In a day not too long gone, in a town like Alexandria, there was no problem. The handyman, that jack-of-all-trades and master of none, was always within call and could be depended on to fix what needed fixing, indoors or around the house. A window pane required replacing, a leaky faucet needed a new washer, the gutters had to be cleaned out. He was Johnny-on-the-spot and happy to oblige.

This is a different day. The odd jobs are there to be done but the handyman has disappeared from the scene. If there are men of that breed still among us perhaps they have been robbed of all initiative by a system of easily obtainable welfare that discourages work and probably would penalize the recipient who sought odd jobs to supplement his income.

Overly-generous governments have gone overboard on welfare and the mess they have made is most apparent in the small towns and rural municipalities where idleness, waste and extravagance can be more readily pinpointed. Municipal councils are demanding a new approach to welfare, one that would encourage employable indigents to earn at least part of their living. Charlottetown's Reeve Gadbois, is one of those advocating a provincial make-work plan that would subsidize municipal councils in a program of local improvement.

Well administered, such programs would have much to commend them. They could restore some sense of responsibility to men now forced to idleness by welfare policies. Make-work programs might not be required, though, for indigents still retaining a modicum of initiative and personal pride.

There is work in plenty awaiting a handyman who will seek it out; odd jobs clamoring to be done, not only in this fall season but all through the year.

Something is seriously wrong with a welfare program that has no place for the handyman whose services are so in demand.

Picking Our Pockets

The essential question, of course, is how much longer taxes can be raised faster than the country's ability to pay them. At some point, the law of diminishing returns begins to take effect notes an editorial in the Montreal Gazette. Indeed, in the relatively slow recovery from the recession induced in the name of inflation restraint suggests that point may have already been reached.

In the last five years, the net revenues of all governments have been increased by more than 75 per cent. Over the same period, the gross national product — a basic measure of the country's ability to create taxable resources — has increased by only 48 per cent. In the preceding five years, 1961 to 1966, government revenues increased by 73 per cent, the gross national product by 57 per cent.

It's not, then, a new development as every taxpayer knows. Nor have been the consequences. The rapid increase in spending by government, compounded by ex-

sive borrowing, has made its own massive contribution to the still strong inflationary pressures on the economy. Damage of a different sort is to be found in the continuing reduction in the savings available for investment, relative to need.

In fairness, it should be noted that federal revenues have risen at a relatively constant pace, by 48 per cent in the first five years and 47 per cent in the next five years ending this year. Provincial revenues, including transfer payments from the federal government, have more than doubled in each five-year period. Municipal revenues have increased by more than 70 per cent.

That distinction, however, becomes meaningless to the taxpayer who has only one pocket from which to make his tax payments. All that matters to him is that government is taking more from him at a faster rate than it is coming in and that's not a condition he is prepared to tolerate.

Fire Is So Final

The siren is sounding each noontime this week, a chilling reminder that this is Fire Prevention Week across Canada. The siren's moan is also meant to remind each one of us that winter is ahead and we should be taking steps now to have heating systems checked in the interests of giving fire no place to start.

The best time to fight a fire is before it starts and heating systems are a major cause of late winter fires. It is also housecleaning time and the clearing out of accumulated litter is an important facet of fire prevention, too.

Fire is so final, the slogan for this week's Fire Prevention campaign reflects the feeling of dismay that must have been known

by some 65,000 Canadian families hit by fire last year. The estimated dollar cost was \$203,000,000 and 636 people perished in these blazes.

Alexandria has been fortunately free of major fires so far this year but members of the local brigade have been called out frequently and there have been some heavy losses in area villages and in farm fires.

We are on the eve of a long winter which will have its own special fire hazards. During this Fire Prevention Week all of us should be fire safety conscious, imbued with the determination that through the months of winter ahead we won't give fire a place to start.

Gilded Dust

Some time ago the United Church of Canada went on record as being in favor of simple funerals: "In life a person's worth is not measured by the abundance of the things he possesses. In death his worth is not to be calculated by the extravagance of his funeral or the elegance of his tombstone."

From a statement of general principle, its pamphlet turned to specific advice: "Christian burials ought to be as simple as possible. Excessive expenditures on elaborate caskets, vaults and head stones are to be deplored. People should be on guard against being moved to commit themselves to such expenditures in a time of emotional stress."

One Unitarian minister who addressed himself to the same topic employed blunter phrasing. He denounced current practices as "a tarradiddle of Cadillac coffins and cosmetic corpses". Now this kind of assault is one of the things that makes life difficult for the average funeral director, who finds himself portrayed as a profiteering villain, exploiting the distraction of the bereaved by talking them into needless expense.

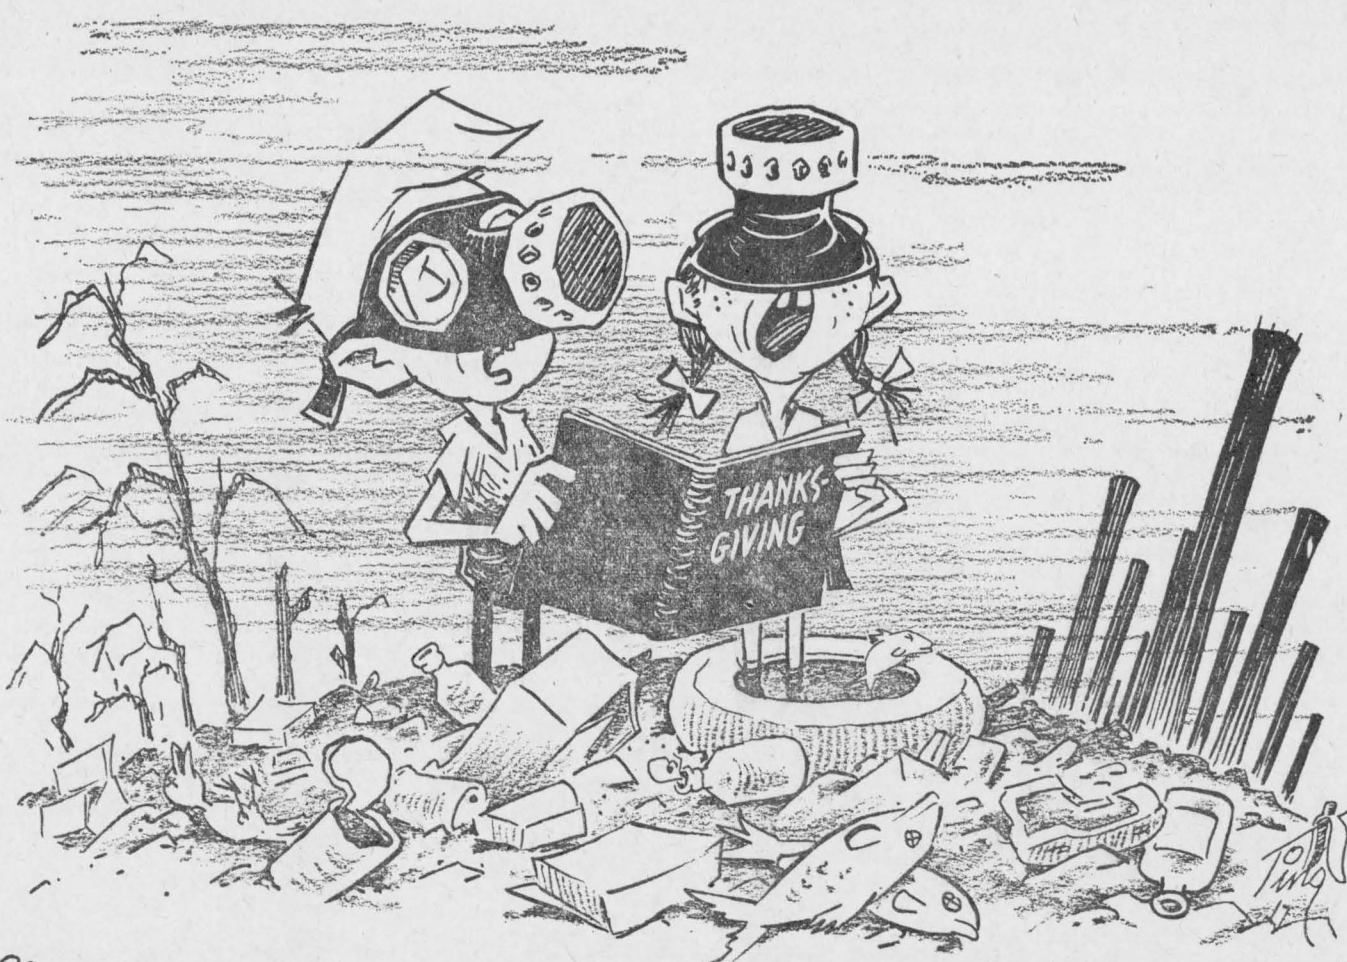

Some of them, of course, have helped bring this wrath on the heads of their colleagues by behaving in the very way that gives rise to resentment, suggests an editorial in the Smiths Falls Record-News.

Have things changed? Well, we would have to say that on the strength of reports from the two-day convention of the Corporation of Funeral Directors and Embalmers of Quebec, the beguiling of the customer is still fairly prominent. The displays make "a blaze of color" and the coffins on show are copper-colored, violet, silver, lilac, forest green, pink, mustard yellow and brown.

There is bound to be speculation about the pot of gold at the end of this rainbow, and it will not be deterred by the proud claim of the corporation's publicity chairman, Andre Lemay, that "we have brought about a certain revolution in taste and made the lugubrious side more abstract". The time has come to make the abstract side less expensive.

Mr. Lemay came to the heart of the matter when he waved a hand and said: "All this is not for the dear departed. Everything that is done is for those who remain and not those who depart."

This does not clear up the mystery altogether, but it should help some people set aside the idea that a fancy casket bestows some advantage on the "dear departed". This leaves the bereaved with the simpler proposition of satisfying their own sentiments, which may amount to little more than keeping up with the Joneses. Or, in this case going down with the Joneses.

Fresh - Not Milk!

(The Ridgetown Dominion)

What have they been doing with the milk recently? It would be worth risking the dangers of whatever you risk by drinking fresh unpasteurized, un-added-to milk, just to get a drink of fresh milk. The few lucky people who can remember drinking milk still warm as it came from the cow, can appreciate our distaste at the present milk supply.

Now that milk is not delivered every day, more and more people are buying milk with their groceries from the store. Last week many local purchasers found that the milk was sour, probably before even leaving the store, sour, thick and nasty!

We began wondering just how old that milk was. From the time it came from the farm, was shipped to the processing plant, was processed, packaged, shipped to the stores, and then purchased and carried home. It is quite possible that the milk is a week old before we try to drink it.

Progress is wonderful, but its treatment of food has removed all the natural goodness, which seemed to make up for the natural germs, and put in all sorts of additives and things that are supposed to be good for us, and made the whole thing unpalatable.

If it weren't for the local by-laws, we'd buy ourself a cow.

WITH OUR RAMBLING REPORTER

by Ed.

ONE IN FOUR WON'T VOTE

Much of our time over the weekend was spent in proofreading the lists of voters for the approaching election. Lest our abilities in proofreading be called into question when a voter looks up his or her name on the lists and finds it has been misspelled, we feel impelled to warn that these sins of commission are not the fault of the printers.

Our job is to print the names of voters just as they are supplied by the Returning Officer and that is rather surprising when one considers the short time in which they had to cover their polls and prepare the alphabetical list of voters. We doubt many persons have been missed and only a few of the enumerators evidence any marked unfamiliarity with the correct spelling of names.

Such errors in the lists won't prevent the voter from casting a ballot on Oct. 21st and any qualified voter whose name is missing can have the omission rectified before the Returning Officer revises the final lists. Within the time allowed, everything possible is done to come up with a complete list of the voters and we doubt many are missing, if only because of the fact enumerators are paid by the name. As our tired eyes persisted in proofreading those thousands of names of riding voters it was dismaying to reflect that probably one of every four won't bother to cast a ballot on the 21st. In the last provincial election, in 1967, only 75 per cent of the qualified voters went to the polls in this riding. And that's considered a big turnout in comparison with other Ontario ridings where almost half the voters don't even show.

In some big city ridings it's estimated at least 15 per cent of the people don't even know there's an election pending; and they couldn't care less who's running. Another 10 per cent won't bother voting and then there's the deadwood that waits to be cajoled by the party organizers. The least of their demands can be a baby sitter and a ride to and from the polling place. That type of voter is not unknown in Glengarry.

Government by the people might have more meaning in our so-called democracy if we the people developed a more responsible approach to the polling booths.

We might be closer to government by the people if politicians were less addicted to government by the people.

ONLY SO MUCH SPACE

The editor of this newspaper got his ears pinned back for the umpteenth time last week. A picture sent in for publication went back in August had not been used and the sender was not lacking in verbiage in expressing his disgust and distemper. Small and biased and narrow-minded were some of the invective hurled ye editor's way and he'll accept only the first.

His paper is small and hasn't space to use all the pictures that come our way. It may be true that some pictures are worth a thousand words, but many have only limited appeal and it is the editor's policy to use those he feels have the widest interest for News readers. Even then, some have to be discarded because of lack of space.

Contributions of news or pictures from readers are appreciated but the editor must reserve the decision on whether they are sufficiently readable to find a place in his paper.

Parking control by fire marking might be the answer if the fire markers don't tire.

NOT WHAT THEY USED TO BE?

Give your careful scrutiny to this little gem of a quotation, suggests M.E.D. in the Prescott Journal. Without looking at the answer at the bottom, jot down your educated guess as to the author and the year in which it was spoken or written: "A youth approached me; he was bearded; his clothes were dirty; he was the typical new

MEMBERS ATTENDED CWL
CONVENTION

Several members of the Max-

ville CWL attended the diocesan convention in Cornwall on Tuesday. Father O'Brien, diocesan director, opened the meeting with the League Prayer. The president, Mrs. McGillis, read her report from the provincial convention. It was a very interesting report.

The past president, Mrs. Dorothy Donihue, reported on the national convention held in Regina, Sask. She reported that women must have hope for the future and continue their good work in their communities.

Thank you notes from the Villeneuve family were acknowledged. Groups were formed to discuss various topics of business. All joined together for closing of the meeting. It was closed by a short talk by Father O'Brien concerning a day of recollection for the members. He thanked the ladies for such co-operation and ended with a prayer. After the meeting a light lunch and tea was served.

SAW COLLECTION OF
PAINTINGS, CERAMICS

Members and friends of the Maxville Manor Auxiliary have from time to time enjoyed displays of local handicraft work which have added much interest and information to their regular meetings. Amongst these have been Arts and Crafts by the Dutch Club, Ceramics by Mrs. Kay Fjarlie, hand-made dolls by Mrs. George Matsell, paintings by Mrs. A. Gaudet, handicrafts by the Sandringham Social Club and the antiques loaned by many members for the annual tea and show.

At their September meeting they were privileged to have a large and interesting exhibition of oil paintings and ceramic figurines by Miss Christena Ferguson of Dunvegan. This is a fine collection, made up almost entirely of local scenes and landmarks, especially of district churches, some of which have already disappeared. The paintings will provide a valuable record of historical interest in years to come. The figurines were delightful, made of local clay, molded and printed in charming detail.

Anyone fortunate enough to purchase one of the group so generously donated by Miss Ferguson took home a treasure to enjoy for years to come. The Auxiliary sincerely appreciates the time and effort contributed by these many benefactors.

WAS SECRETARY TO FIVE
PRINCIPALS

Mrs. Harold Willis was honored Wednesday afternoon by the teaching staff and student council in the library of the Maxville High School. Mrs. Willis retired at the end of August, having been Principal's Secretary to five Principals during the past 14 years at Maxville High School.

She was presented with a number of gifts including a cultured pearl necklace from the teaching staff and a clock radio from the student council. Mr. Gauley, Principal, on behalf of all present, wished Mrs. Willis a happy retirement. Former teachers and principals also attended to offer best wishes.

A delicious lunch was prepared by the home economics department and served by the students. Mrs. Willis expressed her thanks.

SENIORS PLAN MEETING

Members of Maxville's Young at Heart Club are looking forward to their next meeting on Wednesday, October 13th. This evening will take the form of a Thanksgiving social.

David MacKillican will be on stage to perform. David will not only sing and give favorite selections on pipes and piano, but will play accompaniment for an audience sing song.

From past programs one has learned that Maxville seniors excel at this group singing, so the evening should be a memorable one.

Members are urged to bring their friends, and all citizens 50 years, and over, are very welcome. Wednesday, October 13th, 7:30 p.m., Maxville Community Hall.

DISTRICT HORTICULTURISTS
MET AT MAXVILLE

Old Sol smiled on the district horticulturists on Saturday, September 25th, the day of their District Annual.

Maxville Horticultural Society was host, and the event was held in the Maxville Community Hall. The meeting was well attended with a good representation from each society of Vankleek Hill, Morrisburg, Roxborough, Russell, Martintown and of course, Maxville.

George Matsell, president of the Maxville Horticultural Society, welcomed members and visitors, then turned the meeting over to Gordon Thom, district director of No. 1 District.

Mr. Thom, from Morrisburg, had provided a splendid program which met with great enthusiasm from all present.

Mrs. R. Stevens, district director of No. 4 District, spoke fluently on the necessity for, and prob-

lems of, public relations.

Lee Ouderkerk of Morrisburg, gave a detailed and fascinating talk on dried flower arrangements and pictures. Mr. Ouderkerk answered many questions fully and freely, and must surely have gained many converts to the dried flower cult.

Later in the program, Miss Bain, president of the Morrisburg Horticultural Society, enlarged on this subject. Miss Bain not only uses dried flowers, but "contrived flowers". Her corsage of watermelon seeds and florists' tape has to be seen to be believed. With her imagination and a keen eye for shape and color, her arrangements and "bits and pieces" are truly unique.

Mrs. Gordon Thom, of Morrisburg, showed an interested audience slides from a recent trip to the British Isles.

The Vankleek Hill Horticultural Society was awarded the cup for the year's best report of progress, with Martintown the runner-up. Lunch was served by the Maxville hosts, under the convensership of Mrs. Hugh Smith.

At the conclusion of the meeting, Mrs. Avery, of Vankleek Hill, on behalf of all present, thanked Mrs. Hughes for a wonderful lunch.

Thanks should also go to George Matsell, president, and Mrs. Roger Guindon, secretary-treasurer, of the Maxville Society, and the many others who worked so hard and diligently to make this day a success, including the Maxville juniors, who fetched and carried tirelessly.

Gordon Thom was once again elected district director for the coming year.

Federation Notes

"It's amazing what dogged persistence will eventually achieve" said Gordon Hill, president of the Ontario Federation of Agriculture when he heard that Transport Minister Charles McNaughton had announced the establishment of a Farm Truck Licence Fee Schedule to be effective for 1972.

"The government is to be complimented for implementing the recommendations of the Ontario Federation of Agriculture as presented to the Minister after detailed negotiations with Motor Vehicle Branch officials."

"The fee schedule is not as low as recommended but it is a major step and is most beneficial at the higher weights which will become more necessary for farm production in the future" said Hill.

"It's taken 34 years of Federation pressure to achieve this for farmers. I hope they appreciate our efforts" was Hill's final comment.

The new license schedule for farm trucks will apply to those farmers who are eligible for rebates under the Farm Tax Reduction program.

Under the new schedule, licenses for trucks of 5000 pounds gross weight and under will still cost \$30. For trucks of 8000 pounds gross weight, the license fee comes down from \$61 to \$41. For trucks of 20,000 pounds gross weight the license fee comes down from \$195 to \$75 and so through the complete weight range now in effect for commercial truck licenses.

cynic of the sort I deplore. These vagabonds and idlers, though they have no interest in philosophy, deliberately imitate the cynics in such externals as not cutting their hair or beards and begging. But where the original cynics despised wealth, sought virtue, questioned all things, in order to find what was true, these imitators mock all things, including the truth, using the mask of philosophy to disguise license and irresponsibility. Nowadays, any young man who does not choose to study or work grows a beard, insults the gods and calls himself a cynic."

Okay. Now you can look. If you have it credited to the Emperor Julian, and dated it in the year 4, B.C., you are correct! Who says young people are not what they used to be?

All Glengarry Football Play-Off Possible With Maxville Out In Front

As the Glengarry-Prescott High School Football Schedule hits the half way mark, Coach Don Bond's students from the Indian Lands have led Maxville into first place having won all three games to date and their "must" game to stay there is to win against Plantagenet this Friday afternoon, 2:30, at home.

Alexandria's GDHS are right next with two wins although losing the opener to Maxville, which means four points in the credit column.

Plantagenet could be the spoiler this year as they are tied with Vankleek Hill. Each has won one but VCI holds a game in hand over all teams; at time of writing this could be a factor in the final standing.

Hawkesbury, in contrast to last year, have yet to come up with a win; thus the Hawks are in last place and just about out of the running.

After handing GDHS a sudden 12-0 jolt in the league opener, Maxville went on to defeat VCI 8-6 in their second game.

Last Friday Maxville travelled to Hawkesbury and scored an im-

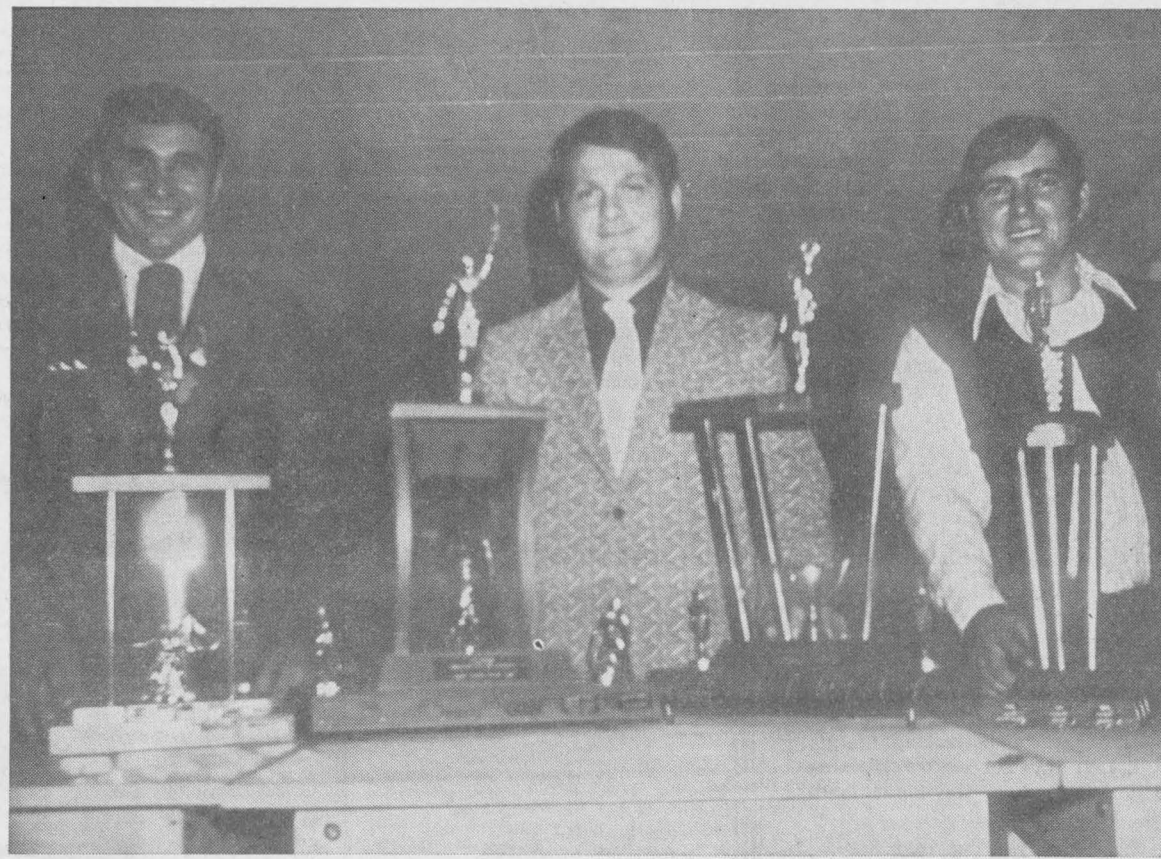

pressive third straight victory toppling the Hawks 20-12.

After receiving the kickoff Maxville's quarterback, Garry MacIntosh, moved his offence smartly and on the fourth sequence call MacIntosh fired a pass to Dale Munro who scampered the remaining 50 yards for a major six. The convert was wide but on the next turnover Maxville's Marcel Dupuis bulled his way for another TD that was converted by Richard Scott and they led 13-0.

Before half time Marcel Dupuis again came through with a touchdown and Richard Scott made no mistake in splitting the uprights and now the Indian Lands' lads were ahead 20-0.

In the third stanza the Hawks hit back with two unconverted TDs, but failed to add any further points. In fact the Maxville defence stood so well that with the minute flag up Maxville were on the Hawkesbury two yard line poised for another major when the gun sounded to end the game.

We find that GDHS recovered from their stunning first game 12-0 defeat by the much smaller Maxville school to dig in and top

Mrs. J. J. Lynch Died Ogdensburg

Plantagenet 14-8 in their first of home and home games. Last Friday in the second round, here in Ourtown, GDHS again handled Plantagenet 7-1. This was a hockey score throughout. Early in the game the visitors from the banks of Highway 17, scored a single on a wide field goal try.

Then both teams dogged the chalk trails up and down the local gridiron until the fading minutes without further scoring.

As the timer was unfolding the final minute flag Plantagenet were trying to get out of the shadows of their own goal posts. In a try for yards Wallie MacDonell of GDHS hit the Plantagenet ball carrier a rib bending tackle that jarred the ball loose and Wallie was right there to recover the fumble for GDHS.

The first offence try was to Clifford McNaughton who bulldozed his way to the Plantagenet two-yard line. Then, one of last year's junior GDHS stars, Alan Laframboise, shot out of the full-back slot into pay dirt with a six point tally.

J. T. Hay laced a side wheel soccer-style, Ivan MacMillan belt to score the convert and give GDHS a last minute 7-1 win and second place in the school league standing.

From a Glen's view tomorrow's (Friday) games in Maxville and Vankleek Hill will just about decide as to whether or not we can look forward to an all Glengarry final championship game. If Maxville scores a win over Plantagenet in Maxville then the pennant could fly from the Indian Land's mast. By the same token should Stan Fraser and Jean Yves Jeaurond get their GDHS squad really up for the trip to VCI (and we mean football trip—nothing, else) then Maxville and Alexandria will have a very important game in Maxville October 29th.

This is all speculation and anything can happen on a football field and usually does to quote that dean of gridiron writers "Ted" (Tor-Tely) Reeve but its great to speculate and more rewarding, in a sense, than the stock market. We should know as that has been this scribe's pastime ever since Ourtown's Jim McCaffrey moved his fighting "Irish" from Sandy Hill into Rought Riders' camp at Lansdowne Park in 1923, just 48 years ago.

Keep an eye on at least a couple of young blooming football stars . . . J. T. Rain Hit Field Day

For the first time in 12 years the field day at GDHS was rained out yesterday. Some races had been run off in the morning under light rain but a heavier fall led to postponing of other events until next Tuesday.

Turkey Shoot Enjoyed

Some 20 turkeys were won in Sunday's shoot conducted by the Alexandria Rod & Gun Club. A full afternoon program included 14 relays of 10 and a special ladies' relay.

A feature saw five Deceur brothers from Glen Robertson participating.

Only 8 Electrical Storms This Year

The month just past was warmer than normal by some two degrees. Rainfall was about normal at 3.28". The high temperature was 83° on three occasions, the 3rd, 4th and 8th. The temperature rose to 80° or over on five days and 70° or over on 17 days. The low was 34° on the 27th. Rain fell on 11 occasions with one thunder storm, notes the Dalhousie Mills weather observer, George Hambleton.

September of 1970 was quite different than the month just past. The high was the same at 83° and low was 33°, but 4.28" of rain fell, with thunderstorms occurring five times. The average temperatures were 4° lower than this year.

Only eight thunderstorms occurred so far this year and at this date last year the count was 21.

The Haramis brothers, Nick and Mike, along with Donnie Morris are under the scrutiny of Loyola's coach Draper and believe me this is no easy canter as more than one aspiring student has found out in the past.

That should be a real battle in the Autostade next Sunday when the Als are due to upset Argos . . . Public School Enrolment Shows Drop Of 253

Unofficial enrolment figures in United Counties public schools show enrolment down in the four areas under the board's jurisdiction.

Total enrolment figures, pre-

sented to the United Counties Board last week, show 253 fewer students in public schools of the three counties.

The biggest drop, said Area 3 superintendent John Comptois, was at Vincent Massey School, which reported a loss of 52 pupils from the 1970 school year.

Total enrolment as of Sept. 8, was 8,683 for 1971, down from last year's figure of 8,916 pupils.

The board is studying the casual decline of enrolment in the public

schools, said Mr. Comptois. "Indications are that we will find that families have moved out of the area, causing the drop in enrolment," he said.

Cornwall has a reported enrolment of 1,312, down 111 pupils from last year's enrolment of 1,423, stated the report.

The tentative enrolment figures show Cornwall schools taking the deepest plunge in student numbers.

Business administrator Ron Dauncey promised more detailed information for the board after Sept. 30.

"The loss in pupils will certainly affect the grants given to the board by the department of education," said Mr. Dauncey.

He estimated that grants may be cut in the range of \$40,000 to \$50,000 as a result of the drop in enrolment. "That is only an estimate," he said, "and is subject to further information on enrolment."

Mrs. G. Orange Died At London

The former Catherine Jane McDonald of Alexandria, Mrs. G. V. S. Orange died suddenly, Sept. 19, in St. Joseph's Hospital, London, Ont. She was in her 87th year.

The daughter of Dan Kenneth McDonald and Mary Jane Kennedy Mrs. Orange was born in Alexandria. She attended elementary and high schools here.

She was predeceased by her husband, Gilbert Orange and had resided with her daughter, Gladys, for the past 17 years in London.

She is survived by two sons: Stewart and Ronald William of Burlington; three daughters, Mrs. Dan Ross (Kathleen), Mrs. Robert Johnson (Gladys) of London and Mrs. Jim Hutchings (Joyce) of Ottawa. Also surviving are 16 grandchildren and 1 great grand-son.

The funeral was held from Morris Funeral Home, on Sept. 22, to St. Finnan's Cathedral. The service was conducted by Msgr. Donald A. Kerr of Cornwall and interment was in the parish cemetery.

possible and trustworthy people."

The Martintown facilities would be used for basketball and badminton in the evenings, and cleaned by the young people before they leave, said Mr. McLeod.

The board approved the request on the stipulation that facilities be left in the same condition as they are found and that any costs of maintenance as a result of the after-hours use be borne by the young people.

School To Be Used After Hours

A request by Martintown young men and women to use the public school facilities in Martintown after hours, is the type of request United Counties Board Chairman Gerald Gauthier likes to be faced with.

"It is unfortunate more young people do not make this kind of request of us," said Mr. Gauthier. "Instead of schools stagnating after school hours, they could be used for recreational purposes."

Trustee Sam McLeod made the request on behalf of Martintown youth, described by him as "res-

Important message to Ontario residents aged 65 and over

On January 1, 1972, hospital and medical insurance premium payments will be abolished for all residents of Ontario 65 years of age and over. This is in keeping with recently announced Ontario Government policy.

This policy will apply to the age of the certificate holder and will include coverage for eligible dependents. Premium-free coverage becomes effective on the first of the month during which a resident becomes 65.

HOW IT WILL WORK

Under the new plan combined coverage will be continued under the resident's present Ontario Hospital Insurance number. The OHSIP billing system will be discontinued. All residents 65 or over who remit Ontario Hospital Insurance premiums on a pay-direct basis will be requested to complete a premium exemption application.

As the insurance records do not identify those who will be eligible for premium-free coverage, the application, when received, should be completed by those 65 and over and returned as soon as possible in the envelope which will be provided.

If you qualify and have already paid premiums to cover benefits for January 1, 1972, a refund will be made for the over-payment.

Unfortunately, until exemption applications are processed we cannot avoid routine mailing of normal premium notices. However, residents 65 or over should not be concerned. If the notice applies entirely to coverage in 1972, please hold it until the application for free coverage is received.

IF YOU PAY YOUR PREMIUMS THROUGH A GROUP

Persons enrolled in groups will be reported to us by the group and transferred to our "Premium Exemption" file.

Groups will be fully informed about this in the near future

Hon. A. B. R. Lawrence, Q.C., Minister of Health

Action speaks louder than words.

Nobody's saying that words aren't important.

Dialogue is, after all, pretty central to our notion of democracy. People talk to other people, and listen to other people talk about the changes that could or should happen to our society.

But there's something else that's pretty central to our notion of democracy, and that's leadership. One person must act when all has been said. One person must speak for us. One person must listen, and very carefully, when there are difficult decisions to be made.

Bill Davis is not new to the challenge of leadership. During his seven months as Premier, he has acted to stimulate our economy, to create opportunities for Canadians and for Canadian enterprise. He has acted on a

wide front to clean up our environment—air, land and water. He has acted to expand and up-grade a variety of government services, from day care centres to free medicare for those 65 and over. In all, more than 130 pieces of legislation have been introduced, debated, and made law in those seven short months.

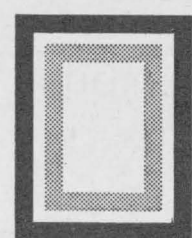

In the course of the present election campaign, Bill Davis continues to listen and speak out, but his promises are few. Our economy can ill afford the tax increases to which others have freely committed themselves.

We may be sure that when action is called for, he will be both wise and decisive.

In what he has already done is the true promise of what is to come from the leadership of Bill Davis.

Inserted by the Ontario Progressive Conservative Association.

Davis is doing things...for people.

He listens, he understands, he acts.
